Colds Cause Consumption?

Andover folks may be proud of Andover weather. But our visitors bring catarrh. Catarrh disgusts one's friends. It hurts offenders. We get to look sickly.

But worst of all catarrh—whether it is chronic or simply cold-in-head-catarrh, may cause the worst of diseases. For instance, here's what Mrs. Annie Richardson has written over her signature:

"Shortly after I was ill my little three-year-old boy came down with the same disease that I had, and I cured him with your Jelly. All his life he has been troubled with a terrible cough whenever he took the least cold. I have been up with him all night long and could get nothing to relieve him until I got hold of some Kondon's Catarrhal Jelly."

You can get (free) a book about this—and some Kondon Catarrhal Jelly, if you write immediately to Kondon Mfg. Co., Minneapolis. Or go to your own drug store here in town. They may have some free samples left. If not, get a 25c tube. This newspaper guarantees that you will get your money's worth, or your money back. But be sure its the genuine—proved by 25 years' use—in millions of cases. Insist on

KONDON'S CATARRHAL JELLY

PARENTS MAY REPORT IF PHYSICIAN IS NOT CALLED

State Health Department Is Aroused By Higher Than Average Measles Rate

Albany, March 19.—The appearance of a higher than average measles case rate in eight counties of the state last week has caused Dr. Herman M. Biggs, State Commissioner of Health, to issue a reminder to parents that they are held responsible for the reporting of communicable diseases if a physician is not called. A warning has been sent out to Chautauqua, Dutchess, Erie, Otsego, Rockland, Saratoga, Niagara and Wyoming Counties.

Regulation five of Chapter two of the State Sanitary Code provides that: "When no physician is in attendance, it shall be the duty of the head of a private household . . . to report forthwith to the local health officer all facts relative to the illness and physical condition of any person in any private household . . who appears to be affected with any disease presumably communicable, together with the name of such person."

As an instance of what may be accomplished when parents cooperate, Commissioner Biggs cites the fact that in a small town in the central part of the state, 37 cases of whooping cough have been reported within three months by families not employing a physician. This co-operation, says Dr. Biggs, enabled the department to render a service not otherwise available.

EFFORT AT ESCAPE JAIL GUARDS STOP

Prompt Action of Wheaton and Burlingame Prevent Delivery From Bath Jail.

Bath, March 19.—A jail delivery at the Steuben County bastile here was averted narrowly Friday night.

Three prisoners were implicated, McFarlin and Welsh, who figured in an automobile theft in Corning, and Jesse Palmer, a Bath boy held on a forgery charge.

The guards, Ray Wheaton and Harry Burlingame, heard water running and rightly came to the conclusion that it was being allowed to run to hide some other noise. Quietly investigating they found McFarlin in Palmer's cell (the prisoners are given the run of the corridor during certain hours) and the aforesaid McFarlin was busily engaged in sawing off a cell bar. It was his fourth bar, for he already had three severed and very soon would have had an opening into the cold air shaft, thence to the roof and freedom.

Search was made and in all five saws were found hidden in beds and other places. Where the saws came from is not known.

Messrs. McFarlin, Welsh and Palmer now occupy separate cells at some distance from each other and their diet consists of bread and water.

FOR THREE YEARS

Constipation Defied Doctors When "Fruit-a-tives" Was Used.

MR. JAS. J. ROYALL

S.S. "Boston", Central Wharf Boston, Mass., April 26th, 1914.

"For three years, I was troubled with *Constipation*. At times, the attacks would be very severe, accompanied by *Dizziness and Violent Headaches*. I took medicine and laxatives the whole time, but as soon as I discontinued the treatment, my bowels would refuse to move. Last October, I went to Montreal and there heard of 'Fruit-a-tives'. I used one box and the results were so pronounced that I bought two dozen boxes. I continued using 'Fruit-a-tives' and noticed *a decided improvement in my condition*. The dizzy spells no longer troubled me and my bowels began to perform their function regularly. I took the entire two dozen boxes of 'Fruit-a-tives' and my physical condition was perfect". Jas. J. Royall.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent by Fruit-a-tives Limited, Ogdensburg, New York.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions.

It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

Scott's is strengthening thousands of mothers—and will help you. No alcohol.
