THE CAUSE.

There is an entirely different character in the present campaign for Governor than in the last. The cause is no longer a mere party question. It is a question of principle. The people are no longer divided into two camps, one for the Union and one for the secession. They are now divided into two camps, one for the Union and one for the secession. The people are no longer divided into two camps, one for the Union and one for the secession. They are now divided into two camps, one for the Union and one for the secession.

THE VIRGINIA OUTRAGE.

A while ago, when the news of the capture of the ship *Virginia* was first published, it was intended for the relief of Cuba, and the killing of the crew by the Spaniards as prisoners of war. This expedition started from New York City Oct. 8th. The crew of the ill-fated *Virginia* were engaged in New York and put on board in the harbor of Kingston, Jamaica. Besides the working hands, there were one hundred and seventy-two volunteers on board. Her commander was Joseph Fry, of Louisiana. He left New York four months ago to take command of the *Virginia*, and the next news of him and the vessel was that he and all on board had been captured by the Spanish Steamer *Tornado*. This steamer was cruising off Jamaica and sighted the *Virginia* gave chase.

The *Virginia* under a full head of steam tried to reach Jamaica waters, and the protection of the British flag. Her cargo was thrown overboard, but she was still clogged by the foul condition of her bottom, having been at sea fourteen months, and could not attain her usual speed. She was brought to the *Tornado* and made an unconditional surrender. The final signal for her was the British flag. Her cargo was thrown overboard, but she was still clogged by the foul condition of her bottom, having been at sea fourteen months, and could not attain her usual speed.
