COMMERCIALISM.

The word coined so recently has been abused in every phase of its use. It has been applied to legitimate enterprise until every business enterprise has been put under the suspicion of undue pushing and men have become wary unless they be accused of Commercialism. After all, the truth is, business interests of our time have become so important a factor in all questions submitted for public consideration that the alarm is uncalled for and the keenest test and brightest men are identified more or less with the enterprises that go to make for community growth and prosperity.

AND YET

This same spirit may enter into some conditions of our life that even our social conditions may be changed to the discomfort of the changers. An editorial in a Buffalo paper not long since made inquiry, why we wore no longer the light colors in clothes that a few years since, were conspicuously the harbingers of spring and sunshiny days. Why do we dress in black? Is it because the more sombre clothes are economically the best? And yet, the passing away of the colors in clothes for men has not, and is not, an expression of commercialism. It's the evidence of thoughtfulness, the fact that men consider life more seriously now than in days past, and perhaps it's better so.

IT'S THE TRUTH

That all these problems are met now by men who think not only of present conditions, but the things they may meet in the future. Thus it is that the new conditions that are bound to come to Andover are going to make the people more thoughtful, earnest, and above all active. The questions that come will be decided more quickly and perhaps the spirit of commercialism entering in may help in the increase of wider, public spirited action.

LET US DO IT.

The advent of the days of sunshine that will reveal many dark spots in village buildings and surroundings that will be the better cleared up. No need to have unpainted, weather stained buildings, streets littered with refuse and sidewalks strewn with papers and rubbish. A little cleaning by each owner means the adornment of all the streets and alleys of our village. A good clean up may leave impressions to the visitors who come, of the progressive, careful spirit of the residents and may be a large factor in in the growth of the village. Clean up around. Let's do it now.

THOSE SIDE-WALKS.

Last year the Board of City Fathers took long steps when the grade was established and some of the sidewalks were put in excellent shape and yet there is much to be done. Going thru some streets where some walks are up and others down, it gives the impression to the observer of the tramping of a camel, up and down, up and down and it's a fact that many have stumbled, some have been injured and if the "Fathers" are not careful there may be suits against the village that will cost more than the expence of building all the walks on one level and there are some holes that endanger life and limb. Why not get to work on the sidewalks.

OVER THERE

That means on the flats where they are digging for the new silk mill. It just looks like business and the committe of twenty men will find plenty to do watching the building of the new mill and school building will all tend to make an activity of mind, widen thought and mean the future change that will bring some of the valuable spirit of commercialism into the prosaic lives of the setters.

WHAT A WONDER

That no one has taken up the work of beautifying our pleasant little village. It is time that the spirit of commercialism has brought about the I don't care feeling in regard to "beauty." Now the fact is that all of the conditions are such that our time in new adornment would help the aesthetic. Those bridges. Why not paint them another color than the dull red. Say a cream color, that would liven up the aspect and be a step toward the beautiful.

"PERHAPS"

That perhaps some one else will do it is the first step in "procrastination." Procrastination, according to the old adage, is the theif of time. I might be well to get started and let some of the older ones enjoy the privileges that come. If the younger men are to continue in the push, why not push it now and "perhaps" the spirit of resolve will enter into every part and department of village life.

Letter to Mark Houghtling.

Dear Sir: We hear you're doing a good business, and we know already, without you telling us, that you use good paint and do good work. We've got a big business too—been at it 140 years—making good paint, best paint in the world, Devoe lead and zinc.

"Fewer gallons and wears longer"—that's the reason in short. It takes fewer gallons of Devoe lead and zinc than of mixed paints to cover a house, and it wears longer than lead and oil or any mixed paint.

Smith & Wilber, Cambridge Springs, Pa., write:

One of our painters says Devoe is the best paint for a painter to use when taking work by the job, as it goes farther and covers better than any paint he ever used.

Here's the experience everybody has with it. The dealer who sells Devoe gets the bulk of the paint business of his town. The painter who paints Devoe gets the painting of his town.

Yours truly,
F. W. DEVOE & CO.,
New York.

P. S.—E. J. Atwood sells our paint.

New Hats.

The well dressed man is careful in the selection of his Hat. Not any one style of Hat is becoming to everybody. A man may be faultlessly attired in other particulars and spoil it all with an unbecoming Hat. There has been a very decided change in shapes in both derby and soft Hats for men this spring. We now have all the new styles in both kinds. The new "Three-in-one" Soft Hat is a universal favorite with good dressers. We have all the sizes.

Men's Heavy Shoes.

We are showing this spring the most extensive line of heavy Shoes we have ever carried. There are some new ones. A heavy Shoe with a steel counter looks like a sensible arrangement, and at the price, $1.25, will be a big seller. The "Gateman's Shoe," a Shoe with a record, is another of the new ones that deserves special mention. Read the affidavit of John L. Pratt, one of the wearers of this Shoe. The "Buccaneer Shoe" and "Seamless" Shoes have stood the test of years, and have never been found wanting. We aim to sell only Shoes that give satisfaction. The best for the money. A steadily increasing Shoe business each year is proof that we are doing it. We guarantee full value in every Shoe we sell.
