HOW, WHAT AND WHY?

Special to the Andover News

The Andover News has arranged with the Office of Information of the New York State Colleges of Agriculture and Home Economics to answer questions about problems of farm and home. If you enclose a self-addressed, stamped envelope and mention the name of this paper you will receive a direct reply to your query from the colleges. Do not ask more than one question in one letter or on one postcard. Ask as many questions as you like, but make each one a separate communication.

Persian and Paisley Shawls

Mrs. C. H. V. asks: "Can you give me any information on Persian or Paisley shawls?"

Prof. C. B. Robinson of the College of Home Economics replies: "Persian, Egyptian and Turkish hand-woven shawls were made in the countries of the same names, while the Cashmere or Kashmere shawl was woven in India. These shawls were imported into Europe about 1798, were very popular in France in 1820, and had almost passed out of fashion by 1870.

"Paisley shawls were made in Paisley, Scotland, and were woven on a power loom. In 1850 both Paisley and Cashmere shawls were the vogue. By 1870 the demand for shawls began to wane.

"The Cashmere, Persian, Egyptian and Turkish shawls are very old and very rare. The Paisley shawls are not nearly so old and are fairly abundant. Some are fine and very beautiful in color while others are coarse or are printed.

"There seems to be little written on these shawls. However, a list of books and magazines which contain articles about them has been sent to you."

Woodchuck and Rabbit Control

J. D. G. writes: "Will you send me suggestions on ridding a farm area of woodchucks and rabbits. The Victory Gardens in this area are being destroyed by these pests."

The answer: The College of Agriculture has sent you bulletin E-338 on "Rabbit Control" and other information on woodchucks and their habits."

Unfortunate Delay

Nice Old Lady: "Why are you in prison, my good man?"

Skumgullion: "For driving a car too slow."

Nice Old Lady: "You mean too fast."

Skumgullion: "Naw, too slow—The owner caught up with me."

The boys at camp and the boys at the front want to know that we're behind them in every way. They KNOW that moral support is NOTHING without the financial aid that goes with it . . . the aid that brings them their food and uniforms, bombs, planes, ships, and the thousands of other items that have to be PAID for. The money for this war equipment must come from YOU . . . from the money YOU invest in War Stamps and Bonds. . . . Remember, you are not giving anything. Your money, plus interest, will be returned. It's your DUTY on American Heroes Day, to buy all the War Bonds you can afford. Then reconsider—AND BUY SOME MORE!

SAVE TIRES AND TRUCKS

Food is as important as munitions in the war program. The present method of delivery to market requires rubber tires and trucks.

We are in favor of maintaining the present methods of food delivery as long as possible. BUT there is not enough rubber to maintain tires on all vehicles. With no supply of new rubber in sight now, what we have must be conserved.

We are calling on each and every farmer in Allegany county to do his part.

Do not drive unnecessarily.
Do not drive fast.
Do not overload trucks.

In case of your failure to appear or answer, judgment will be taken against you by default for the relief demanded in the complaint.

Trial to be held in the County of Allegany.

Dated: May 11th, 1942.

REGINALD J. SOOTHERAN,
Attorney for Plaintiff
Office and Post Office Address
Andover, New York

TO RONALD WITTER:

The foregoing Summons is served upon you by publication pursuant to an Order of Hon. Ward M. Hopkins, County Judge of Allegany County, dated May 29th, 1942, and filed with the Complaint in the Office of the Clerk of the County of Allegany at Belmont, New York.

Transportation Head to Form Car-Sharing Club

H. G. Young of Fillmore, who has been appointed War Transportation Administrator for Allegany County, this week called for prompt and active local participation in the state-wide program for the conservation of transporation facilities, with emphasis upon immediate formation of Car Sharing Clubs.

Announcing the initiation of plans for an organization to undertake the work in this area, Mr. Young declared there was no longer any doubt as to the urgency of the problem of "keeping the wheels of vital transportation equipment rolling for the duration."

"All of us, if we have not already done so, must now recognize that 'travel as usual' is out," he said. "We must accept the fact that motor vehicle equipment, tires in particular, cannot now be replaced and that there is no prospect of replacements for many, many months to come.

"It is necessary, therefore, that we get the longest possible life, the most efficient possible service from all privately, as well as publicly owned vehicles. That is the purpose of the conservation program we hope to carry out here."

Mr. Young indicated that whereas the conservation program is being initiated by the State War Transportation Committee and conducted under its general direction, the various projects and activities will be developed and carried on locally.

"It means," he said, "that we will need the support, co-operation and active assistance and participation of city and county officials, business and industry, organizations and civic groups, workers, shoppers, motorists."

The local administrator made it clear that "we're not taking away or hindering transportation—that's already been done by the enemy. We are trying to keep it going; to get the full benefit of existing facilities in the hope that we can make them last for the duration of the war."

"To accomplish this objective may call for some readjustments in our habits and may result in some inconveniences," he added. "It will probably be necessary to stagger working hours of business and industry. It will certainly be necessary to arrange for pooling of rides by workers, thereby eliminating duplication of vehicle use.

"The immediate objective is forming of Car Sharing Clubs to obtain a maximum of use from a minimum of vehicles. Membership in a car-sharing group is essential not only as a part of our conservation campaign, but it is also necessary for securing needed gasoline in excess of the basic minimum ration after July 22.

"Don't drive alone! Double up now and save gas and rubber for the duration!"
