Political prophets are prevaiing hard times. Railroads are retrenching expenses by discharging many of their employes. Corporation stocks are shrinking in value and every one should be prepared to stand from under when the financial crisis comes and it would seem to be an unwise act for the people of the state to vote one hundred and one millions in cash to throw away on the canals. That would mean a tax burden that the people could hardly bear with the tax load they now carry, besides past expenditures shows that the sum called for would be but a starter for what would follow. Once get one hundred millions invested and the cry would be for another million to save the original one, taxpayers would never see the end. That is not all. The money expended would take fifteen years to complete, as it would give work to a number of decided governing votes. Vote down the canal grab.

Gained Forty Pounds in Thirty Days.

For several months our younger brother had been troubled with indigestion. He tried several remedies but got no benefit from them. We purchased some of Chamberlain's Stomach and Liver Tablets and he commenced taking them. Inside of thirty days he had gained forty pounds in flesh. He is now fully recovered. We have a good trade on the Tablets.—Holey & Merchant, Long Branch, Mo. For sale by O. E. Vars & Son, Andover; and N. E. Coston, Greenwood.

NOTICE TO SUBSCRIBERS.

NO PAY, NO PAPER AFTER JANUARY 1, 1904.

The "News" Adopts the Cash in Advance System, Believing it Better for both Publishers and Readers.

The ANDOVER NEWS is to-day the only paper in Allegany county printing eight six column pages all at home, that does not charge more than $1.00 per year subscription. It is a close thing to issue such a sheet at that price and make both ends meet. The price of print paper has doubled within the past four years. The only way the NEWS can possibly maintain the present $1.00 rate is to carry no deadheads. Believing it unjust that a good subscriber be taxed to help pay for his deadbeat neighbor's paper, we have determined to adopt the "No pay, no paper" policy January 1st, 1904, and live rigidly up to it after that date. Kindly read the label on your paper and if you are not credited beyond Jan. 1st, 1904, you are hereby notified that your paper will then be discontinued unless you walk up to the Captain's office and settle before that date. After Jan. 1st, 1904, all subscription accounts then due us will be placed in an attorney's hands for collection.

He Learned a Great Truth.

It is said of John Wesley that he once said to Mistress Wesley: "Why do you tell that child the same thing over and over again?" John Wesley: "Because once telling is not enough." It is for this same reason that you are told again and again that Chamberlain's Cough Remedy cures colds and grip; that it counteracts any tendency of these diseases to result in pneumonia, and that it is pleasant and safe to take. For sale by O. E. Vars, & Son, Andover; and N. E. Coston, Greenwood.

WEST JASPER.

There is a little stir being made to get some oil men interested in the oil well drilled a few years ago on the Waffle farm near South Canisteo. There is gas and some oil and the tubing is extract and five minutes will remove the surface plug. The well has been shut, but needs cleaning and it may be found a prize yet for the sand was pronounced of a superior quality by oil experts.

An old landmark has been removed in the death of Wilson Wyckoff, one of Jasper's most honored and highly respected citizens, who departed this life on the 22nd, aged 82 years and 6 months. He was an honest, upright man and kind neighbor. The funeral was held from his late residence in Jasper and interment in the Jasper cemetery. He leaves one son, R. S. Wyckoff, one daughter, Mrs. N. L. Drake, and one granddaughter, Mrs. Austin Hoff, who has resided on his farm for several years. He was honorably respected by all who knew him, which was demonstrated by the large conclave of friends in attendance at the funeral, many from a distance. Sermon by Rev. Elder Bax. Mr. Wyckoff was in Jasper on Tuesday in his usual health and returned home and was suddenly attacked with inflamation of the bowels. Called a doctor Wednesday morning and died on Thursday morning.

Dieting Invites Disease.

To cure dyspepsia or indigestion it is no longer necessary to live on milk and toast. Starvation produces such weakness that the whole system becomes an easy prey to disease. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that one cares to eat, and is a never failing cure for indigestion, dyspepsia and all stomach troubles. Kodol digests what you eat—makes the stomach sweet. Sold by O. E. Vars & Son, Andover.

BITTER BLOOD FEUD

Assassination of Prominent Armenian in London.

ONE OF A SERIES OF MURDERS.

Presumably Committed by a Fellow Armenian Recently From the United States, - Murderer not Yet Caught.

London, Oct. 28.—Sagatel Sagouni, president of the Armenian Revolutionary society, was murdered at the doorstep of his lodging, in Nunhead, an unpretentious suburb of London, Monday.

The murder presumably was committed by a fellow Armenian recently from the United States. The assassination had a political motive and was characterized by a boldness for which London has seldom been treated. It created an unusual sensation, since it appears to have been only an incident in a long and bitter vendetta between factions of Armenian revolutionists.

The attempted murder of Peter Kuruglan in Boston, a recent killing in Switzerland and the assassination here are achievements credited to the Armenian radicals.

It is said that two members of the opposition party have already been killed in Russia, though the London Armenian revolutionary committee denies both knowledge of and responsibility for these crimes.

It is generally expected that Sagouni's death is only the prelude to other chapter in the story of a bitter blood feud. Members of the Armenian committee here express themselves as certain that the murder is the work of an Alfarist member of the radical minority. The police are following up all clues suggested by Sagouni's associates.

The Murdered Armenian.

New York, Oct. 28.—Sagatel Sagouni, president of the Armenian Revolutionary society of London, who was murdered in a suburb of London Monday, was in New York on a visit a year ago, according to David Der Minasian, an Armenian importer, but was not then engaged in a revolutionary movement. "Sagouni was a patriot,' said Mr. Minassian, "but he was not a revolutionist. He was very wealthy having made many millions in oil production in Russia. He gave much to charity and was instrumental in having an Armenian church built in Paris at a cost of 3,000,000 francs. He was a man of high character and had an excellent education."

MRS. BURDICK WINS.

Surrogate Gives Her the Trusteeship of Her Children's Estate.

Buffalo, Oct. 28.—Surrogate Marcus has handed down a decision in which he awards to Mrs. Alice Hull Burdick the care of the property left to her children as well as custody of their persons. The decree awarding her personal custody of the children was made some months ago. At that time the contest made by Mrs. Burdick against the fourth section of her murdered husband's will was tried out and decision was reserved. Edwin L. Burdick's will, in an attempt to deprive his wife of the care of their three children and their estates, was drawn as follows:

"Fourth—I nominate and appoint Charles S. Parks and Ransley Tucker to be the guardians of the persons of my three children, and August B. Kellogg, George H. Dunston and George C. Miller to be joint guardians of the estates of each of my three children, and I direct that all funds and securities belonging to each of my children, shall be received, held and paid out by them jointly as such guardians."

The argument of the executors of the will was that Burdick intended to create a trusteeship to hold his children's property. Surrogate Marcus holds that if that was the intent the language is not clear enough. The surrogate's decision means as soon as the executors have closed their management of the estate they must turn it over to Mrs. Burdick. She will be guardian of the persons and properties of her three children.

The estate left to the children is valued at about $60,000. It is probable suit will be started in their names soon to have deeded back to the estate several pieces of real property Mr. Burdick deeded shortly before his death to friends, with instructions to hold the property for his children.

Suspect Has Not Disappeared.

Port Jervis, N. Y., Oct. 28. — The story to the effect that the person who had been under suspicion in the Bevans murder mystery had disappeared is unfounded. He talked with his neighbors today and says he does not fear arrest. His home is being so closely watched that he cannot escape but it is believed the arrest will soon be made.

Seven Section Men Killed.

Sacramento, Cal., Oct. 28.—Word reached this city that the second section of an eastbound passenger has run into a work train at Palisade station, on the Central Pacific in Nevada. Seven [illegible]

TWO RECORDS BROKEN.

Dan Patch Reduced Half-Mile Pacing and Mile to Wagon Records.

Memphis, Tenn., Oct. 28. — Dan Patch within 45 minutes yesterday afternoon smashed two world's records on the track of the Memphis Trotting association.

First he went against the world's half-mile pacing record of 57½ seconds held by Prince Alert and clipped a second and a half from it, going the distance in 56 seconds.

Next he hung out a new world's record for a mile pacing to wagon, making the mile in 1:57¼, two seconds better than the regord of 1:59¼ which he made at the recent meeting in Lexington, Ky.

Major Delmar was sent to lower his own record and cut a quarter of a second from the two-minute mark, making the mile in 1:59¾. The first quarter was made in 30 seconds, the half in one minute and the three-quarters in 1:29¾.

In making the half mile record Driver Myron McHenry behind Dan Patch started from the halfmile pole, where two runners were picked up. The quarter was made in 28¼ seconds.

The crowd cheered heartily, but its applause was eclipsed by the enthusiasm displayed when Dan Patch came out to make a new wagon mark. The start for this was made with two runners as pacers. The quarter was made in 29½, the half in 58½ and the three-quarters in 1:28. Under the wire the champion pacer dashed in 1:57¼, showing little effect of the two-record breaking drive.

The afternoon's program was the longest of the meeting. Dariel was the favorite in the free-for-all, but after winning one heat was beaten by Dan R. The Transymulia, Secretary Howe's annual facial event, caused much merriment to the spectators.

MURPHY KNOCKED OUT.

Stood Up For Ten Rounds and Part of 11th Against Young Corbett.

Boston, Oct. 28.—For 10 rounds and a minute and a half in the 11th, Hughey Murphy of New York stood up against Young Corbett last night. Then Corbett landed three blows, and although Murphy came up before the count he was so groggy that Corbett refused to continue the fighting and was awarded the decision.

Although Murphy landed frequently his punches had but little weight and Corbett scarcely noticed them.

Through the first rounds there was practically no difference in the skill displayed by the competitors. In the 10th round Murphy had the better of it.

In the 11th Corbett rushed the battle from the start, landing a solar plexus, a left on the chin, sending the New Yorker to the floor for a count of nine.

Murphy arose and Corbett landed another left which sent Murphy across the ropes for another count of nine. After the decision Murphy fell his full length on the floor and Corbett picked him up and carried him to his corner.

Jenkins Won From McLeod.

Pittsburg, Oct. 28.—The wrestling match for the championship of the world, which took place at Old City hall, this city, last night between Tom Jenkins of Cleveland, O., and Dan McLeod of Canada, was won by Jenkins, he taking first and third falls.

Winter Naval Maneuvers.

Washington, Oct. 28.—The program for the winter naval maneuvers determined upon by the navy department contemplates the concentration of the North Atlantic squadron off Guantanamo early in December so that the vessels may be present at the transfer of the coaling station at that point by Cuba to the United States. Leaving Guantanamo, the vessels will go to Culebra until Jan. 5, when the South Atlantic and European and Caribbean squadrons will join, making an immense fleet for the maneuvers. Toward the end of January the whole fleet will proceed to Guantanamo, where it will be joined by the coast squadron and strategic problems will be undertaken.

Blair Has a Chance of Recovery.

St. Louis, Oct. 28.—Physicians said that Mr. Blair has now an even chance for recovery. Percy Blair says his mother, who is president of the board of lady managers of the world's fair, had called a meeting of the board for Nov. 11, at which she would state her position regarding the fair. Nothing further was divulged. It is generally believed here that the grand jury has not secured evidence on which to base an indictment against Blair. Roberts, the accuser of Mr. Blair, himself, has stated that the grand jury could not indict without the testimony of Eastern witnesses, but it cannot be learned that efforts have been made to secure these witnesses.

Prevented From Entering Port.

Cape Haytien, Hayti, Oct. 28.—The Dominican government cruiser Independencia appeared off Puerto Plata and prevented the Cuban mail steamer Maria Herrera from entering that port. The Independencia then left Puerto Plata, going towards the American mail steamer Cherokee, coming from Monte Cristi, in order to prevent her from touching at Puerto Plata.

Ogdensburg, Oct. 28. — Two infant daughters of Fred Bentley were burned to death in a fire that destroyed their home. Mrs. Bentley was seriously burned in a vain effort to save her children. The fire started [illegible]

Dr. Wiley and His Poison Squad.

Dr. Wiley, chief of the bureau of chemistry of the department of agriculture at Washington, has begun his second study of the effect of food adulteration. In this, as in his "horse boarding house" experiments, he will be assisted by what is called a "poison squad," consisting of twelve hale and hearty young men who have signed a pledge to live exclusively at his table and to eat no food until July 1, 1904, other than that served to them under the doctor's immediate direction. These young men are enlisted for this experiment under stringent regulations almost as if they had enlisted in an army. They are assured of a table equal to that of any boarding house in the national capital, but with their food will be mixed salicylic, sulphuric and benzoic acids, that the effects of these poisons on health when mixed with food, as they are in many adulterations and preservatives, may be determined.

It is not expected, of course, that any of the twelve young men who have become Dr. Wiley's boarders fit the interest of science and humanity will suffer any permanent injury as a result of the experiments. They will be constantly under the eye of the doctor, and in case any of them should develop pronounced symptoms of salicylic, sulphuric or benzoic acid poisoning proper antidotes will be administered until a healthy tone is restored to their systems.

There is, however, one danger which it is to be hoped that the doctor has taken into account and against which he has made due provision. This danger is that the young men will contract the poison habit to such an extent as not to be satisfied with the prescribed amount in their food and will demand it "between meals" and "on the side." From starting out pleasantly at the beginning by asking one article to please pass the salicylic acid or the sulphuric acid or the benzoic acid, as the case may be, they may be afflicted with such a craving for deadly things as to smuggle stronger poisons into Dr. Wiley's dining room, which would, of course, greatly shock and grieve the eminent scientist, however much or little it might affect the value of his experiments.

Samuel Gompers on Arbitration.

There is much good common sense in the letter of Samuel Gompers, president of the American Federation of Labor, to the unions in the New York building trades which held out against a permanent arbitration agreement with their employers. He told them in effect that the plan was clearly a good thing and that it was folly to reject it just because a few of the details might have been improved upon a little.

Mr. Gompers goes on record against the sympathetic strike not as a matter of principle, but on eminently practical grounds. He says, "That weapon has been brought into play to such extremes for entirely insufficient reasons that even its advocates now deprecate its use." It is the very abuse of such strikes, he thinks, that has caused the prescpt demand for the settlement of all disputes by arbitration.

While distinctly opposed to compulsory arbitration, Mr. Gompers holds that "agreements with employers for the maintenance of industrial peace and the pursuit of the policy of conciliation with every honorable effort at arbitration
