Continued Prosperity. Hon. Ellis H. Roberts, Treasurer of the United States, takes a very optimistic view of the continued prosperity of the country and bases his prophecy on the cold, hard fact of financial analysis. At the Bankers' Association in San Francisco his address upon the "Effects of the inflow of gold" was the reason for the statement and he says the United States gains more gold than all Europe and the total supply on hand is double England's, and this notwithstanding the fact that Europe as a whole has five times the population of the United States. These are the grounds for his optimism and certainly they are sane and will be given much weight by careful financiers coming from the source they do. It is certainly a cheerful and reliable forecast for the future and will give men confidence to launch out into new enterprises. If the labor troubles thruout the country could be adjusted there is no reason to expect anything but prosperity

Chas. T. Saxton. Chas. T. Saxton, a prominent public citizen, a man of uncompromising integrity, a faithful public servant died in the Rochester City Hospital last Friday. Mr. Saxton was state senator and the Saxton law which inaugurated in this state the use of the Australian ballot system was adopted. The law was intended to give every voter absolute freedom from all interference. It will be remembered time was when the worker at the polls gave the ballot to the voter, then marched with him to the polls to see it deposited. The official ballot changed all this and the voter is offered every facility to express his own choice. Perhaps the greatest work of Chas. T Saxton was his successful advocacy of the secret ballot. It will also be recalled that Mr. Saxton was Lieutenant Governor with Hon. Levi P. Morton 1895 and 1896. In 1898 he was appointed presiding justice of the State Board of Claims and held the position at the time of his death. An able lawyer, he took a broad view on public questions and his influence upon public affairs was most beneficial.

When the lights are put in on Main street it will give our busy thorofare quite a cheerful appearance. The (?) is, when will they come?

A LAST WORD.

Before the issue of another number of the News the election will have been held and the results announced. It is important that every Republican voter do his whole duty and roll up a majority large enough on the town ticket that will speak once and for all as an endorsement of Republican administration, both national and state. It is evident to the student of town affairs that men of experience can conduct the business interests of the taxpayers far better than raw recruits. Every nominee for office where business ability is an absolute necessity has been qualified for office by his term and experience of the past, and therefore would be less liable to err than an unexperienced office holder. The objection offered that organization is detrimental to town interests is absurd on its very face. Anti-organization is such only so long as its weakness is apparent then it becomes a positive factor and no longer an anti. Organization is the keynote of success and the organization stands between the office holder and the people. Let an office holder prove his incapability no matter what his pull may be. No party can afford for its own good to carry dead timber. Hence it is that the worth and work of an organization becomes apparent. John Bright, one of England's greatest statesmen said, "It is essential for the greatest success of a country that in every part of it all men should take a real interest in national affairs" This can be brought down to local condition and affairs If a man would have his town reach the greatest success, he should take real interest in its affairs. This can best be brought about by a return of the present town officers as well as those who are on the Republican ticket with them. No appeal to friendship or an attack on leaders should swerve the Republican voter from expressing in his ballot, not only his choice, but conviction and endorsement of principle as he understands it. The opportunity will not come again until the national and state election next fall, and a large majority for both assembly and town tickets will do much to help the Republicans in other counties where small things turn the balances. Thus it is. A full Republican majority means more than is evident on the face of a town election.

A Laudable Purpose. William Hearst, the editor and proprietor of the leading daily paper of New York city, The Morning Journal, as well as papers in San Francisco, Cal., has announced his candidacy for the nomination of the Presidency of the United States. It's amusing to see the capers and antics of some of the straight laced and "holier than thou" editors in their efforts to throw cold water on Mr. Hearst's efforts. While we may not agree with Mr. Hearst's political party the fact is he is engaged in a laudable pursuit and his record as a successful business man and organizer are certainly qualities that would fit him for the office of the cheif executive, and not only that, but the editorial gentleman's effort will be an inspiration to every other young man in the country, and instead of throwing cold water on his his ambitious effort it should be furthered and will be by those of his party and the exception will be those who have a case on the "Greens" jealousy.

"Lije Doughy" is what the New Yorkers have nicknamed Dowie. He has not been taken seriously. Indeed they have had so much experience with Tammany grafters that they know a grafter as far as they see him.

Mr. Wyndham said in London the other day in an argument against Englands continuing a free trade country, that the American tariff of 1896 was the greatest protectionist tariff ever introduced in the history of the world and that its results refuted the declaration that protection killed the industry and energy of a country. Wonder what the tariff reformers will think of that.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution, and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Agitate the Question. Agitation of questions has very often been the means used to arouse public sentiment and thus made public officials do their duty. Because of so many interests the people seem to be sleeping on the Mormon question, and have not apprehended the awfulness of allowing senator Smoot to take his seat in the United States Senate. It has been charged again and again that he is a polygamist and there has been no denial of the charges. If they are true he is a violator of the laws of his own state. Every Apostle of the Mormon church believes that the Mormon church claims and teaches supreme authority divinely sanctioned to control its members in civil as well as religious affairs. It is plainly evident that one, who believes that, believes that his first duty would be to the church, and so becomes disqualified because he has sworn first allegiance to a government other than the United States. Such an one is a traitor, not only to the purity of the home, but to the government as well. The people succeeded in one attempt in keeping a polygamist from the legislative halls by petition, and by petition and agitation will do it again. The Mormon church holds up her political power before the great parties, and the way to meet her is by petitions signed by voters who demand that no polygamist or traitor will be allowed to sit in the halls of the government. When one thinks of the iniquitous practices of the Mormon church one is led to exclaim, "Oh religion what strange things are done in thy name."

CHAS. F. WHEELOCK, HEAD INSPECTOR, OF SCHOOLS FOR REGENTS

Sends Very Flattering Compliments to Principal A. O. Tucker.

In a letter to Principal Tucker, Charles F. Wheelock says among other things:

"Inspecter Peck in reporting a recent visit to Andover estimates your library at $400, your apparatus at $300, and says that a public library is available for use by the pupils. In his general comments Dr. Peck says:

"I find Andover has made good progress in arrangement of course of study and in discipline. The board are to be congratulated on the approaching completion of a new building. I recommend the employment of an additional teacher. I am informed that this addition is contemplated in the near future."

The Opposition to the Canal Should be unanimous in Andover.

Andover should do its share in teaching the cities favorable to the canal proposition that they are not the whole thing. There should not be a single vote cast in this township for the proposition. Make the canal extreme look as sick as possible in Andover.
