CITATION
For Probate of Will

THE PEOPLE OF THE
STATE OF NEW YORK,

By the Grace of God
Free and Independent

To Evelyn Myers, Clarence Davison, Lewlyn Davison, Myrtle Mosier, Ruth Baldwin, Earl Davison, Irene Vandelinder, Donald Davison and Doris Davison, Distributees, heirs at law and next of kin of Charlotte F. Mitchell, late of the Town of Almond, Allegany County, New York, deceased; And to any other person or persons claiming to be interested as Distributee, heir at law or next of kin of said Charlotte F. Mitchell, deceased, send GREETING:

WHEREAS, The Steuben Trust Co., of Hornell, N. Y., has lately applied to the Surrogate's Court of our County of Allegany, to have a certain instrument in writing, relating to both real and personal property, duly proved as the Last Will and Testament of Charlotte F. Mitchell, who was at the time of her death a resident of the Town of Almond, N. Y., deceased.

WHEREFORE, you and each of you are cited to show cause before the Surrogate's Court of our County of Allegany, at the Surrogate's Office in the Village of Belmont, N. Y., on the 28th day of August, 1942 at ten o'clock in the forenoon of that day, why the said Will and Testament should not be admitted to probate as a will of real and personal property.

IN TESTIMONY WHEREOF, we have caused the Seal of the Surrogate's Court of the said County of Allegany to be hereunto affixed.

WITNESS, HON. WARD M. HOPKINS, Surrogate of
(L.S.) the said County at Belmont, N. Y., this 14th day of July, in the year of our Lord one thousand nine hundred and Forty-two.

LEON A. ACKERMAN,
33 Clerk of the Surrogate's Court

SUMMONS

STATE OF NEW YORK
COUNTY COURT:
COUNTY OF ALLEGANY.

GERTIE GLASE SLOCUM,
Plaintiff
against
BERTHA BLAUVELT SMITH, NINA WITTER, RONALD WITTER, HOWARD WITTER and CHARLES SLOCUM,
Defendants.

TO THE ABOVE-NAMED DEFENDANTS:

YOU ARE HEREBY SUMMONED to answer the complaint in this action, and to serve a copy of your answer, or, if the complaint is not served with this Summons, to serve a notice of appearance, on the plaintiff's attorney within twenty days after the service of this summons, exclusive of the day of service. In case of your failure to appear or answer, judgment will be taken against you by default for the relief demanded in the complaint.

Trial to be held in the County of Allegany.

Dated: May 11th, 1942.

REGINALD J. SOOTHERAN,
Attorney for Plaintiff
Office and Post Office Address
Andover, New York

TO RONALD WITTER:

The foregoing Summons is served upon you by publication pursuant to an Order of Hon. Ward M. Hopkins, County Judge of Allegany County, dated May 29th, 1942, and filed with the Complaint in the Office of the Clerk of the County of Allegany at Belmont, New York.

REGINALD J. SOOTHERAN,
Attorney for Plaintiff.

The object of this action is to partition certain real property in which the said Ronald Witter has an interest, which interest is described in the Complaint filed in the County Clerk's Office at Belmont, New York, and that a brief description of the property affected by this action is being a house and lot situate on the Easterly side of Third Street in the Village of Andover, New York, and being the property owned by Chancy G. Witter during his life time and described in a Deed from Joseph L. Williams and Ida Williams to the said Chancy G. Witter, and recorded in Allegany County Clerk's Office on the 12th day of March, 1924, in Liber 259 of Deeds at Page 67. 33

Familiar Touch

Outside the storm raged. The thunder rolled and the lightning flashed almost continuously. Presently, a bolt struck Mr Jones and knocked him out of bed. He rose, yawned, rubbed his eyes and mumbled, "All right, dear, I'll get up."

FRUIT, FLOWERS AND GARDEN

NO NEED TO SAVE SEED

American seed growers are independent of seed imports from Europe. They produce at home almost every kind of garden seed that formerly was imported in large quantities. Officials of the trade say that there will be enough vegetable seeds for every commercial grower and home gardener in 1943.

Seed production is highly specialized. Many good seed houses employ a staff well trained in plant breeding, plant diseases, and other sciences. They keep a watchful eye on thousands of acres where seed is produced. Special equipment is used for harvesting, cleaning and curing, and for the chemical treatment of the seed to assure stock of high germination and free from disease.

Seed gathered from your own garden may result in crop failures next year. Here are some of the difficulties which arise from using home-grown seed:

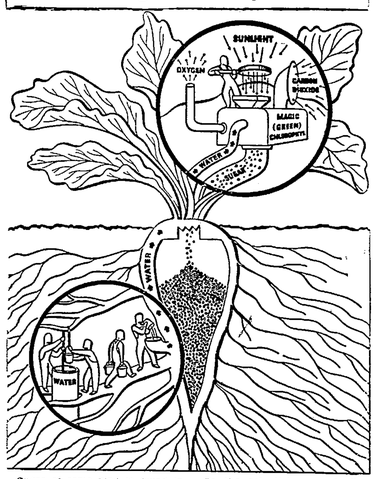
Some seeds are likely to carry several kinds of disease organisms, beans particularly. Seed potatoes from the garden patch are rarely free from virus diseases that are carried inside the potato and cannot be seen. Seeds from summer squash and pumpkins are likely to cross with each other. Those from hybrid stock, such as sweet corn, give a poor quality and no uniformity. Home grown seed may also lose its viability because it can not be cured properly or because of poor storage conditions.

Human nature is hardly enough to explain the squabbles that center around religion.

ANSWERS TO MILITARY I. Q.

1. Gen. Albert J. Myer, born in Newburgh, N. Y., entered the Army as assistant surgeon in 1854 and shortly thereafter drafted memoranda on visual signaling. In June, 1861, he organized the Signal Corps in the Union Army and on March 3, 1863, was promoted to the rank of colonel and chief signal officer. In 1870 he established the U. S. Weather Bureau and was made brigadier general in 1880. He died in active service in the same year.
2. One of the Rattlesnake flags used by American provincial troops in the first year of the War for Independence.
3. Dogs are trained to guard Quartermaster Corps depots.
4. Christopher (Kit) Carson, famous Indian fighter, although illiterate, was promoted to rank of brigadier general. Late in life he learned to sign his name.
5. Machine gun.
6. Air Corps.
7. Lydia Darrah who warned Washington's army at White Marsh of an intended attack by Lord Howe from Philadelphia in December, 1777.
8. The bombardier takes an oath to protect the U. S. bombsight with his life if necessary.
9. This flag was carried by Commodore Perry at the Battle of Lake Erie September 10, 1813.
10. Anti-aircraft, Assistant Adjutant General, radio frequencies (in Signal Corps), Anti-tank.

Nature's Sugar Factory at Work



Sugar of some kind is found in the sap of every living plant. Nature stores more sugar in the sugar beet and the sugar cane than in other plants, and for that reason they have become the chief sources of the world's sugar supply.

Sugar is formed in plants through a process of photosynthesis, which is illustrated in the case of the sugar beet in the accompanying picto gram. In this process, carbon dioxide from the air and water from the soil are combined within the plant through the agency of green pigment known as chlorophyl in the presence of light. For that reason sugar is often called "crystallized sunshine and water." The sugar which is manufactured within the green parts of the sugar beet is used principally for growth during the early part of the beet's life but later in the season most of the sugar is carried to the root where it is stored.

To the scientist sugar is "sucrose," and in its pure form even chemists cannot tell whether it came from the sugar beet or the sugar cane. Sugar from beets is identical with sugar from cane in appearance, sweetness, quality, and food value, and they may be used interchangeably for all purposes.

In 1942, according to estimates of the Office of Price Administration, which directs the sugar rationing program, beet sugar will be the most important single source of our national sugar supply. With in a few weeks farmers of nineteen states will begin the harvest of more than one million acres of sugar beets. The crop is expected to produce approximately two million tons of sugar, enough to give a weekly ration of eight ounces for one year to every person in the United States. It is expected to be the largest crop in history.

Louisa's Letter

Dear Louisa:

My boy left last month for the Air Corps. He is delighted with it, but here of late I have been worrying about his safety even before he goes away.

The reason for my fear is that we have an air field near our town, and I have been appalled at the way the instructors and officers in charge drink. How can people know what they are doing in the air with boys who are just learning to fly, when they have been out the night before until all hours, drinking and carousing?

I have always advocated letting other people's business alone but this thing seems to be the business of the mothers and fathers of the boys in the service, as well as that of the individual, himself.

It seems to me that our boy's safety is more important than the freedom of those in authority, to do as they please.

What do you think about it?

DISTRESSED MOTHER.

Massachusetts.

Answer

I agree with you, and would like to add, that when the "higher-up" act in such a loose manner that their example is a very bad one, indeed, for the cadets. I understand that Hitler's army is allowed to drink and they seem to be a very efficient fighting force. It seems to me that it behooves our service men to keep as fit as possible, in view of the fact that they will eventually be pitted against that well-trained army. Brains and bodies made flabby by alcohol are surely not material with which to win the war.

However, the fact that the instructors and officers in one camp or field indulge to excess is not proof that all of them do. The commanding officer has a great deal to do with the behavior of those under his authority, and it is not wise to condemn all officers for the fault of a few. Your son may be in very safe hands.

LOUISA.

Dead Louisa:

Since school stopped, I am a wreck. The children, for want of something better to do, are continually getting into mischief. I wish that school ran for twelve months during the year, instead of nine. Don't you think that would be a good idea?

MOTHER.

Maryland.

I haven't given the longer school term much thought but I do know that if children have their time occupied, they are much less prone to get into mischief. Every child should have a certain amount of work to do around the house or yard and be responsible for it.

I do not believe in working children so hard that they have no play time, but I think all of them happier if they have a few hours of work each day. They take pride in doing a good job, and if they are paid for it, instead of handed out an allowance for no returns, they feel very important.

Take the time to figure out something for your children to do and your household will run much smoother.

LOUISA.

Joke: Mouthy and pessimistic merchant, trying to make a sale.

NEW! "BACTERIOSTATIC"
FEMININE HYGIENE
now finding great favor among women...

Many doctors recommend regular use of *douches* as a preventative measure for women who want to be clean, dainty—for women troubled by offending odor or discharge.

Some products may be harmful to delicate tissues. But not Lydia E. Pinkham's Sanative Wash! Pinkham's Sanative Wash is gaining great favor among women because it's NOT a harmful germicide. Instead — it's a mighty effective "bacteriostatic" (the modern trend). It not only discourages bacterial growth and infection but thoroughly cleanses and deodorizes. Very soothing — relieves minor irritations and discharge and has a tonic effect on delicate membranes. Inexpensive! Get your bottle of Lydia Pinkham's Sanative Wash *today*. All druggists.

TO ROUSE FLOW OF LIVER BILE

Get a bottle of Kruschen Salts tonight. Half an hour before breakfast, take as much as will lie on a dime in a glass of water (hot or cold) or in your morning cup of tea or coffee and keep this up for 30 days. Kruschen taken this way helps relieve such symptoms as sick headaches, bowel sluggishness and so-called bilious indigestion when due to insufficient flow of bile from the gall-bladder. You can get Kruschen, a famous English formula made in the U. S. A., at any drug store. You must be satisfied or money back.

HOW, WHAT AND WHY?

Special to the Andover News

The Andover News has arranged with the Office of Information of the New York State Colleges of Agriculture and Home Economics to answer questions about problems of farm and home. If you enclose a self-addressed, stamped envelope and mention the name of this paper you will receive a direct reply to your query from the colleges. Do not ask more than one question in one letter or on one postcard. Ask as many questions as you like, but make each one a separate communication.

Blueberry Maggot

Mrs. F. A. J. writes: "It has been stated that blueberries contain a species of maggots or worms. Is this true?"

Prof. J. A. Evans of the College of Agriculture replies:

"There is a blueberry maggot which is a problem in some areas outside New York State. At the present time, the commercial blueberry crop in New York is not extensive and I have not yet run into any infestation of this pest. I have talked with a number of blueberry growers in various parts of the state and none of them has as yet complained about injury from this insect. We have no information on its control in this state but if you are interested in this subject you might write to the Department of Entomology, University of Maine, Orono, Maine.

Heading Chinese Cabbage

S. W. N. asks: "Should Chinese cabbage be tied up to make it head?"

Prof. R. D. Sweet answers: "It is not necessary to tie up the leaves of the Chinese cabbage in order to make a head because this vegetable heads naturally just as cabbage and head lettuce.

"The general cultural requirements of Chinese cabbage are similar to those of our ordinary cabbages. You will, therefore, probably be troubled with cabbage worms and other insects ordinarily attacking cabbage. For information on the control of such insects, contact your county agricultural agent.

Modern Lovers

"Are you as perfect as you seem to be?" he asked.

"Certainly," she replied.

"Has there ever been any insanity in your family?"

"Never."

"Are your teeth in good condition and do you see and hear perfectly?"

"Yes."

"Are you ever bothered by insomnia or headache or indigestion?"

"Not at all."

"Thank Heaven. Now, perhaps, I can ask you for a kiss."

Good Patent

Seaman — "Who invented work, anyway?"

Chief — "You should worry. You'll never infringe on the patent."

HOW MUCH IS ENOUGH?

When it comes to Vitamins A and D, *ENOUGH* is more than many people normally get. Make sure that you and your family get a normal supply of these necessary vitamins by taking

ONE A DAY

Each "One-A-Day" brand Vitamin A and D Tablet is *equivalent in Vitamin A and D potency to one and one-half teaspoonfuls of Cod Liver Oil* meeting minimum United States Pharmacopeial Standards.

Convenient — You take only one tablet a day. *High in Vitamin Content* — Each tablet contains 5000 Units of Vitamin A and 500 Units of Vitamin D. *Easy to take* — No fishy or oily taste — no after-taste.

Developed, distributed and guaranteed by the makers of Alka-Seltzer.

Community Letters

FROM NEWS CORRESPONDENTS

All Correspondence Must Be in This Office Tuesday

Independence

(Mrs. Floyd Clarke, Reporter)

Aug. 11.—Mr. and Mrs. Earle Greene, Betty and Mr. and Mrs. Cleon Clarke, Denzie Mitchell and Wanda Matteson attended the Baker reunion at Honeoye Sunday.

Floyd Clarke was in Belmont working on a soil conservation program Thursday and Friday.

Miss Esther Tassell, R.N., is home on vacation.

Mrs. Bert Hawks and two children are spending a few days with Mr. and Mrs. George Billings.

Carl Seymour spent from Friday until Tuesday in Elmira.

Mr. and Mrs. Cary Rogers and sons returned Sunday from a tenday outing. Miss Bonnie Worden of Belmont is spending a week with them.

Mr. and Mrs. R. E. Spicer spent from Sunday to Wednesday with Mr. and Mrs. Robert C. Spicer, helping them move to Coudersport, Pa., where Robert has been transferred to work in the G.L.F.

Charles Spicer is visiting his sister, Mrs. Paul Vincent in Buffalo.

Miss Myrtle Costello, R.N., of Washington, D. C., called on Mr. and Mrs. Floyd Clarke, Wednesday.

Whitesville

(Mrs. Ella Millspaugh, Reporter)

Aug. 11—Mrs. Edna French spent Sunday at North Bingham, with friends, and attended church services there.

Mr. and Mrs. Ray Deck and daughter Anna and Mrs. Howard Deck and family spent the week-end at Keuka Lake.

Mrs. George Burdick of Rochester was a guest of Mr. and Mrs. Howard Barney and Mr. and Mrs. Cecil Grantier last week.

Mrs. Amy Brown of Waverly who has been visiting Mrs. Howard Barney and other relatives here has returned home.

Miss Alice Robbins is spending some time with Mrs. Anna Robbins and family.

Mr. and Mrs. H. E. Leach visited relatives in Rochester last week.

The Whitesville Central School is announced by Principal Howe to open on September 2nd, in order to have a week's vacation in October at potato digging time so students can assist the farmers.

A meeting of the Methodist church board was held at the church Monday evening.

Miss Marian Wheaton of Portville, the new domestic science teacher here for the coming year, has been in town the past week to look over the work and get acquainted.

Mr. and Mrs. Lawrence Crittenden and Miss Laverna Dye of Wellsboro were guests Thursday of his parents, Mr. and Mrs. Arthur Crittenden. Their son, Russell, who had been spending two weeks here, returned with them.

Prin. Harold C. Crittenden and family of Armonk, N. Y., are spending their vacation here with her parents, Mr. and Mrs. Walter Ainsworth.

A recently organized male quartette, composed of Prin. R. K. Howe, Prin. H. C. Crittenden, Lee Millspaugh and W. D. Dexter with Mrs. Lee Millspaugh as accompanist, sang three numbers during the morning service at the Methodist church. They also sang at North Bingham. Principal Howe was unable to go to North Bingham and Miss Jean Millspaugh substituted for him in the quartette and the verdict there was that it "was the best looking male quartette they had ever seen."

Miss Jean Millspaugh entertained callers from Avoca last Sunday.

TRAIN SCHEDULE

West Bound:

Truck Trip No. 5—8:15 a. m. Brings First Class Mail and Parcel Post.
Train 7 ---------- 9:51 a. m.
Train 1 ---------- 5:50 a. m.

East Bound

Train 2 ---------- 10:40 a. m.
Train 8 ---------- 2:53 p. m.
Truck Trip No. 5—5:00 p. m. Takes all Parcel Post and Eastern first class mail, also registered mail.

Mail Closing Time

West Bound

Train 7 ---------- 9:20 a. m.
Train 1 ---------- 5:20 p. m.

East Bound

Train 2 ---------- 10:15 a. m.
Train 8 ---------- 2:20 p. m.

Voorhees Hill

(Mrs. Raymond Church, Reporter)

Aug. 11.—Mr. and Mrs. Delbert Witter of Scio spent Thursday with Mr. and Mrs. G. A. Simkin.

The Misses Hilda, Verna Jean and Christine Church spent part of the week in Elkland and Knoxville, Pa., with their brothers and their families.

Miss Pauline Perkins spent last week with her sister, Mrs. Wayne Hallett and family at Franklinville, where they recently moved from North East, Pa., to take over the management of a G. L. F. store.

Carrol Church was a Whitesville visitor Saturday.

Miss Mary Lou Marshall of Wellsville is passing two weeks at the home of Mr. and Mrs. J. L. Lewis.

Mrs. R. B. Church visited Mr. and Mrs. Lytle Church at Elkland, Pa., over the week-end.

Mr. and Mrs. Abram Slocum, Mr. and Mrs. James Lewis, Rosalyn and Audrey Cary and Mary Lou Marshall were dinner guests Sunday of Mr. and Mrs. Mark Rogers at Stannards.

H. B. Adams, Carroll and Raymond Church called on Edward Kent, Sr., who was ill at the Jones Memorial hospital last week.

Mr. and Mrs. James Lewis, Audrey Cary and their guest called on Mrs. Jessie Lewis at Rexville, Friday evening.

Mrs. Frank Chalker of Wellsville spent Thursday p. m. and evening with her sister, Mrs. Howard Woodfield and husband.

West Greenwood

(Mrs. Dan Mullen, Reporter)

Aug. 11.—Joe Faulkner of Canisteo was calling on friends in this place last week.

Mr. and Mrs. Daniel Mullen, Jr., and son passed the week-end with Mr. and Mrs. Leeman Davis and family of Andover.

Mr. and Mrs. Charles Meng of Hornell called on her parents, Mr. and Mrs. Fred Brewster, Monday evening.

A party was held at the West Greenwood Grange hall August 2nd, it being the 81st birthday of Mrs. Emily King. Relatives from Belvidere, Bath, Canisteo, Dansville, Greenwood, Alma, Elkland, Pa., and Andover attended.

Mr. and Mrs. Jay Rhoades and family of Elkland, Pa., were calling on Mr. and Mrs. Dan Mullen and family Sunday.

Ruby Swarts of Elmira passed the week-end with her father, Mr. and Mrs. John Swarts.

Lt. Edward Brewster is passing a few days with his parents, Mr. and Mrs. Fred Brewster and other relatives.

Guy Donaldson was in Bath on business Monday.

James Mitchell was in Andover Monday.

Several from this place attended the show in Andover Saturday evening.

Elm Valley

(Mrs. Charley Cole, Reporter)

Aug. 11.—The Community Club will meet in the school house Wednesday of next week, August 19th. Tureen dinner at noon. A cordial invitation is extended to all.

Miss Coretha Mead of Kenmore passed the week-end with her parents, Mr. and Mrs. Lloyd Mead.

Mr. and Mrs. Francis Mead were Sunday dinner guests of Mr. and Mrs. Chris Kruger of Meservey Hill.

Mr. and Mrs. Bernard Kennedy of Rochester passed the second week of their vacation with her parents, Mr. and Mrs. Floyd Crowner, returning Sunday. Norma Crowner accompanied her sister home for a visit.

Jean Stevens of Andover is passing a few days with Patricia Ludden.

Doris Atwell is visiting her cousin, Vera Jean Krusen in Greenwood.

Carol Payne is the guest of her aunt, Mrs. John Payne in Westfield, Pa.

Floyd Bassett of Greenwood has purchased the Atwell gas station and taken possession.

Beverly and Gloria Clair are passing the week with their grandmother, Mrs. Joanna Wesche in Wellsville.

South Hill

(Mrs. Earl Schoonover, Reporter)

Aug. 11.—Mr. and Mrs. Newton Clark and son Bruce spent Saturday afternoon calling on Mr. and Mrs. Kenneth Luce and also Mrs. William Utter, who has just returned from the Robert Packer hospital at Sayre, Pa.

Miss Elnora Dean and niece, Miss Ann Dean were Hornell visitors Tuesday.

Mr. and Mrs. Charles Moon were Sunday supper guests of her sister, Mr. and Mrs. Stephen Filkowski at Yorks Corners.

Mrs. Newton Clark called on Mrs. Howard Barney at the hospital Saturday.

Mr. and Mrs. Earl Schoonover were Sunday guests of their parents, Mr. and Mrs. Jerome Schoonover and also their niece, Mr. and Mrs. Carl Schoonover of Woodhull.

Private Burrell Fanton and wife of Rochester were Friday guests of his parents, Mr. and Mrs. Floyd Fanton and other relatives of Fulmer Valley.

At The Passport Office

Clerk — "Can you prove that this woman is your wife?"

Man (with lowered voice)—"I'd bless you forever if you could prove that she isn't."

To Relieve Misery of COLDS take 666
LIQUID, TABLETS, SALVE, NOSE DROPS

THE POCKETBOOK of KNOWLEDGE BY TOPPS

Individual Hens Doing More Than Their Part

The hen does not take a government challenge lightly in war time. Demand was made for 50 billion eggs in 1942—and the hen is laying at the rate of well over 60 billion eggs a year, almost 115,000 eggs a minute, day and night.

In May alone, hens on farms in this country laid 5,769,000,000 eggs, a record high, exceeding May, 1941, by 16 per cent. Total egg production during the first five months of this year has been exactly that percentage higher than for the same period in 1941. The increase is 26 per cent above the 10-year average for 1931-40.

While much of the increase has been due to more layers, individual hens are laying more eggs than ever before. They set a new high of 17.6 eggs per layer for May, compared with the 10-year average of 16.7 eggs for that month. The average hen in farm flocks laid 70.4 eggs during the first five months of 1942, which was 3 per cent more than she laid during the same period last year.

Interest incident to egg production, feeding problems and health maintenance centers upon vitamins, particularly A and D.

Use of dehydrated alfalfa and shark oil are helping the vitamin A poultry situation. There is no vitamin D problem, because of research conducted by chemists for more than 10 years. A chemically standardized source of vitamin D is satisfactorily filling vitamin feed requirements making for healthy, productive stock.

Chukar Partridge Found To Be Winter Toughened

The chukar partridge, first introduced in Minnesota four and a half years ago, when 200 birds were released in five counties, shows promise of becoming an important addition to the state's upland game species, according to the department of conservation. A state-wide survey late last winter resulted in actual observation of 461 covies totaling 8,790 chukars, mainly in the eastern part of the state. If, as has been estimated for pheasants in Minnesota, only 10 per cent of the birds present are actually seen, this would mean more than 50,000 chukars now present. In addition, approximately 15,000 of these birds will be released this spring from the Carlos Avery game farm.

The chukar has proved unusually hardy under winter conditions. Following 1940's Armistice day storm, it was observed that birds "pecked their way out of ice-covered snow drifts in about the same way chicks emerge from the egg shell."

Tubeless Tire

Invention of a revolutionary heavy-vehicle tubeless tire—the goal of tire engineers for half a century—has been announced.

The new invention is of primary importance because of the savings it makes possible in rubber ordinarily required for inner tubes and flaps.

Use of a specially designed locking member which retains the air in the casing is the secret of the new development.

Already substantial test results obtained demonstrate its usefulness and ability to perform under all sorts of difficult road conditions. Further tests under other auspices are now being conducted.

The new device can be mounted in a tire with ease in a procedure which is simple to learn and requires no special tools. In the event the tire is cut or otherwise becomes deflated, valuable time can be saved in repairs as there is no inner tube to be patched or replaced.

Chicago's Magnesium Metal

A great body of a potential ore of the strategic metal magnesium lies under Chicago, Ill., it is pointed out by Henry W. Nichols, chief curator of geology at Field Museum of Natural History there. "This city is built upon a bed of dolomite (the carbonate of lime and magnesia) which is from 200 to 450 feet thick," he says. "Although this rock is mined elsewhere as a source of magnesium, such use of it here is unlikely, because large deposits are available in regions where land values are much lower. Too few analyses of the Chicago bed rock have been reported to determine its average value, but five analyses made on rock from our local quarries all show a content of magnesium metal between 12 and 13 per cent, or nearly the theoretical maximum for ore of this kind."

Carlisle Indian School

The Carlisle Indian school operated from 1879, when 82 young Indians arrived from the Sioux reservations, until its close in 1918. The school originally was an old army post which the war department turned over to be used as a school for Indians.

Capt. H. R. Pratt, who later became a brigadier general, became interested in the idea of educating young Indians in non-reservation schools, away from all influence of their traditional tribal customs. At the time the school was given for that purpose it was agreed that if needed it would be returned to the war department. At the end of the First World war it was transferred to the war department for use as a field school by the medical corps.

THE ANSWERS

1. Almost doubled.
2. Between four and six.
3. Iron, steel, waste fats, tin, etc.
4. In three years, 500,000 out of a population of 12,000,000.
5. Carrying capacity, expressed in tons of 2,240 pounds.
6. Hay fever.
7. The relative purchasing power for farm income that existed in the years 1909-14.
8. The Duke of Wellington, 1769-1853.
9. Glycerine is a by-product of the manufacture of soap.
10. Aboutt 5,000 years.

Acid Indigestion

What many Doctors do for it

When excess stomach acid causes gas, sour stomach or heartburn, doctors prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell-ans Tablets. Try Bell-ans yourself, at first sign of distress. They neutralize acid, relieve gas, and bring comfort very quickly—yet are not a laxative! Only 25c, at drug stores. If your very first trial doesn't prove Bell-ans better, return bottle to us and get double your money back.

"Don't they look natural? Try Stere-Kleen — lasts long — costs only 35¢. At all druggists.

Old Farmer's Recipe: Mix Allenru and Lemon Juice to get quick relief from pains of rheumatics and neuralgia. Druggists have Allenru—grocers have lemons.

Uncle Ab says that one of the funniest things is the person who takes himself too seriously.

BRIEF BUSINESS BRINGERS

FOR SALE

FOR SALE—Cucumbers, all sizes. Green and wax beans.—Emmett Moran, Phone 367. 34p

FOR SALE—New Duro 265-gallon per hour pump, complete with 42-gallon tank, motor and automatic control. Will be sold at the old price.—HIGBY ELECTRIC, Andover, N. Y.

FOR SALE—116 acre Farm. Free gas, spring water.—LYLE HUNT, Andover, R. D. 2. tf

WANTED

WANTED—Carpet weaving. — Mrs. Elizabeth Hann, Andover. tf

WE BUY old Phonograph records. Broken, worn or obsolete. All but laminated. Bring them in!—Fred D. Rice Music House, Wellsville, N. Y. 34p

CAR OF HORSES

On Saturday, August 8th we will have another car of Horses. — Good medium priced Horses to the best Matched Teams. Also few cheap Horses.

Did You Place Your FALSE TEETH In a Glass Last Night?

Thousands do and wonder why their dentures remain dull and stained—why they suffer with offending denture breath. They fail to realize that water alone is not a cleansing agent — but now, there's a great formula perfected by a dentist, called Stere-Kleen that thoroughly cleans false teeth like magic—no brushing! Simply put a little Stere-Kleen Powder in a glass of water—look your teeth—now they sparkle. Teeth are really clean and look like the day your dentist said, "Don't they look natural?" Try Stere-Kleen — lasts long — costs only 35¢. At all druggists.
