Warden Thos. Mott Osborne who has been reinstated at Sing Sing prison, was given a great reception when he returned to his duties. The prisoners, whom he had tried so successfully to reform, formed a procession and escorted him and Warden Geo. W. Kirchway to a stand where he and Warden Kirchway addressed them.

Mr. Kirchway indorsed Warden Osborne's methods of reform and his efforts to make good citizens of the inmates rather than hardened criminals. In doing this the warden has had to fight the ring, who were fattening on the old prison system and probably some of whom are no better than some of the wards of the warden.

Warden Osborne is demonstrating that the prisoners can be made schools of reform with greater benefit to society than as schools for the development of crime.

OH! MY BACK!
The Expression of Many a Kidney Sufferer.

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys — relieve aching backs. Here's convincing proof of merit.

Stewart Atherton carpenter, 41 Railroad St., Canisteo, N. Y., says: "I had lameness and pain in the small of my back and it hurts me to stoop or lift. My kidneys acted too frequently and the kidney secretions were unnatural. Doan's Kidney Pills brought me relief and I haven't needed a kidney medicine since."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills — the same that Mr. Atherton had. Foster-Milburn Co., Props., Buffalo, N. Y.

Hear This Trumpeter at Chautauqua

EDNA WHITE, Trumpet Soloist.

SHE heads her own company, the Edna White Trumpeters, the closing musical number of the five day Chautauqua program. There are four of them, and they played to thousands in the Court of the Universe at the Panama-Pacific Exposition last summer and were the feature musical attraction on Manufacturers' Day at the exposition. In Montreal, Canada, they played before an audience of 10,000 a year ago.

Wouldn't you like to hear them play? A season ticket will make the cost only a few cents. It will be the grand climax of the five days' program.

Hear Judge Estelle on the Saving of the Children

JUDGE LEE S. ESTELLE, FAMOUS JUVENILE COURT JUDGE AND CHAUTAUQUA LECTURER.

THE Juvenile Courts have saved thousands of boys and girls from lives of crime. Until they were established children were herded into the "bull pens" of criminal court buildings with hardened criminals and thrown into intimate association with men and women with the worst records of crime.

In Omaha, Neb., Judge Estelle founded a Child Saving Station, as it might be called, for he established a special court for boy and girl offenders, and the work he has done has been a model for all the nation.

He will speak at the Chautauqua on the third day and will tell of the work he has done in this juvenile court. He is a man of ripe experience, and his lecture "The Law, the Lass and the Lad" is full of interest.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints, because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and uphold your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

DISEASE THREATENS WHITE PINE

The Fungus Was Imported From Europe With Nursery Stock.

A comparatively new disease has gained a foothold in New York and adjoining states. Investigators point out that all persons who have white pine trees, or pine trees closely related to it, should acquaint themselves with the disease and with the methods for controlling it. All the pine trees which bear their needles in bundles of five are susceptible to the disease. They are important thruout the United States both as ornamental and timber trees. The United States department of agriculture is co-operating with various institutions in New York State in studying the present distribution of the disease.

It is recommended that every one interested should write to the United States department of agriculture at Washington for Farmers' Bulletin 742, which treats of the blister rust.

You ought to give a want ad a fair chance to find a buyer for those lots.
