Civilians at War

The Government needs and asks its citizens in this 191st week of the war against Japan to:

1—Be ready to answer local calls for help from short-handed farmers. By working with the crop corps you will do your part in assuring adequate food supplies.

2—Take a non-nursing auxiliary hospital job. Hospitals are overcrowded and badly in need of permanent help. Apply at your local hospital.

3—Report all overcharges, however small, to the Price Control Board of your ration board. Without this check by individual shoppers, prices cannot be held down. You need not give your name.

Increase in Thefts of Gas Ration Coupons

Thefts of gasoline ration coupons from service stations have increased to such an extent recently that every station operator should adopt all possible safeguards immediately, OPA says.

Apparently organized gangs of racketeers, who formerly made and distributed counterfeit gasoline ration coupons, have found that their former racket is no longer safe nor profitable, and that the markets for their invalid ration coupons have disappeared. As a result, the racketeers have turned to the theft of valid currency from service stations and have been selling coupons at various prices to black market operators.

The perfect companion is a women who is doing her utmost to please you—and succeeding.
