DEALERS IN READY TO WEAR GOODS FOR WOMEN,
118 Main Street Hornellsville.

In writing to a friend Senator Burton of Kansas said of his recent conviction that he is "not a criminal," but added that "it all could be told, just as it is, the absolute truth, it would appall the world." If the implication in this somewhat remarkable utterance has any foundation in fact, all good citizens cannot but hope that Burton's prediction, made elsewhere in the same letter, that "some time it will be known," may prove more than a threat, but what are these fearful disclosures that are to set the world by the ears? If [illegible] Burton knows of such deep, dark things, why does he not speak out? Why simply be content with rather ominously hinting that some time the light will be turned on? Why not turn it on now? If there are others, why not let the people know their [illegible]?

Metric System and Trade.

The recent discussion of the metric system and the introduction in congress of bills looking to the ultimate adoption in the United States suggest a statement of facts regarding this system and its relation to commerce. Among the reasons offered for the adoption of the system are these, enumerated by the secretary of the national bureau of standards of the department of commerce and labor:

First—The metric system's extraordinary usefulness and inadequacy of the old systems, or, in other words, their inability to meet modern needs.

Second—The metric system is international, the only complete international system of weights and measures ever adopted.

Third—It is the simplest and most perfect system, being decimal throughout and all parts interrelated.

Fourth—The metric standards are constructed upon the best scientific principles, preserved with the greatest care, and may be copied with the [illegible] precision.

The great argument offered in behalf of the metric system is its simplicity. Its base is the decimal base and that every child has to learn anyway. Only three terms are needed to express quantities—viz., meters for lengths, grams for weights and liters for volume. A few Greek terms with adjectorial force complete the entire terminology. The United States Statistician says two-thirds of a school year would be saved to American boys and girls by putting the metric system in place of the other twelve or thirteen systems. Carry this enormous saving of time into the counting houses of the country, into all kinds of calculations from the farm to the factory, and a fately good idea is obtained of what the metric system would save. The chief argument against its introduction is the cost to those with money invested under the present systems of weights and measures. While the loss effected by a change such as is being advocated would certainly be considerable, it is [illegible] that the repeated losses consequent upon continuing along the present line would be very much greater.

Chamberlain's Colic, Cholera and Diarrhœa Remedy.

This remedy is certain to be needed in [illegible] and its [illegible] upon [illegible] for this trouble [illegible] bottles [illegible] completely relieved and cured me." Just as good for Liver, Kidney troubles and general debility. Only 25c. Satisfaction guaranteed by O. E. Vars & Son, Andover, and N. E. Coston Greenwood.

Recent discoveries reveal that many of the ancient myths the world had regarded as of the exploded variety have a basis of fact. For example, there is the story of the Roman youth who jumped on horseback into a chasm. The augurs had announced that only by some such self immolation could the chasm be closed. Immediately after the heroic act, according to tradition, the orifice disappeared. The modern world smiled at the tale, or did until a few days ago, when excavations discovered the mouth of the chasm, containing roughly sculptured stones recounting the exploit of the young man, together with the remains of sacrifices afterward made to his memory.

As the Tibetans are not in touch with modern civilization they probably fail to appreciate the gravity of their offense in attacking an armed foe that is invading their country.

Long Hair

"About a year ago my hair was coming out very fast, so I bought a bottle of Ayer's Hair Vigor. It stopped the falling and made my hair grow very rapidly, until now it is 45 inches in length."—Mrs. A. Boydston, Atchison, Kans.

There's another hunger than that of the stomach. Hair hunger, for instance. Hungry hair needs food, needs hair vigor—*Ayer's.* This is why we say that Ayer's Hair Vigor always restores color, and makes the hair grow long and heavy. $1.00 a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will express you a bottle. Be sure and give the name of your nearest express office. Address, J. C. AYER CO., Lowell, Mass.

The Demand of Porto Rico.

Our little Porto Ricans appear to be getting rather cocky. The federal assembly of the island has lately adopted a resolution demanding that the islands be admitted to statehood or granted independence. This movement has been taking shape for some months, and the resolution referred to was the result of no mere impulse. It was adopted by a vote of 60 to 15. Our southwestern territories, which have vainly been knocking at the door for admittance to the Union for years, would hardly go so far as to demand statehood or independence, yet the Porto Ricans appear to think they are not overstepping the bounds of propriety in putting their desire into this positive form.

The ambition of the islanders is wholly natural and not at all discreditable, yet nothing is more certain than that their demand must be rejected or at least action upon it indefinitely postponed. Probably if they knew when they are well off they would hesitate to relinquish their present privileges and assume obligations which they do not at present seem any too well fitted to discharge.

On the whole, however, the Porto Ri[illegible] though it can hardly [illegible] they are yet [illegible] economy. Considering the [illegible] condition of tutelage in which, most of our continental territories have been held, it would be unjust, illogical and perilous to admit to full American privileges a wholly alien people without imposing upon them a long period of probation.

One Lady's Recommendation Sold Fifty Boxes of Chamberlain's Stomach and Liver Tablets.

I have, I believe, sold fifty boxes of Chamberlain's Stomach and Liver Tablets on the recommendation of one lady here who first bought a box of them about a year ago. She never tires of telling her neighbors and friends about the good qualities of these Tablets.—P. M. Shore, Druggist, Rochester, Ind. The pleasant purgative effect of these tablets makes them a favorite with ladies everywhere. For sale by O. E. Vars & Son, Andover, and N. E. Coston, Greenwood.

PACKERS ON STRIKE

Crisis in Situation Looked For This Afternoon.

LETTER FROM ALLIED TRADES.

To the Packers Asking For a Conference—General Sympathetic Strike Expected if Conference Does Not Result in Settlement—No Necessity For Advance in Prices.

Chicago, July 23.—The crisis in the stockyards strike will come this afternoon. The allied trades unions in the stockyards, which are certain to become involved in the controversy if it is not soon settled, held a conference lasting five hours and at its conclusion sent a letter to the packers asking for a joint conference between

MICHAEL J. DONNELLY.
(The leader of the strikers.)

representatives of the strikers, of the packers and of the allied trades to see if a settlement of the strike along peaceful lines cannot be reached.

Last night there was nobody who would say that the packers would agree to the conference and it is impossible to say with certainty that the meeting will be held.

Arthur Meeker, manager for Armour & Co., speaking for the other packers as well as for his own establishment, said that he would send a reply to the letter from the representatives of the allied unions. He declined to say, however, what the nature of the reply would be.

The unions joining in the request for the meeting represent all the trades engaged in the packing industry and they have joined in a final appeal for arbitration between the packers and the striking butchers.

President Donnelly of the butcher's union said last night that he was anxious to have peace but that unless it became with the proposed conference to-day there would be a general sympathetic strike on the part of the allied trades unions

Both sides still claim to have the advantage in the strike. The packers assert that they are operating their plants almost to their full capacity, while the strikers contend that the packing trade throughout the country is practically demoralized.

The packers also assert that there is no necessity for any advance in the prices of meat and declare that it is simply a "hold up" by the retail dealers.

PACKING HOUSE BLOCKADE.

Mayor of St. Paul Failed to Get a Man Through the Lines.

St. Paul, July 20.—At the conference of the members of the South St. Paul commercial club resolutions were adopted declaring that a state of riot had existed for 6 days, and that business was paralyzed; that crime lawlessness and violence prevailed, bringing about a condition disgraceful to the state of Minnesota, as well as to South St. Paul. The resolutions call on the state officers to enforce the laws and give the business men the protection due them under such laws.

General M. D. Flower said: "We are trying a new method to end this state of affairs. Sheriff Grisim is working on a new plan. The sheriff seems to want to do his duty but is handicapped."

Mayor Lyttle endeavored to have L. A. Carson, treasurer and a member of the board of managers of Swift & Co., Chicago, passed through the picket line, but failed.

W. K. Armstrong, storekeeper of the master mechanic's department of the Swift company, tried to scale the fence and enter the grounds, but was caught and dragged back. He was taken out of the crowd by William Robinson, who said he would pilot him through the line. They were joined by Sheriff Grisim and Chief McCormick. After a lively skirmish Armstrong was forced through.

Naval Station on the Lakes.

Milwaukee, July 20.—The commission appointed by President Roosevelt to choose a site for a naval training station on the Great Lakes reached Milwaukee today. The party examined two sites in the vicinity of Fox Point, north of the city. The committee examined both sites. After luncheon the party returned to Chicago.

SENATOR DAVIS AT ESOPUS

Senator German Could Not Accompany the Vice Presidential Nominee.

Esopus, N. Y., July 20.—United States Senator Arthur Pue Gorman of Maryland, who has been asked to become chairman of the Democratic national committee, was invited by Judge Parker to come to Rosemount with former Senator Davis, the vice presidential candidate, and until late in the afternoon it was taken for granted that he would come. The following telegram from his dated New York, was given out here at 5 o'clock:

"Regret that it will be impossible for me to accompany Senator Davis tomorrow. Will afford me pleasure later on."

The heat here was intense again and affected everybody and everything. Judge Parker had his morning swim but did not take his usual horseback ride. His only absence from the house was during a walk in the field across the road from the gate, where the haymakers were forking up a load behind the ox team.

After 5 o'clock the steam yacht Queen City brought up a party of the [illegible] Democratic admirers from Poughkeepsie. He showed them about the place but the visit was entirely informal. The party included former Mayor Ellsworth and Edward L. Perkins, chairman of the Democratic county committee.

Mr. Sheehan did not return home but is expected today, very likely with Senator Davis. It was understood here that more conferences were to be held in New York.

The expected coming of Senator Daniel today lends the talk of a joint notification, but there is really very little reason to suppose any such thing likely. Judge Parker has at no time expressed any but a casual interest in the proposition and naturally would not feel that the initiative could properly come from him in any case.

It was reported that National Committeeman Taggart was expected in New York today, but nothing definite could be learned here and apparently there is no present expectation of his coming to Rosemount.

The following telegram was received from the Iowa Democratic state committee, dated Iowa City, and signed H. J. Stiger as chairman:

"Iowa Democrats in state convention assembled congratulate you and the nation on your nomination and the prospects of your election. We wish you godspeed."

Judge Parker sent the following reply:

"I beg you to assure the convention over which you preside that its message of congratulations and good wishes is very greatly appreciated.

"Alton B. Parker."

CLERGYMAN BUNCOED.

Two Men and a Woman Arrested For Selling Bogus Mining Stock.

Baltimore, July 20.—Two men and a woman are locked up at police headquarters, charged with "buncoing" Rev. John Rose, a retired Protestant Episcopal minister of this city, out of $5,450. They are:

William Hooper, 42 years old, native of Dorchester county, Md., a broker with offices in this city.

Miss Virginia Hamilton, 41 years of age, who claims to be a native of Nebraska, but who for the past year has been giving lessons in vocal culture in Baltimore.

John Lawrence, 39 years old, who claims St. Louis, Mo., as his place of residence.

They were committed by Justice Grannan.

Mr. Rose says he purchased from Lawrence a block of stock in the "Cripple Creek Gold Temple Mining company" at $1 per share, securing an option on a total of 10,000 shares at that figure. He paid Lawrence $5,450 in cash.

Later he accompanied a "Mr. Bell," who negotiated the deal between Mr. Rose and Lawrence, to Philadelphia, where it was arranged to sell the stock at a handsome profit. Mr. Rose thereupon drew a check payable to Lawrence on a local trust company for $4,050. This check was found in Lawrence's possession when arrested.

A Chicago physician has discovered another sure cure for consumption. It is fresh air. Sleep with the window open, he says. Breathe deep of the natural medicine furnished by no less a physician than Dr. Nature. This cure is not entirely new, but many of the best things are old—love, for example; simple faith, honor. All these are as old as man, but are none the less valuable because approved by the experience of centuries. By the way, the Chicago physician might have added that fresh air is good for a number of diseases besides tuberculosis. It is even good for people who have no diseases at all.

The hen that recently laid an egg in the top of a tree and proceeded to hatch it out has evidently caught the modern disease of doing commonplace things in unusual and sensational ways.

The Washington Post pertinently suggests that it is about time for a prolonged session of the federal grand jury at Salt Lake City to inquire into violations of the antipolygamy law.

Russia insists that she has "not commenced to fight yet." As much might be inferred from the general tenor of the dispatches from the seat of war.

As the Leading Statement.

L. A. Burrows of Andover and N. E. Coston of Greenwood, say they have at last discovered a positive cure for dyspepsia.

"For years," said the above druggists yesterday, "we have been waiting for some one to discover a remedy that really will cure indigestion and dyspepsia."

"A short time ago we learned that a new remedy called Pepsikola had been placed on the market, and on its explanation we found that it had there is a remedy that surely will cure."

"We laid in a big supply because we knew that as soon as people began to realize what a remarkable remedy Pepsikola is there would be a big demand for it, and it is selling even beyond our expectations."

It is not often a druggist sells a remedy with the positive guarantee it will cure, but unless Pepsikola does cure you of nervousness, dizzy spells, sour stomach, coated tongue, palpitation, biliousness, headaches, and other symptoms of dyspepsia, Messrs. Burrows or Coston will hand you back your money cheerfully and without argument.

Pepsikola is also a grand nerve tonic and is sure to help all who feel run down and worn out because of the debilitating effects of the hot weather.

No one should really hesitate on trying a 25 cent box of Pepsikola as it will not cost you a penny unless it fail to relieve and cure the very worst case of indigestion and dyspepsia.
