Five cents a line, each issue, will be charged for resolutions and business notices.

Copy for change of display advertisements must be in the office Tuesday noon to insure change the same week.

The District School. Arbor day will soon be around again. Usually some exercise of singing and speaking around a tree are the results. Why not be practical? Clean up around the school. Plant more than one tree. Let the residenters of the district make a "bee" and help improve the sanitary and other conditions. The teacher in the rural school is usually a man or woman of ability and recourse. There is no grading. The scholars hear each other recite and learn a great deal in that way. The children become a little family that delight the teacher, and call out all the best that is in him or her. Now they need encouragement, and no happier way could be devised than for parents and children in one family tree to improve the surroundings of the school house, and next arbor day is a good time to begin.

Tariff Reform. The hue and cry for a tinkering with the tariff was ably answered by Secretary Root in Boston, not long since:

"The question is not whether under some other law we might or might not have become prosperous, or whether under some other law we may or may not in the future attain prosperity. It is that the prosperity we have now, to-day, is the prosperity of productive industry, which has adjusted itself to the conditions that the Dingley law has created, and the stability of these conditions is essential to the continuance of the present period of prosperity."

Prosperity is here. Everybody has and is a partaker of its benefits, and is satisfied with the present conditions. It is unwise to tinker with any law that will change existing prosperous conditions. There are always the "outs" crying to get "in," even if it be over the debris caused by their own calamity cries

The Merger Decision. The United States Government commenced an action against the Northern Securities Company, the Northern Pacific and Great Northern Railways and individual officials and directors of those companies. The Circuit Court of Appeals has handed down a decision sustaining the action brought by the United States Government. This decision makes the merging of railroad companies illegal, and what the result will be, even the keenest observers of the financial world are unable to tell. The large corporations that have been doing business under combinations of various enterprises must be affected by the decision. The steel trust must feel the effects. Former Attorney General Griggs says it means chaos, and he holds it covers all railroad consolidations and other combinations. However, it's well to wait and see. It certainly is true that the fact is that those who have been howling against the trusts will probably wonder how it was that such a decision was secured, and it is evident also that the strong bulwark of defense and justice of the American people are the courts.

When you think that the village has cared for itself without bonding, the management is to be congratulated. Yes, but you say, the water bonds. Well, they are caring for themselves, paying interest and part of the principal, too. New comers to Andover will not come to a bonded village, and that's well.

A newspaper report says they have found George Washington's little hatchet in an old house in Fredericksburg, where his mother lived and died. The hatchet was all covered with rust. Queer, isn't it, that it should turn up at this late day? Wait and watch for other originals (?).

Those record breaking gunners in their practice with the 16 inch shells the last week or two will make foreigners have more respect for the Monroe doctrine than forty diplomatic notes.

THE PRESIDENT'S TOUR.

The daily papers have kept our readers informed of every move of the President on his extended tour. Nothing but a "strenuous" tour could be undertaken by so active a man, and so he proposes to travel for six weeks and will probably in that time cover a larger number of miles than that covered by any chief executive on a like trip. President McKinley used these trips for getting in touch with the people, and Roosevelt, with a straight forwardness and frankness, is stating the position of the administration on leading questions in no uncertain terms. From his address in Chicago, foreign nations well know our position, and the "American Eagle will rest more easily on his perch." He said:

"I believe in the Monroe doctrine with all my heart and soul; I am convinced that the immense majority of our fellow countrymen so believe in it; but I would infinitely prefer to see us abandon it than to see us put it forward and bluster about it and yet fail to build up the efficient fighting strength which in the last resort alone can make it respected by any strong foreign power whose interest it ever may happen to be to violate it."

That's good American frankness, and while it may cause a few cold chills to some backbones, there's no bluster, but a careful, dignified statement worthy of the Chief Executive of the American people.

On the trust question at Milwaukee he gave utterance to the following:

"The law is not to be administered in the interest of the poor man as such, nor yet in the interest of the rich man as such, but in the interest of the law abiding man, rich or poor. We are no more against organizations of capital than against organizations of labor. We welcome both, demanding only that each shall do right and shall remember its duty to the republic. Such a course we consider not merely a benefit to the poor man, but also a benefit to the rich man,"

And thereby gave an indication of his strong common sense and his statesman like idea of a great question that will find its solution in the steering of the Ship of State without destroying the foundation of a free government by the people. The President is evidently taking the people to his heart, and the people approve the wisdom of such a course.

That Cheese Question. The Liquor Dealers' Association have decided to form a boycott on the cheese and other products of the farmers of this state. This is caused because the ire of the saloon keepers was aroused by the increase in the license tax. They hope thereby to influence the country vote against the Governor and the party, and thereby defeat the election of Assemblymen from the rural districts. The fallacy of such a plan is evident. The up-state voter believes and always will, that a large amount of the tax is caused by the product of the saloon, and the men in that business should pay the tax. The up state voter does not decide his choice on election day. He has carefully considered the question of taxation, and will always stand by the men or party that reduces his taxes. If the increase in tax will decrease crime and poverty and expose some of the "bogus" cheese that comes from other states, and passes as "York state cheese," the Republican party will be the winner. "Let the boycott go on."

A little more light on the steeets. A grouping of the lamps and more lights in the store windows would give our village quite an air of prosperity during the dark nights.

There was no drawback on the propositions put before the voters. The road in the narrows will be made safe, and the water main extended. The measures were put thru with business like majorities.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SOME THINGS LOCAL.

The people are to be complimented on the progressive and square spirit shown in the carrying out of the silk mill proposition when it was realized that $10 was guaranteed to the proposition by each (or an equal of that) man, woman and child within the corporation limits. Some of our neighbors looked dubious and thought it could never be raised, but be it said to the credit of Andover, nearly every one met the obligation when due, and did it with a heartiness that was commendable. Andoverites are just beginning to realize the possibilities that are within reach, and the same spirit manifested in every good work, means a "Greater Andover" with a citizenship noted for its squareness, and the end is not yet. Other industries will find their way here. Outside capital will seek investment, and Andover's growth will be on the foundation of the integrity of her citizens.

"Our Jesse." Assemblyman Phillips is making a fine record for himself and is a credit to his constituency. It isn't always the man who shoots off rhetorical fireworks and gets his speech reported that is serving best his district. It's business down at Albany, and our Assemblyman is sticking to it.

Keeping House for the Brain.

The brain is an exacting tenant. Its house must be kept clean and fresh or there will be trouble with the landlord. The brain needs a constant supply of good wholesome food. "Ize" the new cereal, tastes good and supplies the nourishment needed, because "Ize" is made from brain strengthening grains, invigorates the tired system and kindles activities. You will like "Ize" at any meal. Grocers sell it.

CAREFULNESS IS OUR STUDY.

Our constant aim is to see that you are pleased. If somebody is going to make you a suit, we want to do the making. That's the whole story in a small space.

We give you the best work that skilled workmen can give and offer you a choice of fabric and a range of prices that will meet your every want. To-day would be a good time to look.

Raise the Rent.

If you think the town's a-comin',
Raise the rent,
Industry's wheels are humpin',
Raise the rent,
Your capital's invested,
The "boom" can't be arrested,
Be sure that you're not bested,
Raise the rent.

When you see you've got a "cinch,"
Raise the rent,
No matter who you pinch,
Raise the rent.
If they cannot raise the cash,
Be sure that you're not rash,
The "boom" can go to smash,
Raise the rent.

Though you drive them all away,
Raise the rent,
Though it's more than they can pay,
Raise the rent.
Though you know the golden rule
That you learned at Sunday-school,
Of course you're not a fool,
Raise the rent.

Don't take any one's advice,
Raise the rent,
Be sure you get your price,
Raise the rent;
And after you are dead
Of you it will be said,
That "boom" it turned your head,
You raised the rent.

A JUDICIARY BILL.

ASSEMBLYMAN PHILLIPS INTRODUCES ANOTHER BILL.

Looking to Arrangement of Salaries of Supreme Court Justice.

Under the above head the N. Y. Sun has the following.

"Mr. Jesse Phillips, of Allegany county has introduced into the Legislature a bill, the principal provision of which is as follows.

There shall be allowed and paid to each of the trial Justices of the Supreme Court in this State, except those resident within the first or second department, the sum of $2,500 annually, to be paid to the Treasurer upon the audit and warrant of the Comptroller in equal monthly installments at the end of each month, in full for his actual and necessary expenses and disbursements paid or incurred by him while in the discharge of his duty outside the county in which he resides, instead and in lieu of the allowance now made by Chapter 431 of the Laws of 1900."

And then continues to explain the bill on the ground that it goes far to remedy the evil that exists in the willingness of country Justices of the Supreme Court to go to the Metropolis, where they receive larger compensations than at home. The demands officially and socially are so much greater than at the time when the compensation of the judges was fixed. The cost of living is more expensive and the services so much more laborous that it is well to equalize and pay the more justices to the Supreme court a compensation worthy of the times of their services and not that of the "Fallow dip" or "Country Tavern" day when the present salaries were established. The Editorial of the N. Y. Sun closes with this statement.

We think that the bill introduced by Mr. Phillips is the best cure that has thus far been suggested for the existing evils and that it should become a law.

RESULT OF SPECIAL ELECTION.

BOTH PROPOSITIONS CARRIED BY LARGE MAJORITY.

Andover People Will Extend Their Water Line to the Silk Mill, and Pile the Narrows.

The vote on the question submitted to the electors at a special meeting Thursday afternoon was light but the result was well pleasing to the greater portion of our citizens.

There were but 47 votes cast, one of which was spoiled in marking. Out of the remaining 46 votes, 44 were for extending the four inch water main from Baker street to a point opposite the Silk Mill and two against such an extension.

The matter of piling the narrows received 87 votes for it and eight against and one blank.

A feature of the election was the voting of several ladies.

CLOTHING

CLOTHING

The men who want the best to be had in ready to wear Clothing, and at a moderate price. The men who appreciate the little things that combine to give to a Suit, a pair of Trousers, or an Overcoat, that distinctive style and up-to-date appearance that characterizes the well dressed man. To these we extend this week a special invitation to visit our Clothing Department.

After carefully considering nearly every well known line of manufactured Clothing on the market, we have selected a large portion of our Spring and Summer Suits from the line manufactured by one of the most reliable clothing establishment in the country.

The H. H. Cooper Co.

They are not only leaders in style, but every garment is guaranteed to be honestly made thruout. Unscrupulous manufacturers in these days of sharp competition are weaving in shoddy and cheap grades of wool, which are almost impossible to detect at sight, but which soon come to the surface when the garment is worn. This kind of Clothing is made to sell, not to wear.

We sell Cooper Clothing with a guarantee that means what it says. "YOUR MONEY BACK IF NOT ENTIRELY SATISFACTORY." The prices thruout the entire line are from one to three dollars per Suit below any other line we have seen. Don't pay $10 for a Suit you should buy for $8, nor $12 for a Suit you should buy for $10, and so on to the end of the chapter. Compare this Clothing and the prices with other kinds. You will soon be convinced as we have been, that it's the best to be found and the prices the lowest. In materials the line includes Cheviots, Homespuns, Undressed Worsteds, Black and Blue Serges, Cassimers, etc. Our spacious clothing rooms on the second floor have never presented a more attractive appearance. Visit this department before selecting your Spring Clothing.

Cravanette Rain Coats.

The Cravanette Water-proof Rain Coat is one of the most sensible garments manufactured. It is fast taking the place of the light Overcoat, as it answers the same purpose. It is absolutely water-proof. We are showing a nice line of these coats. We sell the regular $12 Coat for $10. The regular $15 one for $12.

We Always Pay the Highest Prices for Butter, Eggs, and All Kinds of Produce.

A. M. Burrows & Son.
