Call to Arms

Your Government needs and asks its citizens in this 165th week of the war to:

1. Answer the emergency call for 8,000 Medical WACS. Women from 20 to 50 are needed immediately for non-professional medical work in U. S. Army hospitals.

2. Help to relieve the doctor and nurse shortage by taking a Red Cross Nursing course to learn to care for your own family.

3. Remember — 1944 income tax return forms do not provide for payment for the unforgiven portion of your 1942 tax due March 15. Separate statements are being mailed.

4. Write your servicemen cheerful, re-assuring and frequent letters. Use V-mail when you write overseas.

5. Beware of complacency. When the war news is good, redouble your efforts on the home front. Set an example your boy can be proud of.

That chap who predicted our current winter would be one of cold cycles should have made it singular — just one continuous cold.

The first social workers in the Empire State were the Dutch Sieckentroostes, whose duty it was to visit sick persons in their homes.
