Worst Catarrh In Andover?

In a community like this news travels fast. If the worst case of Catarrh here is cured by a simple jelly, almost everybody will soon know. Therefore, Minneapolis manufacturers have issued a challenge. They dare all catarrhal victims Andover to try out some of their Kondon Catarrhal Jelly. If it does not relief the worst case—they will pay.

They say that the experience of L. C. Pioneer is one of thousands of cases which make them feel safe in their challenge. Mr. Pioneer's signed statement is:

"I have been using your Catarrhal Jelly for about four weeks. One side of my nose was so stopped up for two years, also my throat was so dry that when I would lie down at night I could sleep but very little. I tried doctors, paid out over $1,000 in money, and got no relief from any of them. I met a gentleman here in this city who told me to try KONDON'S CATARRHAL JELLY. I bought one 25-cent tube; it cleared my nose and brought the saliva into my mouth, so I could rest at night, and I have slept better in the last ten days than I have in two years. I am satisfied that your Catarrhal Jelly will cure any case in the United States."

You can get (free) a book about this—and some Kondon Catarrhal Jelly, if you write immediately to Kondon Mfg. Co., Minneapolis. Or go to your own drug store here in town. They may have some free samples left. If not, get a 25c. tube. This newspaper guarantees that you will get your money's worth, or your money back. But be sure its the genuine—proved by 25 years' use—in millions of cases. Insist on

KONDON'S CATARRHAL JELLY

Sign Boards on the Up-road

By Hamilton B. Williams

Honor is the key-word of a true religious program. Professing to be christian guarantees that the Game of Living will be played fair, and people know what sort of treatment they should have.

A christian recognizes people to be immortal souls, and consequently to be treated with the utmost courtesy.

People have a right to expect christians to be gentlemen and gentlewomen.

If fellowship with Jesus Christ and being beneficiaries of the grace of a very courteous God do not make people gentle and thoughtful and courteous — but they do!

Fellowship with Christ makes people right.

If our Lord Christ was, as has been said, the finest gentleman that ever breathed, it is a matter of soul-honor for us, as we may, by the grace of God, to seek to uphold His name and quality by being

Ladies and Gentlemen.

Honor is manhood's and womanhood's final test. Lacking that one lacks the essential stamp.

Sincerity is honor's chief expression. This lies upon every one with an eternal weight of obligation. We owe sincerity as a matter of self-integrity, and certainly there's no excuse for insincerity. Open hostility or open friendship. The most degraded and despicable person is the traitor to friendship, the betrayer of confidence.

There's a special hill for the double-crossers.

It is located in their own wretched hearts, and the punishment is a good and plenty of — themselves.

To be honest and square is to be in the fellowship of Jesus, the one all-honest man who never flattered his enemies or turned against his friends.

The honor of Jesus lies in the keeping of his professed followers, and upon them lies the responsibility of being on the level with the people of the trails.

GROWING DAHLIAS FOR EARLY BLOOMING

When dahlias are wanted so that they will bloom early in the season they may be started indoors in April by placing them in soil in rather large pots. At first they may be kept in the basement but as they begin to grow should be brought to the light and later placed out of doors in a shady place where they can be removed to the house if there is danger of frost at night and on cold days. As soon as all danger from frost is over they may be taken from the pots and set directly in the ground. In this way blooms may be cut 3 or 4 weeks earlier than when they are planted directly in the ground without potting.

Any candidate can give away cheap cigars and make oral promises, but it takes a square man to put it in type over his own signature. Keep your eyes on our advertising columns and the names on the ballots.

ST. JEAN DE MATHA, Jan. 27th, 1916.

"After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat. I was afraid of dying. Five years ago I received samples of "Fruit-a-tives" and after taking them I felt relieved. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I can sleep and digest well—in a word, I am fully recovered, thanks to 'Fruit-a-tives'."

Dress-Up Week

A National Fashion Event of International Style Display

A few years ago this event was hardly known, now it has reached the point of being a national fastival of men's and women's dress. Even more, the HOME receives its share of attention in this great inspiration to "fix up." The old story is, that good clothes incite self-respect and the respect of others. Everyone feels exhilerated on the first day's wearing of a new suit or dress—one just cannot help.

So this Dress occasion in this store will be broad and will include during the days from March 27th to April 8th special displays collected for this purpose.

In every department stocks are unusually complete, and owing to the market conditions the early buyers will be best served. Come and enjoy these special displays—courtesy is extended to all alike.

For Spring Correct Millinery Styles

We might enumerate them. We might make a minute description of every style and every feature, but we are quite sure a poetical genius could never describe the real beauty of our Spring Millinery.

High trimmed Hats, close fitting Hats, flat and sailor Hats, with the very last touch of artistic designing—

Oh, but you must see them.

Frills, Capes, Sailor Collars and Tucks Are some of Our Shirt-waist Features

But goodness, that does not nearly begin to tell the whole story. Here and there, color effects are quite startling, but in the main the shades are demurely attractive.

There are a number of exquisite Shirt Waists made of China Silk in embroidered white and colored stripe effects at the little price of $1.25.

Coats and Suits That Are Practical And Delightful

That the practical Coat or Suit can be made a delight to the eye is demonstrated in these hundred odd styles that have just arrived from New York. To see these handsome style creations—and then note the materials is to want them. Coats and Suits priced here from $15 to $50.

Corset Exhibition

You are especially invited to attend our American Lady Corset exhibition, now being held. The smart showing of the season's styles is incomparable. Everything that is correct in corsetry is represented. Designs are the last word. Materials and trimmings are rich and dainty. Workmanship is flawless. Fitting is perfection.

Modish dressers everywhere are interested in American Lady Corsets, which are made for all figures, slender, medium and stout, including just exactly the right model for your individual figure.

We shall be glad to fit you and we can safely guarantee you a faultless fitting.

We believe this the opportunity of every woman to secure "her" American Lady model, the correct foundation for the season's styles.

Be sure to obtain "your" model before you have your new suit or gown fitted, in order to secure the best results. Let us show you.

AMERICAN LADY CORSETS Price Range $1 to $5

A. E. Lerche of Springfield Gives a Recipe For Getting Over the Blues

A. E. LERCHE

"If you ever get the blues," he said, "it is well to know the simplest and best way to get rid of them. Crankiness, nervousness and general upset condition preceding the blues usually are due to the relentless grip of constipation on the nervous system. The simplest way to meet this condition is to have a box of Rexall Orderlies in your pocket and the best way is to take one when you feel the attack coming on. It is the finest laxative for men, women and children I know of, and is a regular antidote for the blues—the best ever."

THE TIN CAN A MENACE

Who would have thought that the tin can is a menace to the public health? The expert malaria investigators of the U. S. Public Health Service have found however that discarded tin cans containing rain-water are breeding places for the mosquito which is the sole agent in spreading malaria. A hole in the bottom of the empty can might have resulted in the saving of a human life. Certainly it would have assisted in preventing a debilitating illness. Empty tin cans have no business about the premises anyway, but if we must so decorate our back yards, let's see to it that the can has a hole in the bottom.

RHEUMATISM ARRESTED

Many people suffer the torture of lame muscles and stiffness from excess of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system.

To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.
