Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

Miss Maria King of Ceres, a Well Known Woman's Suffrage of This County, Killed.

A special from Bolivar last Monday says that Miss Maria King of Ceres, one of the best known woman suffragists in Allegany county and Western New York, was struck and killed by a passenger train on the Pittsburg, Shawmut & Northern railroad. Miss King was about 75 years of age and while on her way home from the postoffice was walking beside the track. It was raining hard and she was holding up an umbrella. Just before the train reached her she stepped on the track and was struck by the engine. The pilot pushed her off from the track, but she was so badly injured that she died in a few minutes. Miss King had been a school teacher nearly all her life and had taught 78 terms of school. She had been a lady active in many of the views of woman and woman's suffrage.

WEEDS

Consumption is a human weed flourishing best in weak lungs. Like other weeds it's easily destroyed while young; when old, sometimes impossible.

Strengthen the lungs as you would weak land and the weeds will disappear.

The best lung fertilizer is Scott's Emulsion. Salt pork is good too, but it is very hard to digest.

The time to treat consumption is when you begin trying to hide it from yourself. Others see it, you won't.

Don't wait until you can't deceive yourself any longer. Begin with the first thought to take Scott's Emulsion. If it isn't really consumption so much the better; you will soon forget it and be better for the treatment. If it is consumption you can't expect to be cured at once, but if you will begin in time and will be rigidly regular in your treatment you will win.

Scott's Emulsion, fresh air, rest all you can, eat all you can, that's the treatment and that's the best treatment.

We will send you a little of the Emulsion free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

WAS CURED OF DEAFNESS.

Crude Oil Restores the Hearing of a Wellsville man in a Remarkable Way.

The Wellsville correspondent for the Belmont Dispatch tells the following remarkable story: Charles Schrader of Wellsville has labored under great disadvantage for a number of years, owing to the serious affection of the ears, being at times totally unable to understand others when speaking in an ordinary tone of voice. Schrader was a boiler maker by trade, and while serving his apprenticeship some years ago at the McEwen shops, his hearing began to fail. However, he continued to follow the trade for several years but was finally obliged to give up the business owing to deafness. His knowledge of the oil field as a driller and tool dresser secured for him a position with the Wellsville Empire Gas & Fuel Co. Some weeks ago he had occasion to place his ear at the end of an open pipe to listen for the coming of oil which suddenly came with tremendous force striking him squarely in the ear. Since that experience he has continued to improve until now he can hear as well as ever.

ROSE FROM RANKS.

Gallant British Officer Said to Be In Disgrace.

CHARGES OF IMMORAL CODNUCT.

Governor of Ceylon Will Convene a Court Martial to Try General Sir Hector MacDonald, Military Commander of the Colony.

Colombo, Ceylon, March 25.—Charges of the most serious nature have been brought against Major General Sir Hector MacDonald, commanding the British forces in Ceylon.

In consequence the governor of that island, Sir Joseph West Ridgeway, has been authorized to convene a court martial to try General MacDonald.

MAJOR GENERAL MACDONALD.

The latter, when the charges were filed some time ago, went to England to confer with his friends and superior officers and now, it is understood, he will return and face the charges, which, it is alleged, are based on immoral acts.

Major General MacDonald, who is an aide-de-camp to King Edward, was born in 1853, enlisted in the Gordon Highlanders and served nine years in the ranks.

He was appointed to command the British troops in Ceylon in 1902.

The general has been repeatedly mentioned in official dispatches for gallant conduct in the field and has about half a dozen orders and medals and nearly a dozen clasps.

SLIGHTED BY LORD ROBERTS.

Noticeable Action by Commanding General at a Highland Dinner.

London, March 25.—The announcement from Colombo that Major General MacDonald is to be tried by court martial on most serious charges of immoral conduct undoubtedly will prove to be greatest sensation in British military circles since the case of Colonel Valentine Baker, who was sentenced Aug. 2, 1875, to pay a fine of $2,500 and to undergo 12 months' imprisonment for indecently assaulting a lady in a railroad carriage.

General MacDonald was regarded as one of Britain's greatest soldiers. He rose from the ranks in the Gordon Highlanders to his present position and the service list shows no more honorable war record than that of MacDonald, while few officers possess more hard-won decorations. He was extremely popular in the army and in civil life.

While the army officials and many of his brother officers were aware that charges were pending against General MacDonald, the estimation of their nature leaked out until the dinner of the officers of a Highland regiment, March 21, at which MacDonald was not present. Lord Roberts, the commander-in-chief, paid tribute in a speech on that occasion to the Highland officers who had served with distinction but did not mention MacDonald.

This attracted considerable notice and the sensation was increased when another speaker, who was not aware of the facts in the case, lauded MacDonald as a typical Highland soldier and found that his remarks were received in cold silence by the majority of the officers present.

General MacDonald, it is announced, left England for the continent some days ago and it is understood he is returning to Ceylon, under the advice of Lord Roberts, after hearing MacDonald's version of the charges.

Memphis, Tenn., March 25.—Reports from Gavin, Ark., in the flooded district, say a boat carrying four unknown traveling salesmen and two negro oarsmen, has been capsized near there. All six of the occupants were drowned.

Fulton, Ky., March 25.—Three men were killed and six seriously injured in a boiler explosion in a sawmill at Wickliffe. The mill was destroyed.

Weather Indications.

Fair Wednesday and Thursday except snow flurries Wednesday along the lakes; fresh northwest winds.

GENERAL MILES IN AUBURN.

Guest of the Business Mens' Association of That City.

Auburn, N. Y., March 25.—Lieutenant General Nelson A. Miles was the guest last night of the Auburn Business Men's association at its banquet. The general was received with the utmost enthusiasm when he arrived in the city. He was escorted to the hall from the home of Major Osborne by the Second separate company, state militia. His toast was "Our country." General Miles spoke of the recent tour of the islands of the Pacific, his trip to the Orient, and through Siberia and Russia. Concluding he said: "Wise should be the statesmanship, just and humane the policy, that would cultivate and encourage in lasting bonds, of friendship the relationship between the mighty, progressive empire of the East and the great republic of the Western hemisphere."

MY BABY WAS SICK

Read What Laxakola Has Done for a Little Sick Baby

My baby is 4 months old and is teething. He was sick and I tried a great many things, but nothing seemed to relieve him. I had a doctor, who said it was inflammation of the bowels, and that I would never pull him through—perhaps, if he was under his care. But I saw he was getting worse I stopped giving him his medicine, as he could keep nothing on his stomach. He was troubled with colic very much, and used to scream when he had a touch of it. I did not know what it was to close my eyes, day or night. I gave him a few drops of LAXAKOLA and it relieved him. I gave it to him a few times and it worked like a charm, and he now sleeps peacefully all night. He is a great deal better looking baby since I gave him LAXAKOLA, and I think if all mothers knew how good it was they would give nothing else to their sick babies. I bless every mother I will give LAXAKOLA a fair trial, and am sure they will not be disappointed.

MRS. MARY DALEY, 507 First St., South Boston, Mass.

LAXAKOLA is the best and most effective laxative for children because it is safe and made entirely of harmless ingredients. BEST because it is non-irritating and never gripes, or causes pain or irritation. BEST because it is sure and never fails. BEST because "Children like it and ask for it." For constipation, coated tongue, simple colds and fevers it is invaluable.

NARROW ESCAPE.

The Wrong Man Apprehended for Myers.

THE DANGER OF MOB LAW.

Had He Not Been Able to Prove His Identity While the Mob Was in Search of a Rope to Hang Him, the Suspect Would Have Been Hung.

"At Sidney, Delaware county, according to reports, an innocent man came near being lynched yesterday. Having been taken for the alleged murderer, an angry mob gathered around a wagon which had been driven under the overhanging bough of a tree. While men ran for a rope the suspect was identified and his life spared."

The above was clipped from an article on the pursuit of Myers, in the Elmira Gazette of March 17th, and shows the readiness of a mob to commit crime and the danger to which an innocent suspect is subjected. Let any irresponsible person refer to a man as being Myers, even by way of a joke, and if proof that he is not Myers is not at hand, the chances are that he will suffer death, especially if in a crowd.

It looks as tho it is getting even dangerous to hunt for the villain on account of the over zealous actions of some who are in the pursuit.

It is a travisty on law and justice and a disgrace to a community for a mob, after lecturing a suspect, and having him wholly within their power to blindly undertake to avenge another's crime. It looks as tho the mob wanted blood and bound to have it if innocent or not.

The expression is often heard, in speaking of Myers, that if he is ever caught, that a trial will be unnecessary, as he will be mobbed without a chance to see the inside of a court house or jail. If he is aware of this feeling of the public, it would tend to make him sell his life as dearly as possible even were he innocent. Even tho the murder of Mrs. Payne is one of the most diabolical ever perpetrated, it affords no reasonable excuse for a mob to commit a like crime. If once caught and powerless to do further harm, let him be dealt with according to law.

NEW CLUB AND LODGE ROOMS.

Abram Allen Post, G. A. R., Canisteo, and the Ladies of the Relief Corps Purchase New Headquarters.

The Abram Allen Post and the Relief Corps, having purchased the Stebbins interest in the building formerly occupied by him on Depot street, will begin the work of remodeling the second floor of the building as soon as possession can be obtained of the property. A portion of it is now occupied by Fred Ramsey as a cigar factory and until he obtains a permit from the government to move his factory he will not be able to give possession, but this probably will not be very long. The hall and adjacent rooms will make the organization exceptionally fine rooms and comfortable quarters on the second floor. The rooms now occupied by them are located on the third floor and that makes it impossible for many of the members of the Post because of their inability to climb the stairs to attend. The organizations purpose making the rooms the most elegant clubs and lodge rooms in the village.

Abating a Nuisance of Travel.

A circular recently issued by the New York Central railway requires the employees in charge of trains and stations to suppress as far as possible the noises at the various stations during the night hours. It is rather singular that no systematic effort has hitherto been made to lessen one of the most disagreeable and annoying things about night travel. Regardless of the rights of night travelers, the operators of switch engines, the baggagemen, the oilers, the conductors and the brakemen have been permitted to make a veritable din at every stop. Nine-tenths of this noise is wholly unnecessary.

Anything like restful sleep while traveling is hard enough for most people to get under the most favorable conditions, and it is a positive nuisance to be awakened half a dozen times during the night by needless noises.

It is to be hoped that other lines will follow the example of the New York Central in doing away with superfluous station noises. It is not a matter of additional outlay, but merely one of management and discipline.

After serving five weeks of a sentence of two years' imprisonment for killing a civilian in a duel Emperor William has pardoned Lieutenant Werner von Gravert of the German army. The man who was killed left a widow and five children. This is the second pardon of the kind in a comparatively short time and gives added evidence of the insincerity of the kaiser's anti-dueling protestations. If he were really opposed to dueling, he would see to it that men who engage in duels were properly punished.

"OLD GORGON'S" ALPHABET

Some Modern Maxims by John Graham, Pork Packer

Compiled From "Letters From a Self Made Merchant to his Son," by George Horace Lorimer

A tactful man can pull the stinger from a bee without getting stung.

Beauty is only skin deep, but that's deep enough to satisfy any reasonable man.

Clothes don't make the man, but they make all of him except his hands and face during business hours.

Duty means something unpleasant which the other fellow ought to do.

Easiest way to make enemies is to hire friends.

Fools will turn out fools whether they go to college or not.

Give most men a good listener and most women enough note paper, and they'll tell all they know.

Hot air can take up a balloon a long ways, but it can't keep it there.

If you give some fellows a talent wrapped in a napkin to start with in business, they would swap the talent for a gold brick and lose the napkin.

Just to be sociable some men will eat a little food now and then, but what they really live on is tobacco.

Knowing how to be humble is a heap more important than knowing how to be proud.

Loyalty is the one commodity that hasn't any market value, and it's the one you can't pay too much for.

Marriages may be made in heaven, but most engagements are made in the back parlor with the gas so low that a fellow doesn't really get a square look at what he's taking.

Never threaten, because a threat is a promise to pay that isn't always convenient to meet, but if you don't make it good it hurts your credit.

Of course you're no position yet to think of being engaged, and that's why I'm a little afraid that you may be planning to get married.

Pulling from above and boosting from below make climbing easy.

Quick to fire, slow to hire—when you've found you've hired the wrong man you can't get rid of him too quick.

Remember that when you're right you can afford to keep your temper and that when you're wrong you can't afford to lose it.

Say less than the other fellow and listen more than you talk, for when a man's listening he isn't telling on himself, and he's flattering the fellow who is.

The fellow who has to break open the baby's bank toward the last of the week for car fare isn't going to be any Russell Sage.

Unmarried men are a good deal like a piece of unimproved real estate—they aren't of any particular use except to build on.

Vacation of two weeks—enough to make a sick boy well or a lazy one lazier.

Whenever any one offers to let you in on the ground floor, it's a pretty safe rule to take the elevator to the roof garden.

X-ample is only a small part of a manager's duties.

You can trust a woman's taste on everything except men, and it's mighty lucky that she slips up there or we'd pretty nigh all be bachelors.

Zulus, explained the deacon, are deprived of twenty-five helpful little things every time you smoke a two bit cigar.

Many People Sick With Smallpox.

Binghamton, N. Y., March 25.—Before the nature of the disease was discovered, 21 of the 54 persons in the little hamlet of Stevens' Point, about five miles east of Susquehanna, Pa., were down with the smallpox. The disease was brought to the place by a man who had been working in New Jersey. A few days after he returned home he developed what was called the "itch." No physician was called but many people of Susquehanna and surrounding territory were exposed. The latter part of last week other people in the village began to develop the "itch." Finally a physician was called and declared the disease to be smallpox. Twenty-one people are sick and several hundred in the surrounding country have been exposed.

Mr. White explained the proposition as an amendment to the constitution enabling the state to issue $5,000,000 of bonds a year up to 10 years. This would construe 7,550 miles of highways at approximate cost of $7,000 a mile.

Mr. White declared that New York should follow the example of Rome and towns so as to approximately improve 10 per cent of the entire highway mileage of all the highways in each county of the state. The state's neglect of the highways, Mr. White pointed out, is no cause of the shrinkage in the value of lands, fences and buildings as shown by the federal census.

Played Out.

That "played out"—"done up" feeling makes life miserable for every sufferer from Kidney ills, backaches, headaches and urinary troubles, painful and annoying.

Doan's Kidney Pills

bring new life and activity, remove the pain and cure the cause, from common backache to dangerous urinary complications.

Ex-Policeman Joseph Cowdry, of 28 Kent street, Jamestown, N. Y., says: "While serving on the police force, exposure to all sorts of weather left its mark on me. I suffered from kidney trouble for some time; I doctored and tried recommended medicines, but obtained no permanent relief. My greatest trouble was a difficulty with the kidney secretions, and reading of the efficacy of Doan's Kidney Pills in such complaints, I procured them at Clark Bros.' drug store. They relieved me quickly and regulated the action of the kidney secretions."
