CHANGE OF PUBLICATION DAY.

The NEWS reaches its readers one day later this week than usual. This is not because of an accident or unavoidable delay, but because its publishers, after due consideration, have determined that it is for the best interest of the paper and its readers to change the publication day to Friday, thereby being enabled to present all the news of the week fresh and crisp at the close of the week. It is the purpose of the publishers to give the extra day thereby gained to the shaping of local news, and will for that reason make no change in the time county correspondence should reach the office or advertisers have their copy in the hands of the printers. Nothing will be received for publication after Tuesday noon except local news items and personals, which will be thankfully taken at any time before going to press.

The State and Our Schools. A clause in the Rogers law for state payment of the tuition of non-resident pupils in the academic departments of schools, has had the desired results. It authorizes the State Superintendent to refuse the granting of any portion of the fund to a school held in a building he deems unfit for use. It is a notorious fact that a large number of the school buildings in the rural districts are unsanitary, and from a hygienic standpoint unfit for use. Already some districts have started in to make improvements, and there is no better way to spur on the work than to refuse money to authorities who are indifferent to the conditions of their school buildings. Thanks to liberal-minded citizens and a far-seeing Board of Education, Andover will meet all requirements and have an up-to date school building.

Why not gather up the pile of stones that have been placed by men in the gutters of the streets. It does not pay to forget the little things that should be done

The Business Men's Association have proven themselves to be "hustlers," and the silk mill will be ready four weeks ahead of time.

THE SCALES HAVE FALLEN OFF.

The action of President Roosevelt in deciding to present the petition of the Jews to the Russian Government has accomplished even more than a casual thought of the matter indicates Russia has been claiming the friendship and help of America on the basis of that "forty year" friendship that was begun by Russia's action during the civil war. Russia's friendship for America and her action was in the interest of Russia rather than to help America in her struggles. Russia and Great Britain have always striven for supremacy in European affairs, and in '61 Russia saw that it would never do to have a separate cotton country or a colony under England's protection which could supply her with cotton and other products and hence Russia's stand for America. Presuming on this friendship for forty years she has deceived American diplomats again and again. When the Boxer troubles in China began Russia promised that she would not make necessary the presence of western powers to prevent her land grabbing schemes, and now thru cajolery and deceiving manipulations with China, she has broken faith, and in the Mauchurian business, Russia, America's friend (?), has caused China to break faith in her promises of an open door to the United States. Now the official view of the whole business, as given out at Washington, is stated as follows: "By methods which are certainly the reverse of friendly to the United States, Russia has sought to make China break the plighted faith of all the powers as to the open door in Manchuria, and has endeavored to bar our people from access to the Manchurian trade." Thus the Keshineff imbrogolio has given the United States an opportunity to show Russia and the world that she has not been deceived with protestations of friendship and that she is fully aware of Russia's trickery and intrigue. It seems that again straightforward American diplomacy is to score, and the indications are that if America allies herself with any power in the contest for eastern supremacy it will be with England.

AN OLD SLOGAN.

Former Governor Pattison or Pennsylvania, in a speech before the Allegeny Democratic Convention in Pennsylvania the other day, sprung the old Tilden slogan, "Turn the rascals out," as a war cry for the Democrats in the national campaign to come. Of course his reference to the post office investigation was the occasion of his utterance, and he said, "Who shall turn the rascals out if the Democrats don't?" The question might be all right among a company of the unwashed and unterrified democracy, but the people will not forget who is at the head of the National government, neither will they forget the energy and action of Roosevelt, the Police Commissioner, against the rascals who had intrenched themselves in power under Tammany politicians; neither will it be forgotten how fearlessly and honestly Civil Service Commissioner Roosevelt administered the affairs of that office. The people know that the rascals will be turned out thru the process of law and regularity, that the President will brook no delay, and when the ultimate results are shown the people will have decided that the Republican party can be trusted, and if necessary can do and will do her own house cleaning. The conservative element of the people are not looking for any change, but are remembering the business interests of the country, and have not forgotten the unexampled era of prosperity that came thru the honored and lamented McKinley.

Gov. Odell and Yellow Journals The yellow journals, seeking for sensations, have had Get rich quick Miller pardoned by Governor Odell because of Miller's testimony that convicted Col. Ammon of receiving stolen money. It would seem that the "Yellows" would learn that Gov. Odell knows his business and does not propose to be driven by any set of yellow papers. True, Miller's testimony aided in the conviction of Ammon, but not one jot or title does it extenuate Miller's crime in getting money from people (on supposedly sure investments) to line his own pockets. Governor Odell has stated he has made no promise, and he will do well to let the guilty alone and let Syndicate Miller pay the penalty of his crime.

Mrs. Mourhess is going out of business. Anything and everything cheap for cash.

The Yachts Again. Sir Thomas Lipton has proven himself a gentleman "sport." Even if he does not win the cup he has proven himself a life saver in saving the lives of five people near Sandy Hook a few days ago. As we forecast in these columns a few weeks ago, the Reliance will be the boat against which the Shamrock III. will sail. Sir Thomas does not appear quite so sanguine since the Reliance has proven herself 10 minutes better than the Columbia, and sailed a ten mile leg the other day in time that beat all previous records. There is no cleaner sport than yachting, and the whole world will have its eyes on the races in August. Sir Thomas has proven to America that he "is a jolly good fellow."

Did somebody remark that Andover had a ball team? Somehow they don't seem able to win. Perhaps it's a change of drinking water that unfits them away from home.

The advertisement for a meeting of owners to incorporate the "Robinson Cemetery" is in line with a suggestion given in the NEWS some months since.

Have you kept yourself posted as to the number or improvements that Andover has enjoyed that have been suggested by the NEWS?

It has finally become necessary for the Government to store, in an air and light proof safe, the original Declaration of Independence. This is due to the poor quality of ink used for the signatures, many of which have faded beyond recognition.

BALL GAME AT WHITESVILLE

Andover Boys Run Up Against Several Professionals.

The Andover ball team ran up against a whole army of professional ball players at Whitesville on the 4th. The pitcher, Wadsworth, is the same person that won the Williams College game off Cornell recently, and gave Cornell only two hits. Andover boys made a better showing against him than Cornell, so we should feel highly pleased with the outcome. The Andover team can beat any ball team in Allegany county made up entirely of home men.
