Gas Consumers, Notice—

We desire to notify our customers that we intend, commencing Oct. 1st, 1900, to change to the Meter System in the sale of gas, and that we shall make no contracts from the above date either by yearly or regular monthly rates.

Gas consumers, who are connected to our lines at present, and all others who may use gas in the future, are to conform to the above. Meters will be loaned by us upon the receipt of $5 deposited in advance. This deposit will be refunded at any time the consumer discontinues the use of gas and returns to us the meter in good condition, together with the meter deposit certificate so issued for the same.

The price of gas will be 25 cents per thousand cubic feet, subject to a discount of 10 per cent. if paid for on or before the 10th of the month following the meter reading.

Now, in order to take advantage of the summer use of metered gas, the company wish to state to the customers who have a yearly rate and whose contracts as yet have not expired, that they may avail themselves of the same privilege as our regular monthly customers, and connect by meter at once.

We consider that it is the only fair and equitable way of using gas, for in this way you can connect as many stoves or lights as you desire, regardless of the size of the mixer used, and pay for them only when in use.

By the adoption of the meter system, we look forward in giving you an even better service than in the past.

A Most Delicate Apparatus.

One of the most delicate pieces of apparatus is that used for counting the number of cells in the blood. Medical scholars tell us that in a minute drop of blood no larger than the head of a pin there are from three to four million of these red cells. In health there are a certain number in a certain amount of blood; while in certain diseases, as anemia, this number is greatly deficient, causing pale cheeks, white lips, transparent ears, and great debility. This delicate apparatus has proven over and over again that Scott's Emulsion increases these red corpuscles faster than any other known preparation, thus curing or preventing the many diseases and conditions caused by this, poor blood.

Letter to James Owen,

ANDOVER, N. Y.

Dear Sir,—A banker's business is to know pretty much everything. Here's a part of it, well worth any one's knowing.

Devoe lead and zinc is the paint that lasts twice as long as lead and oil. Our agent sells it under this guarantee:

"If you have any fault to find with this paint, either now in putting it on, or hereafter in the wear, tell your dealer about it.

"We authorize him to do what is right at our expense."

If you get your house painted with it, and it wears no better than most lead and oil, you will have good cause of complaint; and we must pay damages.

This is the paint that looks as good, and wears twice as long, as lead and oil.

Yours very truly,
F. W. DEVOE & CO.

A Sprained Ankle Quickly Cured.

Sold by Benedict & Van Noy, Andover, and N. E. Coston, Greenwood.

Obituary.

Mrs. Harriet Cornelius Burdick died at her home in Elm Valley, June 19, 1900, aged 57 years. She was the daughter of Gabriel and Lucy Cornelius and was born in Alfred. She was married to Harrison Burdick in 1862. She leaves a husband and three children to mourn her loss, Mrs. Cora Enwright, who has so tenderly cared for her mother thru her long illness, Frank Burdick of Alfred and Kenway Burdick who is still in the home, also an aged mother, two brothers and one sister, Green Cornelius and Elmer Cornelius of Alfred and Mrs. Edward Jones of Andover

Mrs. Burdick was a loving mother, a devoted wife, loved and respected by all who knew her. She was a patient sufferer trusting in the Lord and willing to abide by his will. The esteem in which she was held was attested to by the large concourse of people who gathered at her late home, Thursday, June 21, 1900, to pay the last rite of respect to her mortal remains.

Rev. Janes of Andover conducted the services assisted by the Presbyterian choir who rendered appropriate music. Interment in the Alfred cemetery.
