Mrs. Allena Cory, of Cuba, has been granted an absolute divorce from her husband, Eber F. Cory.

Eighty-nine veterans attended the reunion of the 136th Regt. at Cuba last week. The next reunion will be held at Bolivar Sept. 2, 1904. J. H. Crandall of Bolivar was chosen president and Major J. J. Baily of Dansville succeeds himself as secretary and treasure.

B. & S. Construction Material.

Several car loads of railroad construction utensils and supplies have been landed at Belfast by the Pennsylvania Railroad, for use in making the grade of the Buffalo and Susquehanna extension from Wellsville to Belfast and thence to Buffalo.

Died From Effects of Operation for Appendicitis.

Claud and Earl Taylor, sons of Frank Taylor of Almond, aged 18 and 11 years, both suffered with appendicitis and an operation was performed on each Monday of last week. Saturday night Earl died from blood poisoning. Claude is recovering.

Stanley Swift Builds a New Block.

Stanley Swift of Cuba, says the Patriot, will commence at once the construction of a two-story brick block between the City Laundry and the church on South street. It will be 19 by 70 feet in dimensions and the upper floor will be occupied by the Swift & Renwick law offices and the lower part by the Cuba Free Press which will move into it from the Palmer building it now occupies.

Boy Shot at Shingle House.

Clarence Hixenbough, a fourteen-year-old Shingle House lad, was accidentally shot in the head with a 32-calibre bullet while coming across the ball grounds in that borough Tuesday afternoon of last week. The bullet lodged in the skull near the brain. The lad died early Friday morning. Whether the boy shot himself or the bullet came from the woods, fired by a hunter, is not known.

Mrs. Browning Was 93 Years Old and Was One of the Pioneers.

Mrs. E. Mary Browing died at the home of her son, W. Q. Browning, at Scio, Saturday afternoon at 4:30 o'clock at the age of ninety-three years, old age being the cause of her death. Mrs. Browning was one of the oldest residents of the town of Scio.

The funeral will be held from her late home on Tuesday at 2:30 o'clock, the Rev. David White of Scio officiating and the remains will be interred in the Scio cemetery.

ANNUAL CONVENTION.

Delegates of Christian Churches to Meet At Wellsville.

The annual convention of the Christian churches of New York state convenes with the Broad Street Church of Christ in Wellsville Tuesday, September 22, and remains in session the four days following. About 100 delegates from the different Christian churches will be in attendance together with many of the most prominent members and speakers of this rapidly growing denomination. It was by the special efforts of Rev. Clarence Mitchell, the pastor, and the members that the convention of 1903 was brought from the larger cities of the state. The program of the session will include some of the oldest men and speakers of the Protestant churches to give able addresses on religious topics of special interest to the world.

DR. CURRY AGAIN NOTORIOUS.

Refused to Allow the Sheriff to Clean His Cell, Striking Him Over the Head With a Fruit Jar.

Dr. J. Frank Curry, the Friendship degenerate who is in jail awaiting trial for assault and rape, gave a matinee the other day for the benefit of the cause, says in exchange. Sheriff Hancock with his assistants was engaged in overhauling and cleaning up the jail cells. Curry had accumulated a lot of old newspapers, rotten apples, dishes etc., in his cell and refused to allow the cell to be cleaned. Finally the sheriff made an effort to remove some of the bric-a-brac when Curry struck him over the head with a glass fruit jar, inflicting quite a wound but nothing serious. Next week Curry's trial is expected to come off but it is rumored that an effort is being made to induce the girl who it is claimed he so outrageously abused, not to appear against him and as she resides in Canada she cannot be compelled to come here on a subpoena.

The Genuine vs. Counterfeits.

The genuine is always better than a counterfeit, but the truth of this statement is never more forcibly realized or more thoroly appreciated than when you compare the genuine DeWitt's Witch Hazel Salve with the many counterfeits and worthless substitutes that are on the market. W. S. Ledbetter, of Shreveport, La., says: "After using numerous other remedies without benefit, one box of DeWitt's Witch Hazel Salve cured me." For blind, bleeding, itching and protruding piles no remedy is equal to DeWitt's Witch Hazel Salve. Sold by O. E. Vars & Son, Andover, N. Y.

Our Strongholds in the Antilles.

With the naval stations which we expect to secure through the pending treaty arrangement with the Cuban government, the United States will be reasonably strong in the West Indies, even without the Danish islands, which, however, will ultimately come to us possibly within a year and perhaps not within twenty years. These stations will literally form a circle of the Antilles, beginning at Key West, which is already a first class naval station of the utmost strategic importance, and proceeding to Bahia Honda (deep bay), forty-five miles west of Havana. Thence it swings around through the Yucatan channel and the Caribbean sea to Colon, which by the terms of the Panama canal treaty will be at least available for American occupancy in an emergency, enveloping Guantanemo, on the southeast coast of Cuba, one of the best spots for a naval station in the world. From Colon it goes to Culebra, east of Porto Rico, which was the base of the late naval maneuvers, and thence back via San Juan to the starting point.

Though marred and invaded by the British possessions in the Bahamas and Jamaica, this chain of naval stations when adequately fortified will provide the United States with so strong a defensive hold upon the West Indies that no foreign power, unless it were Great Britain, could ever think of menacing it.

The circle will include six points at least of great strategic importance, outside of the domain which was ours in 1898, which we shall have the right to fortify—namely, Bahia Honda, consolidating the command of the Yucatan passage, looking toward Havana and enabling us to maintain the foothold necessary to carry out our promise to protect Cuba against foreign foes and domestic disturbers; Guantanamo, already a stronghold, which directly commands the western part of the Caribbean sea and indirectly the Windward passage and overlooks the eastern end of Cuba; Colon, which defends the Panama canal and will form our outpost toward South America; Culebra, which, in default of St. Thomas, is the door that may close the Virgin passage to the Caribbean and the isthmus, and San Juan in the north and Ponce in the south of Porto Rico, commanding the Mona passage and the eastern half of the Caribbean.

It is needless to say that this chain of future fortresses will give the United States a position in the western hemisphere of which enthusiasts only could have dreamed prior to the events of 1898. These possessions have not been acquired for purposes of aggression, but are a gauge of the peace and security of the western world.

Distress After Eating Cured.

Judge W. T. Holland of Greensburg, La., who is well and favorably known, says: "Two years ago I suffered greatly from indigestion. After eating, great distress would invariably result, lasting for an hour or so and my nights were restless. I concluded to try Kodol Dyspepsia Cure and it cured me entirely. Now my sleep is refreshing and digestion perfect." Sold by O. E. Vars & Son, Andover, N. Y.

Strikes and Government Ownership.

The government of Victoria, Australia, has just won a victory over a railroad union which is likely to have far-reaching consequences.

Early in May all the engineers and firemen employed on the state railroad lines, 1,800 in all, struck work at midnight, many of them leaving their engines at all sorts of dangerous points on the road. They expected that all traffic would be paralyzed and that all demands would be granted to them as masters of the situation. They were encouraged in their view by the fact that in Western Australia and in New South Wales similar strikes had ended in the complete defeat and surrender of the authorities.

After the strike had continued for some time the premier summoned parliament and declared that the strikers, as paid servants of the state, were in practical revolt against the state, and he asked to be endowed with sufficient authority to employ the most drastic measures to bring the rebels to terms. The temper of the Victorian parliament was such that he certainly would have secured all the powers he asked for, but before action could be taken the unionists, alarmed at the position in which they found themselves, promptly surrendered and hurried back to work.

The attitude taken by the Victorian premier is significant and interesting as touching one phase of the question of the government ownership of railways and indicating what course might be pursued elsewhere under similar circumstances.

SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion makes new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For pale school girls and invalids and for all whose blood is thin and pale, Scott's Emulsion is a pleasant and rich blood food. It not only feeds the blood-making organs but gives them strength to do their proper work.

WORKINGMEN'S FEDERATION.

Contest Between Brotherhood and Amalgamated Carpenters.

Schenectady, Sept. 16.—The seventh annual convention of the Workingmen's Federation of New York State, which opened in this city, is the largest gathering which the organization has ever held. There are some 400 delegates in attendance.

Hon. Horace S. Van Voast, the mayor of the city of Schenectady, made a fitting address of welcome. The response was made by President Murphy. A second speech of welcome was made by Fred Frost, the president of the local trades assembly.

The following committee on credentials was appointed: Henry Streffler, painters' union No. 113, Buffalo; Thomas Gaffney, central labor body, Syracuse; John Shaugnessey, plumbers' union No. 79, Utica; William Graven, brewery workers' union, New York city; William Kavanaugh, street car men, Albany.

The only contests anticipated will be between the delegates from the Brotherhood of Carpenters and Joiners of America and from the Amalgamated Carpenters.

The Brotherhood carpenters refuse to recognize the Amalgamated men as bearing the true union label, and the former will, no doubt, protest against the seating of the delegations from the Amalgamated Carpenters.

The latter, it is asserted, will make a stiff fight for recognition and they have come forward with a candidate for president and other officers. Their candidate for president of the state federation is John Coleman of Buffalo.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys: if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

WATCH US GROW

GROWING ALL THE TIME.

Superb Fall Stock Ready--The Last of Summer Wear Sacrificed.

Immense invoices of women's fall attire have been rushing in upon us during the past day or two. They have come from the best garment houses in the United States. Some of the best designers of Europe have contributed their talents, and skilled tailors have faithfully carried out their designs. The remaining summer garments must disappear immediately. It is to our advantage to sacrifice them and to yours to buy them.

NEW DRESS GOODS.

The new arrivals are beautiful. Even the less expensive are full of charm. The fact of the matter is everybody who has had a hand in them have been delighted beyond expectation.

Soft French cheviots, tweed novelties, Zahriana and stubby stuff of all sorts are taking the field. If you come to-day you will find many things that were not here yesterday. To-morrow, ditto. Paris and London fashions have crystallized for fall and early models for suitings and gowns of every description are here in our dress goods department.

RETALIATORY TARIFF

Premier Balfour's Pamphlet on "Insular Free Trade."

ARGUES FOR CHANGE OF POLICY

Does Not Accept Chamberlain's Preferential Proposals—Two Resignations From Cabinet Expected—Chamberlain Predicts a General Election in Spring and Defeat Of Government.

London, Sept. 16.—Premier Balfour issued last night the advance sheets of a pamplet on the subject of "Insular free trade," in which he presents at length arguments in favor of a change in Great Britain's fiscal policy.

He says: "I am a free trader but not of the pattern which holds that the doctrine of free trade is so universal in its application and so capable of an exact expression that every conclusion to which it logically leads must be accepted without hesitation and without reserve."

The premier points out that as a result of England's policy of retaining a fiscal policy made for a free trade country in a world of free traders the rate of her export trade has not increased and in fact has seriously diminished. Meanwhile Germany, America, France, Russia and even Great Britain's self-governing colonies continue to build up a protected interest within their borders.

Mr. Balfour declares that the optimists who advocate a continuance of the free trade policy in the face of the injury worked by protection on Great Britain's interests are foolish.

Mr. Balfour concludes:

"It cannot be right for a country with free trade ideals to enter into competition with protectionist states. The most essential object of our national efforts should be to get out of the bonds in which we have gratuitously entangled ourselves."

The publication of the pamphlet immediately after the momentous cabinet council indicates that it embodies a statement of policy accepted or rather acquiesced in by the majority of the cabinet. If this assumption is correct it means the abandonment of the idea of a preferential tariff with the colonies and the taxation of food in favor of a system of retaliatory duties. Even this, however, is tentative.

The most striking feature of the pamphlet is that it does not refer to Mr. Chamberlain's proposals. The whole line of Mr. Balfour's argument is opposed to tariffs for purely protectionist purposes. Hence, Mr. Chamberlain is faced with the alternative of either abandoning preferential tariffs or prosecuting his campaign unsupported by Mr. Balfour.

Neither does Mr. Balfour admit that Great Britain's trade is on the verge of ruin. He says: "I can find no evidence that we are living on our capital."

The premier thinks that this is because protectionist tariffs are less high than they look and protectionist countries and the British colonies "are still our most important customers."

He contends, however, that in the future the disadvantages that Great Britain suffers must increase with the growth and spread of protection abroad and the absorption of new markets.

Mr. Balfour says further:

"The only alternative is to go to foreign nations what they always do to each other and instead of adhering to economic theories, in which they wholly disbelieve, to use fiscal inducements which they thoroughly understand."

The Duke of Devonshire had a conference lasting two hours with Mr. Balfour. Last night Chief Irish Secretary Wyndham, the Earl of Selborne and Gerald Balfour also called on the premier. It is believed that within a day or two the resignation of the chancellor of the exchequer, Mr. Ritchie, and perhaps of the Duke of Devonshire will be announced.

According to the Daily Mail Mr. Chamberlain agrees under the stress of necessity not to press his program.

A circumstantial statement is published attributing to the colonial secretary the prediction of a general election and the defeat of the government in the spring. The Conservatives will be in opposition for six months and then he will return to office with the country at his back.

Weather Indications.

Cloudy Wednesday, showers in west portion; Thursday, fair; fresh south east to south winds, shifting to west.

The War Cloud In Pechili Gulf.

Late dispatches from the orient indicate that Russia still persists in holding her present position in Manchuria, including Newchwang, and is ready to cross swords with Japan if the latter will fight. Meanwhile the secret conferences of Russian officials at Port Arthur lead to the conclusion that the situation is one of utmost gravity.

It would seem that storm clouds hang low and threateningly over the gulf of Pechili and may break at any time.

The United States fleet of fifteen, the English of twelve and the Russian of fifty ships are not there on parade. It is fair to assume, also the question of the strength of the British force to that quarter would not have been asked, as it was the other day in open parliament.

The United States because of its policy respecting the demand for new treaty ports in Manchuria has assumed an attitude toward Russia which belittles it in a sense from all the other interested powers. There can be no doubt that the Russian occupation of Manchuria foreshadows the partition of the Middle Kingdom. Germany seems to be content with her stronghold in Shangtung, and France is ready for the spoils of war in Yunnan. With Russia, then, the dominant power in north China and England as yet evinces no disposition to interfere forcibly, only Japan remains to insist, unless the United States finds a peaceable, yet effective, way to do it, upon a speedy solution of the menacing situation in Manchuria. Japan's possible means of assistance to the Russian policy seems only those of war, while ours may be the more effective for being of the friend sort.

The Washington government has clearly given Russia to understand that our interests and desires are wholly against the disruption of the Chinese empire and on the side of commercial freedom in the entire orient. What should be our attitude and action in the event of a clash between Russia and Japan is a grave question. That we should appear as an active ally of Japan and possibly of England in actual hostilities seems out of the question. The game would not be worth so costly a candle.

The Carp Nuisance.

Wisconsin is now troubled, as some states farther east have been for years, by an imported pest almost as much disliked, although less in sight, than the English sparrow—namely, the German carp. Some years ago the stagnant waters of the state were stocked with these fish, which have propagated so extensively as now to form a positive nuisance. The people of the state are disgusted with the carp, and the fish commissioners admit that a mistake was made in ever having anything to do with them. Streams which once were clear and abounded in the smaller bass, sunfish and perch, good fishing from morning till night for the small boys and the leisure population, are now coffee colored and unresponsive to the hook and line, while a seine brings up only the yellow and slate colored carp. They root about the bottom, stirring up mud, and, what is more serious, eat the eggs of their betters.

The fish commission has tried to undo its own work by netting and giving away tons of carp, but the increase keeps up. The reward advertised for their fine fishing are not affected, to be sure, but it is an even more serious matter in some ways to ruin the fishing grounds of half a million farmer boys than to injure the sport of the few who can enjoy the choice spots.

As a food fish the best one of the fish commission's officers can say of the carp is that "it is not a bad fish for a man who works hard and eats more to fill his stomach than to tickle his tongue." The carp may be useful as a river scavenger in the waters adjacent to large towns, but in the streams and ponds of the interior it presents a perplexing problem.

The police of Berlin profess to be surprised at the discovery by the police of Chicago of an anarchist plot against the emperor of Germany. Apparently the Germans do not appreciate the capacity of the Chicago police for discovering things.

The Pleasure of Eating.

Persons suffering from indigestion, dyspepsia or other stomach trouble will find that Kodol Dyspepsia Cure digests what you can eat and makes the stomach sweet. This remedy is a never failing cure for indigestion and dyspepsia and all complaints affecting the glands or membranes of the stomach or digestive tract. When you take Kodol Dyspepsia Cure everything you eat tastes good, and every bit of the nutriment that your food contains is assimilated and appropriated by blood and tissues. Sold by O. E. Vars & Son, Andover, N. Y.

Played Out.

That "played out"—"done up" feeling makes life miserable for every sufferer from Kidney ills, backaches, headaches and urinary troubles, painful and annoying.

Doan's Kidney Pills

bring new life and activity, remove the pain and cure the cause, from common backache to dangerous urinary complications.

Ex-Policeman Joseph Cowdry, of 28 Kent street, Jamestown, N. Y., says: "While serving on the police force exposure to all kinds of weather left its mark on me. I suffered from kidney trouble for some time; I doctored and tried recommended medicines, but obtained no permanent relief. My greatest trouble was a difficulty with the kidney secretions, and reading of the efficacy of Doan's Kidney Pills in such complaints, I procured them at Clark Bros.' drug store. They relieved me quickly and regulated the action of the kidney secretions."

NOTICE TO SUBSCRIBERS.

NO PAY, NO PAPER AFTER JANUARY 1, 1904.

The "News" Adopts the Cash in Advance System, Believing it Better for both Publishers and Readers.

The ANDOVER NEWS is to-day the only paper in Allegany county printing eight six-column pages all at home, that does not charge more than $1.00 per year subscription. It is a close thing to issue such a sheet at that price and make both ends meet. The price of print paper has doubled within the past four years. The only way the News can possibly maintain the present $1.00 rate is to carry no deadheads. Believing it unjust that a good subscriber be taxed to help pay for his deadbeat neighbor's paper, we have determined to adopt the "No pay, no paper" policy January 1st, 1904, and live rigidly up to it after that date. Kindly read the label on your paper and if you are not credited beyond Jan. 1st, 1904, you are hereby notified that your paper will then be discontinued unless you walk up to the Captain's office and settle before that date. After Jan. 1st, 1904, all subscription accounts then due us will be placed in an attorney's hands for collection.

THE PUBLISHERS.

A Purgative Pleasure.

If you ever took DeWitt's Little Early Risers for biliousness or constipation you know what a purgative pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. They do not gripe, sicken or weaken, but give tone and strength to the tissues and organs involved. W. H. Howell of Houston, Tex. says "No better pill can be used than Little Early Risers for constipation, sick headache, etc." Sold by O. E. Vars & Son, Andover, N. Y.
