Home Bureau To Conduct Evacuation Campaign

Survey of All Homes in Allegany County Begins Feb. 16th. Mrs. W. L. Greene, Local Chairman.

As announced in the columns of this paper under date of Jan. 29, volunteer workers under the direction of the Home Bureau organizations in their respective communities will start a house to house canvass of Allegany county, listing on a prepared form detailed information regarding each dwelling and the number of evacuees they would be willing to accept.

This information will be the basis upon which those who have charge of Civilian Defense within the State will establish a plan of procedure for evacuating vulnerable areas in case of attack. Not knowing the nature thereof, they must be prepared rather than unprepared to meet any contingency that may develop. It is only thru the accurate and complete information requested on this survey that they can determine the available quarters for the reception of women and children in safe reception centers.

The taking of evacuees is a new problem for you. Think it over, discuss it among the members of your family. Have your mind made up as to the number you can take conveniently without crowding. This will save you time as well as that of the enumerators who call on you. In an effort to help you, we have given you below the main facts of the survey in question and answer form. Read them carefully.

Mrs. W. L. Greene will be in charge of the survey in the town of Andover.

The questions and answers follow:

1—By whom is this survey sponsored?

By the Federal Housing Authority and State Defense Council, thru your Allegany County Civilian Defense Council.

2—What is the purpose of this survey?

To complete an accurate listing of accommodations for Evacuees from "Industrial and Target Areas" to safe reception centers of New York State.

3—To whom will the information obtained be available?

The United States Army and Civilian Defense Authorities.

4—Does the Army think evacuation will be necessary?

The Army, in view of Pearl Harbor and the Phillipines, is doing everything possible to be prepared for any emergency. In case of occasional or token bombing evacuation will undoubtedly not be made.

5—Is Allegany county considered in any plan authorities might have for evacuation?

Definitely yes, as well as 26 other Western New York counties.

6—What people are being considered for evacuation?

(1) School children.

(2) Pre-school children accompanied by their mother or guardian.

(3) Expectant mothers.

7—From where will these people come?

Undoubtedly from the industrial areas of the state: New York City, Buffalo, Rochester, etc.

8—How long will they stay?

This survey is based on a semi-permanent evacuation, that is 3, 6, 8 months, or as long as an emergency exists in that particular area.

9—How about the expense of caring for these individuals?

You will receive adequate compensation from the U. S. Government.

10—Do we have to take evacuees?

Absolutely not, but remember, we are at war. Our government expects each and every one of us to do our part, for it is only thru our cooperative efforts that we can hope to obtain victory.

11—If we do not care to take evacuees must we answer the questions?

No, but for the successful completion of this survey, it is earnestly requested that all questions be answered. Let's have a 100 per cent yes from Allegany county.

12—How many evacuees must we take?

This is entirely up to you. Whatever number you think you can accommodate without too much inconvenience.

13—Can we take our choice between girls or boys?

Yes. There is a place on the card for you to express your preference.

14—If we have a large house, but are lacking in necessary household equipment what can we do?

The government offers to furnish extra cots, bedding and stove for heating.

15—How about if we needed extra help?

The Government is making plans to meet this situation at no extra cost to you.

16—Will we be asked to receive individuals who are sick or have contagious diseases?

No. These people will be taken care of in hospitals and not in private homes. All will be given a rigid examination before being evacuated.

17—Does this survey conflict with the Disaster Evacuation Survey which is being undertaken by the local Red Cross Chapter?

No. The purpose of the Red Cross is to obtain shelter and aid in case of a temporary emergency or disaster for people within the county.

18—Will they require similar information?

Yes. So in an effort to co-ordinate defense activities and to avoid duplication of effort the surveys are made to serve both purposes. All information will be made available to them.

19—What in addition might the Red Cross wish to know?

How many individuals you could take into your home on short notice and for a brief period such as two to four weeks.

20.—Who will be in charge of the survey in this county?

Rev. Martz Snyder, Friendship; Lou Burton, Central Allegany county Red Cross; John Powers, Ralph Gleason, Wellsville Chapter County Red Cross; Eleanor P. Milliman of the County Home Bureau with M. Carey Drake, Survey Supervisor for Allegany County Defense Council.

21—How will the survey be conducted?

By a house to house canvass by volunteer enumerators of the Home Bureau organizations thruout the county.

22—How can I be of help to the enumerators?

You can be of great assistance to them if you will have considered carefully the questions and are prepared to give your answers promptly. Also, as vacant houses are to be included, if you can furnish any information regarding the one next to you, or at least the name and address of the owner.

23—When will this survey be started?

It will start Feb. 16 and must be completed by March 1.

24—Suppose we have relatives living outside of New York State whom we are planning on taking care of in case of an emergency?

This is one of the provisions on the card. But for the purpose of this survey only those who might live in places in New York under Question 7 are included.

State Officials Rule That All Draft Registration Offices Must Operate Feb. 14-15-16 From 7 a. m. to 9 p. m.

Neil Sullivan, chairman of the Wellsville Draft Board No. 534, announced Saturday that the New York State Selective Service officials had issued an order that all branch offices opened for registration must be kept open the full three days from 7 a. m. to 9 p. m.

This order effects branch offices in Andover, Whitesville, Bolivar and Allentown, which were originally planned to operate on Saturday only but under the new ruling will be open all three days.

The registration in Andover will be held in the village hall.

Altho the recent amendment to the Selective Training and Service Act provided for the registration of all male persons between the ages of 18 and 65, only those between the ages of 21 and 45 will be required to register at the registration which, in the State of New York, will take place on February 14, 15 and 16. These of the 18 and 19-year age group and men 45 and over will not register now but at a subsequent date to be announced.

The persons required to register on February 14-15-16, are male citizens of the United States and every other male person residing in the United States, who, on Dec. 31, 1941 has attained the 20th anniversary of the day of his birth and has not attained the 45th anniversary of the day of his birth on February 16, 1942, and who has not previously registered.

Registrants who actually live in neighboring states but have New York State post office addresses, should register their actual, and not postoffice address, as their permanent place of residence, and give the postoffice address as their mailing address. Otherwise, registrants who are actually citizens of neighbor states will find themselves under the jurisdiction of a New York local board. Registrants who actually live in New York State but have a postoffice address of another state, should register the New York State locality in which they live as their permanent place of residence.

Registrars of local boards situated near the borders of the State have been warned to see that, in such cases, the actual place of residence is given as the permanent residence and not the postoffice address. Registrants may register with the most convenient local board, but their registration cards will be forwarded to the board having jurisdiction over the area in which their place of permanent residence is located.

Only nine simple questions will be asked those men who register on Feb. 14-15-16 for possible military service under the provisions of the Selective Service Act.

No questionnaires will be given registrants when they register, nor will they then be required to undergo any physical examination.

When registered, each registrant must answer the following nine questions:

1, Name of Registrant; 2, Place of Residence; 3, Mailing Address (if other than place of residence; 4, Telephone; 5, Age in Years and Date of Birth; 6, Place of Birth; 7, Name and Address of Person who will always know your address; 8, Employer's Name and Address, and 9, Place of Employment or Business.

After a registrant has answered all questions and signed his name to the registration card, he will be given a registration certificate signed by the registrar. This certificate must be in the personal possession of the registrant at all times. Failure to possess the certificate, or to show it to authorized persons, constitutes a violation of Selective Service Regulations and is considered prima facie evidence of failure to register.
