Collector's Notice For the Collection of School Taxes

NOTICE is hereby given that I, the undersigned Collector of Andover Central School, have received the tax list and warrant for the collection of school taxes in and for said District and that I will receive voluntary payments at 1 per cent thereon Mondays through Fridays of each week from 10 o'clock a. m. until 12 noon and from 1 o'clock p. m. until 4 o'clock p. m., at the office of the Andover News, Village of Andover, for thirty days from the date thereof.

I have been instructed by the Board of Education to add 5 per cent to all taxes after November 28th in compliance with the School Law. Remember, you have just 30 days in which to pay your school taxes at 1 per cent.

Dated: October 27, 1947.

ERWIN D. BAKER,
Collector

*Increases since 1939, from Department of Labor Index for moderate income families in large cities, and from National Housing Agency.

...our costs have gone up, too!

SOME PEOPLE get along under higher prices by using less or doing without. Some have more income to help meet higher costs. All can adjust outgo to income, to a large extent.

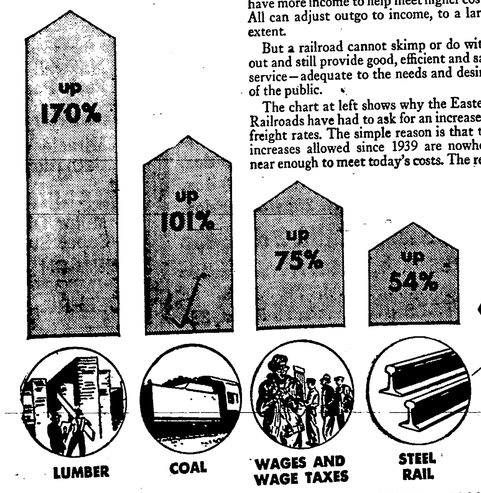
But a railroad cannot skimp or do without and still provide good, efficient and safe service—adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1939 are nowhere near enough to meet today's costs. The revenue the railroads get for hauling the average ton of freight is only 15% more, whereas the cost of operating the railroads has increased more than 63% in that period.

Only recently, for instance, an arbitration board added another $468,000,000 to our annual bill for wages and wage taxes, of which $187,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1939.

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is need in the public interest for adequate and efficient railway transportation service at the lowest cost consistent with furnishing such service.

In other words, all the railroads ask is sufficient revenue to enable them, under honest, economical and efficient management, to provide the kind of service people want.



Some examples of increased costs since 1939, affecting railroad operation

Increased freight rates since 1939 have increased the revenue from hauling the average ton of freight one mile only 15%
