A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

TRUTH vs FICTION

I wonder if all of the beautiful, the true, the brave, the noble, the benelovent, the lovely in this world exists only in fiction? I wonder if all that is hard, rasping, disappointing, tragic, hateful, belongs to the stern reality of this life?

What foolish questions!

Yet, the successful novel-writer of today finds success and approval of the masses, by writing a tangled web of intricate plot, and clothing it with verbiage as far removed from the real as possible.

Take the characters in any good novel; set them free in any country, community, or neighborhood; they would never perform as the fiction writer has made them do. I challenge the scholar—the thinker—to produce a personnel who would do as the fiction-writer portrays.

Then, fiction as done today, is not "true to life." It is what the author and publisher thinks should happen under the chain of circumstances.

I myself have written—written—and again written—webs of intricacy—absolutely true to life and character. They have never been acceptable—they were too commonplace to sell.

Does this mean that truth cannot get anywhere?

I answer—no. For the reason that I am not able to portray life in its real beauty. Fine, pulsating life is the most beautiful of creations; it takes a master to depict it in its glorious reality. A tyro can exaggerate—can place before us a cheap chromo—a daub, unworthy the name of a great painting.

My life and yours—with the ins and outs—each day a page, scored with the symphony, the miserere, the requiem, the sonnet, the aldiluia, the dead march! Only the master can arrange. And there are no masters today. And when somebody comes who can do a symphony in real life, jazz, the fabrication of today will be swept away; "Life is real—life is earnest."
