COMING UP—

"Hurrah, exams are over! What a relief! Now, I'm going to have a rest." Yes, they are over and it is a relief, but the question is—how can we afford the rest?

As one enters the high school building Monday morning and observed the marks posted on the door he could plainly see the results of earnest effort in some and in others the evidence of a prolonged "rest."

Now, at the dawn of a new semester we have just passed a climax in our school year and are entering a new scene which will ultimately lead to the real climax.

Now is the time to view the results of the past semester seriously, and resolve to start preparing for the climax of this scene or semester.

For some of us, new schedules, with new and different subjects, are in store. If so, we must plan accordingly and remember that in these new subjects there will be no climax to warn us, but that the daily work is the key to the final result.

Now as we enter the new semester let's remember that the history or english book isn't any heavier to carry home to night than it will be the night before regents next June; and the chances are ten to one that it will make our marks weigh a great deal more.

With these thoughts clear in mind and a foresight to that judgment day next June, this is a voice of experience warning you not signing off with "Yours, for more or less" but ending NOW with a firm resolved and happier group to "Cinch the TIMES."

TAXES

Taxes! Taxes! Taxes! These are the cries of millions of people whose over-burdened shoulders are bent and drooping. They do not stop to consider just what public benefits are derived from these taxes, or their complaints would be too loudly voiced.

Many people who pay taxes and do it most reluctantly, would be at a loss if it were not for our public library. Here they find amusement gratis, due to the fact that its upkeep is brought along by the aid of taxes.

Then, to these people may find an almost infinite amount of information. This even makes unnecessary the purchasing of newspapers or magazines. The latest in fiction and biography is always available for those who enjoy reading.

This, one of the many public benefits which are provided with the aid of taxes, should provoke few complaints such as are heard frequently.

Also, when we drive, we usually drive on roads which have been constructed through the use of the taxes. The bridges which we cross, the beautiful parks we may visit, and innumerable other things are made possible only through taxes. All adds to our convenience and pleasure.

Last but not least is the Public School.

It is to be feared that few of us students who are obtaining, through the medium of the public school, our education, would otherwise have the chances which we are now enjoying. We are benefiting thru the sacrificing of others. We have no right to waste someone's money. We are the investment in which the Andover taxpayers have put their money and faith. We must make good!

Oh yes! We could talk for years about taxes and the benefits provided thru them; but a few of the taxpayers would still object to that heavy burden which benefits them and their community; and if we waste their money by wasting our time and school materials, can we blame them?

Still standing on the outskirts of Brunswick Ga., is the historic oak under which Sidney Lanier sat when he wrote his famous poem, "The Marshes of Glynn."

ANDOVER WHIPS BELMONT 30 TO 15

Belmont, finding Andover's defense too strong to break, found no opportunity to get to the basket as Andover rolled in 13 field goals and four foul shots to defeat them 30 to 15.

Andover's defensive work was far superior for Belmont's team to pierce, and thus Andover held the county seaters to four field goals. Andover's 13 charity shots allowed to Belmont, of which they made seven, kept Belmont in the running.

Andover got away to an early lead, and the result of the game was never in doubt. In the first period Belmont scored on one foul shot and Andover had five. This was as close as the Belmont quintet came to the local boys during the game. In the second period the local five, headed by "Eddie" Kemp, who placed the sphere thru the hoop several times from the midway mark, leaded on Belmont for nine points and held the Belmont team to five. That scoring gave Andover a sizeable lead as the half ended 14 to 6.

In the beginning of the third period, Bruce McGill and Ray Briggs tossed the leather where the baskets pay off and from then on it looked like an Andover "walk-away." At the fourth quarter Coach McGee substituted five men, and they too, held the losing five to but five points the game ending 30-15.

In a preliminary contest the younger boys from the home town decisively outplayed the Belmont seconds and defeated them 14 to 5. Again free shots played an important part in Belmont's scoring, as the Andover seconds held Belmont scoreless from the field. "Bill" Dugan and Charles Burgett played well for the boys in purple.

FACULTY FACTS

Almost all of the teachers spent the week-end correcting examination papers and making out five-weeks averages.

Miss Ruth Baker spent the week-end with Miss Ruby Jordan in Friendship.

Principal and Mrs. Glenn E. Bretsch attended the Belmont-Andover basketball game Friday evening.

GRADE NEWS

Business Begins

The first day of the new term the First Grade started a club. The officers were elected by the usual voting methods. The officers are: President, Jimmy Burgett; vice president, John Gavin; secretary, Joanne Theetge.

The insignia of the club is a small red and white ribbon badge. White stands for cleanliness; red stands for politeness and courtesy.

——A-H-S——

HOW MUCH DO YOU KNOW?

1—What great Scottish poet was born on January 25?
2—Who might be called America's "poet laureate?"
3—What are five inert gases?
4—What is the heaviest metal?
5—For what political organization are the rebel forces in the Spanish civil war fighting?
6—What political organization do the Loyalist element represent?
7—After what great Roman generals are two of the months named?
8—Who originated the expression "dire necessity?"
9—Who administered the oath of office to President Roosevelt on January 20th?
10—Why will a solution of common salt in water conduct the electric current when neither dry salt nor pure water will do so alone?

HIGH SCHOOL HONOR ROLLS ANNOUNCED

Honor rolls for the fourth marking period have been announced. In addition to meeting the usual requirements, pupils on the first honor roll were required to have all mid-year test marks at least 85 per cent and those on second honors could have no test mark below 80.

First Honors—Thelma Ahrens, Letha Callaghan, Orville Mesler, Leo Noble, Carol Walton.

Second Honors—Clyde Briggs, Hilda Clarke, Vivian Connor, Charlotte Coryell, Laurence Dean, Louis Fulkerson, Betty Greene, Doris Honegger, Alan Tuttle, Syble Winchell.

——A-H-S——

GRADE HONOR ROLLS POSTED

Grade honor rolls for the fourth marking period have been posted in each room. Both the marks for the fourth period and the midyear test marks were used in determining the honors. The following pupils are on the honor rolls:

First Grade

First Honors: James Burgett, Lila Ann Childs, Edna Mae Kruger, Johanne Theetge.

Second Honors: Doris Atwell, Richard Burdick, Bobby Burger, James Dawson, Kathryn Joyce, Beverly McCarty, Robert Smith, Wenonah Smith, Helen Yannie.

Second Grade

First Honors: Patricia Ludden, Dorothy Mead, Naomi Patrick.

Second Honors: Audrey Baker, Henry Burton.

Third Grade:

First Honors: Donald Baker, Virginia Loring, Norma Steadman, Janice Walton, William Dougherty, Victor Clark.

Second Honors: Donald Burger, Donald Northrup, Robert Jackson.

Fourth Grade

First Honors: Clara Hann, Susan McAndrew, Joseph Vannie.

Second Honors: William Goodridge, Veronica Ray, [illegible] Smith.

Fifth Grade

First Honors: Charles Hall, Dorothy Rogers, Roland Kemp.

Sixth Grade

None.

Seventh Grade

First Honors: Victor Oakes, Jean Rogers.

Second Honors: John Dean, Wanda Dolan, Audrey Glover, Paul Ryan and Marjorie Bergman.

Eighth Grade

First Honors: Betty Jo Ludden, Mary Mesler, Nancy Jane Snyder.

Second Honors: Anna Hardy, Eleanor Northrup.

BOWLERS DROP THREE POINTS

The Andover bowling team suffered a relapse this week as they lost three points to the Mobile Gas team of Whitesville. The excitement of rolling the first tie game of the season proved too much for the Andover aggregation as they were decidedly off form the second game.

DeRemer rolled the high single game of 200 for Andover and also hit the high total of 541.

Summaries follow:

Andover (1)

NEW COURSES OFFERED

For the second semester, a few new courses have been added to the offerings of Andover High School. Economic geography I, will follow Economic geography I.; trigonometry will follow intermediate algebra; economic citizenship will follow civics; eighth grade pupils will be given an additional course in English grammar.

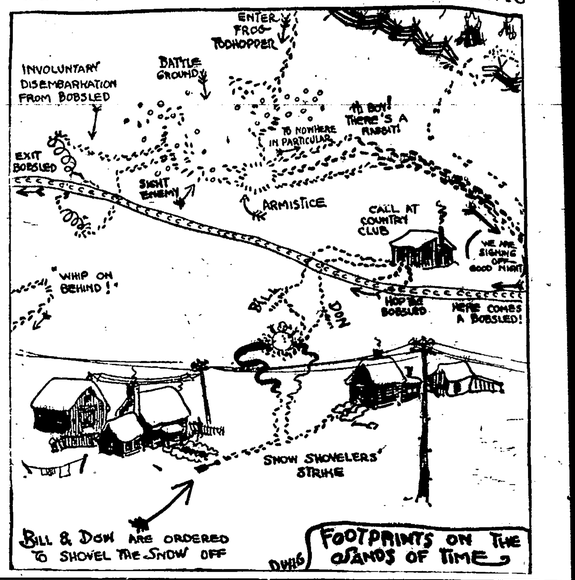
——A-H-S——

GRADE 1B STARTED

Last Monday afternoon was a highlight in the lives of 17 young children who entered school for the first time in the preliminary work of the first grade.

Miss Ellis, who is in charge, said the group was a fine one to work with and wished to express her appreciation to the parents for their help in registering the pupils.

SCHOOL DAYS — By DWIG



GOOD REGENTS RECORD

Once again the students of Andover High School have met the test of examinations made out under the direction of the State Board of Regents, and have scored a decided success.

In academic subjects only four failures were recorded out of a total of 28 papers written, making a record of 86 per cent passing. In preliminary subjects there were 33 papers written and 31 of them, or 94 per cent were given passing marks.

Following are the results of examinations not already published:

American History: Beatrice Finger, 65; Marjorie Newell, 73.

English III: Clifford Burdick, 65; Farnham Pope, 78.

Bookkeeping II: Cleon Pease, 65.

Business Arithmetic: Geo. Joyce, 88; Marian Swarts, 81.

Typewriting — Clifford Burdick, 89; Edna Fairbanks, 65; Edwin Kemp, 78; Mary Greenan, 88.

Business Law—Jessamine Briggs, 65; Richard Burdick, 79; Llwyn Howland, 82; Donald Joyce, 70; Clyde Kemp, 73; Bruce McGill, 77; Edward Mullen, 79; Lester Regan, 79; William Woodruff, 80.

Intermediate Algebra — Orville Mesler, 95; Jean Millspaugh, 68; Farnham Pope, 84; John Saunders, 73.

——A-H-S——

SENIOR CLASS HAS NEW RECRUITS

As a result of the passing of Regents examinations during the past week, the following pupils have been promoted from the Junior to the Senior class: Clifford Burdick, Edwin Kemp, Beatrice Kruger, William Woodruff. To have a Senior rating pupils must have passed at least 12 units of work.

The Senior class now numbers 25, and it is interesting to note that of this number, 19 are boys and only six girls.

Other promotions are as follows: George Joyce from the Sophomore to the Junior class and Anna Goodridge from the Freshman to the Sophomore class.

——A-H-S——

HUMOR

Mr. Host: "Give me a sentence using the word 'osmosis'."

Dick Mc.: "Where 'osmosis' when the lights went out."

Kenny V.: "Gee, Cooper's getting quite talkative."

Ted West: "Yeah, she must have been vaccinated with a phonograph needle."

Billy Dugan: "What's the date, please?"

Mr. McGee: "Never mind the date—the examination is more important."

B. Dugan: "Well, I wanted to have something right on my paper."

Jack Mc.: "I wish I had lived three hundred years ago."

Bud D.: "Why?"

Jack: "I wouldn't have had so much history to learn."

Ray B.: "Might I ask you for this dance?"

C. Cook: "Please do. I've been waiting all the evening to refuse you."

GRADES CLASH!

War in the form of a debate will be carried on between the Juniors and Seniors during assembly periods both this week and next.

The problem for this week is as follows: Resolved, That the Government should own and operate all public utilities.

Those who will maintain that it should are Helen Dean, Carol Burdick and George Joyce, members of the Junior class. Those fighting to maintain that it should not are Bruce McGill, Hilda Clarke and Alan Tuttle.

Altho the Senior class has studied debate one year more than their rivals, the Juniors, they will find the task of defeating them a hard one, for the Juniors have worked very hard to defeat their adversaries.

——A-H-S——

VACCINATION CLINIC IS SUCCESSFUL

The vaccination clinic which was held in the school building Monday under the direction of the local Board of Health, proved very successful in both numbers and results.

Over 325 pupils in the school received the vaccine treatment and the inspection by Mrs. Carpenter Tuesday morning revealed that in only three instances did the vaccination fail to work.

Several of the teachers including the principal were vaccinated. Both Mr. Bretsch and Dr. Scott expressed satisfaction at the extensive immunity against smallpox that has thus been secured in the school and community.

——A-H-S——

CHINESE ARE VISITORS IN ANDOVER HIGH SCHOOL

For the past few days the sixth grade have been having a display of Chinese work in connection with their study. The display has been loaned by a friend of Mrs. Harriet Schwartzenbach the sixth grade teacher.

The display consists of several carved wooden Chinese figures and implements. The figures are shown grinding rice or millet. One method is similar to our old fashioned hand-power fanning mill. The water buffalo is shown hitched to a plow. Houseboats, river barges and the jinrikisha are also shown with passengers. A merchant is shown making change. The Chinese Premier is near at hand with full illustration, written and pictured.

A rug, similar to those woven by the Chinese, is the center of attraction with its brilliant yellow, orange, green, red and blue offset by black, brown and white.

Tea blossoms and the tea plant are preserved in a sealed can.

A towel with the Chinese words for "good morning" surprised the examiner, because the "good morning" resembles the game of "hangman." The symbol for the rising sun which was also on a towel; is similar to a triangle within a circle.

One of the Chinese hand embroidered towels shows the exterior of a building.

It is hoped that the Chinese guests enjoyed their visit as much as the sixth grade hosts and hostesses have enjoyed their being there.

GUIDE POST

Friday, Jan. 29.—Assembly, debate between Juniors and Seniors, 9:00; orchestra, 3:30-41.5.

Monday, Feb. 2.—Girls' chorus, 3:30-4:15; boys interclass basketball 3:30; boys basketball practice 4:30.

Tuesday, Feb. 3.—Boys chorus, 3:30-4:15; Library Council meeting, 3:30; girls' interclass basketball, 3:30; boys' basketball practice 4:30.

Wednesday, Feb. 4.—Girls chorus, 3:30-4:45; boys' interclass basketball 3:30; boys' basketball practice, 4:30.

Thursday, Feb. 5. Orchestra, 3:30 4:15; Hi Herald staff meeting 3:35 4:45; boys' basketball practice 4:15

DO YOU KNOW THAT

In our school building fresh air enters the top of the room, rather than the bottom, because if the fresh air came in the bottom, our feet would be the only part of our body that would receive the benefit, and by the time it got up to our faces it would be stale air.

Florence Nitghingale was the forerunner of the hospital.

167 min. equal 1 hr. and 67 min.

(The above are from A. H. S. examination papers.)

——A-H-S——

ANSWERS

1—Robert Burns.
2—Edwin Markham.
3—Neon, Krypton, Kenon, Argon, Helium.
4—Uranium.
5—The Fascists.
6—The Communists.
7—Julius Caesar (July); Augustus Caesar (August).
8—Horace, Roman poet.
9—Chief Justice Hughes.
10—When dissolved in water, the salt crystals break up into electrically charged particles called "ions" which carry the electric current thru the solution.

UNCLE ABNER

Dear Uncle Abner:

I am the man who sharpens the knives, saws and axes. Things are very dull. I am an old man like you are. It would be very difficult for me to learn a different trade, because I have been doing this kind of work all my life. I have made a good living up until now. I would just as soon do this kind of work if business would only increase. Please advise me as to what you would do if you were in this situation.

Sincerely, ARCHIE PELAGO

Dear Archie:

If I were you I would just keep my nose to the grindstone. Try to keep a keen edge on things, because there will soon be a sharp increase in business. I have no axe to grind, but if you sharpen your wits, you,

Jan. 25. Mrs. Charles Clarke is slowly recovering from an illness of grippe.

Mr. and Mrs. S. W. Clarke, Mr. and Mrs. Frank Nye and Mr. and Mrs. R. E. Spicer attended a sub-district meeting of the Dairymen's league at Belmont, Monday.

Mrs. Jessie Greggs is not improving as fast as her friends would wish.

Stephen Clarke attended a pasture improvement meeting at Belmont, Wednesday.

Robert Spicer is ill with grippe.

Paul Vincent is in Buffalo for a few days.

Miss Mary Spicer was visiting Mrs. Frank Clemons in Wellsville, Monday.

Wallace Clarke was home from Odessa over the week-end.

Mr. and Mrs. Roy VanSchaick and son of Voorhees Hill passed Sunday with their parents, Mr. and Mrs. H. H. Hawks.

West Greenwood

(Miss Margaret Mullen, Reporter)

Jan. 27.—Mr. and Mrs. Dan Mullen and daughter, Margaret, passed Thursday with their mother and grandmother, Mrs. Emily King of Slate Creek.

Mr. and Mrs. Arthur Teribury, Barbara and Arthur, Jr., and Edward Clancy were in Andover on business, Thursday.

Mr Simpson, our Rawleigh agent from Jasper, was thru this place Monday.

Daniel Mullen, Jr., called on Mrs. Harriet Hyland and son Lawrence, Friday

Saw Ellis was in Hornell on business, Saturday.

Mr and Mrs Dan Mullen, Daniel, Margaret and Gerald Mullen were business callers in Arkport, Saturday.

Several of our residents have been playing the past week

Floyd Dixon called on Dan Mullen Sunday afternoon.

Mr and Mrs. Adelbert Gayhart of East Hill, William Gayhart and Mr. Lockwood of Canacadea called on Mr. and Mrs. Dan Mullen and family, Tuesday evening.

Lane School District

(Harold Church, Reporter)

Jan. 27.—We are sorry to report a good many cases of grippe on our street this week.

Gordon Pease was a business visitor in Wellsville, Monday.

Howard and Nelson Brewster motored to Wellsville Sunday, on business.

Mrs. Gertrude Potter spent Monday and Tuesday with Mr. and Mrs. Flay Pease.

Alton Coombs was in Andover, Tuesday, on business.

Harold Church passed Tuesday evening with Wilmer Cronk and family.

Flay Pease was a business visitor in Wellsville, Tuesday.

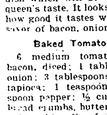
Mr. and Mrs. Van Coombs and children motored to Wellsville Sunday on business.

Robert, Anna and Raymond Flynn passed Saturday with Mrs. John Church and son, Harold.

Edward Brewster of St. Bonaventure College passed the week-end with his parents, Mr. and Mrs. Fred Brewster of this place.

Robert Flynn was a business caller in Andover, Saturday.

An out-and-out dinner menu is easier to plan than is one of those luncheons or suppers you build around one hot dish. Such a dish should be savory and satisfying, but not too heavy. Baked Tomato Surprise is a main supper dish which will do its duty to the queen's taste. It looks tempting, and how good it tastes with its mingled savor of bacon, onion, and corn!

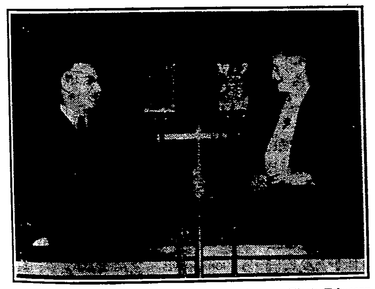


Baked Tomato Surprise

6 medium tomatoes, 2 strips bacon, diced; 1 tablespoon minced onion; 3 tablespoons quick-cooking tapioca; 1 teaspoon salt; ¼ teaspoon pepper; ½ cup corn; ½ cup bread crumbs, buttered

Cut thin slice from stem-end of each tomato and remove part of pulp. Sprinkle inside with salt, invert and drain. Saute bacon and onion until golden brown; combine with quick-cooking tapioca, salt, pepper, corn, and tomato pulp. Fill shells with tapioca mixture and sprinkle with crumbs. Place in baking pan and bake in moderate oven (350°F.) 30 minutes. Serves 6.

Welcome to Farm and Home Week!



"Come to Cornell's 30th Annual Farm and Home Week, February 15 to 20," is the cordial invitation extended by Dr. Carl E. Ladd, dean of the State Colleges of Agriculture and Home Economics, and Dr. Flora Rose, director of Home Economics. For many years they have greeted thousands of visitors who attend to learn the newest in farm and home practices and to receive help in their problems.

Name
Address

Three of every four acres of our farm crop land are used to produce feed for live stock.

Experiments at North Carolina State College showed live stock usually eat the cob as well as the grain when ear corn is soaked in salt water.

Two raindrops in the Dakotas are equal to three in Texas because the yearly evaporation is much greater in the south.

Rural Free Delivery of Mail Established 1896

Rural free delivery of mail was established on Oct. 1, 1896. Such a service was first officially suggested by Postmaster General John Wanamaker, in his annual report for the fiscal year 1891.

On Jan. 5, 1892, James O'Donnell of Michigan introduced a bill in the House of Representatives authorizing rural mail delivery. His bill carried an appropriation of $6,000,000. It did not pass. Later Thomas E. Watson, a congressman from Georgia, sponsored a bill which appropriated $10,000 for experimental rural mail delivery. This was passed by Congress March 3, 1893, and on July 16, 1894, a sum of $20,000 was appropriated for the same purpose. But the postmaster general did not deem these amounts sufficient for the proper introduction of an experimental service, so they were not used.

On June 9, 1896, the sum of $10,000, together with the former appropriations of $30,000, was made available, and the first experimental rural mail delivery service was established on Oct. 1 of that year, simultaneously on three routes—from Charles Town, Uvilla and Halltown, all in West Virginia.

The results were so satisfactory that nine months after the establishment of the first routes the service had grown to 82 routes, and by 1902 there were more than 11,000 in operation. On May 1, 1935, the rural delivery routes numbered 35,102.

Eclipse of Sun Brought Fear to Indian Villages

An eclipse of the sun on June 17, 1806, brought fear to the Indian villages of Ohio, recalls a writer in the Cleveland Plain Dealer.

When wkthout warning the sun began to enter the shadow of the moon the savages became terrified. In many villages they formed their customary large circles and began dancing, yelling, shooting into the air, and firing their guns in a frantic effort to scare away the evil spirit.

One Indian, who happened to fire his gun about the time the shadow began passing, declared triumphantly that it was his shot that frightened the evil spirit away. His claim was accepted by his fellow tribesmen, who made him chief.

In another village, the Indians had been warned of the eclipse by several squaws who had learned of it from some white men. But these squaws were put to death for witchcraft when they announced that in a few days darkness would cover the Indian camp before the regular time.

The Salton Sea

The Salton sea or sink, a depression 280 feet below sea level, is located in the desert in the extreme southern part of California. It is one of the numerous salt lakes or lake beds in that part of the country, but it has had a more unusual history than most of them. Its salty sands usually absorb all the waters fed it by a few small creeks, but there are periods when they do not. In 1891 it became a lake, which soon dried up. The lake began to form again in 1893. In 1905 some of the waters of the Colorado river were diverted into it, as apparently they had been in the past, and it rose to its fullest size in July, 1907, the break in the river was closed and the sea again became a desert.

THE HI HERALD

(Continued from Page Six)

will proceed rapidly with your business, because people are always cutting up.

Sincerely, UNCLE ABNER.

THERE'S WORK FOR YOU

"The day is immeasurably long to him
Who knows not how to use it."
This is the motto of Johann Goethe
That we very often hear quoted.
I'm sure everyone finds the day long
When there's nothing for him to do
But always in this world we find
Something exciting and new.
If there isn't work to do,
Sit down and read a book,
Or else go into the kitchen and
Learn something new to cook.
Always the boy can clean the walk
Or start to clean his gun,
But whenever there's any work to do
He hates to quit his fun.
The girl can write a letter
Or perhaps wash breakfast dishes
But all the time she hates to
Against her own dear wishes.
Mother is always busy
With something around the house,
And if a baby is sleeping
Everyone's still as a mouse.
But generally father is outside
Puttering with things about
Or else to the river fishing
To catch a sucker a trout.
Nevertheless, there's plenty of work
For one and all to do,
And if there's work for everyone
There's certainly work for you.
So if you feel there's nothing to do
Let the thoughts in your work "double,"
Look for something else to do
And it will keep you out of trouble.

Josephine Baker

Easy Pleasant Way To LOSE FAT

How would you like to lose your fat, increase your energy and improve your health?

How would you like to lose your double chin and your too prominent hips and abdomen and at the same time make your skin so clean and clear that it will compel admiration?

Get on the scales to-day and see how much you weigh then get a bottle of Kruschen Salts that cost nothing and which will last you 4 weeks. Take one half teaspoonful in a glass of hot water in the morning—cut down on pastry and fatty meats—go light on potatoes, butter, cream and sugar—and when you have finished the contents of this first bottle weigh yourself again.

Notice also that you have gained in energy—you feel younger in body—Kruschen will give any fat person a joyous surprise. Refuse imitations—safeguard your health—you lose fat SAFELY the Kruschen way.

NOTE—Many people find that the only diet change necessary while taking Kruschen regularly is TO EAT LESS.

SAGAS OF THE SKIES

By R. C. Oertel
Manager, Aviation Division, Sales Department Colonial Esso Marketers

THE fate of two marooned hunters and their rescue pilot hung in the balance! Was an attempt to take off in a 150-yard stretch of water utter folly or could an experienced north woods aviator accomplish this task? How was their already none too successful hunting trip in the Geneva lake district of Ontario to end?

These burning questions scorched the minds of Rodman M. Price and Ernest Andrews, two New Yorkers, when the speed of the cabin plane increased from 50 to 60, to 70 and then to 80 miles an hour across the open water of the cove. Closer and closer the rim of the lake ice loomed. A crash seemed inevitable to all except Pilot Phil Sauve, who brought the plane out of the water 10 feet from the death-dealing obstruction over which the pontoons skimmed with only inches to spare.

Their rescue was complete. In a few hours, although eight days overdue, they were back in the anxious arms of relatives at Lake Penage, relating experiences of hardships endured in a trapper's shack in which they had sought refuge when they were "frozen in" in the wilds of Northern Ontario. After bagging a moose on the first day in, their luck turned. Sub-zero weather caught them and made the 50-mile return canoe and portage trip impossible. Complications increased when Bill Hotti, a guide, became sick. Provisions ran low with only moosemeat for food. Their situation was desperate.

Then T. H. Kingston, guide and expert bushman, set out for help. Snow and ice, brush and thicket in trailless woodcraft only served to spur the guide forward. On the third day, he trudged into Sudbury, Ontario, where he immediately secured

Pilot Sauve to make the return rescue trip by air.

Through Kingston's expert guidance, Sauve brought his plane directly above the shack which was almost completely hidden amid the tall timbers. Food was dropped in a parachute to the half-starved occupants while the pilot maneuvered overhead before deciding to alight on the small amount of open water available. Sauve accomplished a feat of breathless proportions when he held his descent perfectly through the rough air between mountainous walls rising on each side of the cove to make a perfect landing.

The real test followed, while Kingston and Hotti remained behind to lighten the plane's load. The guides were rescued in the subsequent trips which Sauve made for them and the camping equipment. But they had to meet him at Lake Friday, 15 miles distant, a more suitable landing space of open water. Sauve was too smart a pilot to tempt fate again.

LITTLE BITS OF HUMOR

Dr. Skink,—"You should take a bath before retiring."

Mr. Clink — But doctor, I don't expect to retire for twenty years."

* * *

Little Leona — "Mama, do dogs get married?"

Mother — "Certainly not, dear."

Leona — Then what makes old Towser growl so at Bessie when they are eating their breakfast?"

* * *

Technique

"How long should a hen remain on the eggs?" a woman asked the editor of a poultry journal in a letter.

"Three weeks for chickens and four for ducks," the editor replied.

Three weeks later the woman wrote:

"Thank you very much for your kind advice. The hen remained on the eggs for three weeks, and there were no chickens hatched, and as I did not care for ducks I took her off of the nest and sold the eggs."

* * *

Immune

"Has your husband any hobbies?" asked the neighbor who was calling.

"No," said Mrs. Tuggle, "he has rheumatiz a good deal, and hives now and then, but he ain't never had no hobbies."

* * *

Busy Line

Mary — "Bessie and I can hardly understand each other when we talk over the telephone."

Frank — "Did you ever try talking one at a time?"

* * *

Efficient

Hibak — "Is your wife a good housekeeper?"

Blunt — "I'll say she is. Why, in five minutes she can clean up my room so well that it takes me five days to find everything again."

* * *

Due to the marine type slow promotion system, there are captains in that branch of the service today who are more than 60 years old and first lieutenants who are more than 40.

* * *

Poultry manure should be stored in a dry place or applied to the land immediately after production. Nothing is gained by pulverizing the manure except to improve its appearance if placed on the market.

Notice to Creditors

In pursuance of an order of the Surrogate's Court of Allegany County, New York State, made by Hon. Ward M. Hopkins, Surrogate of the said County of Allegany, Notice is hereby given to all persons having claims against the estate of Luther G. Probasco, late of the town of Independence, Allegany County, New York, deceased, to present the same with proper vouchers thereof to the undersigned Mae R. Probasco, Executrix of said deceased, at the late residence of Luther G. Probasco, deceased, at Whitesville, N. Y., on or before the twenty-third day of May, 1937.

Dated at Whitesville, N. Y., Nov. 15, 1936.

MAE R. PROBASCO, Executrix

ALMON W. BURRELL, Attorney for Executrix, Canisteo, N. Y.

HELP KIDNEYS
To Get Rid of Acid and Poisonous Waste
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys get functionally disordered and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.
Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.
You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.
In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use *Doan's Pills*. A multitude of grateful people recommend *Doan's. Ask your neighbor!*
DOAN'S PILLS

Foreign debts to this country can be paid in only three ways—in gold, in goods—in service.

Private American investments in foreign countries amount to nearly $17,000,000,000.

When George Washington died he left an estate valued at $5,300,000.
