That flurry. The financial world was stirred up over the failures of two large Wall street firms a few days since, and at no time since the era of prosperity dawned has clearer evidence been given of the stability and firmness of the country's prosperity. The extra prosperous condition sent stocks up at a high rate, and careful investors for some time have feared the shock; however, it resulted in the bringing down of the inflation and seemingly will put stocks on a firmer and normal standing. As to the country at large there has been no effect. It was a Wall street flurry, and Wall street alone was affected. Such strong financiers as Russel Sage and John G. Carlisle see nothing but prosperous conditions for the future on a firmer basis than ever.

The Kearsage. The remarkable performance of the battleship Kearsage, in breaking all records of long distance steaming for battleships, has drawn many commendatory words from the press. The Kearsage covered in her trip from Portsmouth, England, to Mount Desert, Maine, 2,885 miles; time, 9 days 4½ hours; average speed per hour 13.10 knots; coal consumed 1,148 tons. All this will prove valuable information to the navy department, because two things necessary (should a war with a foreign country come) have been made known, speed and coal capacity. The trip has proven that a fleet could be sent across to a foreign country and that they could do effective service 2,000 miles from base of supplies. Some time it may be necessary to carry the war into the enemy's country, and evidently the modern battleship can do it.

Arthur Bradley Burrows. Another of our townsmen, Arthur Bradley Burrows, who for a number of years has served the Republican party as County Secretary and Treasurer, has been honored and will be appointed to a position at the National Capital by Hon. Frank B. Lyon, who is Door Keeper of the House. Rumor has it that Irving S. Bellamy of Wellsville will resign the position he holds at Washington about the 1st of January, and at that time Mr. Burrows will be appointed. This is a worthy recognition of the faithful service of Mr. Burrows to his party, for among the younger Republican adherents there are none who have been more active, loyal and faithful to the interests of the Republican party, and the great host of Mr. Burrows' friends will offer congratulations that his faithful services here received so fitting a recognition.

Should Mr. Burrows accept the proffered honor it will in no way interfere with his business interests and would require only a small portion of his time at the nation's capital. Thus, while being honored, Andover would in no case lose the valuable interest of one of her wide awake business men.

It will be well not to forget that a number of street lamps would give a better light if they were cleaned and had new mantles.

It might be well to state that the price of board made too high will be a stumblingblock to the interest of the new industries.

THE CONVENTION'S GOOD WORK.

The Republicans of Allegany county did well when they nominated Jesse S. Phillips for a fourth term in the Assembly. He is a capable, energetic and honest young man, who has won a creditable place in the Legislature, and made friends among the influential men of the state, and his ability has been accorded recognition by the leaders in the several appointments that he has received. His usefulness to his constituents will increase as his service lengthens and his acquaintance at Albany increases. Mr. Phillips will now be looked upon as a legislative veteran because of his length of service. He may expect even greater recognition from the hand of his party. Indeed, he is in a position to grant favors, and has become influential in shaping legislation, and there is no reason why he cannot aspire to the speakership, and without doubt Mr. Phillip's is certain to become a power in state affairs. Allegany Republicans have honored themselves in honoring Mr. Phillips with the fourth nomination, for as outlined above he is now in position, because of experience, to help his constituents, and it is well that the old "two term rule" has been set aside. The counties that have kept good men in the position have had a voice in state affairs. Nixon of Chautauqua, Fowler of the same county, Burnett of Ontario, Bedell of Orange, Costello and Lewis of Oswego, Rogers of Broome and Palmer of Scoharie are examples of men from small counties who have been returned often enough to permit them to win leading positions. Of the 150 members of the last Assembly sixteen only had served more than three terms, and be it known these sixteen were able to shape the action of the entire body. Thus it is that Allegany electors will have again the opportunity to put Mr. Phillips in the Legislature, and there is no reason why Allegany may not have the added honor of some time having the speakership if she continues to honor her efficient, capable and energetic Member of Assembly. As to the work of the Convention in choosing the other county officers, it seems to have been a carefully chosen and wisely considered action. The nominations for County Clerk and Superintendent of the Poor were rewards to men who have been faithful in their performance of duties. The nominee for Sheriff is a well known citizen, and of course worthy of the endorsement which will certainly be his. The work of the Convention was done wisely and well, and will receive the hearty support of the people in November.

Your Name on a Block. Andrew D. White, the American Ambassador to Germany, is writing a series of interesting chapters on his diplomatic life in the Century. One of the most amusing letters he received follows:

PODUNK, ——, 1880.

Sir: We are going to have a fancy fair for the benefit of the —— church in this town, and we are getting ready some autograph bedquilts. I have sent you a package of small squares of cotton cloth, which please take to the Emperor William and his wife, also to Prince Bismarck and the other princes and leading persons of Germany, asking them to write their names on them and send them to me as soon as possible.

Yours truly, ——

P. S. Tell them to be sure to write their names in the middle of the pieces, for fear that their autographs may get sewed in.

We would not advise any of our readers to try this plan, for Mr. White does not say he supplied the signatures; however, it shows the length hunters go to. In our town they make you pay for the privilege. Truly, the crowned heads were to get in very cheap.

"Lily White." The "Lily White" Republican faction of the South have proclaimed themselves a lot of political lunatics by issuing a circular letter which for coarseness of language out Tillmans Tillman of pitchfork fame. It charges President Roosevelt as "either a negrophile fanatic" or a "demogogic politician playing for the colored votes which holds the balance of power in Ohio, Indiana and New York." The whole action seems called out by the Booker Washington incident, the Crum case, or the time-tried plea. The absurdity of the claim is on the face of it. We would question the Republicanism of such men, and perhaps the Republicans of the North would be better without them. American citizens know neither color nor creed, and the Republican party has and will stand for it, and the worthy leader, President Roosevelt, is a type of the highest American citizen and a leader of Republican ideas.

Who Is to Blame

for the fact that so many young men and women do not obtain and hold good positions? It is not the schools of the country; then it must be the people who do not understand how the young men and women can fit themselves for book-keeping and stenographers at the Hornellsville Business School. Every competent student in the class of 1903 of this school has secured a position. Fall term opens Sept. 1, 1903.

Just a word to householders: Don't keep the rent of your houses too high. "Live and let live."

The silk mill will soon be running, and we expect it will fulfill the most sanguine hopes.

IT'S BETWEEN SEASONS

as they say. Nearly everybody has been supplied. It's been a busy season here—and no mistake.

Our business doesn't interest other people very much we know—but straws show which way the wind is blowing.

If we made more suits last year than the year before, we deserved to do it—no question about that. If you haven't ordered yet, there are still lots of good things left.

Wm. H. Bellamy. The nomination of Wm. H. Bellamy of Wellsville for Sheriff by the Republican Convention last week not only illustrates the good judgment of the party in the choice of candidates for county officers, but is a fitting reward of merit given one of Allegany's most capable and efficient Republicans. Mr. Bellamy, for years personally known to the writer, as well as to nearly every Allegany citizen, is a "sturdy son of Grand Old Allegany," whose friendships and acquaintances extend thruout the entire western portions of the state. He was born on Niles Hill, near Wellsville, in July, 1856, and has lived on the same place the entire forty-seven years. He is a success in life, not only as a farmer but as an oil operator, which business he has been deeply interested in since the Allegany oil field was first developed. The party has made a wise choice in his selection as candidate for Sheriff, and no miscreant will go unpunished when "Billy Bellamy" wears the badge of "Sheriff of Allegany county," when there is a possibility of his apprehension. Neither need any ever worry that his big heart will ever countenance injustice in any shape.

THE METHODIST EPISCOPAL.

Rev. S. D. Pickett, Pastor.

A large congregation was present at the M. E. service last Sunday morning. The singing by the junior choir was a very pleasant feature of the service. The sermon on "The Central Certainty of Christian truth," developed the fact that human beings are so constituted that at times they feel uncertain about the most precious truths that are not recognized by the senses. The magnitude of Christian truth includes so many facts which, in the nature of things, must be imperfectly understood. Increasing knowledge removes old errors, and the effect is sometimes disturbing to what we call faith. The final effect is a better faith for him who clings to moral good, when he feels uncertain about other things. Thru all the changing forms of faith during the Christian centuries the fact that Christ Jesus came into the world to save sinners from their sins has been recognized with increasing certainty. We should recognize the fact that we are called to co-operate with him in such a divine work.

Two persons were received into membership by certificates during the week, and two were received into membership on probation on Sunday morning. Eleven persons have been received by certificate since March 28, and fifteen have been received into membership on probation since April 19th.

In the absence of the pastor next Sunday morning, Rev. E. D. Van Horn of Scio will occupy the pulpit.

Mrs. Mary Brown will conduct the Junior League service.

The topic of the Epworth League will be, "Stir up the gift of God which is in thee." Text word, Partaker. Leader, Carrie Williams.

The Epworth League held a disguise social in the church parlors Wednesday evening.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
