Not Appreciated. It is a fact that the citizens of this community are slow in their appreciation of the improvements that have taken place and the long step in advance that has been made in the industrial conditions in our village. One year ago houses were vacant and people were in the spirit of nothing-can-be-doneness. Now the fact is that every two weeks something like $400 on the pay roll of the silk mill is distributed with an increase every week at fast as the help can be made efficient to work the looms. The Andover Stamping Works is distributing a share of money in the erection of buildings, and as soon as equipped will start a pay roll that will increase as the weeks roll on. Houses are not to be had by those desiring to rent, and every line of business, social and religious conditions has quietly yet increasingly felt the force of the new influx and yet the fact stares us in the face it is not appreciated, and right here it will not be out of place to state that were it not for a small number of live men, men who willingly gave time and money, and other men who responded generously and nobly, Andover would be in the same "old rut." Now the facts are evident do not think that new comers can take the place of the old and tired men of business and generous impulse. Not so. Stand by the men who made the prosperity and Andover's future possible, and do not wait until doomsday to express your appreciation.

A Case of Inflation. Some of the Buffalo papers are indulging in editorial chuckling over the success of the barge canal measure and are giving vent to these feelings in hurling sarcastic bombs at the country voters. One daily recently said, "The country voters now see what the cities can do when they are of one mind." The fact is such talk illy becomes some of the city journals. Were it not for the fact that behind the legislature there is the country vote to be considered the taxatson of the state would be much larger than it really is. Its the rural vote that saves the cities from many of the schemes for political plunder. Another fact is noticable when the cities want to clean house or put on the brakes against extravagances and waste, they appeal to the representative of the rural voter to so do. Buffalo has reason to rejoice over the fact of the success of the canal proposition, but to indulge in mud slinging against the rural voter is to bring a day of retribution, and is indicative of the fact that Buffalo daily editorial writers are having a case of abnormal inflation over a result that is so largely abnormal the question might be raised, were not the figures juggled?

* * *

The Democrats are howling over the Democratic victory in New York city and see in it a significance for the presidential election next fall, and yet the plurality for the Tammany candidate for mayor was 60,000 less than the plurality for Tammany's candidate for Governor in 1902. Pretty cold comfort for wet feet.

* * *

The Philadelphia Press says, "Whether or not it will pay is doubtful, but it will be an interesting experiment," thus referring to the barge canal project. Will it pay? Better propound that question to some of the "graiters" at the termini. They can answer.

* * *

Whoever is responsible, to such a one credit belongs for the fact that there were no unseemly and boisterous demonstrations over the election results. Its an evidence that gentlemanly instinct is not a thing of the past in Andover.

Good Old Days. The principals of the New York city schools have unitedly appealed to the authorities to restore corporal punishment which is forbidden. They have asked "that any pupil who upon trial by the proper authorities is adjudged un amenable to the prevailing method of discipline shall thereafter be deemed subject to corporal punisment to be administered by the principal or by some teacher designated by him." The significant part of this is that an unruly pupil shall have a trial and if found incorrigible be placed in a class whose members are subject to flogging whenever they misbehave. A return to some of the methods of the good old days would undoubtedly be a benefit to both pupils and teachers. The fact of permitting a teacher to use the "birch rod" is often a preventitive of misconduct. There is much in the feeling of fear Anticipation is often more severe than realization. The "old boys," that is the boys of the old time school log benches, remember the awe with which the old schoolmaster was looked upon, the little scholar who heard of the terribleness of prospective chastisement, but the pendulum has swung to the other extreme. Kindness will win they teach. It may be so in instances, but the fact is evident, and perhaps plainly so (perhaps in our own community), "an ounce of fear keeps order better than a pound of sweetness." Of course there is middle ground and men and women who have capacity and ability enough to teach school should certainly be empowered with authority enough to maintain order in the school room. In these days when the laxity of home training is apparent a little more of the birch rod where necessary in the school room might be the means of making respectful and obedient children who would have respect and be courteous to their elders. A child that spends most of its time on the street will aquire a street education which certainly is not conducive of the parental esteem and respect of the good old days.

A Justice of the Peace in Pennsylvania offers "trading stamps" to brides as an inducement to employ his services in matrimonial ceremonies. He is up to date.

Ohio refused to be "Johnsonized" and rolled up something over 100,000 plurality for the G. O. P.

They are talking (that is some are) Senator Hanna as a presidential possibility, but he refuses and stands for the present administration and for Theodore Roosevelt.

December Designer.

"Mother Love," always a touching theme but never more sacred than at this season, is exquisitely pictured in reproductions from noted paintings in the December Designer, and "The Bethlehem Star," a full-page illustrated poem by Aloysius Coll, carries out still further the beautiful idea. "Christmas at Bear Tooth," by Lilian C. Paschal, is a stirring story of the West, while "Heart of Gold," by Ada Marie Peck, is another holiday romance, but in different vein. That well-known portrayer of happy childhood, Mrs. Gabrielle E. Jackson, contributes the Christmas story for young folks, entitled "How Swipes Played Santa," and Dr. Sarah A. French Battey gives suggestions for "Holiday Tableau, Home-Made," accompanied by charming illustrations. "Nooks and Dens," by Mary Kilsyth, pictures and describes the artistic furnishing of odd and pretty rooms, and "A Christmas Sock Social" and "A Doll Party" will be for great assistance to the Sunday school or young folks' club in search of attractive entertainments for this season.

Estimates Wanted.

Estimates will be received for the remodeling of the First Baptist church Andover, N. Y. on or before Nov. 23, 1903. Plans and specifications may be seen at Byron Clair's, Main street.

A Good Brake.

The "to-morrow" man is not much account for anything except that of being a very effectual "brake" on the wheels of progress. He is voted a nuisance by all people who wish to do something to-day.

NO-LICENSE CARRIED IN BATH.

ONLY THE DRUG STORES CAN SELL IN THAT VILLAGE AFTER MAY 1.

The Entire Republican Ticket Received Substantial Majorities.

From a Bath standpoint last Tuesday's election will go down in history as one of the hottest on record. This unusual activity for an off year was due to the excise question, which was voted upon here, and every one of the propositions were voted down by decisive majorities, except the third which was carried by 217, and which will allow pharmacists to sell liquor on a doctor's prescription. This is the first time in twenty-six years that this town has gone no-license. The new order of things will prevail on May 1 next. This will knock out the Belfast street saloons and many here in the village. The Canteen at the Soldiers' Home is not affected by the voters' action here, as a state law covers the situation there. In every district the propositions were voted down except in the third, where the proposition to license hotels was carried by a vote of 157 for to 135 against. Time alone will tell what effect no-license will have on this town. Everybody knows what brought it about, and there is no need repeating it.

The entire town Republican ticket in Bath was elected with large pluralities except in two instances.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dread-ed disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

DON'T BE A KNOCKER.

ALL WILL PROFIT BY HEEDING THIS ADVICE.

W. O. Smith in the Bolivar Breeze Gives the Best Word Picture of Humanity Yet Photographed. Here it is.

Humanity may properly be divided into two classes, Knockers and Boosters—those who help and those who hinder—those who build and those who tear down—those who whine and kick and grumble and those who cheer and encourage. The Knocker is a disagreeable person, who makes things unpleasant for himself and as unpleasant as possible for those with whom he comes in contact. He sees all things thru jaundiced eyes, consequently all things look yellow to him.

It doesn't pay to be a Knocker. The man who is sympathetic and kind, and helps to push things along, always gets along best himself. Everybody loves the Booster. Every time he gives a fellow man a boost he lifts himself. That is one of the beautiful compensations of life.

The man who forms the habit of scolding and fault-finding and continually calling attention to the flaws and blemishes and weakness of mankind, only makes himself disagreeable without doing anybody any good. Encouragement is helpful. It strengthens the worthy and weakens the unworthy in the same proportion. The best way to succeed in life is to help others to succeed.

Of what use is a man to any organization, religious, political or social, unless he helps to smooth the way for it by untangling snails, applying soothing lotions to sores, kicking loose stones off the road and boosting when there is up-hill work to be done?

The disorganizer, who croaks and criticises and tries to tear down, imagining himself to be a reformer, is the curse of all organizations. The true reformer is a builder. As nothing makes an old, ram-shackle building look worse than to erect a palace beside it, so nothing makes vicious practices look so hideous as to put good works and wholesome ideas in contrast with them. Those who have failed and those who have never attempted to do anything useful are the ones who are always most eager to condemn the work of others. The Knocker has a miserable mission to perform. He is not only a barnacle on the ship of progress but an incubus to society.

Doing is the great thing. Life was not given us for lazy discontentment and disgruntled complaining. Don't be a Knocker, to stand on the street corner and grumble and jeer while the Boosters are trying to push things along, but take hold and do something.

BAPTIST WORKERS' CONFERENCE

ELOQUENT AND MASTERFUL ADDRESSES.

A Gathering of the Workers of the Allegany Baptist Association in a Profitable Session.

Last Tuesday the Workers' Conference of the Allegany Baptist Association was held with the First Baptist church of this village. The conference was a most profitable one, and the discussions were heartily entered into and many points helpful to the workers were brought out. The following is the program:

MORNING

Devotional Service
Rev. J. C. Lovejoy
Address, "The Permanent Value of the Old Testament,"
Rev. F. Squyers

AFTERNOON

Devotional F. C. Fay
Symposium
"How to Use the Bible in Personal Work," Rev. F. O. Dickey
"How to Use the Bible in Bible Readings," Rev. F. Berry
"The Bible School and Normal Class Teachers Use of the Bible,"
Rev. J. E. Lovejoy

EVENING

Devotional Rev. C. H. Harrington
Sermon, "Whence Came the Bible,"
Rev. W. C. Gates

The addresses were all of a high order and gave evidence of much thought. Rev. Mr. Gates of Wellsville address on "Whence came the Bible" was a masterful presentation of an army of facts for the Divine origin of the Book and with eloquent language and in forceful manner held the attention of his hearers. Mr. Gates made many new friends on his visit to Andover and will be cordially welcomed whenever he may choose to come. His address was certainly a convincing and fitting close to a very profitable session.

Good Templar Social.

The Good Templars will give a shadow social at the home of W. G. Kaple next Tuesday evening. All are invited.

Will Speak In Andover.

Dr. D. H. Mann, Grand Chief Templar of the state of New York, I. O. G. F., will lecture in Andover on the evening of Dec. 9. Subject, "Rumsellers' Grip of the Drink Traffic.

He will Keep His Word.

Last year an Andover girl made her fiianced promise to buy a carriage after they were married. He will keep his word, but she will undoubtedly make him take turns with her pushing it.

The Best Well Yet.

The best oil well ever drilled in or around Andover was drilled in by the Mutual Gas Company on the J. E. Redmond lease last week. The well filled up nearly 800 feet with oil and pumped a 50 barrel head the first day. It will be at least a 6 barrell producer.

Oil Leases.

The oil lease that is just right, fair to both parties, plain and short. For sale at this office. Sent to any address at 50 cents the dozen. tf

The building committee for the remodeling of the church have decided to begin the work as soon as possible. The very generous and hearty response from the business men and friends as well as the members of the congregation have assured the new building. Over $1800 is the amount pledged up to the present time.

The Junior C. E. society at 3 p. m. The recent sessions of the juniors have been well attended. A large attendance is hoped for Sunday.

Waited for the Cow to Badk Up.

According to an exchange the man who went out to milk and sat down on a boulder in the middle of the pasture and waited for the cow to back up, was a brother to the man who kept a store and wouldn't advertise, because he reasoned that the purchasing public would back up to his place of business when it wanted something.

LEG CRUSHED TO A PULP.

Terrible Accident to Clinton Dexter, of Hallsport.

An unfortunate accident occured at Hallsport Wednesday morning. A threshing machine was set up at the Mill Mingus farm and the machine had just been started up slowly when Clinton Dexter, an elderly man and near neighbor, who was assisting in the work, started to crawl over the machine. In some unaccountable manner Mr. Dexter slipped and fell his right leg going down into the cylinder of the thresher, crushing it to a pulp and stopping the machinery. The unfortunate man was taken from the machine and carried to his own home a few rods away and Dr. Comstock summoned from Wellsville, who amputated his right leg just below the knee. Mr Dexter is 67 years old.
