## GAS TANK TOPICS

Did you know that there is so much difference between the wear your tires get that the left front takes only 14% wear, while the right rear suffers over double, or 38%? The other tires are in between. Cross switching every 5,000 miles equalizes the wear, and, if you put your spare in circulation, you automatically get 25% more mileage.

Have you a tire to retread? If you have, bring it in, we are prepared to take care of your needs. Prices range from $5.75 to $7.50.

Air raid shelters designated are the Rod and Gun Club rooms under the A & P store, the cellars under the bank, postoffice, Karcanes restaurant and the Steuben Silk Mills.

The school has also been completely organized with Principal Glenn E. Bretsch in charge, and all teachers and janitors appointed wardens to be responsible for the safety of whatever group is under their care.

The alarm at the school will be five or more successive rings on the signal system, after which the pupils will leave their rooms as in a fire drill and proceed down stairs to the corridors, which are protected on all sides and remain there in line until the "all clear" signal has been sounded when they will return to their respective rooms. Schedules of rooms and corridor assignments for each room have been posted thruout the school.

Plans have also been made with the school bus drivers as wardens for the safety of children on school buses should a signal sound while students are on the buses. These plans call for the immediate departure from the buses to safety shelters.

It is requested that Andover residents clip this article and post near your phone for future reference.

The Andover Rationing Board has now received its tire quota for the month of February as previously stated in this paper, and it is one tire and one tube for passenger cars and light trucks and three tires and five tubes for trucks and busses.

Reginald J. Sootheran, who is the chairman of the Rationing Board has informed the News that he now has application forms for those to fill out who are entitled to receive tires and tubes.

The tire inspectors have also been appointed for the town of Andover and are as follows: "Chuck Holt, E. C. Langworthy and O. J. Whitaker, and application forms may be obtained at any of the tire inspectors or at the office of Mr. Sootheran.
