October Milk Worth $3.01 To Dairy Farmers

The uniform price of milk delivered in the six states of the New York milkshed inched beyond the three-dollar mark when Dr. Charles J. Blanford, administrator of the New York metropolitan milk marketing area, announced that the rate at which dairy farmers will collect for their October production has reached a new high of $3.01 a hundredweight.

"The October pool contained 465,962,424 pounds of milk and will yield a farm value of $14,954,077.93 as compared with a return of $13,477,856.59 from October 1941 deliveries. The improvement of $1,476,221.34 is a gain of 11 per cent in the value of the current pool.

The rise in value stems mainly from the combination of a 26-cent better uniform price and an increase of 1.8 per cent in production. The uniform rate of a year ago was $2.75 a hundredweight when the pool contained 457,902,083 pounds.

Larger production was achieved in the milkshed despite the fact that 2,457 fewer producers shared in delivering this October pool. Nearly a third of the decrease in dairy farmers can be accounted for, however, by the withdrawal of eight plants to serve other markets.

The decrease in producers amounted to 4.2 per cent, but the average daily delivery of remaining dairymen reached 268 pounds as compared with 252 pounds in October 1941 for a gain of 6.3 per cent.

Again in October for the ninth straight month the volume of milk consumed as fluid in the New York market was higher than in the previous same month.

We know a man who expects, one of these days, to read a book.

Christmas Seal Sale Starts Next Wednesday

The 36th annual nationwide Christmas Seal Sale in which the Allegany Health and Tuberculosis Association will take part will open Monday, Nov. 23 and continue until Christmas, according to an announcement by the Rev. M. H. Sangree, president of the association.

The Christmas Seal is the sole support of the National Tuberculosis Association and its 1700 affiliated associations throughout the United States, Canal Zone, Alaska and Puerto Rico.

Ninety-five per cent of the income from the Seal Sale remains in the state in which it is raised. Five per cent goes to the National Association.

With tuberculosis already increasing in a number of overcrowded industrial areas in the United States, the nationwide goal for this year's sale has been set by the National Tuberculosis Association at $8,000,000. This amount, the largest the Nation has ever been asked for, is necessary to carry on the expanded work planned throughout the country in an intensive effort to prevent a widespread and material wartime rise in tuberculosis.

Mr. Sangree announces that Allegany County's quota is $5,100. When this amount is raised, the program planned for 1943 will be put into full operation.

The 1943 program of the association includes health education, tuberculin testing in schools, co-operation with clinics and other agencies, follow-up of cases, assistance with the rehabilitation program at the Mt. Morris Tuberculosis Hospital.

WANDERING WITH WILLIE

LAST week we were more than surprised to hear that the little bit of baloney in this column had hit the bull's eye (especially up in the mill). According to street gossip, one loom-fixer actually grinned on reading it, two weavers smirked and another worker really broke right out and giggled. Boy we am a success!

But while we are handing out a little foolishness we ran across the following this week about those 10,000 New York "woikers" that Henry Kaiser took to Portland. It must be a devil of a mess out there, mixing the real New York brogue with that slow Western drawl. Just as an example you can imagine how far a Westerner would get reciting this New York paragraph fast. (You try it as after reading it and writing it out our tongue is still glued to our tonsils:

Thoity poiple oily boids were sitting on the coib at Thoity Thoid and Boinside eating doity woims. A goil named Goity and her boy friend, Hoibert, saw the thoity oily boids sitting on the coib eating doity woims at Thoity Thoid and Boinside and Goity says "Hoib! The noive of them boids!" Boy! Were Hoib and Goity poitoibed!

THE daylight air raid test Wednesday proved most successful, with but one minor violation. That was promptly taken care of by Eddie Kilbane when he gave a ticket to an autoist who left his buggy in front of the bus H. Q. We know what color that ticket was too, don't we Andy?

THERE'S still more junk lying around that has not been reported in as yet. Not so long ago a Government gent was in Andover and put the screws on a few of these junk hoarders. And he knows how to do it too. Want him to drop in and see you folks?

WE want to compliment the Boy Scouts of Andover on their fine display in the Atwood block window but as usual we have to criticise a bit. When we glanced at the Scout standing there in the window so nonchalantly, to see what Andover Scout he resembled, we were shocked to note that his complexion was more Japanesee than the good old Allegany hue. Would it be a very big project to bleach him a bit?

ANOTHER of those special bulletins was picked up this week and handed to us. It comes from Washington and states that the Japs last week had taken Castoria. Latest reports today are to the fact that they are evacuating.

AND then there's the story of the fellow who had been out with one of the boys who was going to camp and after seeing his buddy well on the road to active service he staggered home and made his way subconsciously thru his house, winding up in the stall shower of his bathroom. As he groped around (as stews do) he turned on the water deluging himself aplenty and making a whale of a racket which naturally brought the Little Woman to the scene. Taking in the details she called him all kinds of so-an-so, winding up with a none too flattering estimate of his past, present and future.

"Tha's right, Honey," admitted the befogged celebrator. "I'm everything you said—and worse.—But let me in, won't you, Honey? It's raining like h— out here."

Conondrums, Valencia Slocum.

A Quizz, "Correct Usage of the Flag," Hazel Burgett.

Song, "God Bless America," All Ice cream and cake were served, thus completing a very enjoyable evening, each one feeling it had been good to get acquainted.

It is the opinion of the writer of this report that no woman can do a more patriotic act than to become a lively member of the Women's Christian Temperance Union, an organization that has the moral and spiritual welfare of the youth of our land at heart.

I question whether there is a more lively organization, or one doing any more worthwhile things (in proportion to its membership,) in Andover than the local W. C. T. U.
