TIDBITS

On Wednesday evening, March 6, Dr. Saunders of Alfred University gave a very interesting demonstration on liquid air at the school auditorium.

The students are studying very faithfully for the ten weeks tests that are coming next week Wednesday and Thursday. They are also getting ready for Easter vacation.

Spring must be here because the boys are playing marbles and baseball.

John: "What I say to my wife goes."

Bill: "You don't say."

John: "Yes, it goes around the neighborhood."

Dr. (to his son): "Well, what have you to say for yourself?"

Son (in for a licking): "How about a local anaesthetic?"

Mr. Perrone has returned after several days' absence.

"Lizzy B.: "I knocked that French exam cold."

Judy: "What did you get?"

Lizzy: "Zero."

A Curious Egg

A fowl owned by Lyman McMindes of North Cuba has probably broken the record for freak hen fruit. In a nestfull of eggs the other day Mrs. McMindes found something exactly the shape of an old-fashioned crookneck squash, but very evidently made of the same material, and probably with the same contents, as ordinary eggs. The freak is at The Patriot office, where it may be seen by any one interested.

Overheard at a Dinner Party

Bill: "Julia, this certainly is the best coffee I've had in a dog's age. What kind is it?"

Julia: "It's Heart's Delight. We use it exclusively now."

Bill: "Kate, what kind of coffee do we use?"

Kate: "Well, you know those beautifully colored coffee ads in the magazines are simply irresistible. I order—and then—but neither equals this."

Bill: "I was in Grocer White's at noon yesterday just as Scoville, Brown & Co.'s truck was unloading. I asked him if he bought much from them. He said his business with them was increasing right along because of the high quality of the Heart's Delight line and their splendid service. He said he was waiting on a customer last Wednesday who wanted a pound of Heart's Delight and he needed to open the case when it came off the truck. The coffee was still warm from the roaster. White says a number of his most particular coffee customers have changed over to Heart's Delight, largely because it reaches them so very much fresher."

Who'd do a week's ironing for 5¢

ANY man who spent a day doing the ironing would quickly throw out your ironing board. He'd know that here was drudgery that electricity could do for a few pennies, in a fraction of the time.

If you are still doing your ironing by hand, we urge you to visit your nearest electrical dealer and see for yourself how an electric ironer can do a 5 hour ironing in less than two hours—shirts and dresses as well as flat pieces. How it will do a big ironing for about 5 cents.

While most living costs have been steadily increasing, Niagara Power Service actually costs less today than when bread was 5 cents a loaf. With electricity as cheap as that, anyone can afford to use it freely!

BAKERS' STORE NEWS

Published by Baker Bros. Hardware, Andover, N. Y.

Economy Forgotten by Drivers

It costs the average railroad company something like $5,000.00 a year to blow its locomotive whistles when approaching grade crossings, but it don't cost the motorist a cent to stop, look and listen.

Don't hook up your $20.00 bridge lamp with a faded out soiled extension cord when you may have a 12-foot DeLuxe Silk Covered Cord with plug and socket for only 85c.

Cocoa Mats at entrance doors will prevent mud and slush from being tracked about the home, and save much extra sweeping and dusting. Liberal size, thick brush—90c.

Your favorite dog is getting ashamed of his collar. Why not spend 50 or 75 cents and get a new one? We are showing a new line that is very nifty.

We have an enameled ware sale on for Saturday. Two articles for the price of one, plus one cent. See our window display.

Our bulk garden seeds do grow—they have vitality and are true to name. We have gardeners who come a long way to get Leonard's tested seeds.

If the meek inherit the earth they'll find their property pretty heavily plastered with mortgages by those who are not so meek.

You would be surprised to know how many of our car owners will drive Brunswick Tires and Tubes this year.

Maybe you would like to drive them yourself. Think it over, more miles of dependable service per dollar.

If those who have purchased Sanette or Handy Ann kitchen pails will call, we will give you a package of Klean Kan Liners.

Our customers often exclaim: "Do you mean you sell this large Niagara Flashlight complete for 89c?"

It is a lot for your money, a real bargain and besides it is fitted with Hit-co Water Proofed Batteries—they give longest service.

Only another week until Good Friday—time to get seed for the sweet peas if you wish to enjoy early blooms.

If you want every color under the sun try a ROW of our fancy mixed—they are not just a lot of seed thrown together, but a wide selection of named varieties blended by an artist. These are selling for 8c per ounce.

The Spencer or Orchid-flowering Sweet Peas have larger flowers with a distinctly fluted petal also a riot of color. They are selling at 10c per ounce.

We buy our sweet pea seed on contract from growers who specialize on variety, beauty and quality. We give you the benefit of a very low price by making Sweet Peas a leader among our bulk seeds.

With a Nuber four White Rose and Nuber six and seven Morning Glory, we give you a selection of real quality brooms to suit every need.

Real economy to buy these quality brooms, they handle much easier—leave less litter and wear longer than three ordinary brooms.

Use them once and no other will satisfy.

So live that you wouldn't be ashamed to sell the family parrot to the town gossip.

A few very fine Ebenezer Onion sets at 20c a pound. Get them while the selection is perfect.

Another thing the ultimate consumer pays without realizing it is the salary of the bill collector.

Ultra Violet rays, are the rays of health, they kill bacteria instantly and prevent the spread of disease, these rays pass freely thru CEL-O-GLASS.

There are many uses for Cel-o-Glass on the farm, it prevents stiff legs in swine and brings the disinfecting qualities of pure sunlight into dairy barns and other farm buildings—use it freely—it pays.

She was attempting to reach a high shelf in a clothes closet when the accident happened. The ligaments in one ankle were torn loose and one arm is badly injured. Mrs. Strait was formerly a resident of Andover and her friends here learn with regret of her injury.

It is claimed that considerable home brew and booze was rapidly disposed of by Wellsville parties this week when a number of people received a red card, bearing the words "The First Warning," in their mail boxes. A later mail brought more cards, "The Last Warning," which was merely an advertising scheme of a theatre playing the picture under that title. Much merriment has been enjoyed at the money paid out by several citizens of the county metropolis for attorney consultations and lost in the dumping out of their "perfectly good brew."
