A Business Stimulator

RECOVERY of business will not be accelerated by cutting advertising appropriations, by the replacing of key men with cubs, the issuing of cheapened advertising in mediums of questionable worth or of flat idealess advertising.

The way out is only over the road of better advertising, prepared with greater thought and placed in mediums that will do the most good. Thought, care and quality do not necessarily involve greater expenditures of money, but they do require more time, experience and skill, and less singing of the blues.

For the past few years business has been struggling in the "red" waters of depression. From the noisy splashings and heart-rending calls for help, many pessimistic bystanders have almost concluded that "Business can't come back," or "The good old days of prosperity are gone forever." And the business men themselves—what are they doing at present to pull our economic structure out of the sea of red ink? Are they not tossing the "cast iron life preserver" or the "suitcase full of flatirons" to save the businesses already overbundened in the struggle to keep afloat and going? Are they not shouting "Business must improve to help the country" one minute, and cutting their advertising and publicity appropriations the next?

Some firms have maintained that advertising is an expense added to cost of distributing goods.

Let us see how that works. There seems no reason to doubt that any concern that distributes reliable merchandise can secure and hold a greatly increased trade by advertising. Watch the crowd flock into a city store after a sale is announced and your own eyes will prove it.

Over and over again, small and obscure firms have gone ahead in a short time, as the result of judicious publicity. When a store tells about its goods and solicits patronage people feel a desire to see the merchandise the offered, and they also think that such a place is a live one that will give good service.

Many stores double their sales in a short time thru using regular publicity. But the expense of such a store did not double from the increase of trade. Its overhead costs for interest, taxes, rent, salaries etc would have increased but very little.

Thus the advertising store can handle large deals at a profit both to itself and the public, and so paper publicity is one of the largest forces tending to reduce the cost of distributing merchandise.

Checking a Big Loss

THE fire hazard is universally dreaded. It is feared alike in the forest, the city, the country, the home, factory and shop, and when vigilance relaxes, ruin and destruction are the inevitable penalties.

Despite the emphasis that has been laid on fire prevention each year, and the observance of Fire Prevention Week annually, the losses in America have reached alarming proportions.

We read the statistics, such as the fact that each seven minutes of every day a farm home is destroyed, with little concern, apparently, and never give fire prevention much thought until we suffer a personal loss from fire.

Each hour of the day, every day in the year, the homes of 15 families are lost by fire, and each day in the year 1,500 fires take place in the United States, which has a larger fire loss than any nation in the world.

Lives have been sacrificed and billions of dollars in wealth is wasted thru carelessness. Eighty per cent of the fires are preventable, and 41 lives are offered up every day as a human sacrifice to the fire demon.

Perhaps, some day, the people of this country will begin to take fire prevention seriously. The per cent of preventable fires occurring annually will be reduced.

A radio is like most people. They usually work better in the winter time.

Thirty-Hour Week Agitation

AT THE time that our country was suffering the worst effects of the depression period, many remedial measures were suggested to overcome the economic doldrums into which we had sunk, and to guard against further occurrence of such a condition. Among these was the proposal to limit working hours of employees in business and industry to 30 hours a week. The plan was considered and judged by sound thinkers to be highly impractical as a helpful measure.

Altho the idea was turned down after due consideration, it continues to bob up again, agitated by those who immediately seized upon the plan as a panacea for our economic ills. The idea is not likely to receive any more favor now than it did when it first came to the front, but a bit of reflective thought on the subject is not amiss.

The advocates of the plan do not consider the fact that such short hours would necessarily heavily increase the cost of production and distribution with a proportionate decrease in efficiency. This additional cost, and the decrease in efficiency would be passed on to the consumer in the form of higher prices and poorer service. Loss of business would result in jobs lost which would probably more than compensate for any increase in employment that might come about thru such a plan. It is not at all improbable that many small business concerns and small manufacturers might be forced out of business altogether if they were forced to double their forces thru the restrictions of a 30-hour work schedule. Whatever the consequences might be, it is certain that those in the lower income bracket would suffer most and that is the class that should benefit most from any sort of meritorious legislation.

There is no argument against short working hours per week so long as the scale is within reason. The present average of working hours of seven to ten hours a day, according to sections of the country and different industries and business concerns is a far cry and a great improvement over the old eleven to fourteen hours a day. But there is a minimum that must be recognized as practical and workable, at least under present conditions, in the business world. The 30-hour week is not within that minimum at present and it will probably be a long time before it is.

Community Interests

EVERY citizen should be actively interested in community betterment—first, for the good of the community; and second, on the theory that what benefits the community is of equal benefit to the individual.

Some people are aggressive and work continually for the welfare of the community in which they live.

Some hold back thru modesty, some thru timidity, and others thru a disinclination to "neglect their private affairs."

The modest man is respected, altho it is to be regretted that his modesty keeps him so much in the background.

The man who is timid is to be pitied, for his timidity is a serious handicap that, happily, is often overcome.

The modest man and the timid man should assert themselves. The community needs their efforts, just as it receives the co-operation of their more aggressive friends and neighbors.

But what of the citizen who is averse to "neglecting his private affairs?"

Is he the kind of man who makes a community, or is he merely one who profits from the community that others make?

The man who is "too busy with his own private affairs" to aid in community betterment may be possessed of many of the good qualities usually found in mankind. He may be highly respected by his neighbors, and his honesty and integrity may be beyond question.

But no community can thrive on neighborly respect and honesty and integrity alone. Aggressiveness is required if a community would not slip backward instead of pressing forward.

Every man owes a duty to the community in which he lives, and that duty should be performed, even tho it entails an occasional personal sacrifice.

No man should consider himself "too busy with his own private affairs" to aid in community betterment. He should not expect others to do all the community work while he reaps his share of the benefits. He should respond in kind.

One of life's perplexities is that the banks never refuse to loan money to the man who has plenty already.

The color scheme used by most business concerns is that of long green.

Many a famous lawyer will be found now that has never yet won an argument—with his wife.

NIAGARA, LOCKPORT & ONTARIO POWER CO. NIAGARA HUDSON

Mrs. Julia Wood

Julia Livermore Wood was born in New York City, Dec. 1, 1853, and passed from life at her home in Wellsville, Sunday, Jan. 17, 1937.

She was the foster daughter of Slocum and Amanda Clark Livermore of Independence. May 25, 1871 she was united in marriage to Adebert F. Wood, making their home in Andover. Mr. Wood's death occurred in 1921.

Funeral services were conducted Tuesday afternoon from the Embser funeral chapel in Wellsville, Rev. A. M. Dietterich officiating.

Burial was in the family plot in Hillside cemetery, Andover.

Allegany County Grange News

An all-officers conference to be held in Angelica Grange hall Thursday, January 28th at which each Pomona officer will be responsible for the attendance program and conduct of the group meeting of the corresponding officers of Subordinate Granges has been called by our State Deputy Master E. E. Eldridge.

Opening, 10 a. m., Singing and get-acquainted stunts—The Pomona Lecturer.

10:30—Model Grange, including 15-minute program—the Deputy and Pomona Lecturer.

11:30—Helpful criticism and questions.

Lunch served by Angelica Grange not over 35 cents.

P. M.—1:15—The 1937 streamlined program—The Pomona Lecturer and helpers.

2:00—Group meeting. Each Pomona officer in charge of the corresponding sub-officers.

3:00—Discussion of plans for county-wide activities as planned by each group.

Reports of Subordinates in connection with fair booths.

4-4:30—Summary.

Vienna Choir Boys Make Forced Stop in Andover

A large bus, carrying the Vienna Choir Boys, from Vienna Cathedral, New York City, broke down in Andover early Sunday morning.

The choir consisted of 20 boys between the ages of 9 and 13 years, accompanied by officials of the cathedral were on a tour when their bus broke down.

The choir was forced to take the "old reliable" Erie from Andover Sunday night for Youngstown, Ohio where they were to appear.

Another bus was sent out from New York to resume the tour and the broken one was patched up at the Shirey garage sufficiently to return to New York on its own power.

Dog Owners' Notice

Dog licenses for 1936 expired on December 31st, 1936. The 1937 license fee was due January 1st. Licenses so issued will cover the period from January 1st to December 31st, 1937. Every dog must wear a tag of the current dog license year. A dog without such a tag is not protected by law and no action can be maintained for his injury or destruction.

An unlicensed dog may be seized and killed and the fact that a dog is without a tag is presumptive evidence that the dog is unlicensed.

Dog licenses must be obtained from the clerk of the city or town where the dog is harbored or kept.

License fees: Male dog, $2.25; female dog, $5.25; spayed female dog, $2.25. These amounts include clerk's fees.

No license can be issued for less than the full license year.

The owner of a dog who fails or refuses to obtain a license for the dog as required by law incurs a penalty of $10.00 and costs.

The enumerators of towns and the police departments of cities are required to prepare in January of this year a list of dog owners. The omission of the name of an owner from the enumerator's or police list will not excuse the owner from obtaining a license.

If you owned a dog last year and do not own one now, so advise the clerk of your town or city.

Dog licenses in the town of Andover are issued by A. L. BLOSS, Clerk, P. O. Address, Andover, New York.

Miserable with backache?

WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or too frequent urination and getting up at night when you feel tired, nervous, all upset . . . use Doan's Pills.

Doan's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor!

DOAN'S PILLS

PUBLIC SALE

The undersigned Augustus Lynch, administrator of the Estate of Edward T. Lynch, late of the Town of Andover, N. Y., deceased, for the purpose of settling said Estate, pursuant to an order of the Surrogate's Court entered in the Office of the Clerk of the Surrogate's Court at Belmont, N. Y., January 8th, 1937, will sell at public auction on the 8th day of March, 1936, at ten o'clock in the forenoon of that day at the Law Office of Crayton L. Earley in the Village of Andover, Allegany County, N. Y., the following parcels of land and oil and gas properties, to wit:

ALL THAT CERTAIN PIECE OR PARCEL OF LAND, situate in the Town of Andover, in the County of Allegany, and State of New York, known and distinguished as the North part of Lot Number One hundred and four, in Township Number Two, in the Seventh Range of Townships, containing eighty-three acres and forty-three hundredths of an acre, as surveyed by B. Collins Brundage be the same more or less.

ALSO, ALL the Southeast part of Lot Number Eighty-nine (89) in Township Number Two (2) in the Seventh (7th) Range of Townships in the Town of Andover, County of Allegany and State of New York, containing fifty-three acres and sixty-two hundredths of an acre of land, as surveyed by A. C. Brundage, be the same more or less.

Together also with a right to pass between the premises above described and the highway with any stock, or any other personal property or for any purpose which E. T. Lynch Estate desires as a passageway between the highway and the premises above described over a strip of land now owned by the said E. T. Lynch estate, lying between and adjoining the premises above described and the highway on the west, which strip of land is bounded by lands formerly owned by Rollins on the south and lands formerly owned by Frank Raufenbach on the north, said strip of land being about three or four rods in width; this said passageway to extend over said strip of land or any part thereof as may be necessary in order to make a convenient passageway for the use and benefit of said E. T. Lynch Estate. All of said rights as to said passageway shall apply to the heirs, executors, employees and assigns of the E. T. Lynch Estate.

Also all that tract or parcel of land situate in the Town of Andover, Allegany County, New York, known and distinguished as the northeast part of Lot No. 46 in Township No. 2, in the Seventh Range of Townships in said County of Allegany and bounded as follows, viz: Beginning at the northeast corner of said lot running thence south two degrees west along the east line of said lot, twenty-four chains and nine links (20 ch. 9 links) to a stake at the northeast corner of the south one hundred acres of said lot; thence north 88 degrees west along the north line of said south one hundred acres of said lot, 25 chains to a stake; thence north 2 degrees east and parallel with the east line of said lot twenty chains and nine links (20 ch. and nine links) to a stake in the north line of said lot; thence south 88 degrees east along said north line 25 chains to the place of beginning; containing fifty and 22-100 acres of land more or less. Excepting and reserving therefrom a small parcel thereof heretofore conveyed to Henry Horan to give him a spring and access thereto situated near the east line of said premises.

A conveyance is to include the oil and gas right and the E. T. Lynch Estate will sign or cause to be signed a transfer of the Royalty interest of the oil from said premises to take effect from the date of sale.

Also all that tract, piece or parcel of land, situate in the Town of Andover, County of Allegany, State of New York, portion of premises formerly owned by John Keough, afterward owned by Henry Eggert, Sr., as shown by deed of record in Allegany County Clerk's office to which reference is hereby made, bounded as follows: Westerly by the center of the highway passing through said farm premises; Also by a portion of the so-called John McGrath farm now owned by Augustus Lynch and a portion of the so-called Sullivan farm now owned by Augustus Lynch; northerly by lands of Michael Lynch; easterly by other lands owned by E. T. Lynch, dec. 25, 1923, also by lands of Michael Dougherty; southerly by lands formerly owned by William J. Lynch, deceased, and the so-called Sullivan farm, owned by Augustus Lynch, containing by estimation about sixty-seven acres of land, be the same more or less.

Excepting and always reserving all those certain rights and privileges described in a deed of conveyance bearing date Jan. 25th, 1923, by which Augustus Lynch and the said Edward T. Lynch, now deceased, conveyed to William J. Lynch certain rights and privileges to operate the southerly twenty-five acre portion of said premises for oil and gas purposes. There is to be included with the sale of said premises a one-eighth royalty interest in the oil and gas saved from said twenty-five acre parcel so authorized to be operated and there will be executed by the Estate of E. T. Lynch to the purchaser a proper transfer transferring the one-eighth royalty interest including all rights and privileges with the E. T. Lynch Estate owns in said premises so to be sold to the purchaser from and by the seller. Such transfer to be subject to such and such reservations contained in deed of Augustus Lynch and William J. Lynch to E. T. Lynch recorded Allegany County Clerk's Office, Liber 258 of deeds at page 104, which reference is hereby made.

Also a certain oil and gas right as owned by E. T. Lynch at the time of his death on the Newton Clark Farm being an undivided one-half interest in the oil which may be produced and saved from the said farm including an undivided one-half working interest and including the one-sixteenth royalty interest, being the lease now existing in favor of Augustus Lynch and E. T. Lynch Estate on the farm lands of about 1 acres known as the Newton Clark farm.

ALSO, ALL THAT TRACT OR PARCEL OF LAND, situate in the Town of Andover, County of Allegany and State of New York, being a portion of a 43 acre parcel divised by Jonathan Lanphear in his last Will and Testament to Ella Vars, which 34-acre parcel is more fully described in the last Will and Testament of the said Jonathan Lanphear, deceased, dated September 28th, 1879, recorded March 2nd, 1882 in Liber 118 of Deeds at page 417, Allegany county records, bounded and described as follows: Northerly and westerly by the northern and westerly boundary lines of the 34-acre parcel so devised to Ella Vars; easterly also by the eastern boundary line of the said 34 acre parcel which eastern line is also the westerly line of lands now or formerly supposed to be owned by Grace Carpenter; southerly by the center of the creek known as the south branch of the Dyke's Creek, which creek runs easterly and westerly through said 34 acre parcel between the Andover-Greenwood new State highway on the south and the northern line of said 34-acre parcel, containing about ten acres of land, be the same more or less; being also distinguished as the north portion of the said 34-acre parcel devised by Ella G. Vars by her father and free the said Ella G. Vars to Floyd G. Vars by her last Will and Testament which last Will and Testament is recorded in Allegany County Clerk's Office at Liber 286 of Deeds page 2 7. Allegany County.

Subject to the rights of the Empire Gas and Fuel Co., Inc., Ltd., the Mutual Gas Co., either or both under existing oil and gas leases on thereon. Also subject to the reservation of the oil and gas produced on said premises and the right to operate the same as contained in a deed from Floyd G. Vars and wife to Edward T. Lynch, recorded in Allegany County Clerk's Office in Liber 286 of Deeds, page 543 to which reference is hereby made for more particular description and the rights and conditions of such reservation.

ALSO, an undivided one-half interest in all that other tract, or parcel of land, situate in the Village of Andover, County of Allegany and State of New York, portion of Greenwood Lot No. 65, Township Two, Range Seven and bounded and described as follows: Northerly by a line in Center Street in the Village of Andover, N. Y., known and distinguished as the northerly line of the storeporting and reserved lot owned by Daniel Bradley at the time of his death upon which was then erected the building known as the Bradley store building; easterly by the center of Main Street in said village; southerly by the real property formerly owned by the Burrows National Bank, upon which was situate the Burrows National Bank Building, and the northerly line of premises of which Henrietta D. Burrows conveyed an undivided interest by deed bearing date September 2nd, 1924, recorded in Allegany County Clerk's Office in Liber 265 at page 188; westerly by a line running parallel with the easterly line of premises formerly owned by Robert Miller, formerly known as the Lauder farm lot and 40 feet easterly therefrom.

Excepting and reserving, however, such rights as now exist in favor of the Village of Andover pertaining to the use of the southerly wall of the brick store building for party-wall purposes, and the reservation for driveway purposes over the real portion thereof as reserved in deeds from Frank Burrows and wife to William J. Lynch and E. T. Lynch in a deed recorded in Allegany County Clerk's Office in Liber 249 of deeds at page 304 to which reference is hereby made for more particular description as to the rights and privileges hereby reserved.

AUGUSTUS LYNCH, as
Administrator of the Estate
of E. T. Lynch, deceased.

CRAYTON L. EARLEY,
Attorney for said Estate,
Andover, New York. 16

Most fish are color blind and color bait means nothing to them.

Recent experiments at Yale indicate that the new heavy water slows the action of the heart and may be useful medically.

THE ONLY COUGH DROPS WITH CHLORODYNE

SMITH BROTHERS COUGH DROPS

OUR CHURCHES

PRESBYTERIAN

Rev. R. E. Dronsfield, Pastor

Morning worship, 10:30 o'clock. Sermon: "The Burden of Fear." Sunday School, 11:45 o'clock. Young people: The young people meet at 6 o'clock in the Sunday school rooms.

SEVENTH DAY BAPTIST

Walter L. Greene, Pastor

Sabbath services at 2:30 p. m. Sermon by the pastor. Subject, "Far Horizons."

Bible School following the church service. C. J. Burdick, superintendent.

Independence

Morning worship and sermon at 11:30. The pastor will speak. Sabbath School following the church service at 11:45.

The public is cordially invited to all these services.

BAPTIST

Rev. A. D. Shepard, Pastor

Morning worship, 10:30. Subject, "The Law of Increase."

Bible School, 11:45.

Christian Endeavor, 6:30. Leader, Mary Clover.

Evening worship, 7:30. Continuing the film picture, "I am the Way" the special subject for this Sunday evening will be "Jesus Gathering His Friends." A bright cheery song service precedes the showing of the pictures together with a study of the Word.

Midweek service on Thursday evening at 7:30. Topic, "Where Faith Sees Christ."

METHODIST EPISCOPAL

Edward J. Cory, Minister

10:30 a. m., Public Worship. Sermon by the pastor. Subject: "Units of Power for the Kingdom of God."

11:45 a. m., Church School. The lesson study is "The Significance of Christ's Miracles," with St. John Gospel chapters 5 and 6.

6:30 p. m., Young People's meeting.

Thursday of this week, Jan. 21, at 8 p. m., meeting of the Brotherhood Class in the church. Important business. Social hour and refreshments. All are asked to bring sandwiches. We want every member present.

Friday, Jan. 22 at 7 p. m., meeting of the sub-group of the Wellsville group of churches in the Wellsville church. Picnic supper followed by program.

Friday, Jan. 22 at 7:30 p. m.—Choir rehearsal. Every member is urged to be present at Mrs. Burgett's.

Sunday School Lesson

By REV. CHARLES E. DUNN

Two Miracles of Mercy

Lesson for Jan. 24th. John 5 and 6

Golden Text: John 5:36.

The sick man at the Pool of Bethesda inspires us with a sense of pity. After shattering his health by a life of sensual indulgence he lay for 38 years a hopeless paralytic. Bethesda is perhaps the Virgin's pool, near the Temple, the only natural spring in Jerusalem. The stirring of the waters was perfectly natural, but popular superstition ascribed it to supernatural power.

The tragedy of this pathetic case is that people had ceased to notice the invalid of such long standing. A forlorn, lonely soul, he just didn't count. Such a case of neglect made an instant appeal to the Master.

"Do you wish to become a healthy man?" he asked. Of course the poor fellow did, but it is doubtful if he expected a cure after so many long years of disappointment. Besides he did not know Jesus at all (vs 13). Instead then, of healing the man as a reward of faith, which was the usual practice of Jesus, the miracle was wrought to produce faith. Note also that the paralytic was cured without being touched, and without the use of gestures or formulae.

The great 6th chapter of John's gospel, on the "Bread of Life" which we have reason to believe, was the talk given by John at a communion service, is of vital importance. The miracle of the feeding of the five thousand marked a crisis in the ministry of Jesus. The people were so impressed that they insisted, much to his annoyance, that he should be crowned king of Israel. Precisely how our Lord managed to feed so many is a mystery. It may be that many families in the crowd had provisions hidden under togas and cloaks, and that all that the Master did was to set an unselfish example by distributing the five loaves and two fishes donated by the boy. At any rate, the miracle teaches effectively that the greatest results are possible from the smallest means.

THIS SCIENTIFIC AGE

Meteorites

In our last article the statement was made that some meteors were so large that they were not wholly consumed in passing thru the atmosphere, but reached the earth's surface and are known as meteorites. Of course we have no absolute proof that those which reach the earth are the same as those which do not, but we assume that they are.

Meteorites are of great interest to the scientist as they are the only heavenly bodies that we can learn about by direct methods. Our knowledge of the others is obtained by indirect methods which have been briefly discussed from time to time in this series of articles.

On the average one out of each ten known meteorites is of the iron-rickle type, the other nine being stones. Contrary to general opinion many meteorites are not extremely hot when they strike the earth nor traveling at tremendous speed. One small meteorite has been reported as falling on ice in the winter without breaking thru. As these meteorites fall thru the atmosphere the lower part of the atmosphere is so much denser than the upper that it actually retards their fall, and, unless they are very large, the lower atmosphere actually cools their surface by a fanning effect.

Most of the meteorites fall into the ocean because approximately three-fourths of the earth's surface is covered by oceans. Some very large ones have fallen on solid earth and most of these have been carried to museums. The largest known meteorite still lies where it fell near Grootfontein, Southwest Africa. Its weight is estimated at over 50 tons and the exposed surface is approximately 8 by 9 feet. The second largest was discovered near Cape York, Greenland in 1895 by Admiral Perry. This is the famous Cape York meteorite which can be seen in the American Museum of Natural History in New York City It measures approximately 7 by 5 by 7 feet and weighs 26½ tons. In that museum is another famous meteorite, the Willamette meteorite from Oregon. Mexican museums have three well known meteorites which weigh 26, 27 and 11 tons.

In Arizona near the Diablo Canyon one may see the famous Meteor Crater. In a monotonous desert region lies this crater with a diameter of about 4,200 feet, a depth of 570 feet, and a rim piled up to a height of 160 feet. On this rim grow trees that are 700 years old, the age being determined by a study of their growth rings. Several tons of meteorite material has been picked up in the vicinity of this great pock mark, most of which may be seen in the Field Museum at Chicago. The largest of these weighs one-half ton. For years boring operations were carried on to find the main body of the meteorite with the hope that its iron would be worth a fortune. Owing to the fact that the body entered at an oblique angle, it was not until 1933 that it was located at a depth of 700 feet below the south rim. Not enough is known of this body yet to give very reliable figures, but one estimate is that it will weigh as much as 50,000,000 tons. The sample removed is said to be about 90 per cent iron or iron oxide. The rocks below the floor of the crater have been crushed to a depth of over 100 feet and show signs of great heat. Among the rocks thrown up to form the crater are pieces weighing several hundred tons.

The greatest meteoric fall in historic times occurred in 1908 in Siberia. In 1928 the site of the collision was located. Several small craters were found, but the main crater, if there is one, was not located. An area with a radius of 20 to 30 miles had been completely devastated according to the expedition report. Trees with their bark torn off were lying outward from the center in all directions. The conclusion was reached that a great bubble-like envelope of hot gas, which the meterite carried down with it, caused the devastation. In Yanowira, 60 miles away, a wave of hot air is said to have hurled a man several feet. Sounds similar to heavy thunder were heard at a distance of 250 miles. This startling catastrophe took place in a sparsely settled region and no human life was lost. However, a herd of over a thousand reindeer is said to have been annihilated and a few scorched carcasses were found.

TAX SALE

REDEMPTION NOTICE

Office of the County Treasurer,
Allegany County,
State of New York, ss.:

To Whom it May Concern:

The following parcels of land sold by the County Treasurer of said County on the 9th day of March, 1936, for the nonpayment of taxes assessed thereon, remain unredeemed; and unless such parcels of land hereinafter described are redeemed on or before the 9th day of March, 1937 by paying the County Treasurer of Allegany County, at his office in Belmont, N. Y., the sum set opposite each parcel of land; together with the apportionate cost on each piece of the cost of this redemption notice, then the County Treasurer will convey the said several pieces of land to the purchasers thereof upon said sales.

Belmont, N. Y., Dec. 9, 1936.

C. L. CUMMINGS,
Treasurer of Allegany County.
