NEWS OF THE WEEK

Summary of Events Reported Since Our Last Issue.

While on the way to meet his bride-to-be, William H. Pratt, of No. 86 Windsor street, Harrison, was robbed of a wallet containing $270, money that he had long been saving for his marriage.

It was reported to the police of Jersey City to-day that Bessie Yorke, seven years old, of 895 Chestnut avenue, was missing from her home. She went out last night and failed to return.

Relatives of Martin Loew, the young student at the Maryland Medical College, who died mysteriously last Sunday, are very much dissatisfied with the verdict rendered by the Coroner's jury in Baltimore, and declare that the young man died from the effects of brutal hazing.

Another drive was made against the United States Steel stocks, and recent predictions that the preferred would sell at 50 were more than fulfilled. It actually went as low as 49 3-4. The common sold at $10 a share.

Eight British infantrymen and one Sepoy were wounded in the engagement with a tribe which recently took place in the Aden hinterland. The tribe's loss was heavy, the killed including the chief's son.

A bulletin on the condition of Emperor William, issued this morning at the New Palace, Potsdam, says there is a slow improvement in the appearance of the left vocal cord, and adds that the Emperor to-day resumed his usual morning walk in the park.

Fifteen thousand persons saw Lou Dillon, 1:58 1-2, trot on the Speedway, driven by C. K. G. Billings.

Three hundred persons in New York offered to give up an ear to be grafted on another, hoping thereby to gain $5,000.

Mrs. Russell Sage was one of the speakers at a memorial meeting for Mrs. Emma Booth-Tucker.

Herr Ballin, director general of the Hamburg-merican steamship line, arrived in New York on a tour of inspection.

The inmates have two nines, called The Baldwin, Raymond Electric Switch Company is about to move its plant from South Norwalk to New Haven, Conn.

The Rev. Dr. Parkhurst, preaching on the result of the election, predicted two years of excess and immorality which, he thinks, will bring about a revulsion of feeling that will swamp Tammany.

Plans of the Lyceum Club, London's ne whome for literary women, have been made public here, and may result in establishing a similar club in New York.

Joseph Benn & Sons have bought a site near Greystone, North Providence, R. I., and will at once begin the erection of a plant to manufacture mohair and alpaca which will employ 1,000 persons.

President Roosevelt recognized a de facto government in Panama.

Residents of Colon and Panama cheered the provisional government and the United States and there was no bloodshed or fighting.

Three midshipmen of the first class were dismissed from the Naval Academy, in Annapolis, Md., for hazing "plebes."

State officers, in Albany, N. Y., denied knowledge of any scheme to bring about repeal of the canal improvement law.

Clara Coffin, who disappeared from East Orange, N. J., reached Omaha, Neb., and told a remarkable story of being hypnotized and abducted by a woman.

Samuel J. Parks, walking delegate of the Housesmiths and Bridgemen's Union, was sent to State Prison to serve two years and three months for extortion.

Hurt in Football Game.

Stamford, Conn.—During a game of football between Manor School, of this city, and a team picked from the Phi Beta Kappa fraternity, of Yale, yesterday, Frank Howland, of Asheville, N. C. fullback of the Yale team received a compound fracture of the right leg, and Johnson, of the Manor School team, had his shoulderbone broken.

U. S. Protests to Brazil.

Rio Janeiro.—It is reported that the United States Minister has protested against the increased import duties on flour, and oil, and has threatened that the United States will adopt retaliation against Brazilian coffee if the duties are maintained.

Dynamite Kills Three.

Harrisonburg, Va.—Three men were killed in a dynamite explosion here. They were W. H. Bowman, former Superintendent of Water Works Grant Dunable and Lewis Tame. Four men were injured. The men attempted to thaw out frozen dynamite, which exploded.

Damrosch Still Sonless.

Augusta, Me.—Mrs. Walter Damrosch, wife of the famous conductor, gave birth to her fourth daughter. Mr. Damrosch is on the way here from New York.

It Costs Less.

If you wish to keep your friends living away posted as to things doing in Andover, just remember the News, sent every week, will be cheaper than a letter every week, and will give them more information. tf

Panama Sends Commission.

Colon.—Dr. Manuel Amador, Minister of Finance, and Frederico Boyd, a member of the Junta, have been appointed by the provisional government a commission to go to Washington and arrange with the United States a canal and other necessary treaties. They sail to-day on the steamer City of Washington.

It is said that the commissioners will endeavor to have amendments made to Article 8 of the Hay-Herran treaty, and to eliminate Article 12, in order that the entire territory of the republic may be made free to the commerce of the world, to which the commissariat stipulations of Article 12 are considered prejudicial.

VIEWS OF DE LESSEPS'S SON.

Paris.—In an interview published in the "Gaulois," Charles de Lesseps expresses satisfaction with events on the Isthmus of Panama, and says the purchase of the canal rights by the United States will save French interests, at least to a small extent. In accordance with the provisions of the Hay-Pauncefote treaty, the canal can be operated in the interests of all nations.

Hobson Seeking Lost Diamonds.

Captain Richmond Pearson Hobson of Merrimac fame appeared in the Jefferson Market Court, New York, yesterday to apply for a search warrant to have the sanitarium at No. 68 West Thirty-eighth street searched. He told Magistrate Mess that his sister, Margaret Hobson, who has been attending an older sister there who is suffering from nervous prostration, lost a purse containing $68 and a gold medal studded with thirty-eight diamonds. Captain Hobson said this medal was presented to him by a Southern society and he prized it most highly. He said it cost $1,000.

Death for Killing President

Washington.—A bill prescribing the death penalty for the crime of killing the President of the United States, the Vice President, Ambassadors or Ministers of foreign countries accredited to the United States was introduced in the House to-day by Mr. Littlefield (Maine). The bill prescribes life imprisonment for attempts to commit bodily injury against the President or Vice President. Persons who aid or abet any of the crimes mentioned are deemed principal offenders. The harboring of persons guilty of the offenses mentioned is made punishable by twenty-five years' imprisonment.

Mystery in Student's Death.

Baltimore.—Coroner Wiltshire and his jury of inquest rendered a verdict to-night that Martin Loew, a dental student in the University of Maryland, who was found dead in bed yesterday morning, came to his death by gases or drugs administered to him by persons unknown.

Dr. R. Stanley Smith, president of the fraternity, into which Loew had been initiated last week, was released on his own recognizance. The police are investigating the cause of the death of Loew, whose body is at the morgue.

Mitchell Not to Go in Cabinet.

Boston.—"There is no truth in it, so far as I am concerned," was the comment made to-day by John Mitchell, president of the United Mine Workers' Union, with reference to a statement that he would become a member of the Cabinet of President Roosevelt, to succeed George B. Cortelyou, Secretary of Commerce and Labor.

Fight on Labor Unions.

Southbridge, Mass.—Five manufacturing corporations in Southbridge, employing 1,877 hands, shut down tonight and established a lockout against the labor unions recently formed in the town.

A Story with a Moral.

Bishop Nicholson, of Milwaukee, has a story of personal experience to tell to those who seem swamped in worries. It happened during the first years of his ministry, when he was rector of a Philadelphia church. The parish matters, social and financial, were in a bad way, and straightening them out was slow work. He was distinctly discouraged one day when, having gone to New York on business, he stopped to look at the Brooklyn Bridge, then building. A man, covered with dirt, was working on the abutments.

"That's pretty dirty work you are engaged in," said the bishop.

"Well, yes," answered the laborer, "but somehow we don't think of the dirt, but of the beauty which is to come out of our work."

"It was the lesson I needed, and I went back to Philadelphia the better for it," said Bishop Nicholson.

An Ancient Giant.

The complete skeleton of a human giant has been found at Holbeach, England, a little Lincolnshire fen town between Lynn and Spalding, during excavations for the foundations of two new houses. Every bone was in perfect condition, and not a tooth was missing. The skeleton measured 7 feet 2 inches in length. A curious key, five inches long, with triangular handle, was found near the bones. Stukeley, the famous antiquary, who was born at the spot where the discovery has just been made, records a Roman Catholic chapel, dedicated to St. Peter, formerly stood. Other human remains have been previously unearthed on the same spot.

HEIRESS BECOMES A DUCHESS.

Miss May Goelet the Bride of the Duke of Roxburghe To-Day.

New York.—The last detail of preparation for the marriage, of Miss May Goelet, who is perhaps the richest heiress in America, to the Duke of Roxburghe, was completed to-day. The programme, which had been carefully planned had been rehearsed, so that when the ceremony was performed at St. Thomas's Church, Fifty-third street and Fifth avenue, at 2.30 p. m., not a single thing marred the beauty and impressiveness of the event.

It was arranged for the Right Rev. William Croswell Doane, Bishop of Albany, to perform the ceremony, assisted by the Rev. Ernest K. Stires the rector of the church.

Miss Beatrice Mills had been selected as maid-of-honor, and the bridesmaids were seven—Lady Isabel Innes-Ker, the Duke's sister; Miss Alice Babcock, Miss Therese Iselin, Miss Marian Haven, Miss Anna Thayer, Miss Pauline Whittier and Miss Martha Johnston.

The best man was Captain, the Honorable Reginald Ward, brother of Lord Dudley; and the ushers the Honorable Hugh Baring, Harold Brassey, both countrymen of the bridegroom, and Robert W. Goelet, William Woodward, Henry Rodgers Winthrop and Henry Worthington Hull. The bride was escorted to the altar by Robert Goelet, her brother.

Contrary to custom, the ushers took no part in the bridal procession as to days ceremony, but before the procession formed in the outside vestibule of the church, marched in a body and took seats forward in the centre aisle.

In the chancel steps the Rev. Dr. Stires read the Betrothal Service, after which the Duke and the future Duchess, his best man and the bridesmaids advanced to the altar railing, where the marriage ceremony was performed.

Girls Broke "Prof's" Nose.

Bridgeton, N. J.—Professor Stock, who acts as coach and referee at all the practice games of the young women's basketball teams at the South Jersey Institute, was knocked down and his nose broken while he was urging the fair players to speedy work.

He had been coaching the girls to pass "lightning" and "shoot quick." They did it, and the ball was passed so fast that the referee could not get out of its way, and it hit him in the face and broke his nose.

Professor Stock refers to the broken nose as "just an accident.

Dowie Visits the President.

Washington. — John Alexander Dowie, head of the Zion Restoration Host, arrived in Washington to-day from New York. He passed most of the day in viewing the sights of the capital.

Early this afternoon, accompanied by several members of his host, Dr. Dowie called by appointment at the Executive offices to see the President. He was in conference with Mr. Roosevelt for nearly an hour.

Contracts for Mail Pouches.

Washington.—The contracts for furnishing the mail sacks and mail catcher pouches to the Postal Service between Dec. 1, 1903, and June 30, 1905, were awarded to-day to William Taylor, of Lyons, N. Y., and F. C. Johnson, of New York City. The former will get $1.89 each for the mail catcher pouches and the latter gets the contract for the sacks at prices ranging from 30 cents to $1.05 for the different classes and sizes.

Tuberculous Cattle at Cooperstown.

Albany.—Thirty head of registered Guernsey cattle, owned by Edward Clark, of Cooperstown, were found to be afflicted with tuberculosis, and all but six were killed on Saturday and their carcasses buried. Mr. Clark, who is the stepson of Bishop Potter, intends to allow the cow sheds and pastures on his farm to remain empty for a year that the germs of the disease may be entirely eradicated.

King Edwards Birthday.

London.—King Edward (who was born Nov. 9, 1841), celebrated his birthday at Sandringham, where there was the usual dinner to the tenants of the estate, at which the King, the Queen, and other members of the royal family handed round the dessert.

Filipinos Coming to Learn.

San Francisco.—Ninety-six young Filipinos arrived on the steamer Korea. They have been sent to the United States to perfect their education. They have already been assigned to various colleges, a large proportion going to the University of California.

Aged Politician Dead.

Lyons, N. Y.—Former Assemblyman John E. Hough died in South Butler from pneumonia resulting from a cold contracted on Election Day. He represented Wayne County in the Assembly in 1894, and was for years chairman of the Wayne County Board of Supervisors. He was seventy-eight years old.

Woman's Body Found.

Ridgewood, N. J.—In the Saddle River Hook, near here, two hunters found the body of a woman about thirty years old. Coroner Curry, of Hackensack, and Chief of Police Pullis, of Ridgewood, think the woman was the victim of the recent flood, and that the body was carried several miles by the high water.

Canada's Wheat Crop Short.

Duluth, Minn.—The latest official reports from Manitoba are that the crop of Northwest Canada is 3,000,000 bushels short of last year, amounting to 90,290,000 bushels, of which 14,000,000 bushels will be required for seed and interior Manitoba mills. This is the first authentic report from the Canadian Northwest.

Consumption

Salt pork is famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

A sample will be sent free upon request.

SCOTT & BOWNE, CHEMISTS, 409 Pearl St., N. Y.

50c. and $1; all druggists.

SECOND WEEK.

The first week of November just passed was our banner week in our READY TO WEAR DEPARTMENT. We are fortunate in having a personal friend who is connected with one of the large houses, who is in the market all the time this season of the year to secure as fast as the garments are turned out not having to wait for orders to be filed in rotation. He made us four shipments last week and another shipment arrived this morning, thus ensuring you of finding only the new and latest productions. We have in stock this Monday morning almost all sizes in the three quarter Military Coats, also the semi fitted 40 in. Coat in Black, Tan, Castor and Red. Our large business done so far this season in this Department is proof to us that our prices are right.

HIGGINS BROS. & McPHERSON,

PORTS BLOCKADED

Warships Ordered to Prevent Soldiers Sailing for Panama.

LECTURES IN AMERICAN CITIES

Diplomatic Agent from New Republic Owns Canal Shares—His Interest Shown in Open Letter to Senator Morgan.

Washington, Wednesday. — United States warships are blockading Colombia to prevent the embarking of Colombian troops from Buena Ventura or any other Colombian port for the isthmus. American warships will be ordered to any port upon receipt of an intimation that Colombian troops will attempt to sail therefrom for the isthmus.

The battleship Maine, with a complement of more than 500 men, is now at anchor in the harbor of Colon. The battleship was busy all night coaling at Newport News.

The cruiser Prairie has left the League Island Navy Yard, at Philadelphia, under sealed orders for Newport News, from which she will proceed to the isthmus. She has on board a battalion of marines and a full supply of quartermaster's stores.

Philippe Bunau Varilla, the accredited diplomatic agent of the new Republic of Panama, has gone to New York on a mysterious mission after a conference with the Secretary. Bunau Varilla, it has been learned, owns 11,000 shares of Panama Canal stock and has long been an agent of the Panama Canal Company. His interest in the canal project is shown in an open letter which he has written to Senator Morgan, in violation of all rules of diplomacy, urging him to give up the fight for the Nicaraguan Canal route and get into the Panama band wagon.

It was announced yesterday that the revolution in Panama was planned in the Waldorf-Astoria Hotel, New York, by Philippe Bunau-Varilla, a handsome French engineer and stockholder in the Panama Canal Company, who has just appeared in Washington as the diplomatic representative of the republic of Panama.

This dashing, well-dressed Parisian, who managed the sale of the Panama Canal Company's rights and property to the United States, is the same person who lectured in various American cities, pulled wires at Washington and even attempted to convert Senator Morgan, of Alabama, to the Panama route theory.

Tumor Cut From Kaiser's Throat.

Berlin.—Emperor William has just submitted to an operation on his throat for the removal of a tumorous growth.

The official announcement of this fact has startled the German nation, for despite the fact that the surgeons say the Kaiser is in no danger, the people remember that it was a cancer that killed his father and also his mother.

The operation, it is asserted in court bulletins, was only the removal of an innocuous polypus, or tumor, from the larynx, and a microscopic examination of the growth, it is said, shows it is not of a cancerous nature.

Wharf Fire in Portland.

Portland, Me.—One of the largest wharf fires which Portland has seen in years was discovered last night in the storehouse of J. H. Hamlen & Son, on Brown Wharf. Three large schooners were lying at the wharf. Alongside the sheds was the Eleazer W. Clark, which had just finished loading shooks for Guadaloupe and Martinique, and on the dock at the western side was the Major Pickards.

Both were hauled into the stream. The stevedore Odlon lay at the end of the wharf. As the wind was blowing away, she was not damaged. The loss is estimated at $100,000.

Fouled Alaska Cable.

Seattle, Wash.—During the storm which swept over this region Sunday night and early yesterday, the big four-masted French bark Ville de Mulhouse dragged her anchors and fouled the Alaska cable, doing serious damage.

The cable was pulled and hauled off its course fully half a mile, and the vessel is still so entangled in the great wire rope that she cannot extricate herself. Before she can be disentangled it may be necessary for the Ville de Mulhouse to slip her anchors.

Elk Killed by Engine.

Malone, N. Y.—A locomotive on the Mohawk & Malone Railroad ran into a herd of seven elk at a crossing near here and killed three of them, including one weighing 600 pounds. They were part of a herd recently presented to the State by William C. Whitney.

A Good Name.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Hoerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by O. E. Vars & Son.

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

From the Greenwood Times

Terrible Encounter with Sea Serpent.

The Glengrant, of Fraserburgh, has returned to port from the fishing grounds in the North Sea, and the captain and crew, numbering in all ten men, report a terrific encounter with the sea serpent in the North Sea. They were some eighty miles from land on Tuesday last, and just on the break of dawn the hands turned up to try the draught nets. Suddenly a tremendous commption arose on the weather quarter scarcely forty yards away.

One of the crew remarked "Whales," but to their consternation a huge dark body rose and made for the steamer. The men were almost paralyzed at the awful sight of the monster, which came on with a swaying motion. When twenty feet off the vessel it reared to a great height, and with a loud hissing noise plunged down again. A second more and the vessel was lifted at least six feet as the monster worked its way through the water beneath her. The vessel took a great dip by the bows and shipped a huge sea, washing the deck clear and flooding the engine room, cabin and forecastle.

The utmost consternation prevailed among the bewildered crew, as the steamer first looked like capsizing and then swamping. By the time things were righted the monster was some distance off, but to the horror of the crew it was seen turning and coming on again at a furious pace.

One of the fishing hands appeared the only one who had not lost his head, for he dashed below and got a gun. When the animal was fifteen yards away he fired at the head. Whether he hit it is not known, but it dived, and a long, sinuous body followed, wriggling like a serpent but traveling at a great speed. Long afterward the huge monster's undulations could be seen. It was twice the length of the Glengrant, or nearly 200 ft.

It had a head like a sea horse, with a long mane or fin down the back, great green glistening eyes, an enormous mouth and teeth. The description tallies with a monster seen by Montrose fishermen on Wednesday.—Edinburgh British Press.

Origin of the Chesapeake Dog.

Many years ago a vessel from Newfoundland ran aground near an estate called Walnut Grove, on the shores of the Chesapeake. This estate belonged to Mr. George Law, a member of a well known Maryland family. On board the ship were two Newfoundland dogs, which were given by the captain to Mr. Law in return for kindness and hospitality shown to himself and crew. The beginning of the Chesapeake dog was a cross between these Newfoundlands and the common yellow and tan colored hound, or coon dog, of that part of the country.

The marked characteristics of the Chesapeake Bay dog give every evidence of the truth of this story. Its strong power of scent, its hardihood, its shorter hair, its medium size and its remarkable endurance come from the hound, while its love of water, its powers of swimming, its extraordinary ability to endure cold, its furry coat, wonderful intelligence and general good temper are all due to the Newfoundland. There has doubtless been added, from time to time, some water spaniel cross which has helped its remarkable retrieving qualities. The yellow and tan of the hound, combined with the black of the Newfoundland and the introduction of the spaniel, produced the liver color of the true Chesapeake Bay dog. In course of time the Chesapeake Bay has, in Maryland, become a distinctive breed.—Forest and Stream.

The thought that the other man is a lot worse off doesn't help much. It's his fault, not yours.

Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from throat and lung troubles. But since the advent of Dr. King's New Discovery for consumption, coughs and colds, even the worst cases are cured, and hopeless resignation is no longer necessary. Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all throat and lung diseases by O. E. Vars & Son. Drug gest. Price 50c, $1.00. Trial bottles free.

A MIGHTY PURCHASE

The Brooklyn Brokerage Company Will Conduct the Largest Sale of Clothing ever held in Steuben County.

SATURDAY NOV. 14, 9 A. M.

The Sale Will Open on and Will Continue for Two Weeks at No. 133 Main Street, Hornellsville, N. Y.

Let it be known that these are straight goods, no bankrupt, nor assigned stock, nor goods damaged by fire, water or otherwise. Good goods bought from parties who wanted what they could get for them, and were willing to sell cheap, and we had the cash. This stock amounts to $80,000,000, and consists of clothing, hats and furnishings now in the store, No. 133 Main street, Hornellsville, N. Y. The store is crowded from ceiler to ceiling with everything known in the line of men's, youths', boys' and childrens' wearing apparel for fall and winter wear. The choicest fabrics, highest grade of tailoring and general make-up will be shown in this immense stock of merchandise. The store front is covered with a large red banner. The stock is new in the hands of the Brooklyn Brokerage Company who will sell as much of it as possible and remove the balance to their wholesale auction rooms in Brooklyn and Manhattan. The store is now closed for the purpose of arranging the stock in proper shape for quick sales and will not be open before Saturday, November 14th, at 9 a. m. There will be a force of twenty salesmen to wait on the trade, and we will do our best to give our customers a chance to avail themselves of this, for once honest sale. This, the greatest sale ever known in Steuben County, will continue for two weeks only. All goods are tagged with large plain tickets, and marked in plain figures. A child can buy at the same price as a man. All will fare alike and we want it distinctly understood that under no circumstances will the price marked on the tag be deviated from, for any reason whatever. A good pair of 25c suspenders will be thrown in with every man's and boy's suit.

A Sample of the Bargains We Offer.

Men's suits, nobby woolen suits in the latest cuts and stylish makes, marked, by former owners at $7.50, now will go at $3.48.

Sale opens Saturday, November 11th, 9 a. m.—Two weeks only.

Sharp Advance in Eggs.

New York.—Yesterday's wholesale price for "best" eggs was 31 cents per dozen, which would mean close to 4 cents at retail. Just what the reason of the sharp advance during the past few days may be it is impossible to discover. Receipts yesterday were 4,362 cases, against 3,900 cases on the corresponding day last year. Receipts for the week were 42,372 cases, compared with 42,362 cases for the corresponding week last year. Since Jan. 1 receipts have been 2,935,676 cases, against 2,624,483 cases during the corresponding period a year ago.

A Scientific Discovery.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by O. E. Vars & Son.

MUSIC OF THE WIRES.

Meteorologist Says It is Caused by Terrestrial Changes.

A good many people have theories of their own as to the Aeolian music which is given out by telegraph and telephone wires when they are under the influence of certain breezes. When telegraphy was in its infancy, the yokel used to think that the noise was made by messages passing over the wires. Most educated people know that this is a silly theory, but they will be surprised to find that their own theory is about as ill-founded. Dr. Laska, a Polish meteorologist, declares that the noise is not given out by the wind at all but that it is caused by unseen terrestrial changes caused by meteorological influences. He hopes by a close study of the sounds to be able to discover a means of foreseeing what the weather is to be. Whatever theory he formulates in this direction, it is to be hoped that it will be more reliable than the meteorological forecasts which have hitherto been given to the world. There is something humiliating in the fact that the English weather defies the scientist. "The Meteorological Office, with all its facilities, seems to be unable to give us more than a rough idea in figures of the weather which we have enjoyed—or otherwise—and that is not very cooling. There is an opening for Dr. Laska, and there is a further opening for him if he can put the wires to use when Mr. Marconi has once for all proved that they are no longer necessary for the transmission of messages. The wind will do them, and I felt better by the time I had used half of the first box. Three boxes cured me, and I have not been troubled since."

Doan's Kidney Pills sold at all drug stores. 50 cents. Foster-Milburn Co., Buffalo, N. Y.
