Consumption

Pulmonic work on the subject of diseases, written by a prominent American physician says: "Cod-liver oil has done more for the consumptive than all other remedies put together." It also says: "The hypophosphites of lime and soda are regarded by many English observers as specifics for consumption."

Scott's Emulsion

contains the best cod-liver oil in a partially digested form, combined with the *Hypophosphites of Lime and Soda*. This remedy, a standard for a quarter of a century, is in exact accord with the latest views of the medical profession. Be sure you get SCOTT'S Emulsion.

The sugar trust is credited with the intention to establish a line of steamships between Norfork, Va., and Cuban ports.

France can hold her own in a talking match with England, and she has no idea of engaging in any other sort of match.

General Wood, who commands the Santiago district, finds the Cubans very persistent office-seekers. Naturally they are home rulers.

Perhaps that New Jersey magistrate who upheld the right of a wife to have a night key to stay out as late as she pleased, is laying up political capital, to be drawn upon when woman suffrage exists in all the states.

The goose-bone and all the other old-time weather prophets are predicting a very cold winter, which recalls an old verse:

"The weather-prophet has a vogue,
Barometers the same;
The goose-bone has no vogue at all—
But it gets there just the same."

It is estimated that $30,000,000 has been spent by those who went to the Klondyke after gold this year, while the entire output of gold from that region has been less than one fourth of that amount in value. That's why we're glad we didn't go.

"Now we are free; let us learn how to become great through our virtues, in order that by becoming great we may be respected," wrote Gen. Rodrignez, Commander of Cuban insurgents in Havana province, in a letter to his troops.

For killing a poet in a duel, an Italian editor has been sentenced to thirteen months imprisonment. There are alleged poets in this country who might be killed by editors with the certainty that the verdict would be "justifiable homicide."

Now, one of the newspaper scientists has a scheme to transmit electrical power through the air, any distance, without wires. Doubtless this scheme will be put in practical use about the same time as its prototype, the scheme to send telegraph messages without wires.

How to Look Good.

Good looks are really more than skin deep, depending entirely upon a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are affected, you have a pinched look. Secure good health, and you surely will have good looks. Electric Bitters is a good alternative and tonic; acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at L. A. Burrows' drug store. 50 cents a bottle.

To cure croup in half an hour, use Hoxsie's Croup Cure. This great remedy does not contain opium in any form, and does not cause nausea. 50 cents.
