The Love to Give

IF THERE is one thing the people of Andover enjoy doing more than any other thing, it is giving. It makes no difference whether it is one privileged or less privileged, just furnish them with an opportunity or occasion to make individual presents and watch how they love to give. This demonstration of brotherly love isn't something just originated in the last few months or years, but dates back with the beginning of our community, and well we may be proud of this wonderful trait that is being handed down from one generation to the next. Human nature, differences of opinion, peculiar views are just as abundant in ours as in any other community. At times we debate hotly some project that calls for sharp divergences but matters like these are simply unthinkable when the occasion arises that we may be of service to our neighbors.

To us this is democracy, perhaps the most perfect democracy in our or in any other community.

Radio Trouble Coming

WHEN practically all the radio stations in this country go on new wave lengths, Thursday, March 27th, the listener will be annoyed by the complete newness of his radio dial. Nothing will be the same, so to speak. Persons with push-button sets will be forced to have all buttons readjusted to conform to the new wave lengths or the buttons will be useless.

The reason for all this confusion-o-be is an effort on the part of the Federal Communications Commission to end the confusion which time has wrought in the broadcast industry. Now there are hundreds of stations in this country, each with the right to use the air lanes, in many cases, at almost the same frequency. The result has been the well known mumble-jumble of several stations on the same dial spot.

After the change has taken place, after the sets have been readjusted and the laboriously compiled "radio logs" have been started anew, the listener will probably find that he is getting better reception with less interference than before. The major operation has become painfully necessary and the patient is expected to be more articulate as a result.

A hundred years of wrong do not make one hour of right.

One admiral says a battleship is a "she" because it takes so much powder and paint for her upkeep.

The hardest job a kid faces is learning good manners without seeing any.

Progress always involves risks. You can't steal second base and keep your foot on first.

MARCH

MARCH, the undependable, the treacherous, one of the most unpredictable of the 12 months, greeted us last Saturday. It will follow a February which has not been of the more wintry sort. March will bring Winter and Spring, the last named ever welcome especially to those with lowered fuel supplies. March is nature's sample case. Its balmy days are the more wonderful because they follow winter's snows and cold. March itself can bring snow and cold, or sun and warmth. Forget not that this month is treacherous beyond belief, now blustering, now mild.

Among the time-honored days of the year none is quite so well-met and joyfully received as March 21, first day of Spring. This birth of the season of rebirth is yearly hailed thruout the greater portion of the United States. Whether the day be cold and stormy, or warm and spring-like, it remains and is well noted as the first day of a well-loved season.

The month of March seemed to be a favorite period for admission of states to the Union. Vermont joined in 1791, Main in 1820, Florida and the approval of the territory of Arkansas in 1845 and Nebraska in 1867. The month brings the birthday anniversaries of four Presidents of the United States: Andrew Jackson, 15th, 1767; James Madison, 16th, 1751; Grover Cleveland, 18th, 1837; John Tiler, 29th, 1790. Other interesting happenings in this blustering month, by dates are: 2nd, Texas independence day; 5th, Association of licensed automobile manufacturers organized, 1903; 6th, Missouri Compromise approved in 1850; 7th, first telephone patent issued, 1876, to Alexander Graham Bell; 8th, Union Pacific railroad finished, 1869; 9th, battle between the Monitor and the Merrimac, 1862.

Tenth, first complete sentence spoken over the telephone, 1876; 11th, founding of the United States Navy, 1794; 12th, general post office established, 1789; 13th, standard time established in the United States, 1884; 14th, patent on cotton-gin issued to Eli Whitney, 1794; 15th, Russian Czar Nicholas dethroned, 1917; 16th, West Point Military Academy founded, 1802; 17th, St. Patrick's Day; 18th, first pension act passed, 1818; 19th, Massachusetts Colony founded by the British, 1628.

20th, Uncle Tom's Cabin first published, 1852; 21st, Johann Sebastian Bach born, 1685; 22nd, Vera Cruz, Mexico, bombarded, 1847; 23rd, Patrick Henry delivered his famous oration, 1775; 24th, first cattle imported from England reached Plymouth, 1624; 25th, "Gen." Coxey's "Army" started from Massillon, O., for Washington; 26th, first embargo act passed by Congress, 1794; 27th, gunpowder was first used in Europe, 1380; 28th, American Army in France under command of Gen. Foch, 1918; 29th, first settlement in Delaware, 1638; 30th, Alaska purchased from Russia by the United States, 1867; 31st, U. S. and Japan signed Commodore Perry's treaty, 1854.

Under the spreading chestnut tree a subborn auto stands,
The Smith, an angry man is he, with trouble on his hands;
The carbureter seems to be the cause of all his woe,
He tightens half a dozen bolts, but still the thing won't go!
He sits beside he road to give his brain a chance to cool,
He sits beside the road to give his brain a chance to cool
dence school;
At last he starts the job once more, and just by chance 'tis seen,
The cause of all his trouble is—he's out of gasoline!

He who would have the fruit must also climb the tree.
