THE ANDOVER NEWS.

HAMILTON C. MORRIS, - EDITOR

ANDOVER, N. Y., MARCH 11, 1891.

~~Come, but do not forget the Fifty-first Congress.~~

If the World's Fair is to be the success it ought to be, more work and less quarreling must be done.

Many of the ex-Congressmen, whose salaries have stopped, are doubtless envious of the professional base ballist, whose salary is just beginning.

The big type founders have formed a trust. It will now be in order for the newspapers and publishing houses to do likewise. "What is sauce for the goose, &c."

The New York saloon keeper who directed the cremation of his remains and the scattering of the ashes from the top of the statue of liberty doubtless intended to destroy his future identity.

Pool selling on horse racing is to be made unlawful in France. This is in striking contrast with the action of our Congress, which has passed a bill legalizing pool selling on the race track in the District of Columbia.

England shouldn't worry, Uncle Sam has no idea of eloping with Miss Canada, but if that young lady leaves the parental roof of her own free will and accord she isn't likely to be insulted for lack of protection.

The word "Czar," which has been kept standing in large quantities in every well-regulated democratic news paper office, can now be distributed as the "Czar" is no longer "Czar," but only plain Representative Reed.

Oh, those everlasting letters. Now it is the governor of New York and the governor of Connecticut. We would suggest that the two gentlemen follow the examples set by the famous rulers of the two Carolinas.

The criminals of Connecticut will not shed any tears over the dispute between the governor of that State and Governor Hill of New York. An old adage may now be paraphrased to read: When governors fall out thieves go free.

Ex-Senator Blair goes to China as United States minister. We give the Chinese fair warning that Mr. Blair is a very estimiable gentleman, except when speaking on universal education, when he becomes—well, call it tiresome.

A newspaper writer says the Chinese Highbinder's mission is to get as much as possible for nothing; to obtain it peacably if possible, but to obtain it anyhow. Such also is the apparent mission of a good many people, who do not belong to the kill-you-for-a-nickle Chinese society.

Ground will be broken April 27 for the erection of the Grant monument at New York. The monument will be completed when money enough shall have been raised to pay for it, and that will be—the Lord knows when. No wonder Gen. Sherman said: "Don't pass the hat for me."

An oversmart detective has discovered that all male criminals are tatooed with India ink. Inasmuch as it would be difficult to find a city-born man, between twenty and forty years of age, without a bit of this tatooing somewhere on his person, this detective will hardly take rank with the celebrated discoverers of the age.

The Queen of England has had her nerves considerably upset of late; she quarreled with her son, and waiting-to-be-successor, in public, and she was frightened to death lest the mercurial Frenchman would treat her beloved daughter, the thoughtless Empress of Germany, as they once did an erstwhile queen of their own. Happily the trouble is for the time over, but between the cares of state, economizing and her children, her Majesty knows the truth of the saying: "Uneasy lies the head that wears a crown."

Mr. C. P. Huntington is bitterly opposed to the foreclosing of the government's mortgages on the Pacific railroads, and the same gentleman is strongly in favor of granting to these companies all the time they ask for, to make payment of the money they owe the United States. There is nothing strange about this, in view of the fact that Mr. Huntington is the owner of several millions of dollars made out of the Pacific railroad, of which he is president, and the prospective owner of much more to be made in the same way, if Uncle Sam can only be persuaded to keep his hands off. The strange thing is, that the people, who have to either take up their mortgages or give up their property, should allow this favorism toward these railroads to go on year after year.

Letter From Florida.

S. A. Swain, of Starke, Fla., son of John Swain of this place, has written a letter to the Hornellsville *Times*, from which we take the following extracts.

EDITOR TIMES: Perhaps it will be well for me at this time to say to friends in Hornellsville that we are not wading in snow up to our knees, neither have we been. It is hard for us to realize that snow has been two and three feet deep in old Steuben, when we have not seen a flake this winter only as we have picked it off the grass some frosty morning. We have had quite a number of these. People who have lived here many years say that this has been the coldest winter they ever saw. This has been a steady cold winter, (about six weeks long.) The coldest morning was 25 degrees above zero. "Enough to make one shake his boots off." Many thought that they would freeze to death, and at times they do suffer with the cold, as they are not prepared for such weather. Their houses are open, (no windows) not as warm as many men north keep their barns. Only a few have stoves, so that when they want to get warm they go out doors and build a fire, stand in the smoke and talk the matter over. They rub their ears and ring their noses as though the mercury was down to zero. But to one who has been through thirty or thirty-five northern winters it is like nice September weather.

The mercury on New Year's day was up among the nineties, which made it seem very little like the first of January. While you and your friends were gathered about the fire trying to keep yourselves warm, we were whipping and thrashing the same to keep from burning us from house and home. So it ever is as in Hafords, what is food for one is deadly poison for another.

The fires in the woods here are the great curse of the country. Not a thing is allowed to decay on the land to give it strength, if the cattle men can help it, and yet their cattle are starving to death by the score. If I had as many as have died within two miles of me since I came here I would have a 'right smart bunch.' During January and February it is fire to the right and fire to the left, and a man has to keep his eyes open and a little pine brush cut, or he will come to himself some fine day and find his house gone and himself a wandering Republican.

This is a great place for flowers. Roses, peach trees and orange trees are now in bloom.

Farmers are now putting in their crops. Planted corn the 14th of February, and sweet potatoes in the full of the moon. I got a little the start of them by planting some on the 17th, in a pile of sand. S. A. SWAIN.

Miss Archie M. Eaton of Alfred Centre, N. Y., a teacher in elocution, dramatic action and delsarto, will be in Andover on Friday, March 13, where she will give a recital at the school house at 3 p. m. Miss Eaton will give lessons in Andover one or two days during each week. She is a pupil of Miss C. E. Stillman, a graduate of the Conservatory of Music at Boston.

Steps ought to be taken to give Andover something in the way of protection from fire, and at the same time lower insurance rates. If $50,000 were raised here to-day towards starting a manufacturing enterprise, it would be next to an impossibility to induce any concern to locate here, solely on account of the lack of the facilities above mentioned, and the people of this place would find the sum paid out for such protection a paying investment outside of attracting any new business. You may not think so now, but it is only a matter of time when you will.

Those exempt from jury duty now comprise clergymen, dentists, pharmacists, attorneys, professors and teachers in colleges, academies or public schools, editorial writers, and reporters on daily newspapers, federal officers, state officers and city officers, consuls of foreign nations, captains, engineers and other officers of vessels making regular trips, licensed pilots, superintendents, conductors or engineers on steam railroads, telegraph operators, grand jurors, sheriff's jurors, officers, musicians and privates in the national guard, honorably discharged national guardsmen, firemen and policemen.

D. Brown; A Woman's view of the Indian Troubles,' Mrs. G. B. Herrick. Mrs. A. C. Frisbey questioner.

Go and hear David Tatum, the Quaker Evangelist, at Prest's opera house next Monday evening.

Andover has a newly organized band, composed of some of the best musicians in the place. They meet in Prest's hall for practice, and already give promise of becoming a first-class organization.

Last Saturday evening the Woman's Relief Corps gave a supper to the members of Seaman Post, G. A. R., Lincoln Camp, S. V., and a few invited guests, at Union Hall. The occasion was one of great enjoyment, and all present seemed to enter into the festivities, with a right good will. One of the enjoyable features was the singing by members of the different organizations. The supper was excellent, and so were the appetites of those present, a combination that is pleasing all around. The organizations are to be congratulated upon their possession of such comfortable quarters, and also upon the success of this entertainment.

A Finger Crushed.

Mrs. D. K. Porter met with an unfortunate accident last Thursday evening. She was sitting in a large patent rocker, when some part under the seat broke. She attempted to save herself and in doing so caught the little finger of her right hand in such a position that her weight and the weight of the chair were upon the finger, crushing it and breaking the bone to such an extent that it is doubtful if the finger can be saved. An attempt is being made to avoid amputation, and it is hoped the effort may be successful.

The Atwood Will Contest Ended.

After the death of the late A. B. Atwood a will was found which named Mrs. Isaac Miles of Scio as executrix. She offered the will to probate, which was opposed by members of the Atwood family on the ground that the testator was not of sound mind when the will was made. The trial was begun in the Surrogate's court last week and continued this week. To-day the attorney for Mrs. Miles stated to the Surrogate that he was convinced that his side of the case was very weak, and he would abandon all efforts to prove the will. Mrs. Atwood has been appointed administratrix.

A. A. Porter Burned Out.

This morning at 6 o'clock A. A. Porter of Hornellsville, son of A. Porter of this village, suffered the loss of the contents of the grocery store owned by him at 171 Main street, Hornellsville. Sutton's photograph gallery, which was located over the store, was also consumed. The accounts at hand at present writing indicate that the contents of the gallery and store were entirely destroyed but the building was not consumed. It is not known how the fire originated. Mr. Porter's loss is partially covered by insurance. He resided in Andover until about a year and a half ago, going from here to Hornellsville where he formed a partnership with a gentlemen named Harding. Last fall Mr. Porter bought out his partner, since which time he has conducted the business alone, having an extensive trade. His many friends in Andover will sympathize with him in his loss.

Consolidation "Has Fell" Through.

B. P. Mapes has received a letter from Albany saying that the consolidation bill has practically fell through and that there is no hopes of it ever being reported by the committee. Cause: mismanagement.—*Belmont Dispatch.*

The "mismanagement" consisted in taking the matter before the legislature, which has no power to make the change, as the NEWS has repeatedly stated. Such matters are left with the Board of Supervisors and the people, and it surprises us that anybody ever expected the legislature would give any attention to such a bill.

Assemblyman Acker has now introduced a bill providing that a Board of Supervisors may make changes without a submission of the question to the people. This bill if it becomes a law will still further simplify the matter, and consolidation at Belmont may be looked for very soon, provided the next board of Supervisors doesn't do as the last one did,—go off on a wild goose chase for something they already had within their grasp.

Kaple—Pingrey.

Married, on Thursday, March 5, 1891, at the home of the bride's parents in Andover, Mr. Elmer Kaple and Miss Lida Pingrey. The ceremony was performed by Rev. G. W. Gibson in the presence of about 100 guests. The bride is the daughter of Loren Pingrey and the groom is a son of Wm. Kaple. Many and hearty were the congratulations bestowed upon the happy couple, who, it is hoped, will meet with nothing but success in their married life. The newly married young people are spending a short time in New York and other places.

The presents were in great number and of fine quality. Among them were the following: Extension table, clock, set solid silver tea spoons, 12 plated tea spoons, 9 plated table spoons, solid silver gold-lined sugar shell, 12 silver knives, 6 forks, silver butter knife, silver thimble, large silver castor, pepper and salt caster, three bottle castor, 2 silver butter dishes, 3 silver pickle dishes, silver cake basket, silver berry dish, bedroom set, plush toilet case, hand-painted panel picture, hand-painted bowl, 2 large oil paintings, flower vase, bed spread, 2 linen table cloths, 2 linen towels, dozen napkins, beautiful sofa pillow.

Richardson—Guinn.

Mr. Floyd Richardson, son of J. W. Richardson, and Miss Sarah Guinn, daughter of Jas. Guinn, were married at the home of the bride's parents on Wednesday, Feb. 23, 1891, by Rev. G. M. Janes, assisted by Rev. Lucius C. Davis. The newly married couple are among the best known of Andover's young people, and their friends all wish them their share of happiness and prosperity. The presents were very numerous and consisted of silverware, furniture, china, table linen, &c. Guests were presents from Richburg, Friendship, Belmont, Canisteo, Hornellsville, Alfred and Jasper.

Mr. and Mrs. Richardson left last week for Richburg, where they will reside, and we are sure they will be gladly welcomed by the people of that place.

Temperance Lecture.

The Quaker Evangelist, David Tatum, will deliver a lecture at Prest's opera house in Andover on Monday evening, March 16. It is hoped the hall will be crowded with people to hear what this celebrated worker has to say upon the subject that should interest everybody. Among many endorsements by prominent people is the following signed by Frances E. Willard, and Mary A. Woodbridge, President and Secretary of the National W. C. T. U.:

"TO THE FRIENDS OF TEMPERANCE: Among the many faithful workers in the temperance field, few have been more effective in their labors than our esteemed friend, David Tatum, of Cleveland. We recommend him most heartily and think the community which can secure his services is fortunate, and the cause will at all times be promoted by his efforts.

TULIP SOAP ALWAYS DRY AND HARD
