OF INTEREST TO FARMERS

PLANS HELP TO FILL THE CANS

Prevent Running Out of Good Things or Over-Supply of Foods of Which Family is Tired.

Now is the time to make your canning budget, suggests the New York State College of Home Economics to homemakers who plan to put up fruits and vegetables this year. Haphazard canning may mean empty shelves in the fruit closet before spring next year or an over-supply of one or two products of which the family is tired. A carefully planned budget insures an adequate stock and plenty of variety the year around.

For good health, at least two servings of vegetables other than potatoes, and two fruits should be included in the diet each day. This means 730 servings of vegetables and 730 servings of fruit yearly. Greens are suggested four times a week and fresh fruit and vegetables daily because of their mineral and vitamin content.

Plan for Eight Months

Plan the amounts to be canned and stored on an eight-month basis since fresh vegetables and fruits may be used during the other four months. The amount of food to be canned depends on the size of the family. The quantity of each different food may be estimated from the number of servings needed by each individual. A pound of greens or cabbage provides four servings while a pound of other vegetables gives only two servings. A quart gives eight servings of vegetables gives eight servings of vegetables and six servings of fruit. Children's servings are somewhat smaller.

Budget for Adult

To make a budget on this basis, allow for each adult nine quarts of spinach or other green leafy vegetables, four quarts of green peas and green lima beans, three quarts of corn, five quarts of string beans, fifteen quarts of tomatoes and thirty-five quarts of canned fruit of different varieties. Such stored food as cabbage, carrots, potatoes, onions, turnips, beets, squash and celery, apples and dried fruit supplement the canned vegetables. Oranges and grapefruit may be substituted for some of the canned tomatoes.

A canning budget prepared by nutrition specialists at the college will be sent on request.

FREQUENT SPRAYING INCREASES POTATO YIELD

Two factors are important in combating potato disease and insect enemies. The use of disease free, "certified" seed prevents the planting of seed already infected with disease sores, while frequent spraying during the growing season prevents injury from insects and disease which attack the growing plant.

The standard practice of 300 and 400-bushel potato club winners is to spray at least seven or eight times with spray material applied under high pressure, while many record holders spray as often as 12 or 15 times. Proper spraying methods are frequently responsible for doubling the potato yield, compared with no spraying or light applications.

FEED COWS GRAIN WHILE ON PASTURE

Keeps up Milk Flow for Fall Production — at Least Four Pounds a Day Recommended.

The better dairyman knows that it pays to feed his cow in the summer as well as in winter, says G. W. Tailby Jr. of the New York state college of agriculture. For the past ten years dairymen in all parts of New York State have been feeding their cows better in the summer.

As an example of results from record-keeping and better feeding, Mr. Tailby spoke of a dairyman in Oswego County who, five years ago had 16 cows which produced 5335 pounds of milk with 174 pounds of butter fat; the next year 17 cows produced 6843 pounds of milk with 233.5 pounds butter fat; the third year 13 cows produced 5777 pounds of milk with 197.4 pounds of butter fat; and the fourth ear 14 cows produced 9579 pounds of milk with 318 pounds of butter fat.

During the first summer the cows were fed no grain during June or July and only four pounds a cow a day during August. During the fourth summer, the cows received an average of four pounds a day, and were fed somewhat according to production, altho they were still underfed. The 9579 pounds average for the fourth year, was at least partly due to better summer feeding.

One dairy herd improvement association member said recently: "I find that it pays to keep the cows in the barn until June 1. Then the grass has a good start and has some substance in it. My cows have good pasture for June, but I continue to give them a little grain, about four pounds a day. Soon after July 1 I begin to cut green alfalfa for them and also increase the grain. This holds up the milk flow and keeps the cows in condition for next fall."

Around Our House

LITTLE-USED TOOLS

Some household tools are less frequently used than they should be. Their use helps to make light work of summer housekeeping, according to the New York State College of home economics.

The attachments to the vacuum cleaner are apt to be slighted. In many homes where the cleaners are used regularly from the day they are purchased, these small additional devices, so conveient for doing many odd jobs, are put away and forgotten. Many housewives continue using the old-fashioned difficult methods in the cleaning jobs for which these attachments are especially adapted. These tools make short and easy work of such troublesome tasks, such as cleaning over-stuffed furniture and mattresses, the inside of the piano and books in the open bookcase. Fluffing pillows is another job which may be done with one of these vacuum attachments. Pillows may be cleaned and aerated by this method in any sort of weather.

A new electric machine that reknits runs in silk stockings can repair a run the entire length of a stocking in about two minutes.

"WE LIKE TO VISIT THE CITY—BUT—"

In a huge parade of 4-H Club boys and girls not long ago, one of the member groups carried an immense banner on which were painted these words: "We Like to Visit the City—But the Farm is the Place to Live."

This is the new spirit of farm youth trained in modern and progressive agriculture. Farm boys and girls enrolled in present day 4-H Clubs, Smith-Hughes schools and other similar projects have the opportunity to learn thru study and practice many valuable lessons in agriculture which were unheard of in the youth of their fathers and mothers, grandfathers and grandmothers. Club work and Smith-Hughes projects give farm youth responsibility and experience. Both create an interest in better agriculture and a love for the farm.

It is true that not all club members will stay on the farm, but about 80 per cent. of them have that intention. Modern transportation facilities have brought the city closer to them whenever they wish to visit it. As the farm home becomes more modern, equipped with running water, electric lights and other conveniences formerly limited to urban communities, the lure of city life becomes dimmed. Better living and modern methods encourage club members in their selection of farming as a life work.

About 650,000 boys and girls are enrolled in 4-H Clubs alone. These members own 175,000 head of livestock and 1,000,000 chickens. The value of their property totals $12,000,000. Organizations of this kind promise to play a tremendous part in the future of agriculture.

SAVE THE LEAVES FOR HIGH QUALITY HAY

The percentage of leaves in legume hay such as alfalfa very largely determines the quality and feeding value of the roughage. This means that the most modern methods of making hay should be followed in order to accomplish this result, and at the same time reduce the labor demands of hay making. Numerous tests show that the best method with clover, alfalfa and similar crops is to cure the hay in a windrow. The side delivery rake is used to rake the hay into light airy windrows a few hours after it is cut and before the leaves have dried out sufficiently to shatter and fall on the ground. Windrows made by the side delivery contain the leafy tops in the center of the windrow, while the heavier, slower drying stems are on the outside, exposed to the sun. This enables the entire plant to dry evenly and prevents loss of the leaves. The hay is easily loaded from the windrow by means of a hay loader.

GOOD PLOWING IS "LOST ART"

Much of the plowing being done on the modern farm is done in a hasty and careless manner. This is in spite of the great improvement in farm machinery during the past few years, and indicates a lack of proper care or knowledge of plow adjustment on the part of the operator. There are fewer possibilities of failure to do good work with a tractor plow than with a horse-drawn plow, engineers say.

MOWING ATTACHMENT FOR TRACTORS

With the development of the general purpose tractor adaptable to all farm power tasks, has come high capacity tractor mowers and mowing attachments. Most of these mowers are of seven foot cut and this extra width, combined with the higher speed of the tractor, enables the operator to double the acreage cut per day. The mowers are usually operated by a power take-off from the tractor.

SILAGE FED CATTLE PROVE MOST PROFITABLE

A cattle feeding experiment recently concluded at the Kansas experimental station, illustrates the comparative value of dry fodder, chopped fodder and silage.

In tests with 100 head of stock cattle carried thru the winter, ground kafir fodder was found to be worth $11.68 more per acre than whole kafir fodder. Since the cost of grinding amounted to $1.68 per acre, the net profit from grinding was $10.00 per acre.

When kafir fodder was put in the silo and fed as silage, the returns per acre were $29.82 greater than from whole, dry fodder. The cost of cutting the ensilage was 40 cents per acre (after the feed was delivered to the cutter) which left a profit of $29.42 per acre in favor of silage over whole fodder.

These results indicate that feeding farm roughage to beef cattle in the form of silage is a highly profitable practice and that where it is impossible to use a silo, grinding the dry roughage increases the returns per acre. Kafir silage is similar to corn silage in feeding value.

MULTIPLE HITCH SAVES COST OF EXTRA DRIVER

Should Make Efficient Use of Horses on Farm—Two or Three Single Teams are Costly.

Learn to make efficient use of the horses on your farm. A team of horses accomplishes more today than a team did a generation ago; this is due to the perfection of mechanical equipment rather than to better methods of hitching.

A farmer who sends into his field two or three single teams each day with a driver behind them cannot expect to prepare his fields at the lowest cost under the present wage conditions. The multiple hitch system of driving takes the place of costly man labor. It provides a team of four, five, six or more horses to an implement, to be driven with a single pair of lines. This cuts down the man-labor cost of preparing fields and at the same time enables a farmer to keep all his horses busy.

Mr. Rhoad tells of a farm in Cayuga county where the farmer was plowing a 60-acre field with a tractor while he had five horses idle in the stable. With a few pieces of timber and some rope, Mr. Rhoad made a five-horse hitch which the farmer immediately put to use, hitched to his tractor harrows. The hired man went over the field with this while the farmer continued to plow.

On many farms in New York a farmer man save time and labor if he works his horses efficiently. Information about the hitches may be obtained from the animal husbandry department of the New York State College of Agriculture at Ithaca.

PRODUCT OF GENERAL MOTORS

PONTIAC SIXES

The "fifth wheel," an accurate speed measuring device, has proved that Pontiac has the highest top speed and the fastest acceleration possible in any low-priced six. As for power, Pontiac is the most powerful of all low-priced sixes, a fact which can be proved by the dynamometer, a scientist's measuring stick for brake horsepower.

CHIEF OF THE SIXES

Try to match these Big Car features offered at no increase in price—

Big Car engine. . .

Big Car lubricating system. . . .

Big Car brakes

Big Car fuel feed

Big Car cooling system

And many other Big Car advancements

$745 *f. o. b. Pontiac, Michigan*

FIVE-PASSENGER 2-DOOR SEDAN. BODY BY FISHER

In spite of the fact that its offers every desirable big car quality and is not available in a wide variety of colors—the Pontiac Big Six continues to sell at no increase in prices. Small down payment. Easy monthly terms.

Pontiac Big Six, $745 to $895, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and Lovejoy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values . . . Oakland-Pontiac delivered prices include only reasonable charges for handling and for financing when the Time Payment Plan is used.

Going At the Bully in the Regular Old-Time Fashion — *By Albert T. Reid*

Correspondence

South Hill

July 10.—Very heavy rain in this section Wednesday a. m., approaching a cloud burst in volume of water that fell.

Mr. and Mrs. A. Dougherty, Mrs. Howard Dean and our "Fresh Air" girls were Wellsville visitors on the Fourth.

Mrs. Catherine Dean and family with their guests, Mr. and Mrs. Garvin and sons of Pittsburg, enjoyed a Fourth of July picnic at Cuba Lake.

The Misses Nell Horan and Mora McAndrew, Mrs. John Wahl and Mrs. Dan Appier of Andover spent Friday p. m. with May and Lenora Dean, also called on Mrs. Leo Horan.

Miss Mary Dean, R.N., returned to her work at Ithaca, Saturday morning. She was accompanied by her sister, Lenora, who will take a summer school course at Cornell.

E. J. Atwood of Andover was a recent visitor on the hill.

Mrs. Kate O'Leary, two sons and daughter of Sugar Grove, Ohio, who were visiting Andover relatives, were guests of her nephew, Anthony Dougherty and family, Saturday.

C. Cronk was in Wellsville, Sunday, visiting Mrs. Cronk at the hospital.

Mr. Schoonover and family spent Sunday with out of town relatives.

Mr. and Mrs. Howard Dean and little daughter spent Sunday evening at her home in Wellsville.

Mr. and Mrs. Bosell of Wellsville were calling on Mr. and Mrs. Dougherty, Sunday evening.

M. T. Garvin and family left Monday morning for their home in Pittsburg, after an enjoyable week's vacation with relatives and friends of the told home town.

The time spraying gentleman with his apparatus quickly put a clean coating on some dairy barns in this neighborhood Tuesday.

Is it not time some move was made in repairing our telephone system? It is certainly in a deplorable condition and the work is up to the patrons, if we have any service, so why wait longer for some good Samaritan to do the act. In case of illness, accident or fire, chances are we could not communicate with our neighbors especially at night, and the worst would happen before we could get in touch with the outside world. There are 12 or 13 patrons all desirous of good service, and we suggest they turn out some damp day next week before haying begins, and make our telephones useful as well as ornamental. We hope this suggestion will be acted upon in the spirit it is given, that we may have no cause to regret our "bum" telephone line in possible time of urgent need.

Independence

Raymond Turck of Alfred is spending a week with S. B. Crandall.

Mrs. Benjamin R. Crandall of San Luis, Obisto, California, is a guest for a week of Mrs. Nora Crandall and relatives.

Mr. and Mrs. R. E. Spicer entertained the Fish family reunion Sunday.

This church, united with the Andover church and held their morning service in Andover.

A few attended the ordination of deacons at Nile in the afternoon.

The Daily Vacation Bible School opened Monday, at the Parish House Rev. and Mrs. W. L. Greene, Miss Minnie Clair and Elrene Crandall, instructors.

Miss Jane Crandall of Alfred is visiting Miss Mary Etta Spicer.

Mrs. M. Ghostley and Adelbert O'Dell were in Wellsville, Tuesday.

A large company attended the Fourth of July Community Picnic.

Cleon Pease of Greenwood is spending a few days with his grand parents, Mr. and Mrs. W. J. Potter.

Miss Ella Lewis has been spending a week with relatives in Elmira.

Miss Clarke of Whitesville is spending a few days with her aunt, Mrs. Charles Clarke.

Mr. and Mrs. Floyd Clarke and Decator were in Belmont on business, Tuesday.

Mr. and Mrs. W. D. Clarke and Hilda and Mrs. Maud Clarke returned from Darlington, Pa., Tuesday, where they had been guests of Mr. and Mrs. A. W. Whitford.

Mr. and Mrs. L. A. Potter and children and O. A. Potter attended a funeral at Dansville, Saturday.

Mr. and Mrs. Pat. Barrett entertained company from St. Mary's, Pa., Thursday.

Mr. and Mrs. M. A. Crandall are spending a few days with their daughter, Mrs. Floyd Clarke and family.

Davis Hill

July 3.—Mr. and Mrs. Leeman Davis, Mr. and Mrs. LeRoy Davis, Mrs. L. E. Davis, Mr. and Mrs. Fred Halsey were in Hornell, Saturday, to see the I. O. O. F. parade.

Mr. and Mrs. Arling Briggs and family, Mr. and Mrs. Frank Slocum of Shongo, Mr. and Mrs. Frank Halsey, Mr. and Mrs. Floyd Slocum and Kathleen enjoyed a picnic dinner at Shady Glen, Sunday.

Mr. and Mrs. Leo Davis and family were in Whitesville Thursday evening, Mrs. Otis Butler, sister of Mrs. Davis, returning with them for a few days' visit.

Mr. and Mrs. L. E. Davis, Mr. and Mrs. Leo Davis and family, Mr. and Mrs. Otis Butler and son and Mr. and Mrs. Frank Davis motored to Rochester, Sunday, and had a picnic dinner, guests of Mr. and Mrs. U. V. Davis, visiting the summer resorts and parks. All report a very enjoyable day.

Mr. and Mrs. Leeman Davis were in Wellsville, Tuesday, on business.

Mr. and Mrs. LeRoy Davis, Mr. and Mrs. Leeman Davis, Mr. and Mrs. Bert Halsey and children, Mr. and Mrs. E. Carson and Clarence had a picnic dinner at Loon Lake, Sunday.

Miss Laura Grossman was a visitor of Mrs. Frank Halsey and Mrs. Glen Halsey, Tuesday and Wednesday.

Mr. and Mrs. Arling Briggs and family visited at Floyd Slocum's, Sunday evening.

Mr. and Mrs. Clifford Montgomery and sons of Hornell visited at Arling Briggs', Tuesday.

Mr. and Mrs. Glen Halsey and children visited in Andover, Sunday.

Glen Amesbury is tool dressing at Allentown.

Mrs. Ed. Earley is visiting her daughter at Fairport this week.

The Burdick reunion was held at the home of Leo Davis, Saturday. There were about 40 in attendance from Rochester, Genesee, Port Allegany, Hartsville, Canisteo, Elm Valley and Andover. A fine dinner was served about noon, after which the afternoon was spent in games and sports. The following officers were elected for next year: Mrs. Mabel Davis, president; Mrs. Erma Goodnoe, secretary; Mrs. Jennie Carr, treasurer. They voted to have their next reunion at the home of Orville Howland the last Saturday in June, 1930.

Mr. and Mrs. Floyd Slocum and Mrs. Frank Halsey visited Mr. and Mrs. Barney Schriener of Wellsville, Saturday evening.

Mr. and Mrs. George Lewis of Whitesville visited at Leo and L. E. Davis', Tuesday.

July 10.—Mrs. Anna Young and children of Rochester are visiting her brother and family, Mr. and Mrs. Glen Amesbury this week.

Damon Amesbury and Raymond Amesbury of Rochester were recent guests of their brother, Glenn Amesbury.

Mr. and Mrs. Ed. Briggs of Himrods have been guests of relatives on the hill last week.

Mr. and Mrs. U. V. Davis and son of Rochester were visitors of their parents and brother, Thursday also attended the picnic held in the Livermore woods the Fourth.

Mr. and Mrs. Otis Butler and son of Genesee, and Mr. and Mrs. Ed. Briggs of Himrods were among the guests to attend the Fourth of July picnic.

Mrs. Mabel Halsey visited her mother, Mrs. Lee Trowbridge at the Jones Memorial hospital in Wellsville, Monday. Mrs. Trowbridge's many friends on the hill are glad to know she is slowly gaining from her recent operation for gall stones.

Mr. and Mrs. Glenn Halsey and children, Mr. and Mrs. Lawrence Ordway and sons, Frank Halsey, Mr. and Mrs. Fred Halsey and Charles attended a family reunion held at the home of Bob Chandler of Petrolia, Sunday.

Mr. and Mrs. Arling Briggs and family, Mr. and Mrs. L. E. Davis, Mr. and Mrs. Ed. Briggs, Mr. and Mrs. Leo Davis and family attended the funeral of Albert Briggs of Fulmer Valley, Sunday.

Mr. and Mrs. Leeman Davis and Mrs. LeRoy Davis enjoyed a trip to Portage and Caneadea Dam, Sunday.

Ames Rogers of Andover was a supper guest of Mr. and Mrs. Fred Slocum, Tuesday.

Mrs. Laura Holbert of Almond was a guest, Wednesday night and Thursday at Floyd Slocum's and attended the picnic with them Thursday.

About 60 friends and neighbors met at the home of Leeman Davis the evening of the Fourth and enjoyed a dance and lunch.

Mr. and Mrs. Clyde Slocum and son, Mr. and Mrs. Leslie Cronk, brother of Mrs. Slocum, of Trumansburg passed Saturday and Sunday at the home of Floyd Slocum.

Mr. and Mrs. Barney Schriener and son, Billy, of Wellsville, were visitors at Floyd Slocum's Monday evening, also visited Mr. and Mrs. L. E. Davis.

Mr. and Mrs. Ed. Briggs, Leo Davis and children and Mrs. L. E. Davis were callers at Floyd Slocum's, Friday.

Miss Maxine Davis and Kathleen Slocum are attending Bible Study at Independence this week.

Mr. and Mrs. Fred Halsey, visited at Mrs. Halsey's home in Hartsville, Wednesday evening. Mrs. Halsey's brother returning with them to attend the picnic.

Greenwood

(Too late for last week)

Mr. and Mrs. Howard Scribner and two sons of Wellsville visited their parents, Mr. and Mrs. George Caffery on West Hill, Sunday.

Mr. and Mrs. Porter Stephens of Buffalo are visiting Mr. and Mrs. Dever Stephens.

Miss Mae Whitmore called on Miss Agnes McCaffery, Monday night.

Lloyd Norton and Harold Jack of Canisteo called on friends in town Tuesday morning.

Albert Caffery, Reges and Ceril McCormick called on Mr. and Mrs. A. L. Trowbridge, Sunday evening.

Mr. and Mrs. Raymond Fulkert of Trenton, N. J., is visiting her parents, Mr. and Mrs. Monroe Tyler.

Miss Bernice Rogers spent Friday afternoon with Miss Agnes McCaffery.

Bernice Rogers is visiting her aunt, Mrs. Ross Woodworth in Coby Creek.

Mrs. George Bankes and daughter, Isabelle, of Canisteo, were callers in town, Tuesday.

Erwin Whitmore of Andover was a caller in town, Tuesday afternoon.

George and Leo Williamson are spending the week with their aunt, Belle Bennett at Young Hickory.

Mr. and Mrs. Glenn VanFleet and two children of Canisteo called on Mrs. Jennie Williamson, Sunday evening.

Mr. and Mrs. Thomas Young of Rough and Ready were callers in town, Saturday evening.

Mr. and Mrs. John Faulkert and daughter, Eleanor, of Trenton, N. J., are spending a few days with Mr. and Mrs. A. B. Karlen.

Mat Brundage and family and Mr. and Mrs. A. L. Trowbridge and two grandchildren, Stewart and Agnes McCaffery spent Sunday at Loon Lake.

Mrs. Hazel Quillians and son Billy, Leona Updyke and Mrs. Harry Collings of Syracuse are visiting their parents, Mr. and Mrs. Frank Updyke on the Andover road.

Mr. and Mrs. John Rogers, Jr., and two daughters visited Mr. and Mrs. Ross Woodworth in Coby Creek, Sunday.

Mr. and Mrs. Das Drake and children and Mr. and Mrs. Guy Drake and children passed Sunday with her mother, Mrs. Addie Swet on Bush Hill, Sunday.

Mr. and Mrs. Gussie O'Dell called on Mr. and Mrs. Guy Drake, Monday evening.

Mrs. Peter Rollins is visiting her daughter, Mrs. Ernest Jeffers in Canisteo.

Mr. and Mrs. H. C. McCaffery and family of Milwaukee, called on their parents, Mr. and Mrs. L. Trowbridge.

Mr. and Mrs. Bernard Murray and grandson, Rodney Murray spent the week-end with Mr. and Mrs. H. C. Caffery in Milwaukee.

Stewart Caffery and Miss Cleon Travis of Canisteo visited Mr. and Mrs. A. L. Trowbridge, Sunday.

Mr. and Mrs. George Stephens returned home, Saturday night, from Akron, Mich., after spending three months with their daughter and husband, Mr. and Mrs. Bud Frant. Mrs. Frant and daughter, Anna, returned home with them for a two week's visit with relatives and friends.

Mr. and Mrs. Clifford Caffery and daughter of West Hill called on Mr. and Mrs. Ross Woodworth in Coby Creek, Sunday afternoon.

Mr. and Mrs. A. L. Trowbridge and two grand children, Stewart and Agnes Caffery and Miss Cleone Travis were in Whitesville, Sunday afternoon.

Mr. and Mrs. Joe Atkins and Mr. and Mrs. Archie Stephens and children, Anna Frant, Mr. and Mrs. Merritt Atkins, Mrs. Nora Amon and children and Milford and Ida Butler visited Mr. and Mrs. Sam Pease in Coudersport, Pa., Sunday.

Mr. and Mrs. John McCormick and Mrs. A. L. Trowbridge attended the funeral of Fred McMindes on Bush Hill, Saturday.

Mr. and Mrs. Tom Taylor and two children of Canisteo passed Sunday with Mr. and Mrs. John Rogers, Jr.

Mr. and Mrs. Owen Dennison and Mate Rogers of West Hill visited Belle Bennett at Young Hickory.

Mr. and Mrs. Ross Woodworth in Coby Creek, Sunday.

Mr. and Mrs. Lester York and two sons and daughter of West Hill visited Knox Miller and daughter, Sunday.

Mr. and Mrs. Omer Cornish and two daughters of Canisteo called on Mr. and Mrs. Ordo Williamson, Sunday.

Mrs. A. L. Trowbridge and Mrs. Avis Young called on Mrs. A. L. Trowbridge Monday afternoon.

Mrs. Anna Burton of Franklinville is visiting Mr. and Mrs. Dever Stephens and other relatives.

Mrs. Dever Stephens and Mrs. Clarence Stephens also Mrs. Anna Burton called on Mrs. Olive Stephens Monday afternoon.

Mrs. Lottie Woodward of Syracuse is visiting her sister, Mrs. Frank Watkins.

Mrs. Trent of Akron, Mich., spent Monday with Miss Agnes McCaffery.

Mrs. Laura Trent of Akron, Mich., and Mrs. Archie Stephens were callers in Hornell, Tuesday.

Mrs. Alton White and Mrs. Ella White were business callers in Canisteo, Saturday.

Barney Mills

July 8.—Mr. and Mrs. John W. Edwards returned Tuesday P. M., from their wedding trip.

Mr. and Mrs. Cady of this place entertained relatives from Westfield, Pa., over the week-end.

Mr. and Mrs. Charles Tracy left Sunday a. m. to visit relatives in Chatham, Windsor, Blenheim, Maplin and Leamington, Ontario, Canada.

Mrs. Milan Barney and Miss Emily Barney were business shoppers in Hornell on Saturday.

Little Elizabeth Frost, recently spent several days with her aunt, Mrs. Flay Pease.

Mrs. Will Pease and sons and Miss M. McCullan were callers at C. Tracy's on Monday night.

BRIEF BUSINESS BRINCERS

FOR SALE

FOR SALE—One wood heater, three beds with springs, one cot, one rocker, leather upholstery; one table.—Mrs. Floyd Hann.

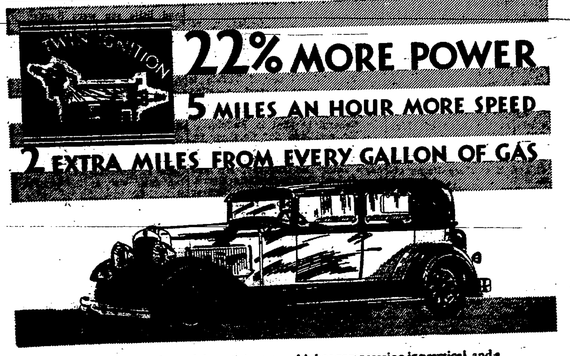
Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all soreness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleasant to take. Get the genuine.

PHILLIPS MILK of Magnesia



UNTIL you have driven the new Nash "400" with the Twin Ignition motor, you can have no adequate idea of how much pleasure it has added to motoring.

Here are some plain, unvarnished facts and figures which may serve to convince you that you owe yourself a ride in a Twin-Ignition-Motored Nash.

With Twin Ignition instead of single ignition (two spark plugs per cylinder firing simultaneously, instead of one) higher compression is practical, and a much more efficient combustion of the gases is accomplished.

The result is that the identical Nash motor, by actual test, produces 22% more power than with single ignition, 5 miles per hour more speed, and gives you 2 extra miles of travel from every single gallon of gasoline you buy.

In fairness to yourself, don't think of buying any motor car today, until you have seen and driven the brilliant new Twin-Ignition-Motored Nash "400."

THE NEW NASH "400"
LEADS THE WORLD IN MOTOR CAR VALUE
