Andover High School TIDBITS

Miss Holden, the Seventh Grade teacher, had charge of the assembly last Friday, the 16th. A comedy entitled "Our Gang," was presented amid many laughs and applauses, by Donald Joyce, Virginia Smith, Richard Wittie, Mary McAndrew, John Regan, Gertrude Dean and Edwin Alderson.

Next on the program was a conversation between two old farmers, Elmer and Elias, in which Joseph McAndrew and Donald Lynch played their parts respectively.

The "Follies of 1930," we should say about 1903, was next in order, in which nearly all the girls had a part. One of the outstanding attractions of the assembly was a clever bit of acrobatics, performed by Miss Helen Pope. Very good, we say.

Some popular nursery rhymes only in a "College Professor's" language. Other various dialogues were given which were very amusing.

Last of all a chorus was sung by the entire cast, entitled, "Those Wedding Bells."

Miss Holden is to be congratulated on her splendid "coaching" and directing of her pupils in this program. After the program we tuned in on the "Music Appreciation" Hour, conducted by Walter Damrosch of the New York symphony orchestra. This was thoroly enjoyed by all.

OVER-AND-OVER

The basketball teams which will represent A. H. S. on the court this season are practicing faithfully three times a week. Mr. Perrone is coaching the boys and Miss Klefeker the girls.

The first game of the season for the teams will be the night before Thanksgiving, when the teams will journey to Belmont where they will open Belmont High School's new gymnasium.

The boys haven't much left from last year's Varsity team. "Cabe" Cable is the only Varsity man back. The girls are better off, having Marial Brague, and Florence DeRemer in last year's Varsity team, besides a flock of last year's substitutes. These and the very promising recruits should give A. H. S. another real girls' team.

The teams are looking forward to the week after Thanksgiving when the first league game will be played. Whitesville will be the opponents. Yes and it will be at home, so that it will be some game.

The first meeting of the Athletic Association of the Andover High School was held in the study hall after school Thursday, November 14th. Mr. Perrone had charge of the meeting. A reading was given by Mr. Perrone. Also a short talk concerning the membership, dues, and duties.

Officers were then chosen. They are as follows:

President—Francis Cable.
Vice President—Kathryn O'Donnell.
Secretary—Julia Joyce.
Boys' Manager—James Mulholland.
Girls' Manager—Margaret Holmes
Mr. Perrone and Mr. Hardy are to act as Faculty Advisors. The Faculty Advisors and the Association officers will meet later and choose a treasurer from the student body.

As there was no other business the meeting was adjourned.

Secretary.

Rude Rural Rhymes

Looking Better

I'm sure that all my readers wait with mind alert and breath abate to get the latest bulletin on when my teeth are going in. I have them set, adjusted right, and tho it kinder hurts to bite, I break inside an apple now by jerking upward like a cow. They have, each side, a gold embrace, which tends to keep them in their place, but when I feel them slipping some, I poke them upward with my thumb. I note, since they have filled the gap, a large improvement in my map. My mouth no more makes sudden closure for fear of overmuch exposure, no longer need I check my grins before the east-and-west begins. They look right well, I knew they would, but I'm not talking just so good; for when my soul its thought expresses I kinder whistle on the esses. They're rather wearing on the gum and so, come night, it aches me some. My temper is a total loss; when cutting teeth all kids are cross, and would be meaner still, you bet, with teeth like mine, not paid for yet.—BOB ADAMS.

Uncle Sam, the Financial Chemist

It is good for us sometimes to consider how our Banks have helped to develop our national Resources—

Without their help much of our so-called national wealth would not be at our disposal. The Federal Reserve System has been a factor of immense importance in placing these National gifts at the door of mankind.

Maybe we can help develop your own business in the same way but on a smaller scale.

Second neighbor: "Wasn't it tho, and do you know when he threw that axe at me I thought I'd split."

There's pleasure in making your selection from ample stocks of standard lines.

For special occasions like Thanksgiving, Christmas and those times that work the kitchen equipment to capacity it is comforting to know that your hardware store has quality kitchen wares to meet your every emergency.

Say, folks, are you getting your share of those candy bargains? Come around and see for yourself, we claim our chocolates, selling at 20 and 30 cents, are better than any offered around this town at 10c a pound more.

Peanut Brittle as good as you have ever tasted, 15c per pound; Milk Fudge with peanuts at 20c is very popular but if you like a lot of wholesome sweets for your money, spend a quarter and get two pounds of those good old-fashioned Molasses Kisses.

Eat your Thanksgiving dinner from a new set of dinner ware. We are showing 100-piece complete sets at very low prices. Some as low as $14.98.

You will also find some rare bargains in our line of colored glass ware, low pattern sherbert glasses, handled or stem pattern—75c set.

Cut glass salad plates, cups and saucers, goblets and sherberts at one-fourth less than regular prices.

Stop the squeaking, slipping, grabbing of the brakes on your car; make them into a true circle having a face like velvet with Line-O-Brake—the new plastic brake lining.

It fills out the uneven spots in your old linings, covers the glazed places, and makes your bands water proof.

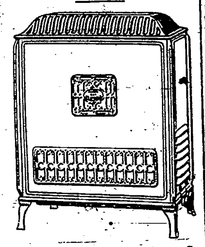
This material comes in a handy tube and is self-vulcanising; one tube will do for four large brake bands and the cost is only $1.00.

A car fitted with Line-O-Brake will give you a comfort and confidence in driving far beyond anything you have ever experienced.

You can apply it yourself and if used at intervals of four to five thousand miles your present bands will be good for the life of your car.

That shipment of Duplex Heating Stoves made in the Round Oak factory are here, and all ready to begin the business of keeping some family in summer comfort the whole winter long, and not one winter only but a score or more.

We want you to see this heater. See the quality that is built into it and all its appealing features; the big feed door, ample ash pan and largest fire box built into any heating stove.



Nice looking, sure! It's a Gas Heatrola and they do make friends. If you have any doubt let us refer you to the neighbor who has one.

He: "Yes, I was held up and robbed of my cash, my watch and rings in Chicago."

She: "Didn't you have a revolver?"

He: "Yeh, but they didn't find that."
