Very pretty styles in Misses' Skirts are also being shown.

SUITS.

A number of new Suits now being shown, including a pretty Shirt Waist Suit made from brilliantine.

ERLICH BROS.,
READY-MADE CLOTHING FOR WOMEN,
148 Main Street, Hornellsville.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of De Pont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by O. E. Vars & Son, Andover. Price 50c and $1.00. Trial bottles free.

Always the Best.

Another new assignment of the very latest type faces just laid in our job rooms. If you want printing of any kind, from a calling card to a book, just drop us a hint and we will do the rest in the most workman-like manner and at prices that battle all competitors. tf

Potent Pill Pleasure.

The pills that are potent in their action and pleasant in effect are De Witt's Little Early Risers. W. S. Philpot of Albany, Ga., says, "During a bilious attack I took one. Small as it was it did me more good than calomel, blue-mass or any other pill I ever took and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by O. E. Vars & Son, Andover.

WANTED—Several persons of character and good reputation in each state (one in this county) required to represent and advertise old established and wealthy business house of solid financial standing. STAR CLOTHING HOUSE, LEADING CLOTHIERS and FURNISHERS, 109-111 Main St. 6-8 Church St. HORNELLSVILLE, N. Y.

REXVILLE.

On Friday last the Brewster-Bradley Co. shot well No. 4, on Gilbert McKinley lease, and it shows up for a good one.

The Gilbert McKinley family have made a satifactory division of the royalties on the McKinley farm.

The Crittenden & Co.'s well on the Keefe farm on the Saltpeter, was drilled in Monday, and shows for a good one. This indicates that the field extends over a much larger territory than first supposed, as this well is one and one-half miles from the Marsh wells.

The Tracy Co. well No. 5 on the Austin lot was shot Saturday, and of course is as good a one as any in the field.

John Killcher of Hornellsville was in town Sunday.

Eddie McKinley was visiting at Fall Creek Sunday.

The ball game between West Hill and Rexville played at Rexville Saturday stood 9 to 6 in favor of West Hill.

A rig is up on T. Coleman's farm and drilling will be commenced this week by the Bradley Co.

Alphonsus O'Hargan has purchased the interest of James Cocoman in the crops on the Dunne farm which they were running on shares.

Scott & Rogers were loading sheep and hogs at this station Monday.

A large crowd were at the Marsh Sunday to see the wonders of Olldom.

Gilbert McKinley is visiting relatives in Scio and Wellsville.

Eddie Dunne and sisters, Ella and Addie of New York, are visiting relatives in town.

The Misses Hattie, Anna and Ella McCormick went to Elmira Sunday.

The Bradley Co. started a new rig on the McKinley farm Monday.

We are pleased to announce the recovery of James Moran, who had a limb fractured at Canisteo last June.

Geo. Harrington, who has been in Indiana for the past few months, is back and working at dwilling in the Marsh.

Save the Children.

Ninety-five of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St. Nashville, Ten., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by O. E. Vars & Son, Andover.

"Ze" Makes Strength.

In these days when the children take violent exercise and parents are more active than ever, people look more to the food they eat. By scientific process the cereal **"Ze"** containing all the nourishment of pure selected grain has been so prepared as to make a perfect food, cooked and ready to eat. **"Ze"** makes strength and prepares the body and brain for active duties. Everybody likes **"Ze"**. Try **"Ze"**. At grocers everywhere.

The balance of Mrs. Mourheas' stock and fixtures for sale, cheap. The location is for rent.

Chicago's Scientific Museum.

Chicago is to be congratulated on its assurance of possessing one of the greatest scientific museums in the world. As a heritage from the Columbian World's fair the Field Columbian museum took high rank among institutions of its kind practically from the start, but its usefulness to the public at large has been much restricted by the circumstance of its housing in Jackson park, far out toward the southern extreme of the great city. For the greater part of the public its treasures have, therefore, been practically inaccessible, and interest in the institution has correspondingly languished.

It has occupied the beautiful building designed for the fine arts gallery at the fair, but it was not well adapted to the purposes of the museum. Its removal to the lake front, now called Grant park, will bring it to the center and correspondingly enhance its utility. Its new home should be something surpassingly fine, for to provide it the founder of the Institution, Marshall Field, has added the sum of $6,000,000 to his previous benefactions.

Chicago has been particularly fortunate in its succession of enormous public benefactions. Their recurrence gives earnest of their continuation. A certain spectacularity that inevitably attends public gifts of such magnitude makes them none the less admirable. The spirit of the performance is of the kind the world has learned to regard as characteristically western.

The death of Mexico's Carnegie, Pedro Alvaredo, at Chihuahua, ends an interesting career. The contents of his will are not yet known, but while in life Senor Alvaredo refrained from presenting libraries to his fellow citizens, offering instead to pay the republic's national debt. This offer was declined by the minister of finance, as many of Mr. Carnegie's palaces of literature have been refused by ungrateful municipalities.

The negro's fondness for watermelon is proverbial, but it has not hitherto urged the colored man to the length of shooting nine white men who coveted his luscious fruit, as it has now done in the case of a black citizen of Alabama.

A divorced couple in St. Louis have just married each other for the third time. Had their friends been more generous with wedding presents perhaps these repetitions would not have been necessary.

Grand Council, C. M. B. A.

Watertown, N. Y., Aug. 26. — The third triennial and 14th convention of the grand council, C. M. B. A., state of New York, opened at Ogdensburg with about 1,000 delegates present. Reports of various officers were received. An effort will be made during the session to increase the insurance rates. Election of officers will be held Thursday. The convention lasts till Friday.

The settlement of the coal bills seems likely to be almost as difficult and perplexing as the settlement of the coal strike.

Eat All You Want.

Persons troubled with indigestion or dyspepsia can eat all they want if they will take Kodol Dyspepsia Cure. This remedy prepares the stomach for the reception, retention, digestion and assimilation of all of the wholesome food that may be eaten, and enables the digestive organs to transform the same into the kind of blood that gives health and strength. Sold by O. E. Vars & Son, Andover.

Thus far this season were shipped to the east 8,000 car loads of green fruit, and the present daily shipment averages 100 cars. The winter's shipment of citrus fruits amounted to 10,000 cars, and the fall shipment of canned and dried fruits will run up into thousands. Last census year the value of California's fruit crop was reckoned at $28,280,104. The value of the gold mined in the state that year was only $15,107,800.

It is announced that a German noncommissioned officer has been severely punished for brutally treating private soldiers. But it must be understood that noncommissioned officers are not burdened with sustaining the honor and traditions of the German army.

Bodily pain loses its terror if you've a bottle of Dr Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

$1.00 a bottle. All druggists.

G. R. BROWN, General Manager.

Short Talks On Advertising

By Charles Austin Bates.

No. 7.

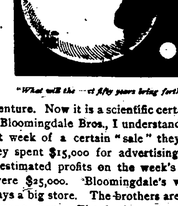
No man has reached the acme of business success. Heights that we do not dream of will be attained by twentieth century merchants I am one of those who believe that there is no limit to the possibilities of human achievement.

This is the frame of mind one gets into after looking at such stores as Wanamaker's in Philadelphia and New York, Siegel-Cooper Co.'s in Chicago and New York, Macy's and Bloomingdale's in New York, The Fair and Carson, Pirie, Scott & Co.'s in Chicago.

The vast scope of such enterprises, the magnificent system, the quick, alert business wit that it takes to direct them—these give one confidence in future successes. Fifty years ago such establishments were not dreamed of. What will the next fifty years bring forth?

These great stores owe their growth to advertising—to the diffusion of store news, for of what use are the finest stores and the biggest bargains if people know nothing of them?

The science of advertising is in its infancy. It is growing in importance and efficiency every day. It used to be a speculative venture. Now it is a scientific certainty.



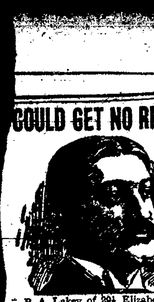
"What will the — of fifty years bring forth?"

Speaking of Bloomingdale Bros., I understand that during the first week of a certain "sale" they had recently, they spent $15,000 for advertising, and that the estimated profits on the week's business were $25,000. Bloomingdale's wasn't always a big store. The brothers are both young men. The business has been built within twenty years; built by judicious, persistent, truthful advertising; just as any other business may be built.

"Of what use are the finest stores and biggest bargains if people know nothing of them?"

Advertising is merely telling people in a telling way what you can do for them. If you tell them often enough and in the right way, there is no possibility of failure.

Copyright, Charles Austin Bates, New York.



COULD GET NO RELIEF.

B. A. Lakey of 291 Elizabeth street, Auburn, N. Y., says: "I had Rheumatism in my knees for six years and could get no relief until I used Dr. David Kennedy's Favorite Remedy. That cured me completely."

Rheumatism makes us grow old and decrepit before our time. Many a one in the full vigor of manhood has been suddenly rendered almost a helpless and dependent as an infant by this ruthless disease. Liniment or external application cannot check it or do any permanent good as it is in the blood. Dr. David Kennedy's Favorite Remedy dissolves the excess of uric acid and going to the root of the disease cures it for good and all.

All druggists sell it in the NEW 50 CENT SIZE and the regular $1.00 size bottles.

Sample bottle—enough for trial, free by mail.

SITUATION IN THE ORIENT.

Japan Indignant Over the Lease of a Korean Harbor to Russia.

Tokio, Aug. 14, via Victoria, B. C., Aug. 26.—The situation in the Orient has been rendered more acute by Russia concluding an agreement with Korea for the lease of Yang-Ampho, a Korean harbor, commanding the estuary of the Halu. This news of Russia securing a base in Korea, when officially confirmed, caused great indignation in Japan. The concession was ostensibly to a Russian timber company, but Japan views it as impairing her peace.

The press denounces the agreement strongly and warnings have been addressed by Japan to Korea that the final execution of such lease would be followed by the exaction of similar concession by all powers interested.

Mr. Jordan, British minister at Seoul, demanded as a counter move of the Cleveland chamber of commerce, which condemned the measure on the ground that municipal electric lighting was neither a proper city function nor a success; that the cost would exceed the estimates, and that the project was in the nature of unfair competition with a private company. The report further adding that ample power exists in the council, through its ability to control rates and charges, to accomplish any results which might accrue through a municipal plant.

At a recent meeting of the council Mayor Johnson proposed that as the opposition to the electric lighting ordinance was avowedly based upon the opposition of the public the matter should be submitted to the voters at a special election. After some opposition this method of settling the problem was accepted, and the special election is to be held soon. At this election a two-thirds majority of the voters must favor the experiment or it cannot be tried. The results of this election will be watched with keen interest by the public, which is just now giving not a little attention to the various phases of the question of municipal ownership of public utilities.

Our Trade With Russia.

Commerce between the United States and Russia made its highest record in the last fiscal year. In both exports to and imports from Russia the figures for the year just ended are larger than at any time within the last twenty years, and the grand total of imports and exports combined is larger than any year in the history of our commerce with that country.

A statement regarding the commerce of the United States with Russia, presented by the department of commerce and labor through its bureau of statistics, shows that the total exports to Russia in the year ended June 30 aggregated $17,606,812. This total is nearly double that of the exports in 1901 and about 50 per cent in excess of those of 1902. Imports also show a marked growth for the past year, and the total for the year is greater than in any preceding year in the history of our trade with Russia.

The record of the year 1903 shows a larger total of exports to Russia than in any preceding year except 1883 and a larger total of imports from Russia than in any preceding year, while the total commerce (imports and exports combined) with Russia was larger in the fiscal year 1903 than in any preceding year.

A rather clever variation of the "gold brick" scheme is being practiced in England by those afflicted with the get rich quick fever. They represent that they are able to smuggle gold dust from convicts working in Siberian mines, and they offer the precious substance to probable purchasers at better than bargain counter cut rates. They submit samples of genuine gold dust, but when a substantial order is obtained and the price asked has been paid brass filings are substituted. This scheme is clever enough to have been originated by a genuine Yankee.

A Pennsylvania father whose son died of lockjaw from a toy pistol wound has sued the dealer who sold the pistol for $5,000 damages on the claim that the pistol was defective and scattered the cap in all directions. Whether or not this particular pistol was defective, it is evident that many of them are altogether too effective.

Chief Ghiridjikoff, General Tzoncheff, Captain Majdjaroff and Colonel Gievgyeli are directing the Macedonian revolution. The Washington Post suggests that some man with a catarrh remedy get busy on these names.

When a minister of the gospel assists in laying the cornerstone of a theater, an event which recently occurred in Pittsburg, the ultimate elevation of the stage appears to be assured.

The discovery of a counterfeit of the dollar silver certificate will interest a great many more people than the recent announcement of the counterfeiting of a five dollar bill.

King Edward might complete the pacification of Ireland by making a friendly visit to New York city.

While London refuses to recognize the Dakota board of divorce, it still accepts the Newport variety.

BRIDGE DERRICK FELL

Several Workmen Carried Into the Water.

FOUR OF THEM WERE DROWNED

Several Badly Injured—Result of Sudden Wind Storm—Two Men Fell 65 Feet But Were Able to Swim Ashore—Daniel Murphy of Olean Probably Fatally Hurt.

New York, Aug. 26. — During the height of the storm yesterday a huge derrick on a Central Railroad of New Jersey bridge across Newark bay was swept from its supports into the water, carrying down several workmen.

Four of the men were drowned and several were badly injured. At least 60 men were at work on the bridge.

On top of the derrick, 180 feet from the water, was Gustav Fisher of Bayonne. Eight others were at various points up the high structure. Fisher was the only one to escape injury.

The storm came up so suddenly that only the men working below or the bridge itself were able to escape. Fisher clung to the rigging, fell into the water with the derrick and swam ashore.

John J. Conlon and Charles Tingley of Jersey City, John McFaun of Bayonne and Otto Ellinson of New York went down under the timbers and were either crushed to death or drowned.

Daniel Murphy of Olean, N. Y., was caught in the falling mass and probably fatally hurt. Thomas O'Brien of Bayonne and two others fell 65 feet but were able to swim ashore. No bodies have yet been recovered.

BLIZZARD AT DANSVILLE.

Roof of a Shoe Factory Torn Off and Side of a House Demolished.

Rochester, Aug. 26.—The worst wind and rain storm which probably ever visited Dansville occurred at noon yesterday. It was of short duration and inside of a few minutes fine shade trees were cut down as if with a scythe. Telephone and telegraph poles and wires were laid low.

The roof of the Blum Shoe company was torn off, smashing in the side of the house of Joseph Gunther. A corner of the Hyland House, one of the largest buildings in the village, flapped up and down like a canvas but was not blown off.

Plate glass windows, buggies, boxes and everything portable were sent flying through the streets.

At Cheese Cohocton there was a cloudburst, and the wind uprooted many fruit and shade trees and did great damage to growing crops. Streets were obstructed by large trees falling across the roadway. The store of W. I. Van Doer had the upper part of the front torn away and hucled to the ground. Thousands of bushels of apples lie on the ground fit only for evaporators and cider mills.

Steamer Lost Hurricane Deck.

Ithaca, Aug. 26.—The city of Ithaca is without lights, street cars and telephone service as the result of a storm. Giant trees lie across the streets and buried beneath are electric light, trolley and telephone wires.

The storm struck the city about 9 o'clock and lasted only 10 minutes, during which 2½ inches of rain fell. A gale swept the rain in sheets before it.

A score of small boats anchored on the lake were driven on the beach at Renwick. The steamer Agnes coming to Ithaca with a load of passengers lost her hurricane deck but docked at Renwick safely.

All Wires Blown Down.

Binghamton, Aug. 26. — A severe wind storm did much damage here. For several hours this city was shut off from telegraphic communication east and west, communication with New York being interrupted for five hours. Tree branches blown on to the wires caused the trouble.

At Deposit a building was unroofed and the electric light and telegraphic service were crippled. At Sidney a house was destroyed by lightning. At Susquehanna much minor damage was done and all wires blown down.

The wind reached a velocity of 32 miles an hour in this city.

Panic in a Theater.

Newark, N. J., Aug. 26.—During a heavy thunderstorm the lights in Blaney's theater were suddenly extinguished and the audience, composed mainly of women and children, became panic stricken and rushed for the fire escapes. Many women fainted and were trampled on. Florence Heirigel, aged 6, fell from a fire escape platform and was probably fatally injured. No one else was seriously hurt.

Damage at Kingston.

Kingston, N. Y., Aug. 26.—A severe electrical storm passed over Ulster county yesterday afternoon, doing a large amount of damage to crops and trees. Kingston is almost entirely cut off from outside telephone and telegraph communication.

Heavy Loss to Fruit Growers.

Farmer, N. Y., Aug. 26.—A terrific wind storm yesterday afternoon played havoc with the apple crop. Telegraph and telephone poles were blown down. The loss to fruit growers will be enormous.

SCAFFOLDING FELL.

One Man Killed and Lives of Two Others Wonderfully Saved.

New York, Aug. 26.—From an insecure position on a window sill, 90 feet from the ground, George Brunner saved his brother, Edward, from being dashed to death on the courtyard below from the fall of a swinging scaffold.

William Carpenter was instantly killed and the lives of two brothers were saved only by the great strength and agility of George Brunner, who caught and held his brother with his left arm while clinging to the sill with his right.

Three men were painting public school No. 51 and had suspended a scaffold from the roof. A chimney from which one end of the scaffold was hung gave way and Carpenter dropped and was killed. Edward Brunner fell past the window in which his brother was standing. With one arm Edward grasped his brother and clung with the other to the window sill. Then with a desperate effort he grasped the suspending rope down which he and his brother slid to the ground.

FRATERNAL CONGRESS.

Represents 166 Societies Distributing $1,000,000 a Week.

Milwaukee, Wis., Aug. 26.—The annual convention of the National Fraternal Congress is in session here. President J. A. Langfitt in his annual report stated that almost 20 millions of people are directly interested in the fraternal system.

The members are grouped in 166 societies, and the present rate of distribution of benefits is over $1,000,000 a week.

During the past year the gain in membership has been phenomenal. Dr. Ononhyackha of Toronto made a brief address.

A. O. U. W. Assessments.

Buffalo, Aug. 26.—An appeal has been sent to the National Fraternal Congress by the committee appointed by the veteran members of the A. O. U. W. urging that its influence be extended to secure a reconsideration of the matter of rates. The final report of the Buffalo committee is to be presented September 1st.

Senator Hanna Ill.

Cleveland, O., Aug. 26.—Senator M. A. Hanna, who has but recently returned from a several weeks vacation, was taken ill at his office and a physician after an examination said he was suffering from stomach trouble. Senator Hanna immediately left for his home and is reported to be somewhat better. The heat aggravated a minor complaint. The senator may not be able to take an active part in the state campaign as he had anticipated.

England's New Battleship.

London, Aug. 26.—The Princess Louise (Duchess of Argyll) today launched the battleship Dominion, at Barrow. The Dominion is the last of the three ships known as the King Edward VII class. When completed the Dominion will have cost $6,500,000.

Reached Her 100th Birthday.

Syracuse, N. Y., Aug. 26.—Mrs. Salina Trussdell of Skaneateles Junction reached her 100th birthday today. Her grandfather was one of the settlers of Amherst, Mass. Her memory for distant events is remarkable and her faculties are fairly good.

Weather Indications.

Fair Wednesday; fresh north winds; Thursday, fair and warmer.

Municipal Lighting in Cleveland.

It appears that the city of Cleveland has undertaken to go further than either Chicago or Detroit in the operation of a municipal electric lighting plant. It proposes to supply light and power to private consumers and not merely to light the streets and public buildings. The project formed one of the planks in the platform upon which Mayor Johnson and a majority of the council were elected in the spring, and one of the first acts of the new administration was the introduction of an ordinance providing for the issue of $200,000 in bonds for the erection of the required plant. The ordinance met with a temporary defeat in the council, but there is apparently a strong majority favoring the experiment—very nearly the necessary two-thirds.

The opposition was strengthened by a report made by a special committee of the Cleveland chamber of commerce, which condemned the measure on the ground that municipal electric lighting was neither a proper city function nor a success; that the cost would exceed the estimates, and that the project was in the nature of unfair competition with a private company. The report further adding that ample power exists in the council, through its ability to control rates and charges, to accomplish any results which might accrue through a municipal plant.

At a recent meeting of the council Mayor Johnson proposed that as the opposition to the electric lighting ordinance was avowedly based upon the opposition of the public the matter should be submitted to the voters at a special election. After some opposition this method of settling the problem was accepted, and the special election is to be held soon. At this election a two-thirds majority of the voters must favor the experiment or it cannot be tried. The results of this election will be watched with keen interest by the public, which is just now giving not a little attention to the various phases of the question of municipal ownership of public utilities.

It is hardly to be considered that John Howard Bridge's "History of the Carnegie Steel Company" will be regarded as popular reading for the patrons of the Carnegie libraries.

To preserve the equilibrium of things coal is preparing to go up as the mercury gets ready to fall.

Have You Eaten "Ze"?

There are so many "ready to eat" foods on the market now that one hardly knows how to distinguish between them. **"Ze"** should not be classed with the others. There is no other that compares with **"Ze"**, as one trial will convince you. **"Ze"** is more healthful, strengthening and tastes better. Made by a new process and ready to eat by adding milk. Get a package to-day at your grocers.

SUPPORT

SCOTT'S EMULSION serves as a bridge to carry the weakened and starved system along until it can find firm support in ordinary food.
