The Point that Tells

Is not what you say about a thing but what the thing is itself. "Tef" the cereal that tastes good, does it's own talking. "Tef" is made from nutritious, strength-giving, brain-helping grains. Over-Work Weakens Your Kidneys.

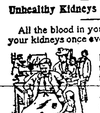
Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.



The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is overworking in pumping thick, kidney poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that almost all constitutional diseases have their beginning in kidney trouble.

If you are sick you can't be well until you put your kidneys in healthy condition, by first doctoring your kidneys. Then, and the extraordinary medicine is Dr. Kilmer's Swamp-Root, you will be pleased with the results that follow. It stands the highest for its wonderful success in the worst cases, and is sold on its merits by all druggists in fifty cent and one-dollar sizes. You may have a sample bottle by mail

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BELMONT'S MYSTERY

A Prominent Allegany County Politician Missing.

HIS WHEREABOUTS UNKNOWN.

Melvin E. Horner, Postmaster of Belmont, and One of Allegany's Prominent Citizens thought to be in financial Trouble.

The disappearance, Saturday, April 4th, of Melvin E. Horner, from his home at Belmont, has been the chief topic of conversation in Allegany county the past week, yet there is practically nothing known of the truth in the case as yet, more than that his whereabouts is unknown.

He left home Saturday, leaving his Belmont friends to understand he was to go to Fillmore on business. It now appears that he went direct to Olean, and stopped at a hotel near the Pennsylvania depot, remaining there until evening, when he left for Buffalo, where he drew a check at one of the banks and sent home. His family and friends are much worried over the matter, believing him suffering from a temporary derangement of mind.

As is always the case when such affairs come out, stories of all kinds are in circulation regarding financial troubles, but as yet nothing of the kind has been absolutely proven. The affairs of the post-office at Belmont, of which he was postmaster, are reported by the deputy postmistress as being in good shape.

Tuesday evening, Geo. Horner, his son and Eldyn Reynolds went to Olean on train 101, and from there went to Buffalo Wednesday. Other friends joined them at Buffalo on Wednesday, but no clue to his whereabouts was learned. It is the belief that he was in financial straits, and rather than face his creditors, decamped.

Mr. Horner is well known thruout the county, not only as a leading Republican politician but as a hustling business man, engaged in farming, lumbering and speculation of various kinds. The conclusion of his friends is that he has overworked and exhausted his physical powers, and that with the strain and anxiety of carrying so many business problems and risks, has rendered him demented. A little rest is hoped will restore him to his normal condition.

LEFT THEM A CHILD.

"My Name is William" was all the Information Left for Identification.

Fillmore Observer:

Some time Wednesday night, Mrs. W. S. Voorhees of Fillmore heard a noise at the door and on looking out she discovered a basket in which was an infant. Further examination revealed a card on which was written, "My name is William. I was born Feb. 4, 1903. Take good care of me." In the basket with the child were some baby clothes and two nursing bottles which contained Mellin's food. The child is a bright, plump boy, and Mr. and Mrs. Voorhees are seemingly well pleased with the transaction, having no children of their own. No one has yet offered any explanation as to who are the parents of the little waif.

SEVERE ATTACK OF GRIP

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with a bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. It thinks kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when a coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a quiet, agreeable surgeon is putting it very mildly. I had no idea that it would so soon knock out the grip, simply because I never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy acted at 10 o'clock, half an hour before the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bed me down." For sale by O. E. Vars & Son, Andover, and N. E. Coston, Greenwood.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

TUSKEGEE INSTITUTE

Substantial Gifts Received at Meeting in New York.

MR. CLEVELAND CHIEF SPEAKER.

Former Chief Magistrate Strongly Endorsed Work of the Institute—Necessity of Fitting Negro to Compete With His White Neighbors—Confidence in Help of Southern Men.

New York, April 15.—Former President Grover Cleveland was the principal speaker last night at a meeting held in the Concert hall of Madison Square Garden in the interests of Tuskegee Normal and Industrial Institute.

Among those on the platform with Mr. Cleveland were Mayor Low, who presided; Booker T. Washington, Edgar R. Murphy, Dr. Lyman Abbott, President Nicholas Murray Butler, Dean J. Van Amring of Columbia; W. H. Baldwin, Chancellor McCraken of New York university; John DeWitt Warner and George F. Peabody.

Mrs. Cleveland sat in the gallery with Mr. and Mrs. Andrew Carnegie, who are Mr. Cleveland's hosts while he is in the city.

Mr. Cleveland, who was greeted with prolonged applause as he was introduced by Mayor Low, said:

Sincere Friend of the Negro.

Ladies and Gentlemen—I have come here tonight as a sincere friend of the negro; and I should be very sorry to suppose that my good and regular standing in such company needed support at this late day either from certificate or confession of faith.

Inasmuch, however, as there may be differences of thought and sentiment among those who profess to be friends of the negro, I desire to declare myself as belonging to the Booker Washington-Tuskegee section of the organization. I believe that the days of Uncle Tom's Cabin are past. I believe that neither the decree that made slaves free, nor the amendment that suddenly invested them with rights of citizenship, any more purged them of their racial and slavery-bred imperfections and deficiencies than it changed the color of their skin.

I believe that among the nearly nine millions of negroes who have been interwined with our civilization there is still a grievous amount of ignorance, sad amount of viciousness and a tremendous amount of laziness and thriftlessness. I believe that these conditions increasingly present to the white people of the United States, to each in his environment and under the mandate of good citizenship, a problem which neither enlightened self-interest nor the higher motive of human sympathy will permit them to put aside.

I believe our fellow countrymen in the Southern and late slave holding states, surrounded by about nine-tenths, or nearly eight millions of this entire negro population, and who regard their material prosperity, their peace and even the safety of their civilization, interwoven with the negro problem, are entitled to our utmost consideration and sympathetic fellowship.

I am thoroughly convinced that the efforts of Booker Washington and the methods of Tuskegee Institute point the way to a safe and beneficent solution of the vexatious negro problem at the South; and I know that the good people at the North, who have aided these efforts and methods, have illustrated the highest and best citizenship and the most Christian and enlightened philanthropy.

I cannot, however, keep out of my mind tonight the thought that with all we of the North may do, the realization of our hopes for the negro must, after all, mainly depend, except so far as it rests with the negroes themselves, upon the sentiment and conduct of the leading and responsible white men of the South and upon the maintenance of a kindly and helpful feeling on their part towards those in their midst who so much need their aid and encouragement.

Southern Aid to Negroes.

I need waste no time in detailing the evidence that this aid and encouragement has thus far been generously forthcoming. Schools for the education of the negro children and institutions for their industrial training are scattered all over the South and are liberally assisted by the Southern public and private funds. So far as I am informed the sentiment in favor of the largest extension and broadest influence of Tuskegee Institute and kindred agencies is universal and I believe that without exception the negroes who fit themselves for useful occupations and service find willing and cheerful patronage and employment among their white neighbors.

The man who is beyond doubt the best authority in the world on the prospects of the negro race, he who founded and is now at the head of Tuskegee Institute, and is the most notable representative of negro advancement, said at the Atlanta exposition in 1895: "And in this connection it is well to bear in mind that, whatever other sins the South may be called to bear, when it comes to business pure and simple, it is in the South that the negro is given a man's chance in the commercial world, and in nothing is this exposition more eloquently confronted with the question of the negro's full enjoyment of civic advantages or even of all his political privileges, there are immediately before us and around us questions demanding our immediate care, and that, in dealing effectively with these, we can confidently rely upon the encouragement and assistance of every thoughtful and patriotic citizen of the land wherever he may live and whatever may be his ideas or predilections concerning the more remote phases of the negro problem.

THE MAGNIFICENT OPENING

T. G. Wooster & Bro., Hornellsville's Department Store Formarly Opened.

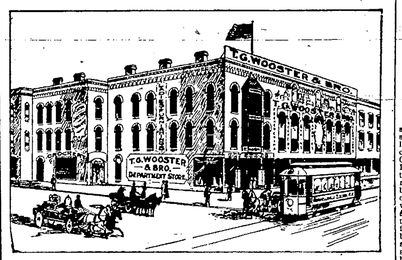
OCCUPIES THREE FLOORS AND BASEMENT.

Thousands of People Passed Through the Large New Store, and To Judge from Their Expression as They Left the Building They Were More Than Pleased.

The new department store of T. G. Wooster & Bro., at the corner of Main and Seneca streets, Hornellsville, was formarlly opened to the public Friday and Saturday of last week.

The store occupies three floors and a basement of the old Rewalt building as well as the large Metropolitan Hall just below. It was a great undertaking on the part of the Woosters to try to build a store practically from the ground, move a large stock of goods into it and continue business at the same time, but they did all three and were very successful.

The store has given room for the addition of a dry goods department to the already large store. The firm now handles dry goods, furniture, carpets, wall paper, and all kinds of interior decorations in addition to the manufacture of its own parlor furniture, and carrying on of a large and growing undertaking business.



Hornellsville is full of progressive men, but there are none more so than the members of the firm of T. G. Wooster & Bro.

It is well to bear in mind that, whatever other sins the South may be called to bear, when it comes to business pure and simple, it is in the South that the negro is given a man's chance in the commercial world, and in nothing is this exposition more eloquently confronted with the question of the negro's full enjoyment of civic advantages or even of all his political privileges, there are immediately before us and around us questions demanding our immediate care, and that, in dealing effectively with these, we can confidently rely upon the encouragement and assistance of every thoughtful and patriotic citizen of the land wherever he may live and whatever may be his ideas or predilections concerning the more remote phases of the negro problem.

Doan's Kidney Pills

Relieve the aches of a bad back promptly—cure all Kidney and Bladder troubles.

Mr. Howard D. Jotton, of 1815 Grape street, Hamilt at Collins' shop, Onondaga street, Syracuse, N. Y., says: "I became lame and sore across the loins so that I could scarcely get around. Mr. N. H. Cowles, my employer, advised me to try Doan's Kidney Pills, but I paid no attention. I kept growing worse, and, as tinning roof after roof is very hard on a man's back, I got so bad that I resorted to remedies. Those I tried did me no good, so I went to Mr. Cowles and asked him what he advised me to get, as I had forgotten the name. He said: 'Doan's Kidney Pills will fix you up all right, for they cured me; but you must give them a good, fair show, and take two or three boxes if it is necessary.' Well, I got them, and I felt better by the time I had used half of the first box. Three boxes cured me, and I have not been troubled since."
