SPRING SIGNS

Old Father Winter roars in glee
round homes that shelter you and me. He thunders ever and anon, "Spring chased me off a year agone, but this time I have come to stay. I never more will melt away, but bring upon your mid-zone stage another robust glacial age. I know outdoors where I could go and find somewhere beneath the snow a lot of little plants that show in spite of him the cool green fire, by way of proof that he's a liar. Nor do I need to dig for signs, still stands the greenery of pines. Today the postman sought my door, a spring seed catalog he bore. O in my boyhood I remember how, with the end of each December, came new seed catalogs of light and father studied them at night. Came Burpee then and Henderson with other seedsmen more than one. Came Gregory I think and Vick; there are no other names that stick, except that once we had in some way acquired a catalog of Shumway. I am not paid as you'd surmise to help those fellers advertise. I merely name the ones we had when I was back at home with dad. And you can bet that I am glad our seedsmen of the present day send signs of spring the good old way.

Around Our House

A HINT FOR PARENTS

These are fortunate days for parents, because experts are studying the problems of parenthood and are able to offer sound practical advice on guiding children.

Modern psychology has much to teach about human nature, and most of it can be applied in guiding children. One basic principle is that the use of the positive is generally more successful than the use of the negative. Mothers who realize how much more valuable is the small word "do," than is its relative "don'ts," have gone a long way in successful guidance of children. Prohibitions somehow arouse antagonisms and desires for evasion but positive requests and commands instinctively call forth co-operation.

The mother who shouts, "Don't make such a noise," irritates her child. But the mother who gently says, "How would you like to help mother get the vegetables for dinner?" makes a request that is far more potent.

Small Paper Money To Be Out in July

Uncle Sam's printing presses are now grinding out greenbacks by the million as the Treasury Department has speeded up production of the new abbreviated paper, which goes into circulation next July.

From April to July the American people will have to use worn out and dirty paper money. In April the production of the present sized paper will cease so that in July there will be a comparatively small supply of good money on hand.

The first batch of small paper will be of denominations from $1 to $20. Secretary Mellon is already considering a reduction in the size of the Federal reserve bank notes.

A piece of waxed paper folded over the sharp edge of a knife before butter is cut, will prevent the butter from sticking to the blade.

New York now needs more, and bigger, and better horses. The horse situation is discussed in a Cornell bulletin, E169. A free copy may be obtained by writing to the college of agriculture, Ithaca, N. Y.

CAUTION—Elastic trusses with leg straps should never be used: they squeeze the delicate parts against bone and slowly produce dangerous complications necessitating operation.

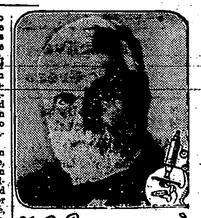
Prescription He Wrote in 1892 is the World's Most Popular Laxative

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their system. So he wrote a prescription for a laxative to be used by his patients.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headache, biliousness, dizziness, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will place your order with your druggist today, it will be ready for you when you need it, and you will also always have a bottle handy for emergencies.



It is particularly pleasing to know that the most of it is bought by mothers for themselves and the children, though Syrup Pepsin is just as valuable for elderly people. All drug stores have the generous bottles.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.

Former Pastor's Wife Dies

Friends here were shocked to hear of the sudden death of Mrs. Peter Van Duren on Thursday. Her death occured at her home in Elkland, Pa. after a very brief illness. While a resident of this place, Mrs. Vap Duren was an active worker in both church and community activities. By her quiet and unassuming ways and readiness to help where needed, she won her way into the hearts of scores of people with whom she came in contact. Deepest sympathy goes out from the people of Greenwood to the grief stricken family.

She leaves to mourn her loss, besides her husband, two daughters and a son, Mrs. Howard Warriner of Rock Creek; Miss Ethel Van Duren, who attends a missionary college at Washington, D. C., and Richard at home. Also one grandson.
