High Water Mark. From telegraphic dispatches in the daily press, we gather that Pension Commissioner Ware believes the high water mark in pensions has been reached and he quotes figures to support his belief. On the 31st day of July last year, 1,001,197 pensioners were enrolled, and the amount of money expended was $142,000,000. The figures for the twelve months, ending July 31, 1903, show a reduction. The figures are 981,836 pensioners and the amount disbursed $136,992,181, thus giving grounds for the belief that there will be a gradual reduction in the immense amounts annually spent for pensions.

Stop Drinking. An order has been issued by the Coal Miners' Employers that discharge awaits every miner who shows himself incompetent because of drinking intoxicating liquors. This is a long step in favor of temperance and is in line with orders by railroad companies, express companies and other large corporations, who refuse to employ drinking men. That its effects are injurious to life and limb are emphasized by the insurance companies, who refused to accept as a risk habitual drinkers, and why not in the agricultural interests? The farmers, who hold out for sober men get better results, are sure in their giving of confidence, and take a long step in the direction of temperance.

In Search for The Pole. Lieut. Peary has been granted leave of absence for four years to head another expedition in a search for the North Pole. Lieut. Peary's last trip extended to three years and cost nearly $100,000. The present contemplated trip is to be a most formidable effort, and the Peary Arctic Club expects to raise about $150.000 for the venture. It may be all right in the interest of geography and science that such trips be undertaken, but to some it seems a hazardus and costly undertaking, and that the money and energy expended might be used for better purposes. However, men will venture, and if the North Pole is to be discovered, we would like to have the stars and stripes to be the first that should be unfurled to the arctic winds.

Strange Freaks. It is strange what freaks the mind will run into. One Henry W. Weilbrenner, of respectable parentage and excellent reputation, attempted to assassinate President Roosevelt last week. His delusion was that the President's daughter wanted to marry him. Fortunately the guard around Sagamore Hill discovered him with revolver in hand, about 100 feet from the President. A Negro woman, recently arrested in New York city for attempted arson, claims that President Roosevelt is to marry her shortly, and that he has power to change her face from black to white. Thus the mind runs in strange freaks. Usually men of note are the targets for fancied grievance. Evidently the guard about the President should be doubled for his own protection and the interests of the country at large.

Wouldn't it be a fine thing if some means could be employed to get, say, four arc electric lights along Main St?

Grover's Boom. A leading editorial in the Chicago Chronicle of Sept. 5th urges the nomination of Grover Cleveland by the Democrats for the Presidency. It sets forth its claim that "Mr. Cleveland is not only the greatest living Democrat; he is also the most popular of Democrats." "If nominated he would poll every Democratic vote in the land." Some of that talk takes on the air of praises. Mr. Cleveland is not popular with Bryan Democrats either west or east, and minimize the silver Democrats as much as they please, they are a very strong and important factor, and must be reckoned upon. However, it matters little. The people have not forgotten Cleveland's little tariff reform and its disastrous effects. The Republican protective policy insures the continued industrial prosperity and the people do not want a change.

Almost Miraculous. The wonderful cures by "Bloodless Surgery" with the "Lorenz" methods, border on the miraculous. When a child's limb is shortened because of the displacement of a bone or bones and the child expects to go halting and limping a cripple for life, that which gives the child use of its limbs is a blessing. Little Loleta Armorer, for whom Dr. Lorenz came to this country, has so far recovered that she runs about freely with her playmates. The young child in New York city, for whose treatment the Armorers paid, has also completely recovered. Thus the evidences are supporting the statements that the Lorenz method is practical and that Dr. Lorenz's method of surgery must take its place along with the other wonderful cures of the 19th and 20th centuries. The wonder of the times will be the miraculous cures thru human ingenuity.

Talk about cheap fuel and natural advantages. It will cost about $1.00 per day of ten hours to run the gas engine at the silk mill. Remember, you who are paying $3.75 per ton for coal and $2.50 per day for a fireman to shovel it, gas is the cheapest fuel on earth for manufacturing purposes.

"Our Jesse," Assemblyman Phillips, is getting reputation for his ability not only among "Allegany's Hills," but in the old Empire State. It's Jesse S. Phillips of the Empire State now.

Andover's base ball team started gloriously this season. But little has been heard of them of late. In the words of a statesman they must be in a state of "innocuos desuitude."

For four years the News has carried on the agitation for improvements, and the last two have shown marvelous results. "Even the oldest inhabitants will agree to that."

A good deal has been said about hearing the "whistle blow" It's a fact. It will blow and be heard from our factories in the near future.

Now that the sidewalks have been attended to, when are the cross walks to be cared for? That's the question some are asking.

The first electric lighting done in Andover is that being installed in the silk mill. It will be lighted thruout with electricity.

Have you noticed the number of strangers (new comers) on our streets? You don't know everybody that passes by.

Ministerial Club Entertained.

The members of the Ministerial Club, with their wives, were handsomely entertained at a luncheon last Monday at Wellsville, by the pastors of that city. A most happy time was enjoyed. The presence of so many ready speakers the toasts, it is said, were full of wit and pathos.

W. C. T. U. Meeting.

The Women's Christian Temperance Union will meet with Mrs. E. S. Bradley next Wednesday afternoon, Sept. 16, at 3 o'clock.

Buckles's Arnica Salve.

Has world-wide fame for marvelous cures. It surpasses any other salve, lotion, ointment or balm for cuts, corns, burns, boils, sores, felons, ulcers, tetter, salt rheum, fever sores, chapped hands, skin eruptions; infallible for piles. Cure guaranteed. Only 25 cts. at O. E. Vars & Son's, Druggists.

ELM VALLEY.

E. R. Leonard, who suffered a slight stroke of paralysis a week ago Saturday morning, is in a precarious condition and it is doubtful if he will recover from the stroke.

A. A. Hincher sold a fine beef cow this week to Rogersmosor & Martin of Wellsville.

Wesley Osburne is suffering from a broken rib, which he received while loading a heavy hay rack on a wagon.

The Elm Valley choir met for practice Thursday night with Mrs. Ella Rogers.

Owen Duffey, who recently purchased a new threshing machine, started out with it for the first time this week.

Merritt Hart has returned home after spending a month with relatives here.

There is more catarrh in this section of the country, than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

ROCHAMBEAU.

A Short Biography of the French General After Whom Andover's New Silk Mill Company is named.

Little is known of Rochambeau, and this bit of biography will be found interesting to our readers.

Jean Baptiste Donatien de Vimer Rochambeau, Counte de, 1725-1807, a French general, early promoted for skill in military maneuvers, distinguished at the siege of Maestricht in 1748, and in many subsequent battles.

In 1780, with the rank of Lieutenant General, he was at the head of the expedition of 6,000 French soldiers sent to the assistance of the Americans under Washington.

The union of the French with the American forces accomplished the surrender of the British forces in Yorktown, and virtually closed the revolutionary war.

Congress voted the thanks of the nation to France, Rochambeau and his troops, and presented him with cannon captured at Yorktown.

In 1783, he was made governor of Picardy and Artois, and in 1791 Marshal. He sympathized with the early work of the French Revolution and served as commander of the army of the north under Demouriez, but retired to private life after the execution of Louis XVI.; was suspected by the Robespierre faction and imprisoned, escaping the guillotin by the fall of the dictator in 1793. He was then released, and when Napoleon came to power was restored to his rank and former position. His Memoirs in two volumes were published in 1809 and translated in 1838.

WILL PUNISH FALSE INFORMANTS.

A Much-Needed law for the Protection of Newspaper.

Persons who think it is cunning to string newspaper reporters or editors by giving them false or libelous information in order to satisfy their own selfish aims will be interested to learn that the statutes provide that "whoever willfully and maliciously states, delivers or transmits by any means whatever to the manager, editor, publisher or reporter of any newspaper, magazine publication, periodical, or serial for publication therein any false or libelous statement concerning any person or corporation and thereby secures the actual publication of the same shall, upon conviction therof, be punished by a fine not exceeding $500 or by imprisionment not exceeding one year, or by both fine and imprisonment."—Portland (Me.) Argus.

REPORTORIAL.

A dude is the tailor's goose.

The umbrella mender has plenty to do.

A permanent investment—a cemetery lot.

College bred is sometimes a very stale loaf.

It is a wise fool who knows enough to keep it to himself.

Common sense backed by energy will achieve more than much money.

A new time table will go into effect on the Erie next Sunday, Sept. 13th.

When a fellow is frozen out of a good thing it naturally makes him hot.

Three more holidays this year—election day, Thanksgiving day and Christmas.

Mrs. F. M. Lanphear has purchased of Mrs. E. I. Norris her residence on Maple avenue.

Every business has some good points. These constantly advertised will bring business.

Sidney Crandall has purchased of Williams & Earley the residence he now occupies on Dyke street.

John Fox has moved his family into the Mrs. F. M. Lanphear tenement house on West Greenwood street.

Rev. S. D. Pickett is daily improving in health, and it is expected will soon be able to resume his pastoral duties.

Mrs. M. H. Harmon is making her home, corner of Main and Center streets, more beautiful by the use of the paint brush.

Jerry Updyke is improving the appearance of his house on Greenwood street by the application of a fresh coat of paint.

One Andover man proved his honesty Tuesday evening by returning to the loser a $2 bill. Such acts lead one to believe that all men are not rogues.

The brick layers are here and have commenced the work of veneering the new school-house. H. O. Dormin of Corning has the sub-contract to finish the masonry work.

Isaac Smith with his workmen, who are the people to whom the corporation have let the job of cementing the reservoir and placing a cement crossing on Main street, came to Andover Tuesday morning with their power mixer and machinery and began work Wednesday.

At Pike's Peak.

We are in receipt of a copy of the "Pike's Peak Daily News," the most "elevated" publication on earth, which gives daily the arrivals of ladies and gentlemen registered on top of sight-seeing old Pike's Peak, via the scenic and picturesque Cog Wheel Route. In this number, issued Sunday, Aug. 30th, is listed the names of Mrs. O. H. Manning of Denver, Col., and Thomas M Comstock of Andover, N. Y.

Birthday Party at Whitesville.

Eleven Andover relatives took possession of the home of Mrs. Samuel Deming of Whitesville Tuesday, it being the occasion of her 45th birthday. Those in the Andover party were: Mrs. Abram Slocum, Mrs. Grant Sherwood, Mrs. Charles Baker and daughter, Mrs. David Slocum and children, Mrs. Arthur Jones and E. F. Stearns.

Woodwork Started.

Carpenters are at work on the woodworking building for the Andover Stamping Company's new plant. It is expected to push this building to an early completion so that, by the use of the planer, cut-off saw and other woodworking machinery, the construction of the other buildings will be not only hastened, but cheapened.

The Cuba Fair.

The Cuba Fair and Racing Association's Annual Fair opens next Tuesday, Sept. 15th, and continues thru the week until Friday, the 18th. The old Cuba fair always pleases its patrons, and makes an ideal outing for those who can attend.

THEY RAISED OLD GLORY.

THEN CHRISTENED THE SPOT "DUKE HILL."

Commemorating "The Good Old Summer Time" of 1903, When the Andover Silk Mill Was Plumbed and they With Andover Girls Chummed.

Three Swink Hotel boarders, for several days previous to Labor Day, made all calculation to erect a flag staff and raise an American flag thereon on the summit of Frisbey Hill on that date in commemoration of the "Good Old Summer Time" of 1903, where they passed several weeks about equally divided between plumbing the silk mill and chumming with the Andover girls; but owing to the rainy weather it had to be postponed until Wednesday afternoon.

There were very impressive services on the pinnacle of Frisbey Hill Wednesday afternoon, at 6:45, when Old Glory was spiked to a mast and raised as a beacon of patriotism for the citizens of Andover to gaze at. The procession, consisting of a Royal Duke, a Verdant Hill, a Still Man and a pointer dog, formed in open rank at Swink's Hotel at 6:30 and marched up the mountain in quick time. At 6:45 the flag was nailed to the mast and the program, consisting of an eloquent and soul-inspiring speech by Mr. Hill, which began, "It was this way: There were three men on a hill worth about 30 cents," then the dog got up and howled and the speaker didn't ask for the change but changed the subject. Following this, Mr. Duke sang that new and touching song, "In the Good Old Summer Time." The Still Man read the following grand poem as the pole was laboriously raised, and the folds of the flag were caught by the southern zephyr:

We hoist Old Glory into sight,
With stripes, white, blue and gory,
On the mountain's top, this lovely night,
With our heads red, black and hoary.

May it hang to this pole
Which we stick in this hole,
And float for many a day,
'Till the nails rust out,
That it flutters about,
And the wind wears the darn'd thing away.

Let man, woman or clown,
Who e'er pulls it down,
This flag unfurled to-day,
Quit the world in disgrace,
A shame to his race,
His requiem a jackass' bray.

[Shouts of hear, hear!]

After the audience had wiped the tears from their cheeks, Messrs. Duke and Hill sang "Slide, Kelley, Slide," and, acting on the suggestion, all came down the mountain. Elapsed time 35 minutes 10½ seconds.

TO COST $250,000.

Contracts Have all Been Let for the Erie's New Double Track.

All of the bids have been let for the work of double tracking the Allegany division of the Erie from Almond to Tip Top, and the contractors are ready to commence the work at any time.

On account of the heavy grade and numerous cuts and fills in the road between those two points, the job is to be a very expensive one. It can be safely said that the work of double tracking the eight miles will cost the Erie company in the neighborhood of $250,000.

This work will be a great benefit to the farmers residing within a radius of ten miles or so on each side of the division, as it will give them work for their teams for the remainder of the season at good wages besides the boarding of the hundreds of men who will be employed on the work.—Hornellsville Times.

Married.

At the Methodist parsonage, Wednesday evening, Sept. 9, by Rev. S. D. Pickett, Mr. Wm. T. Lane of Honeoye, Pa., to Miss Jemima Mead of Andover. The bride and groom will make their future home at Honeoye.

D. Cheesman, N. Perkins, Clark Rogers; offering April 17th.

Both Saved Gallons.

Devoe is worth $4 or $5 a gallon, put-on; how much is another paint worth?

Depends on how many gallons you've got to put-on, to be equal to one of Devoe.

Mr. J. J. Hall, Sheffield, Pa., painted two houses one coat, five years ago, lead-and-oil, took 40 gallons.

Last summer bought 40 gallons Devoe for same houses; had 10 gallons left. Mr. N. Avery, Delhi, N. Y., owns two houses exactly alike; painted one with Devoe; took 6 gallons. The other with some other; took 12 gallons.

What'd you give for those off paints? Bear in mind, you've got to pay for the painting.
