Our Resolution For 1943

AS WE begin 1943, it is in order for Andover people, along with all other loyal Americans, to make one resolution and to mean what they resolve.

With the nation a year along the road of war, with all of us more concious than ever of the sacrifices ahead and more determined than ever that human beings (meaning us) shall live, love, laugh and learn in peace, it is high time to appreciate the stern duty before us.

Practically every American, along with President Roosevelt, "hates war." No Nazi or Jap missionaries are needed to teach us the blessings of peace. For many months, as war engulfed Europe, we hoped and prayed to avoid the shambles of battle, finding it hard to believe that other governments and other peoples intended to wage war against us.

The illusion toppled at Pearl Harbor and war buried when Germany and Italy declared war upon us. Our own Congressional declarations were merely the legislative acknowledgment that we had been attacked. Axis killers, already on the loose, enlarged their field, expecting to secure more and better game.

We would like to write a New Year's editorial advising all persons, old and young, to devote 1943 to their own development and culture and to their physical, mental and spiritual wellbeing.

Unfortunately, we must advise them to prepare to fight for their lives and civilization, to courageously uphold their faith in man and God and to make any sacrifice and endure every hardship that becomes necessary to preserve the freedoms, liberties and honors of mankind.

So, here is our resolution for civilians at home and our fighting men everywhere:

"To so wage war as to win peace forever for all peoples of good-will and to organize just men to forever protect the world from aggressors, who seek to rob, slay and enslave their fellowmen."

The old saying of "When you win you lose" often proves true in our lives.

The old-fashioned man who used to make New Year resolutions, is still making them, which is to his credit.

Maybe the restriction on house heating will persuade some women to wear enough clothes to keep warm.

"Variety Meats"

BACK in the early days of childhood, my mother's theory was that one should eat what was set before her at the table and be grateful for it—and make no comments about liking some things better than others, never leaving a portion carefully pushed to one side of the plate or skillfully conceal the bread crusts under the edge of the plate.

When, at the time of the World War 1, it became patriotic to "clear the plate"—or else, that Hoover monster-shadow would do something about it, Uncle Sam's warnings accomplished what my mother's promptings hadn't been able to do. Some portions were first quite a struggle to down and eventually enjoyed. Since then other lessons have followed and if the performance could hardly be called a triumph at least it was an achievement—as in the case of raw oysters. They can be politely consumed in an emergency but the point has never been reached where a deliberate order of raw oysters would be a delicacy.

Take the variety meats. We're going to eat 'em and like 'em—Uncle Sam says so. There are plenty of people in this country who have long considered hearts, livers, tongues, kidneys and sweetbreads a delicacy, just as there are those who have always relished oysters. So we can do it, too. It's all in the way you think about it. If you were brought up to like frog's legs you would think they were wonderful. If you weren't, you probably don't.

Now, with meat rationing in the offing and "variety meats" brought sharply to our attention, we have some more lessons in patriotic eating laid out for us. It will boost our enthusiasm for patriotic action at the dinner table to remember the bread crusts, the oysters—the same principle as whistling in the dark to show how brave one is.

Trouble Ahead for the Axis

THE United States is making as many combat weapons today as the entire Axis, declares Donald M. Nelson, War Production Board chairman, who adds that the United Nations together are turning out twice as many weapons as the enemy.

Mr. Nelson points out that our war program in 1943 must move to $90,000,000,000, as compared with $52,500,000,000 for 1942. If this takes place, the United States by the end of next year will be out-producing the Axis by two-to-one and with its Allies would be out-producing the Axis three-to-one.

When the production of the tools of war, now flowing from plants in the United Nations, reach the battlefronts, the Axis soldiers will find, for the first time that it takes more than initiative and greed to win to overcome their enemies.

Nazi pride, Italian bombast and Japanese greed will fall in a heap, covered completely by the overwhelming weight of metal that will be thrown against them.

Unfortunately, the man who thinks he can control strong drink seldom does so.

Just to make it unanimous we wish everyone a happy and prosperous New Year!

We would be perfectly willing for the government to ration spinach.

YOU GIRLS WHO SUFFER Distress From FEMALE WEAKNESS
And Want To Build Up Red Blood!
Take heed if you, like so many women and girls, have all or any one of these symptoms: Do you on such days suffer cramps, headaches, backache, weak, nervous feelings, distress of "irregularities", periods of the blues—due to functional monthly disturbances?
Then start at once—try Lydia E. Pinkham's Compound TABLETS (with added iron)—made especially for women.
Pinkham's Tablets are famous not only to relieve monthly pain but also accompanying weak, nervous feelings of this nature. This is because of their soothing effect on ONE OF WOMAN'S MOST IMPORTANT ORGANS. Taken regularly—Pinkham's Tablets help build up resistance against such symptoms. Thousands upon thousands have reported benefit.
Also, their iron helps build up red blood to give more strength. Pinkham's Tablets are also a fine stomachic tonic! Follow label directions.
