The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of worn out tissue. This waste cannot be repaired and vigorous health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, their strength is lowered and health gives way and disease sets up. Kodol Dyspepsia Cure relieves the stomach and digestive organs so that all the wholesome food that may be eaten can be digested and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia, flatulence, sour stomach, heartburn, etc. Sold by O. E. Vars & Son, Druggists.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sluggish or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake but remember the name, **Swamp-Root**, Dr. Kilmer's **Swamp-Root**, and the address, Binghamton, N. Y., on every bottle.

DIED AT WELLSVILLE.

The Passing Away of Mrs. Margaret Cole Decker.

Mrs. Margaret C. Decker, wife of L. Mack Decker, passed away at her home in Wellsville, Sunday evening, May 3rd. She was a daughter of Asher P. Cole of Brooklyn. The deceased leaves a husband, father and sister, Miss Irene, of Brooklyn. She has made Wellsville her home for the past few years, and will be greatly missed by her friends and associates, by whom she was dearly loved. The funeral was held from the house Wednesday afternoon, Rev. Geo. Barber of Chester, N. Y., and Rev. George A. Dryer, pastor of the M. E. church, officiating.

From that village the officials drove to Angelica, inspecting the construction work on the line between Bolivar and Angelica while enroute.

HOT FIRE WITH NO WATER.

THE RESIDENCE OF W. W. MERRIMAN DESTROYED BY FIRE.

No Insurance was Carried, and the Loss on Building and Contents will be Sorely Felt.

Fire destroyed the residence of W. W. Merriman of Belmont and a large quantity of the household goods Sunday morning. There being practically no water pressure on the Belmont water system, the valiant efforts of the Paul and Reynolds Hose Companies were of no account, and they simply had to stand by and see the property destroyed. There was no insurance, as the policy of $600 on the building and $300 on the contents had expired Friday, and the insurance men would not re-insure until repairs were made.

Mr. Merriman occupied one part of the house and Geo. Van Fleet the other portion. The houses of John Dean and Reuben Travis were several times set on fire from the sparks, but the hose companies managed to save them by carrying water in pails.

Death of a Cuba Citizen.

Word has been received by the family and friends of Orlando J. Warren, for many years a resident of North Cuba, that he was dead at Spokane, Washington. About three months ago Mr. Warren left this county for Spokane, and shortly after arriving there fell and broke his limb, and has been confined in a hospital since that time. He was born in North Cuba in July, 1854, and was one of the best cheese and butter makers in that vicinity, being in charge of the North Cuba Creamery for many years. He leaves a wife, one son and one daughter. Mrs. Warren is a sister of Mrs. M. A. Crandall of this town.

THE GRANGE

Conducted by W. DARROW,
Press Correspondent New York State Grange

"ALWAYS A GRANGER."

The True Purposes of the Grange Should Be Made Known.

A few days ago, in conversation with the master of a grange we had just organized, says a writer in Farm and Fireside, he said, "Why, I've always been a granger, but didn't know it." That one pointed remark aptly answers the question so often asked by grange workers—why men and women whose sympathies are in line with ours do not unite with us. This man was progressive, anxious to secure for his family and friends the very best advantages possible, but felt powerless alone. In the grange he found others desired the same things he did and discovered the chain of sympathy that binds men together the world over.

"But I have explained the objects of the grange many times," the worker protests. True. So have I, and I often find myself indulging in stock phrases and stereotyped expressions that convey but little to my hearers. First find the ambition of the one you seek to convince, and if the grange will aid him show him so in terms he will appreciate. The hearts of the best people on our farms are with us did they but know the true meaning of the grange, and we owe it to them and to ourselves to secure their allegiance. There are thousands of excellent men and women who have "always been grangers" who are out of the order because they have no accurate knowledge of what its true purposes are.

HON. E. B. NORRIS.

Master New York State Grange and Chairman National Executive Committee.

The chairman of the executive committee of the national grange and a member of the legislative committee of the same body must be a man of force and ability. Such a position is held by such a man in the person of E. B. Norris of Sodus, N. Y., who is also master of the New York state grange, a body representing 70,000 members.

Brother Norris was a charter member of Sodus grange, No. 73, having thus a connection with the Order of about thirty years. He was master of Sodus grange about fourteen years, also master of the old Wayne county council

HON. E. B. NORRIS.

two years, was elected master of the New York state grange in 1898 and is now serving his third term. He is also chairman of the legislative committee of New York state grange and serving the third term as such. He was elected to the executive committee of the national grange in 1899 and to the chairmanship a year later. For three years past he has been on the national grange legislative committee. He is always found advocating the advancement of the Order of Patrons of Husbandry and the education of the agricultural class to a higher conception of their calling and a keener sense of their responsibilities as American citizens.

ORIGIN OF THE GRANGE.

Some Historical Facts Concerning the Organization of the Order.

From the Michigan Patron we take the following historical facts relating to the institution of the Order of Patrons of Husbandry:

The first subordinate grange was organized in Washington the 8th day of January, 1868, as a school of instruction, with William M. Ireland as master.

The first dispensation for a grange was granted at Harrisburg, Pa., the 4th day of April, 1868, but the first regular subordinate grange to which a charter was issued was organized at Fredonia, N. Y., the 16th day of April, 1868.

The first state grange, that of Minnesota, was organized the 23d day of February, 1869. The new Order made slow progress up to 1872, only 257 granges having been organized in the entire country. During the year 1872, 1,105 were organized, and the Order had an existence in twenty-two states.

The first meeting of the national grange as a delegate body was held at Georgetown, D. C., the 4th day of January, 1873, with six of the founders of the Order and seventeen delegates present, representing eleven states. Six of the delegates were masters of state granges, and the remainder were deputies in the Order.

At the last session of the national grange twenty-seven states were represented by regularly appointed delegates, and the total membership is now about 600,000.

Vermont has eighty subordinate granges and a total membership of about 5,500, according to the last report of the state grange secretary.

There is great educational benefit in conferring the degrees well.

All the officers in North Brookfield (Mass.) grange are women.

CORONER'S INQUEST.

A Jury Determines That John Conroy Came to His Death by Accident.

Coroner Goff at Corning conducted an inquest in the death of John Conroy, the lad who was shot and killed while playing "Indian" near his home in Centerville last week. Coroner Goff, after investigating the case, decided that a formal inquest was unnecessary, but to satisfy the demands of several people, he decided to hold one. After hearing the evidence the jury rendered a verdict that young Conroy came to his death from purely accidental causes and completely exonerated Alfred Cole who held the weapon which discharged and caused the death.

A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay one cent for it," says C. P. Raeder, of Pattens Mills, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar and said, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for it cured me.'" For sale by O. E. Vars & Son, Andover, and N. E. Coston, Greenwood.

FELL OVERBOARD FROM A RAFT.

GIFFORD HOFFMAN DROWNED NEAR CORNING.

Was Paddling a Raft of his Own Construction Over Deep Pond.

While playing on a raft on a pond located on the Shaeffer farm near Corning, Gifford Hoffman, the thirteen year old son of Mr. and Mrs. Harry Hoffman, was drowned Saturday afternoon. The boy had gone to the farm to spend the day. He had constructed a crude raft which he was propelling from one end of the pond to the other. He fell overboard where the water was quite deep and was drowned. A dog which had been with the boy attracted the attention of some farmers, and they hurried to the place. Hoffman's cap was found floating on the water, bearing evidence of the accident which had happened. The body was quickly recovered, but life was extinct. A brother of the boy was drowned near Williamsport several years ago. The funeral was held Tuesday afternoon from the home of the parents.

"DUTCH" CHEESE POISON.

One Hundred People Suffered from Eating It.

Fully one hundred persons were poisoned Saturday at Painted Post and Coopers by eating cottage or "Dutch" cheese. Milkman Charles F. Jenks received a can of the cheese from the milk station at Addison, and visited his customers in the localities named above, and all who purchased it were taken sick soon after eating it. The doctors were all kept busy until near into the night, and in many cases serious results were feared, but luckily all are out of danger. One doctor alone looked after thirty cases. It is believed that the poison came from the cans not being properly cared for.

From the Greenwood Times

"SHALL WE SPRAY?"

This Question Well Answered by the Geneva Station.

"Shall Potato Growers Spray?" This is the question asked by Bulletin No. 221 of the Station at Geneva; and the figures given in the bulletin go far toward answering the query with a very strong affirmative. In seasons when blight and rot are very destructive, as they were in 1902 in nearly all parts of the state, there can be no question as to the profitableness of the use of Bordeaux mixture. The results at Geneva showed this very plainly; for spraying seven times, at an expense of about $10 per acre, gave an increased yield of 123¾ bushels of potatoes, and three sprayings increased the yield 98¼ bushels.

But growers generally think they cannot afford to pay the premium for disease insurance, thru spraying since rot and blight do not come, destructively very often. The results of the test on Long Island, tho, indicate that even in sections seemingly free from disease, the spraying does more than enough good to repay its cost. Both early and late blight were absent from the experimental era near Riverhead, Long Island, yet here spraying seven times gave a gain of 45 bushels per acre, and spraying three times a gain of 7¾ bushels.

Every potato grower should obtain this bulletin (which is free) and study it carefully.

Serious Illness of Peter Rollins.

Peter Rollins of North Main street is seriously ill of jaundice and heart disease and Tuesday his life was despaired of. Monday Dr. Jack of Canisteo was called in consultation but he gave very little hopes of Mr. Rollins' recovery. Mr. Rollins is one of our most highly esteemed citizens and his early recovery is the desire of all.

Too Great A Risk.

In almost every neighborhood someone has died from an attack of colic or cholera morbus, often before medicine can be procured or a physician summoned. A reliable remedy for these diseases should be kept on hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by O. E. Vars & Son, Andover, and N. E. Coston, Greenwood.

A New York man who suffered from epilepsy was bitten by a mad dog and cured. The Pasteur treatment cured the dog bite, and the dog bite cured the epilepsy, and the man is now well and happy. However, the case is not likely to produce a medical precedent. No man will voluntarily assume a case of epilepsy in order to let a dog bite cure him. Nor will he hunt far for a prononced case of rabies in the attempt to test the cure. And it may well be believed that an epileptic person who heard the cry of "mad dog" would get over the fence as quickly as the next man. Such is humanity's indifference to the illustrations of a beneficent science.

A syndicate of New York bankers will underwrite one-half of an issue of $30,000,000 5 per cent bonds for a London underground electric railroad. In view of the talk of "unwatered securities," it will be interesting to see how quickly these bonds are placed.

The Preparatory Department Will Open October 1st.

Easter Sunday dawned damp and cloudy, but the humidity of the atmosphere had no effect upon the pastor of the Presbyterian church of Jasper. For months he had been fostering a secret with the intention of disclosing it on that day, and it takes more than freaks of climate to turn Dr. MacCallum from his course; so before night the whole town was a-wag with excitement, and every one was telling his neighbor of the "McKinley Memorial School" that within the next six months was to spring into being in the little village.

As the matter was discussed further, there were many within the confines of the village who declared such an enterprise impossible, and many more from without, who drew themselves up, and, like people of old, asked, "Can any good thing come out of this place?"

Regardless of everything the work progressed, and Sunday, April 26th, there was a rally, with Francis Goff, LL.D., of Buffalo, and Dr. Roberts, President of the Elmira College, as speakers of the day. At this meeting there was given by the people of Jasper nearly $4,000 to buy the land upon which to place the buildings. About one hundred acres of land have already been bought, and the trustees have on option on several hundred more.

The idea seems to have grown that the school will give only an agricultural course. This is erroneous. The school is to consist of a preparatory department and a college department, offering respectively courses of the same value as the best preparatory school or arts college of the Eastern states. The farm and creamery are but a means to an end, namely, to allow young men and young women who are without the necessary funds for an education the opportunity to pay their expenses by service in the creamery or on the farm.

The preparatory department will be ready for work the first of October, and already the trustees have received numerous letters asking admission.

The Prospectus will soon be out, and all interested in the work of the "McKinley Memorial School" are referred to this booklet.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mrs. C. H. Van Metre of Shepherdstown, W. Va., says, "I had a severe case of Bronchitis for a year tried everything I heard of but got no relief. One bottle of Dr. King's New Discovery for Consumption then cured me absolutely." It's infallible for croup, whooping cough, grip, pneumonia and consumption. Try it. It's guaranteed by O. E. Vars & Son, Druggists. Trial bottles free. Regular size 50c and $1.00.

A Startling Test.

To save a life, Dr. T. G. Merritt, of No. Mehoopany, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhages, caused by ulceration of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient gained from the first, and has not had an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion and constipation. Try them. only 50c at O. E. Vars & Son, druggists.

Played Out.

That "played out"—"done up" feeling makes life miserable for every sufferer from Kidney ills, backaches, headaches and urinary troubles, painful and annoying.

Doan's Kidney Pills

bring new life and activity, remove the pain and cure the cause, from common backache to dangerous urinary complications.

Ex-Policeman Joseph Condry, of 28 Kent street, Jamestown, N. Y., says: "While serving on the police force exposure to all sorts of weather left its mark on me. I suffered from kidney trouble for some time; I doctored and tried recommended medicines, but obtained no permanent relief. My greatest trouble was a dullness with the kidney secretions, and reading of the efficacy of Doan's Kidney Pills in such complaints, I procured them at Clark Bros.' drug store. They relieved me quickly and regulated the action of the kidney secretions."
