AndoverHighSchool TIDBITS

In the County Track Meet at Wellsville, Friday, May 24th, Robert Common continued the good work which he had started at Alfred the preceding week by winning the high jump and tieing the county record. The high school team placed fourth in the schools of the county. The junior high school boys, with a score of 24 points, were first in team scoring. Wellsville's junior team received only 12 points.

Eichorn was the star for the juniors with three first places and a second. W. Brown took first in the 100 and second in the 50 yard dash, and F. Brown took second in the 220. These three boys were also on the winning relay team which defeated Wellsville in a close race.

The entire Andover team returned with six fold mdals, two silver and one bronze.

"Apple Blossom Time," the play presented by the Senior Class, Thursday night of last week, was very successful. Each one of the cast took his part well. The Seniors want to thank each and every one who helped to make the play a success, and to express their appreciation for the support and co-operation which was shown.

Eighth Grade

At a recent club meeting, it was voted that we buy a picture of our grade, poet, James Russell Lowell, with the money we will have at the end of the term. It will be left in the grade rooms for the future grades.

The Democratic Party Makes Old Style Comeback

Not the least gleeful among the joyful prophecies that accompanied the Republican clean-up of the electoral vote in November was the comment of many staunch Republicans that the Democratic party was out—"No chance of a comeback now," they stated positively.

John J. Raskob does not agree. Neither do many Democrats. And neither, for that matter, do a number of seasoned Republicans who have become sage thru years of political experience. So nobody in that group was much surprised when the announcement was made that a Democratic organization extending into every county in every state was to be set up under the direction of Jouett Shouse, recently appointed chairman of the executive committee of the party. Headquarters are, of course, to be maintained in Washington.

It was Mr. Raskob's idea, altho the author seemingly intends to keep modestly in the background while directing the work of re-organization with the same zest that has made his work with General Motors successful. The outcome should interest Democrats and Republicans alike—the former as a parent's health interests his child, and the latter as opposition that one can respect interests. Besides, think what a dull affair a one-party Government would be!

W. B. Page Returns from Hospital in Rochester

Former sheriff W. B. Page of Arkport, who has been in poor health for several weeks, has been in the Strong Memorial hospital in Rochester for some time past for observation and treatment and returned home Tuesday night of this week. The nature of his ailment was not definitely determined by the hospital staff.—Canisteo Times.

Susi's Airship. Other Air News. $200,000,000 a Year. The King Returns.

Susi, female gorilla, passenger on the Graf Zeppelin, interests the crowd more than the real lady passenger.

Susi slept or rested calmly in her cage, thru all the high wind and buffeting.

Proud man thinks, "Poor Susi, she did not even know she was floating thru the clouds in an airship. Man set her sailing, she had nothing to say about it."

What about us, Susi's second cousins? Not one in 10,000 white men realize that he is afloat in space, on an airship, the earth. God set us floating, as Susi's owners set her flying.

It's a wonderful airship that we inhabit, heavier than if made of solid steel, whirling round and round, its slowest speed 1,000 miles an hour, on its axis, its speed around the sun more than 1,500,000 miles a day, 60,000 miles an hour, 1,000 miles a minute.

Ours is a real airship going off thru space, somewhere, with the sun. And we know and think as little about our real journey as Susi knew and thought about her trip.

Don't despise Susi.

Human nature is fundamentally good with all its fighting and slaughtering. The French hesitated to let the Zeppelin fly over French territory—too many opportunities for taking photographs, useful in later wars, perhaps.

But when the big ship was in trouble, French soldiers were sent to help, French landing fields and hangars were offered, and at this hour, French and German mechanics are working side by side, putting the big dirigible in order.

Colonel Lindbergh announces regular mail service between New York and Buenos Ayres in 80 hours. Later the line will be extended, and Lindbergh will start the line, as pilot. Marriage, evidently, will not moderate his flying.

Those that oppose the debenture scheme for "farm relief" anounce with horror that the "farm bounty plan" MIGHT cost the Treasury $200,000,000 a year. That wouldn't be much if it gave genuine farm relief.

The trouble is that the "debenture" or bounty plan would add many millions to profits of middlemen who do all the exporting and little if any of the bounty would reach the farmers.

King George has returned to his favorite residence, Windsor Castle, with years of life promised by doctors.

Loyal subjects turned out to cheer their king.

Newspapers print his picture headed "Long to Reign Over Us."

The idea that men do not want to be ruled is a mistake. To be ruled is exactly what they DO want, and to be freed from responsibility of self rule.

It's painful for a dog to walk on its hind legs, painful for human beings to rule themselves and think for themselves.

Heart-Heart Talk

By Dr. John Joseph Haines

"TUNE IN"

There is a sweet symphony somewhere; tune in and get it. Yes, that's it—a sweet symphony somewhere; shift your dials until you find it, then sit back and let it into your soul; you will be made better by it.

It's a sad fact that not every noise you hear is a symphony. There are sloppy jazzes and melancholy dirges that afford no uplift whatever—tune away from them. You have a right to the best there is. Aren't you keeping up a perfectly good receiving set?

But you won't get the best in the world unless you tune in for it. The worst will din your ears if you don't tune it out; it will bore you to death—and keep you looking sour while you live.

I am mighty careful of my receiving set. I feed it, clothe it, house it with jealous care; I never permit it to become rusty or dusty. I give it eight hours of sleep each night; I provide it with at least six hours of heartening toil every working day; that causes it to appreciate the symphonies that are here for the tuning in.

If "static" bothers me, I turn my dials away from it. That's the only way to get rid of it. When I see a sour, repellent face, I have to struggle to keep from shouting: "get away from that static!"

Then there's the ballyhoo—the peddlers—that never lay off, even on Sunday—in this commercialized age. If I tire of them I tune 'em out. There's often good music, tho, along with a peddlers' program. In fact, there is good in everything, as Shakespeare says, if we just tune in for it.

If this world is to be made better for us, we must try being better ourselves—and tune in for everything that ennobles and enriches the soul.

BIRDS MADE POOR TIME

Storm Interfered With Pigeon Flight From Cuba to Auburn.

A letter to the Patriot from the racing committee of the Finger Lakes Racing Association states that the pigeons liberated in Cuba on the 11th for flight to Auburn, did not make as good time as usual on account of the high winds which they encountered. The distance is just 100 miles by airline and the first bird to arrive was owned by Charles Craven, who clocked his bird at 12:05 p. m., making about three hours in flight. Several of the 103 birds became exhausted in battling the storm and failed to reach home.

The race was an official one for birds one year or older. It was the sixth run from Cuba to Auburn.—Patriot.

Years of service in MODEL T FORDS

THE Model T was so strongly and sturdily built that it is still rendering reliable, economical service to motorists in every section of the country. Millions of these cars can be put in shape for two, three and five more years of use at very small cost.

So that you may have this work done economically and satisfactorily, the Ford Motor Company is still devoting a considerable section of its plants to the manufacture of Model T parts. It will continue to do so as long as they are needed by Model T owners. The following list gives the approximate labor charges for reconditioning the Model T Ford:—

Engine	
Tune motor (including replacement of commutator case, brush and vibrator points if necessary)	$1.00
Grind valves and clean carbon	$3.75 to 4.00
Overhaul carburetor	1.50
Reline detachable car transmission bands	1.50
Install new pistons or connecting rods	6.00
Tighten all main bearings	6.00
Overhaul motor and transmission	$20.00 to 25.00
Rear System	
Replace rear axle assembly	2.50
Install universal joint	3.00
Reline brake shoes	1.50
Replace rear axle shaft, drive shaft pinion, or drive gear	5.00
Overhaul complete rear axle assembly	$5.75 to 7.00
Rebush spring and perches	1.75
Oil and graphite springs	3.00
Front System	
Overhaul front axle	$4.00 to 5.00
Rebush spindle bolts and arms (both sides)	2.50
Replace or straighten spindle connecting rod	.75
Tighten radius rod or steering ball cup	.50
Tighten all sockets and joints of front end	1.50
Replace front spring the bolt or new leaf	2.50
Straighten front axle	3.00
Chassis	
Replace rear fender	1.75
Overhaul steering gear	3.50
Repair radiator	1.00
Overhaul radiator	7.50
Repaint Coupe	25.00
Repaint Sedan	25.00
Repaint Touring Car	20.00
Repholster Runabout	8.00
Repholster Touring Car	15.00
Replace top deck (Coupe or Sedan)	4.00
Overhaul starting motor	3.00
Overhaul generator	2.50

These prices are approximate and are for labor only, because the need and number of new parts depend on the condition of each car. The charge for these parts is low, however, because of the established Ford policy of manufacturing and selling at a small margin of profit.

"Married," said a weak voice in the audience.

The farmers who are interested in raising better potatoes, so that the product of this section shall command best market prices are treating their seed potatoes.

Semesan Bet appears to be the best disinfecting dip for this purpose. It does control many of the potato diseases and grows more and better quality crop.

We have a supply for your convenience.

You may improve the comfort of summer cooking with a new heat control Gas Range.

The full enameled models are as finely made and finished as any piece of furniture in your home, and will require very little care to keep them in this same splendid condition.

We have an extra good selection, priced from $60.00 to $75.00, there is no utility in your home that will add as much service, comfort, economy and convenience at so little cost.

We want to remind you that Benjamin Moore is still making the best house paint that you can buy anywhere.

It will soon be time to paint your home and if you wish a beautiful job that will hold its gloss and look well for years to come you want to use Moore's Pure House Paint.

Get our special price for five gallons or more.

We have a carload of merchandise coming from Weed's fire sale in Buffalo, our buyer spent two days there and picked up a lot of real bargains.

Watch for special prices!

We have those wire baskets for use in treating your seed potatoes. They save time, material, and your seed is much cleaner to handle.

Miss Fit: "What's your mother doing, Johnny? I haven't seen her since she got back from Florida."

Johnny: "She's busy taking the hotel names out of the towels."

A good second hand gas range, $17.50, at this store, has been used only a short time and is a real bargain.

It is very seldom that we have so good a range to offer—so if interested act promptly.

When in doubt about a gift or prize for party, wedding or commencement, our line of glass and China may help you.

The Tanglefoot Company have perfected a fly spray to use on stock that is made along the line of sprays used in the home.

Has a pleasant odor, is almost clear in color, will not taint milk—actually KILLS flies and all similar insects, and is entirely harmless to humans.

Equally good for stables or poultry houses—$1.50 per gallon.

How much are you paying to feed your woodchucks. It is a poor farm that is not feeding at least 100 —and $1.00 per month each is a low estimate for what they eat and destroy.

A couple of dollar's worth of CYANOGAS will get all the chucks in 100 holes.

Brunswick Tires are giving a first class account of themselves—every buyer knows he is going to get thousands of miles of the no trouble kind of tire service when he tires with Brunswicks.

Solid Socket Steel Garden Hoes —75c.

The best method of keeping your home free from flies is not to allow them to get started.

Have a bottle of Kil-O-San and sprayer handy and kill them off early.

Vernon, of Newton, Ia., were united in marriage in the beautiful garden of the Los Angeles Woman's Athletic Club at 5 o'clock this evening, in the presence of relatives and close friends. The ceremony was pronounced by the Rev. Dr. Wilsie Martin, pastor of the Wilshire Methodist Episcopal church, using the ring service.—Bolivar Breeze.

Rushford's Big Tree Destroyed by Wind

Tree lovers will learn with regret that the heavy winds of a few weeks ago blew down Rushford's big tree. This tree belonged to the town of Rushford as long as it lived, was the fourth largest tree in the state. It was 25 feet in circumference at its base and 128 feet tall. Its age was estimated at 1,000 years by counting the rings on the stump of another large tree which was cut nearby a number of years ago.—Observer.
