PERSONALS

—Miss Doris Leach was a Whitesville visitor, Sunday.

—Mrs. Wm. Alderson and Mrs. Edward Cable were shopping in Hornell, Saturday.

—Prof. and Mrs. Carol Mider of Canisteo were guests of Rev. and Mrs. Walter Dynes, Tuesday.

—Miss Eleanor DeRemer left Monday morning for Akron, Ohio, where she plans to pass the summer.

—E. I. Marsh, Miss Mary Jane Shapland and Miss Isabelle Loughead motored from Eldred, Pa., Sunday, calling on Andover friends and relatives.

—Howard VanWie and friend of Painted Post were Sunday callers at the home of his grandmother, Mrs. Ida Hammond.

—Mrs. Henry Livermore and niece Emily Mae Green, attended the Burdick family reunion at Bradford, Pa., last week.

—Donald Kemp is passing his summer vacation with his aunt and family, Mr. and Mrs. W. W. Jones, on the farm at Castile.

—Miss Eleanor Fish, Mrs. A. G. Fish, Mrs. Brooks and Miss Rennells of Ilion, N. Y., were visitors in Andover, Wednesday and Thursday.

—Judge and Mrs. Edward Mullen attended the Mullen family reunion at Freeman, N. Y., Saturday at the home of his niece, Mr. and Mrs. Will O'Bryan.

—Mr. and Mrs. Forrest Gee, son Lloyd, and Mrs. Frank Nobles are passing the week guests of Mr. Gee's sister and family, Mr. and Mrs. Isa Connors, at Canal Fulton, Ohio.

—Mr. and Mrs. D. M. Greene are visiting at the home of Mr. and Mrs. A. B. Payn of Perry, N. Y. Mr. Payn motored to Andover, Wednesday and they accompanied him home.

—Rev. and Mrs. W. L. Greene and family made a motor trip thru the Black Forest of Pennsylvania, Sunday, visiting the ice mine at Coudersport and Ole Bull Castle, Galeton and Jersey Dutmpike.

—Mrs. Kathryn York and son, John, also her granddaughter, Miss Catherine Fitzgerald of Olean, Miss Mary Hannon of New York City and Raymond McArdle, U. S. vice counsel of Mexico were visitors at the home of Mr. and Mrs. John Rockwell one day last week.

—George Blank was home from Atlanta over the week-end.

—Miss Edith Gee and Roland Laven are visiting relatives and friends in Rochester this week.

—Mr. and Mrs. M. T. Garvin and sons of Pittsburg were week-end guests of Andover relatives.

—Mrs. Martha Orvis returned last week from passing some time with relatives at Canisteo and Canaseraga.

—Miss Gertrude Beebe of Bradford, N. Y., is spending the summer vacation with her parents, Mr. and Mrs. G. H. Beebe.

—Miss Pansy Waldon of Bethesda hospital, Hornell, is in Andover this week, while on a two week's vacation from her duties.

—The Misses Marion and Grace Witter of Wellsville were guests at the home of Mr. and Mrs. Harry Kemp from Tuesday until Sunday.

—Mr. and Mrs. Clarke Fulkinson and family of Ellet, Ohio, are visiting Mrs. Fulkinson's parents, Mr. and Mrs. Patrick Hyland on Greenwood street.

—Rhoe Leach and O. D. Seaver and families, in company with Whitesville friends to the number of 30, enjoyed a picnic at Stickworth Park, Sunday, June 20th.

—Mr. and Mrs. George Brown and children, Miss Neva and John H. Coleman motored over from Duke Center, Pa., Sunday afternoon. Misses Doris and Dorothy Coleman returned home with them.

—Mr. and Mrs. Jerry Lewis of the Larkin Store, who have recently moved into the Belle Rice residence on Dyke street, left this week for a vacation trip. Miss Evelyn Witz of Hornell is in charge of the Larkin store during Mr. Lewis' absence.

—Mr. and Mrs. Marius Ryan of Hornell were week-end guests at the home of John Mitchell.

—Mrs. Hazel Seaman of Hornell spent Tuesday at the home of her uncle, Mr. and Mrs. Will Bliss.

—A. L. Rogers is at Belmont, guest at the home of his sister, Mr. and Mrs. O. G. Whitcomb over the Fourth.

—Mrs. Bessie Hawkins was in Wellsville, Wednesday of last week to attend the wedding of her niece, Miss Maria Walsh.

—Mr. and Mrs. Allen Harvey of Olean and Harry Joyce, Jr. ,of Buffalo, are passing the week with their parents in Andover.

—Miss May Wood has gone to Long Island, where she has a position at a former employer's for the remainder of her vacation.

—Mr. and Mrs. Sidney Kaple passed the week-end at Hornell, guests of her sister and family, Mr. and Mrs. James Thompson.

—Mrs. Harold Evans and Dayton Fairman of Bloomsburg, Pa., were visitors at the home of Miss Gertrude Beebe, Friday and Saturday.

—Mrs. Gladys Rogers and daughter and Miss Sara Lobdell motored to Susquehanna, Monday, to visit their parents, Mr. and Mrs. A. M. Lobdell for a week.

—Mrs. Ila Clarke is entertaining her daughters, Mrs. Walter Woods of Brighton, N. J., and Mrs. Reva Thompson of Canisteo at her home on First street. Mr. Woods came Thursday to join the party.

—Miss Martha B. Langworthy of Newport, R. I., visited at the home of Mr. and Mrs. G. H. Beebe, Sunday and Monday. Miss Langworthy left for Buffalo where she intended to visit her brother, who is very ill.

—Mr. and Mrs. Francis Freeman of Haverstraw, N. Y., have been passing the week guests of Miss Drexa Scott. Mrs. Freeman is the daughter of Mr. and Mrs. Archie Monte who were former Andover residents.

—Mr. and Mrs. L. T. Van Wie, daughter Velma, and Dean Hammond were Sunday guests of Mrs. Van Wie's mother, Mrs. Ida Hammond on their way to visit Mr. and Mrs. R. J. Hammond at Odelbert, Iowa, by motor.

—Mr. and Mrs. B. A. Clair, Miss Minnie Clair and Mrs. Proper were calling on Mrs. Laura Bowen at the Kirkpatrick home at Cuba, Tuesday. Mrs. Bowen's many friends in Andover will be pleased to know she is very happy in this ideal home, also greatly improved in health.

—Mr. and Mrs. Neil Sinclair of New York City were week-end guests of her parents, Mr. and Mrs. W. F. Snyder. They were accompanied by Miss Constance Messer of London, England. From Andover the party drove to Cooperstown, where they left little Jack Saunders for a vacation in Camp Fenimore.

—Rev. and Mrs. J. H. Seely were called to Caton, N. Y., Tuesday on account of the sudden death of Miss Helen Herrick, who was stricken suddenly. She was a former member of Rev. Seely's church there and was the daughter of Supervisor and Mrs. Bert Herrick. Mr. and Mrs. Seely assisted in the funeral services.

—Miss Katherine McGinty of Chicago is visiting friends in town this week.

—Mrs. Dan Witter was in Buffalo to pass the week-end with her son, Sheridan Witter.

—Mrs. Maxson and daughter of the Vandermark, are guests of Mr. and Mrs. Mayland Mitchell.

—Mr. and Mrs. H. S. Thorne started, Friday afternoon, by motor, to Pleasantville, to visit relatives.

—Lee Millspaugh and daughters, Jean and Bethel, were guests of his mother, Mrs. Ella Millspaugh at Whitesville, Sunday.

—Mrs. Anna Common of Angelica came to Andover to attend the graduation of her grandson, Robert Common last week.

—Mr. and Mrs. G. H. Beebe and family spent the Fourth and week-end at the home of Mr. and Mrs. Charles Tibbetts of Clyde, N. Y.

—Mrs. Frederick N. Taylor of Plainfield, N. J., is spending a month's vacation with Mr. and Mrs. John Mitchell and Hornell relatives.

—Mr. and Mrs. P. E. Caple and daughter, Eloise, Mr. and Mrs. Aaron Cole and son James of Hornell visited at the home of Mr. and Mrs. Will Bines, Sunday.

—Frank Crandall and Newton Dexter of Elmira visited their mother, Mrs. Clara Crandall, Saturday night and Sunday. In the afternoon Mrs. Crandall accompanied them on a motor trip to Cuba Lake.

—Miss Helen Greene, R.N., supervisor of People's Hospital at Akron, Ohio, and the Misses Graham, Rich and Hauffman, nurses of the hospital motored from Akron last Thursday and spent the week-end at the home of Miss Greene's sister, Mrs. V. C. Sweet and brother, Milton Greene.

—Mr. and Mrs. E. E. Shaf and son were in Olean, Monday.

—Mrs. G. H. Doane of Hornell spent last week at the home of Mrs. John Mitchell.

—Mr. and Mrs. A. A. Porter and Mrs. A. C. Priebey were dinner guests Sunday, at Hornell.

—Miss J. Kasmiak and Walter Smeckl of Depew were Sunday guests of Mr. and Mrs. Charles Hammond.

Alfred People Injured

While driving in a terrific thunder storm near Smethport last week, the car of Will R. Clarke of Alfred skidded on the wet road and went over an embankment. Besides Mr. Clarke and his wife, Miss Adelle Rogers also of Alfred, was in the car. Miss Rogers was the one most seriously injured, one arm and one shoulder being broken. Mrs. Clarke had a broken rib, and Mr. Clarke was quite badly bruised. They are all in the hospital at Bradford.

Ran in Lake

Mrs. Emma Ladd of Wellsville, sister of Wi. N. Rice of this village, met with an auto accident when in company with four other ladies she drove to Keuka Lake last week to attend a picnic of the Methodist Philathea Class held at the cottage of M. W. Reynolds of Wellsville. Mrs. Ladd attempted to pass a truck when her car skidded and went down over the bank into five feet of water. Row boats on the lake came to their assistance. None of the party were injured more than from the impromptu bath and fright.

Bolivar Will Pave Streets

Contracts have been let for the paving of four streets at Bolivar.

W. D. Zeilley of Olean was awarded the contract to pave Olive and Plum streets and Shaner and Railroad avenues. His bid was $55,909.60 as follows: Olive street, $29,444.00; Plum street, $15,560.00; Shane avenue, $3,473.30; Railroad avenue, $7,432.30.

These streets will be paved with reenforced concrete. That on Olive and Plum streets and Shaner avenue will be 20 feet wide, while on Railroad avenue it will be four feet wider.

TABULATES ENERGY STORED BY SUN

Just How Much Power the World Has in Reserve is Shown to be Important, by Expert.

Washington—Eons ago the rays of the sun caused untold energy to be stored in the earth's crust in the form of coal and oil, and now the World Power Conference has undertaken the ambitious task of figuring out how much of it there is.

The conference also seeks to compute the power from waterfalls and hydraulic developments and to act as an exchange for world power information. O. C. Merrill, who has just resigned as secretary of the Federal Power Commission to become head of the American section of the Power Conference, effective July 1, points out that the work of the body affects every housewife who turns on a gas flame, and every apartment owner who turns on a radiator, whether they have ever heard of the conference or whether they ever see a lump of coal from one year's end to the next.

The Power Conference is a "league of nations" devoted to power, in the widest sense being international, since 46 nations participate in it. The discussions transcend every national line, with conferences held in such distant capitals as London, Berne, Tokyo and Berlin. The Berlin meeting takes place in 1930, and is likely to be the greatest power conference ever held. It is largely in anticipation of it that the American section has now secured Mr. Merrill's services, and necessary financial support to guarantee it for a period of five years.

How Much Power Has World?

The wheels of the earth's machinery are driven by power, and the days of closer contact between different nations have made it increasingly important to know how much power there is available. Also, Mr. Merrill explains, the international study of the development and use of power needs a reference and research center; and this need the World Conference fulfills.

Extraordinary things are happening in the power field today. The Bergius process makes it possible to turn coal into oil and gasoline; other noted inventors are experimenting with tidal power and power generated by the difference in temperatures of various levels of water in the sea.

As head of the American Section, Mr. Merrill will speak for his country in distributing latest processes and devices to the rest of the world, and act as a liason officer in introducing new methods into the United States.

Preliminary surveys of the world's power show the United States leads in resources of coal, oil, and water-power. The world figures so far compiled are admittedly only estimates. At the World Power Conference of 1924 it was figured that the total coal reserves of the earth, anthracite, bituminous and "brown" coal, reached 7,397,533,000,000 metric tons. About five-sevenths of this total was in North America. Asia had another seventh and Europe the bulk of the remainder.

Oil resources of the world, Mr. Merrill says, show North America in the lead, but with a far less commanding position. The United States still has the highest volume of oil resources in the world, but is closely followed by southern Russia, southwest Siberia and the Caucasus. The United States has about 16 per cent. of the world's oil supplies; Russia 18½ per cent and northern South America 18 1-3 per cent. Total world supplies are figured at 43,055,000,000 barrels.

Finally there is the world's potential supply of water power. At the 1924 World Power Conference a tentative estimate of global resources was submitted, setting the figure at 188,000,000 kilowatts. America was the center of such developments.

Half a dozen other potential sources of power are being explored, but they are as yet so far removed from utilization that their exploitation remains in the field of Jules Verne romances. There is solar radiation from the sun, for example, which may yet turn the Sahara into a factory site; there is energy from air currents, which H. G. Wells predicted as the future power supply of the earth; there is energy in temperature differences at the ice caps, and at the equator, and finally there is atomic energy.

The World Power Conference does not consider these things for the present. It is more concerned in making the latest developments of coal mining technique available to backward countries, that the trade of the world shall be stimulated and prosperity thereby spread more evenly among nations.

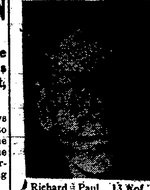
Cheaper Oil Also on the Line

Cheaper power not only means cheaper fuel and electricity bills to the home owner and apartment house dweller, but it means cheaper manufactured goods as well, since the cost of power lies at the base of every factory product. Accordingly, the great international movement of the World Conference, in Mr. Merrill's view, reacts to the benefit of the individuals of the respective countries.

A statement prepared by the American committee says:

"The increased participation of the United States on a broad basis in international affairs; the increased investment interests of this country in foreign electrical developments; the extent to which the products of the American electrical manufacturers are entering into foreign trade; the growing complexity of foreign international organizations dealing with electrical matters, and the desirability of establishing a greater degree of co-operation in international economic relations, all afford a field of unique service for a permanent organization, such as the American sections."

Brave Boy Scout



Richard Paul, 13, of Lincoln, Neb., saved Mrs. Grover Cleveland Alexander, wife of the famous St. Louis pitcher, from drowning in the Platte River.

COUNTY FARM BOYS TO GO INTO CAMP

Farm Bureau Committeemen Arranging the Details of Enrolling the Personnel of the Camp.

At their last meeting, the board of directors of the Allegany County Farm Bureau made arrangements to co-operate with the directors of Camp Shenawana in holding a special encampment for Farm Boys. The camp will be open from August 10th to 15th and will be under the supervision of S. F. Lester, county Y. M. C. A. secretary, and M. E. Thompson, county Farm Bureau manager. Besides giving the boys an opportunity to enjoy camp life with all its swimming and other sports, a regular program in agricultural instruction will be given by Mr. Thompson and members of the staff of the State School of Agriculture at Alfred. Arrangements are being made with J. E. Davis, county forester of Chautauqua county to be with the boys part of one day. Boys will be charged a very limited fee to cover the cost of their food at the camp. This will probably not exceed five or six dollars. Enrollment of the boys will be in charge of Mr. Thompson and will be secured thru farm bureau committemen in all communities of the county, and thru the boys who attended camp last summer. Each community will be limited to a definite quota. Only boys 12 to 16 years of age will be enrolled. Parents may bring boys to the camp during the day Saturday, August 10. On Saturday the boys will be assigned to their tents and leaders will be appointed for each tent. Early Sunday morning an inspection of the camp will be made to familiarize the boys with camp conditions. Short agricultural instruction and a hike to a nearby woodland will occupy an important part of the program for the time while the boys will be in camp. Motion pictures will be shown one evening in the camp lodge. Besides the program in agriculture a regular program of athletics will be conducted including swimming twice daily, baseball, volley ball, tennis and track events. Boys wishing to enroll notify M. E. Thompson, Belmont, or S. F. Lester, care of Camp Shenawana, Belmont, R. D. 4.

Former Andover Pupil Wins Medal

John S. Herrick, grandson of Mrs. A. W. Kaufman and a former pupil of Andover public school, graduated last week from Grammar School No. 38, in Buffalo. He was the winner in the class of 87 pupils of the bronze medal, given each year by the Sons of the American Revolution, to the one who has shown the finest traits of young American manhood. He was also elected treasurer of his class.

POLITICS AT THE NATION'S CAPITOL

Democrats Are Up in Arms Over the Tariff Bill, Organized to Defend the Farmers.

Perhaps nothing more refreshing has come out of the political welter during past months than the decided stand which the Democratic National Committee has recently adopted in opposition to the Hawley Tariff Bill now being considered by the Senate Finance Committee. It cannot be said that the position of the democratic party as a whole toward the bill has been very clear since the beginning of the extra session. The old unyielding opposition to high protectionists with their greedy demands upon the consumers' purse seemed to waver and, in some directions, to give way altogether. There was Democratic congressmen, of course, willing to vote for the bill as a whole with its long list of unnecessary and usually indefensible rates in order to retain the good will of constituents who desired high tariffs on their own products, and their influence greatly weakened the once-united front of Democratic ranks.

From its new headquarters in Washington, the Democratic National Committee has delivered in rapid succession a number of broadsides against high tariffs which leave no doubt as to the national party's stand on Mr. Hawley's little masterpiece of "farm relief." It is that very phrase which seems to have irked most of the Democratic Senators, whose opinions the committee quotes. They refuse to swallow the Republicans' positive statements that the bill is farm relief, and, what is more, they take special pains to point out that the farmers are being relieved of nothing but their money in order to help manufacturing industries. Senator George of Georgia attacked the bill as a whole, as did Senator Connally of Texas. Senator Harrison showed up the absurdities of the domestic sugar producers' claims. All these men are members of the Senate Finance Committee.

So the consumer who looks with fearful anticipation upon the proceedings of Congress can take heart now. And in answer to those who object that the Democratic party is a minority one and relatively powerless, we answer, "What of the Progressive faction among the Republicans?" Those two elements of opposition, with possibly Mr. Hoover, might make quite a crowd.

Cuba's Comic Paper is Tragic About Tariff.

Cuba's predicament where American tariffs are concerned is again portrayed in the Republic's clever weekly paper, "Politica Comica," which plays up in cartoon and story the comic side of national situations. The sprightly little publication, however, is more tragic than its custom when it deals with sugar tariff. A recent issue shows the beautiful island, at any time in its history, with its flag, lying across a railroad track tightly bound to the treatles while a locomotive representing the proposed 2:40 duty comes dashing around a curve toward the victim's destruction.

"Politica Comica" offers a touch of hope, nevertheless, in the form of a huge boulder standing on the track which bids fairly to stop the infernal machine's onslaught. The boulder is labeled "Hoover."

Playing Base Ball

Base ball has taken on a new lease of life in Andover during the past two weeks. The local boys getting together a ball team with Harold Church as manager and Lloyd Clair as captain, which has the promise of a successful future.

Last Sunday they played the state road team on the silk mill diamond, defeating them by a score of 18-0.

Two weeks ago the same teams crossed bats with the road boys winning by a 10-11 score. This shows that with a little practice and the filling of a few weak spots in the line-up, that Andover can again appear on the base ball map.

You don't have to see "Babe Ruth" for batting thrills, as one man had a home-run, a three base hit and a two base hit to his credit in last week's game.

The management is in communication with another team in this vicinity for a game next Sunday.

Mrs. Trowbridge At Hospital

Mrs. Lee Trowbridge is at Jones Memorial hospital, Wellsville, where she underwent an operation for gall stones last week. The News is pleased to report that at this writing her condition is considered favorable.

FARM BOARD TO FUNCTION EARLY

Hoover Has Board Nearly Complete, Members to Meet July 15, to be Ready by Fall.

Washington. — President Hoover made it known before he left Washington for a two-day stay at his Virginia camp that he is desirous of having the Farm Board completed and at work in time to help the farmers and co-operatives in the marketing of crops this fall.

He has called those so far chosen to meet on July 15 with Alexander Legge as chairman and James C. Stone as vice-chairman. It is expected that the other three members will have been named by that time. The Secretary of Agriculture is a member ex-officio.

The President has not found it easy to obtain men of the caliber desired for the Farm Board. Charles C. Teague, one of the members selected, refused to serve at first, but was induced to reconsider his decision. A. B. Moscrip of Minnesota has not reconsidered his declination based on the grounds that his farms require too much of his personal attention to warrant his leaving at this time.

William F. Schelling of the same state is being urged for the place and is conferring with Secretary Hyde, who is in Michigan.

L. W. Baldwin, president of the Missouri Pacific Railroad, following a conference with the President, said that the appointing of a farm board had already had a splendid effect upon the farmers who are counting upon the results of beneficial legislation.

It was announced at the White House that the Administration had decided to enlarge its public building program, which was already an elaborate one, utilizing a triangle bordering Pennsylvania Avenue. The President will ask Congress to make an additional authorization of $25,000,000 to spread over a ten-year period, which will give $2,500,000 additional each year for the building program which would be completed at the end of ten years, according to expectation.

Congress had authorized $50,000,000 for the purchase of land and the erection of certain buildings. The additional $25,000,000 is needed for justice, labor and independent buildings.

ALLEGANY OIL FIELD IS BUSY

More Than Fifty Strings of Tools Are at Work in This Oil Field.—Flood Drilling.

The Allegany oil field in New York state at the present time is very active, probably more so than ever before in its history. This fact is well illustrated by the production statistics for the Allegany field which were given previously in articles on the development in what was known in the early days as the northern fields.

More than 50 strings of tools are now in operation in the Allegany field and as a consequence both the number of completions and the gross production of the field are on the up-grade. The same methods are employed in Bradford are being used and five spotting finds favor across the state boundary line.

Probably the biggest operator at the present time is the Hazelwood which has a program of 116 wells to be put down on the five spot plan at Allentown. The Penn Petroleum Co., of Olean has been buying property in the Allegany field but does not intend to start on any intensive work this year, according to reports. The Empire Gas Co., Bradley interests, also have quite a campaign under way.

Oil production in virtually all the major fields of the United States increased during the week ending June 29th.

The Daily Oil & Gas Journal estimated that the total daily average output for the nation was 2,828,222 barrels, an increase of 38,093 barrels over the previous week.

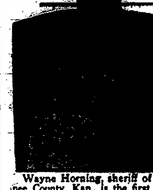
Roberts — Hughes

Married, at the Methodist church parsonage on July 3rd, by the Rev. Walter Dynes, David W. Hughes of 817 Eymon street, and Miss Doris Roberts of 54 Washington street, Scranton, Pa.

Joseph Gurdini of Scranton and Miss Margaret Wiesman assisted the happy couple in starting their new home.

After the sermon Mr. and Mrs. Hughes returned at once to Scranton by motor, where they will reside.

Up to Date Sheriff



Wayne Horning, sheriff of Shawnee County, Kan., is the first Sheriff in the U. S. to have an airplane as part of his regular equipment in running down law violators.

FATHER TRACY IS GRANTED VACATION

Former Andover Priest is Planning a European Trip and Visit to His Old Home.

The Very Rev. P. C. Tracy, the faithful priest of Immaculate Conception church of Wellsville, is arranging for a well earned vacation. The Rev. Father made an announcement at the masses at his church Sunday that the Bishop had granted him a two months' vacation. It is his intention to take a European trip and he will also visit his old home in Ireland, which he left 21 years ago. This will be his first visit to the old home he has made during the long term of years intervening and it will afford him a most delightful vacation. The Rev. Father will leave for New York City the latter part of this week and will sail from there Saturday for his point of destination.

His large number of friends both in the church and parish will wish him bon voyage, a pleasant trip and a safe return.

Father Gallagher, the assistant priest, will be in charge of the church and community during the absence of the Very Rev. P. C. Tracy.—Reporter.

BOOTLEGGERS HIT BY BORDER WAR

U. S. Enforcement Officials' Strenuous Work on Canadian Border Shows Successful Accomplishments.

Washington, July 9.—The treasury's war upon bootleggers who import liquor into the United States from Canada in the month of June cut the amount of alcoholic beverages exported from the Windsor, Ontario area by 357,155 gallons.

Figures showed that in the year ending last May 31, more than 5,000,000 gallons of alcoholic beverages had been exported from points opposite Detroit into this country, and scores of prohibition, coast guard and customs agents were sent into the region with orders to stop the smuggling.

The first definite indication of how effective the rum blockade had become was received yesterday by the treasury from the Canadian collector of national revenues at Ottawa, who reported that exportations of liquor in the Windsor area last month totaled 112,378 gallons. The statement also showed that in June, 1928, the exportations amounted to 470,033 gallons.

Figures made public for the preceding year by the Department of Justice showed that Canada exported 1,169,000 gallons of whiskey valued at $18,883,541 to this country, and that exportation of other alcoholic beverages to the United States brought the value of such liquors to a total of $24,391,926.

Hardy — Atterberg

Announcements are being received in town of the marriage, Saturday last, of Robert Burdette Hardy, son of Dr. and Mrs. W. J. Hardy of this village to Miss Clara Amelia, daughter of Mr. and Mrs. Andrew P. Atterberg of Cato, N. Y.

Mr. and Mrs. Hardy are both engaged in educational work, the former having been principal of the school at Cato, N. Y., and the latter at Mereden, N. Y., the past year.

Mr. and Mrs. Hardy will be at home, after September 1st, at Andover, N. Y., where he has been engaged as principal of the Andover High School for the coming year.—Belmont Dispatch.

Edison Contestant Chosen

Louis Delafleur of Utica is to represent New York State in the Edison scholarship contest.

FUEL TAX MEETS EXPECTATIONS

Nearly $2,100,000 Has Been Taken in by State for Gas Tax for the Month of May.

Albany.—New York's motor fuel tax came up to expectations in its first month and as a result the sum of $1,388,610.73 is available for distribution to the state, the City of New York and the 57 other counties of the state, according to the certification by Thomas M. Lynch, state tax commissioner. To date nearly $2,100,000 has been taken in by the state for the tax collections for the month of May and payable by July 1, but on the day of the certification about $1,500,000 had been collected. Estimates of tax experts placed the motor fuel tax yield at about $24,000,000 a year and the first month's payments bear out this estimate. The amount collected in the first month exceeds that collected in six months in a number of states where the motor fuel tax is in effect.

The state will receive $1,041,458.-05 as its share of the first month's collection, the City of New York will get $69,430.53 and the sum of $277,722.15 is distributed among the counties, each of these counties receiving a sum based on the ratio that the total mileage of public highways in each county, outside of cities and incorporated villages, not including state and county highways, bears to the total mileage of public highways in the state, outside of cities and incorporated villages and not including state and county highways. The official maps show a total of 70,606 miles of such highways in the counties of the state and the distribution is at the rate of slightly over $3.93 a mile.

The motor fuel tax requires that a fund of $50,000 be kept at all times for the payment of refunds. Before the 10th of each month 75 per cent. of the remainder of the collection is paid into the state treasury and this shall be appropriated and used for the construction, maintenance and repair of highways and bridges of the state, so that eventually the money the state receives under this new tax finds its way back to the counties, altho, of course, in another form.

Of the remainder collected, the City of New York gets 20 per cent. and the counties the 80 per cent., and this is to be distributed quarterly. The money given to New York City goes to the general fund for the reduction of taxes, and that going to the counties is to be used for the permanent construction, maintenance or improvement of town or county highways.

The amount collected in one month in this state, and the first month of the so-called gasoline tax, compares most favorably with the collections for an entire year in some of the states. The last available figures for all other states in the union are for the first six months of 1928 and the moneys collected in this state last month equal or exceed the total collected in six months in Arizona, Colorado, Connecticut, Delaware, Idaho, Illinois, Louisiana, Maine, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Dakota, Oregon, Rhode Island, South Dakota, Tennessee, Utah, Vermont, Washington, West Virginia or Wyoming. In a number of these states the levy is higher than the two cents imposed on the fuel in New York.

Cochrane — Potter

Wayland, July 2.—The marriage of Miss Ida Maretta Cochrane, daughter of Mr. and Mrs. William Cochrane of Wayland and Royal J. Potter of Rochester, son of Mr. and Mrs. Samuel Potter of Springwater, took place Saturday at First Evangelical church. Rev. C. Arthur performed the ceremony. They were attended by Mrs. Margaret M. Johnson, sister of the bride, and Samuel Potter, Jr., brother of the groom.

The bride wore a salmon pink gown of georgette and carried a bouquet of white roses and maiden hair fern. The matron of honor wore a pea-green dress of georgette and carried a bouquet of snapdragons.

Immediately following the ceremony, dinner was served in the church dining room where covers were laid for about 40 relatives and friends, the table decorations of pink and white carrying out the color scheme.

Mr. and Mrs. W. H. Cochrane were former Andover people.

Mrs. Homer Stearns

Mrs. Homer Stearns died Wednesday at her home in East Valley. Funeral services will be held this (Friday) afternoon at the home.
