Turning Back the Pages

OF ANDOVER HISTORY

TAKEN FROM THE FILES OF THE ANDOVER NEWS

FIFTY YEARS AGO

MARCH 9, 1892

H. C. Norris, Editor

Will Trowbridge has resigned his position in A. M. Burrows' store and will attend school. The vacancy is filled by Benj. Barney.

W. E. Baker of Tip Top Summit has purchased the farm, stock and agricultural implements of William Cole. Mr. Cole's family removed to Friendship the first of the week.

Twenty-five persons from Andover attended the play of David Copperfield at Wellsville last Thursday evening. The piece was rendered by Leland T. Powers who assumed all the characters.

The first annual meeting of the Western New York Breeders Association will be held in the city hall at Hornellsville, Thursday, Mar. 17.

Commander T. N. Boyd, J. C. Cartwright and County Clerk Geo. A. Green are in attendance at the Grand Army Encampment as delegates from Seaman Post of Andover.

Warm sugar will be served at the M. E. Church Wednesday evening from 7 to 9.

The census figure for Andover township, taken June, 1890 was 1,777, a gain of 11 persons.

BIRTHS

Mar. 1.—To Mr. and Mrs. Glenn Kocher of Bolivar, a daughter.

Mar. 9.—To Mr. and Mrs. Byron McClure of Wellsville, a daughter.

MARRIAGES

Feb. 28.—Miss Fay Calhoun of Cuba and Ronald Terwillinger of Black Creek.

Mar. 8.—Miss Eilene Graves of Wellsville and Harold Washburn of Buffalo. They will live in Buffalo.

Mar. 8.—Miss Viola B. Buzzard of Friendship and Lowell E. Mix of Hume.

DEATHS

Earl H. Wright, 53, of Cuba, Mar. 2. His wife and two daughters survive.

Mrs. Daniel Young, 70, of Wellsville, Mar. 5. Her husband, five daughters, a brother and a sister survive.

Mrs. Anna Schrader, 85, of Wellsville, March 9. A son and a sister survive.

Frank W. Fuller, 78, of Wellsville March 9. A daughter, a sister and a brother survive.

Miss Minnie Rose, 73, of Whitesville, Mar. 9. Her nearest survivors are several cousins.

Richard T. Schuyler, 20, of Angelica, in an auto accident Mar. 8. His parents, Mr. and Mrs. Edson Schuyler, a brother and two sisters survive.

Mrs. Mary Regan, 81, of Willing, March 10. Five sons and two daughters survive.

A Poor Memory

Stillwater Professor: "Give me some of that prepared monoacetacicidester of salycylic acid."

Druggist: "Do you mean aspirin?"

Prof.: "Yes, I can never think of that name."

FORTY YEARS AGO

MARCH 12, 1902

Mosher & Backus, Editor & Publisher

Miss Rose Clark, 72, died at the home of C. F. Davis Monday morning. She leaves to mourn her loss a sister, Mrs. S. A. Chadwick and a brother, William Clark.

Saturday night a group of 30 friends of Mrs. Glenn Ruger gave her a surprise party in honor of her birthday.

Miss Agnes Trainor has secured a position in the millinery department of J. Harris and Son this week.

Prin. A. C. Gillette has tendered his resignation as principal of the high school to take effect at the close of the present school year.

Levi Baker, a former resident of Andover, died in Wellsville Monday morning. He leaves his wife and son. Funeral services were held in Andover with burial in Lever cemetery.

A daughter arrived at the home of Mr. and Mrs. Thomas L. Tolan of Hornellsville Monday.

P. L. Lynch of New York City is the guest of his brother, P. C. and other Andover relatives this week.

Mark Houghtling was called to Wellsville Friday on account of the serious illness of his uncle, Levi Baker.

Mr. and Mrs. R. A. Parker went to Belfast Friday for a few days visit with relatives and friends.

Floyd C. Vars went to Buffalo for an operation on his eye Friday.

Miss Anna Laura Crandall was a guest of Mrs. H. D. Palmer at Almond, last week.

Mr. and Mrs. E. F. Stearns attended the social at W. G. Tucker's at Elm Valley Friday evening.

Mr. and Mrs. Wesley Osborn of Elm Valley celebrated their 15th wedding anniversary Saturday evening.

FOOD TO KEEP YOU FIT

NOURISHMENT AT LOW COST

Some foods that cost little may be expensive because they contribute little food value.

A recent study at the New York State College of Home Economics compared 28 commonly used foods and their cost in terms of nutrients in ordinary servings of food. The seven nutrients were protein, calcium, iron, riboflavin and vitamins A, B-1 and C. Foods found to be outstanding because they contain significant amounts of two or more nutrients and cost little are: Liver, dried navy beans, cheese and milk, rolled oats, molasses, spinach, potatoes, canned peas, sweet potatoes, round steak, pork chops, prunes and tomatoes.

Any kind of liver is a good and cheap source of protein, iron, vitamin A, vitamin B-1, and riboflavin. Pork liver is a cheaper source than other kinds of liver, and also furnishes about three times as much iron as does beef liver.

Milk and American cheese are inexpensive and excellent sources of calcium, and several servings of one of these foods are needed daily. Milk supplies, in addition, large amounts of protein and riboflavin.

Spinach is inexpensive for vitamin A, vitamin C, iron and riboflavin. Potatoees are a cheap and good source of iron, vitamin B-1 and C. More than one serving of potatoes a day furnishes much of the total day's allowance for these nutrients at low cost.

Each serving of dried navy beans contributes protein, iron, and vitamin B-1 at low cost. Rolled oats adds iron, vitamin B-1, and protein to the diet at low cost. Other sources of protein than these two foods, however, should be included.

That's Strict

"Our minister is so strict he won't even perform a marriage ceremony."

"Good Heavens! What' that got to do with his morals?"

"He says his conscience won't permit him to participate in any game of chance."

Bigger and better farm and rural gardens are expected this spring thruout the state in the "food for victory" drive.

THIRTY YEARS AGO

MARCH 9, 1912

J. Harvey Backus, Editor & Publisher

The members of the village board at a meeting Wednesday evening passed a resolution to accept the state's offer to pay a large percentage of the cost of paving Main street. The construction will commence on the north side of Elm street, extending south to South Main street bridge.

Mrs. Lucy Lee, 72, wife of the late Schuyler Lee, died at the home of her daughter, Mrs. Albert Pool of Bradford, Pa. Funeral services were conducted by Rev. W. H. Adams with burial in Hillside cemetery.

The Lucy Stone Club will hold a meeting at the home of Mr. and Mrs. R. A. Pease the evening of March 19th.

T. R. Bassett has had a large jeweler's safe placed in his store in the B. A. Clair building this week where he has recently moved his jeweler's business from the Cheesman store.

Vickers & Scott have rented the Floyd Hann barn on North Main street for the accommodation of their teams and draying outfit.

Mrs. Julia Clair was taken to the General hospital at Wellsville last Saturday for medical treatment.

Mrs. J. M. Brundage and Mrs. A. C. Frisbey were in Wellsville Saturday.

Mr. and Mrs. Reginald Starr of Hornell were guests of Andover relatives Sunday.

Franklin Cannon passed Sunday in town, guest of his mother, Mrs. Mary Cannon.

Mrs. Erwin Baker is visiting her parents, Mr. and Mrs. A. O. Tucker at Hinsdale.

Mrs. L. L. Spencer of Alfred Station was the guest of her brother, Mr. and Mrs. Floyd Slocum, Sunday.

Supervisor Orange Smith and Henry Stephens were in attendance at the county good roads meeting at Friendship Tuesday.

ASK The Scientist

If you have a question to ask the scientists, mail it to the New York Press Association ,The Castle, Syracuse, N. Y. The Science Board of the Radio Workshop at Syracuse University will answer each week in the Andover News those questions considered most interesting and timely.

Question 1.—Most of us who were in France during the last war thought prolonged gun fire would cause it to rain. Is this true?

Answer.—This belief is not warranted. There is no evidence that the concussions of even the heaviest artillery fire have any effect whatever in inducing rain. If the rain were just on the point of forming, possibly the process might be hastened very slightly by a heavy concussion, but such an effect would be so extremely trivial as to be of no practical importance whatever and could not be detected.

Scattering electrically charged sand from airplanes at high altitudes is a more promising method of inducing rain. By this method, it has been possible, in some instances, to obtain some condensation, but as the sand grains fall the water adhering to them has always evaporated back into the atmosphere before reaching the ground.

Only when the meteorological conditions are those producing rain will any method of obtaining rain succeed, and then any method will work. If the meteorological conditions are not such as to produce rain man has as yet been able to do nothing to alter them.—Prof. Henry N. Jonese.

Question 2.—When the limbs of a tree are weighted down with snow or ice, will the branches, if not broken, return to their normal position?

Answer.—Such branches will tend to return to their normal position. But the tops of some conifers, which suffer most because they have the same leaves in winter as they do in the summer, may be completely bent over and when the wood is frozen in that position, the symmetry of the crown may be ruined.

The important thing is to gently brush off as much snow and ice as possible. This prevents breakage or disturbance of the normal growth. Colorado Blue spruce probably suffers less than any of the other conifers because of its strong branches and tops. Snow should be taken from the trees as soon as it accumulates. The cedars and cypress suffer greatly.—Prof. Nelson Brown, forester.

Question 3.—I have always been deaf, and wonder if it was inherited.

Answer.—Deafness may be inherited, and it may not. Several categories of human deafness are definitely inherited. General those who are deaf when they are born are deaf to an inherited genetical character. Other types of deafness come on later in life due to various reasons.

Inherited deafness is due to four complicated factors. Two deaf parents may have several children none of whom is deaf, and two parents who are not deaf may have children all of whom are deaf. If people know enough about their ancestry, they can figure out with some accuracy the probability of deafness among their children.—Dr. Ernest Reed, geneticist.

Question 4.—What is the heaviest and hardest wood? What is the softest and lightest wood?

Answer.—I believe Quebracho is the heaviest and hardest wood. This word translated means the axe-breaker because it is really hard enough to break the axe to bits. It is about twice as heavy as our heaviest native woods such as hickory and oak. It grows in Brazil and is used for tannin, dyestuffs, and railroad crossties.

The softest and lightest wood is balsa which also grows in South America, mostly in Peru. This wood is lighter than cork, and is used for floats, rafts, life preservers and toy airplanes.—Prof. Brown.

Question 5.—Will you compare Australia and the United States in size?

Answer.—Australia and the United States are almost identical in area. They are about 3,000,000 square miles each. Australia lies somewhat nearer the equator. It would start down near Costa Rica and extend north as far as Kansas City.—Dr. Earl Apfel, geographer and geologist.

Question 6.—What is there about an onion that makes one cry?

Answer.—The reason you cry when you peel an onion is because you are actually being subjected to a gas attack. The onion manufactures chemical substances which are very similar to some of the tear gases used in chemical warfare. Only a very small amount of this substance is necessary to produce a severe irritation of the membrane of the eyes and nose. Such substances used as war gases are known as "lachrymators" because they produce a copious flow of tears.

Many other plants produce similar substances. Particularly outstanding among these are horseradish and mustard—even turnips and the flowering nasturtium contain small amounts. The blistering caused by a mustard plaster is the result of these compounds. All contain sulfur in a combined form. Peculiarly, sulfur is responsible for the odor of many things in nature. The aroma of cooking turnips, cauliflower or any cooking vegetable of the cabbage family is due to these sulfur compounds. Even the skunk has its sulfur compounds as do rotten eggs.—Dr. Aden King, chemist.

Question 7.—Are diamonds found in New York State?

Answer.—There are no diamonds from New York State which can be shown. The so-called diamonds around Little Falls and Herkimer are quartz crystals. Those are found almost perfectly developed in the rocks there and because they have facets something like a diamond or gem stone, they sparkle when hit in the sunlight, and so they have something like the gem for which they are named. They are not worth much, from 5 to 75 cents.—Dr. Apfel.

Question 8.—Last week you said that every living thing, including trees, was covered with a film of water. I do not see how this could be true of the bark of trees?

Answer.—All living things are composed of cells. These cells are covered with a film of water. Insofar as I said that trees were covered with a film of water, I was wrong. The bark of the tree is not covered with water because the bark of the tree is not alive. It is the living part of the plant, the cells, that are covered with a a film of water all the time. Of the stem of a 20-foot oak tree, only a fraction may be alive. There is a narrow cylinder of living material underneath the bark that is alive. The bark has ceased to live. All the living material is covered with water.—Dr. Reed.

Attention Called to Law Forbidding Placing of Injurious Substances on Highways

Albany, Mar. 12.—State Motor Vehicle Commissioner Carroll E. Mealey today directed the attention of police officials to the law which forbids the placing of injurious substances on roads.

Section 1434 of the Vehicle and Traffic Law, Commissioner Mealey said, provides that any person who wilfully "throws, drops or places" injurious substances on roads is guilty of a misdemeanor and on conviction can be fined not less than five nor more than fifty dollars.

In his letter to police officials, Commissioner Mealey said:

"We feel that if police officials thruout the State announced their intention to conduct special campaigns to enforce this section of the law, the effect will be extremely beneficial, and tend to reduce the number of cases where tire failure is due to glass, nails and other substances left on the highways."

THE ANDOVER NEWS

To the Voters of the Village of Andover, N. Y.

The following is a true and correct list of all nominations of candidates for offices to be filled at the Village Election to be held Tuesday, March 17th, 1942 and filed with me pursuant to Section 83 of the Election Laws:

Emblem of Party	Party Name	Name of Candidate	Residence	Title of Office
	Republican	Curtis H. Burdick	Andover	Trustee, 2 years
	Republican	I. H. Gilfillan	Andover	Trustee, 2 years

THE SAID ELECTION WILL BE HELD IN THE VILLAGE OF ANDOVER, N. Y., IN THE VILLAGE HALL ON TUESDAY, THE 17TH OF MARCH, 1942, BETWEEN THE HOURS OF 2:00 O'Clock AND 6:00 O'Clock IN THE AFTERNOON.

Dated: March 12th, 1942.

CHAS. B. CAPLE, Village Clerk

Local Happenings

—John Manroe is confined to the house by illness.

The Odd Fellows will hold another social party at their hall this Friday evening.

The Three Link Club will meet at the home of Mrs. E. H. Higby this Friday, March 13th at 2 p. m.

Among the newly installed telephones are Howard McAndrew, No. 809 and Robert VanCuren, 243.

Curtis Burdick is at the home of his daughter, Mrs. James Gibson at Allentown, where he is recovering from the grippe.

Lawrence Padden started Monday as driver of the NBC bread truck. Mr. and Mrs. Padden who have been living in Buffalo will move to Hornell.

The total catch of fresh water fish in New York State is estimated by the Conservation Department at 14 million fish weighing eight million pounds.

June's Creamery in Hornell has been sold to Hornell Dairy, Inc. with possession to be given about April 1st. The June's Ice Cream company will still remain in business.

The American Legion Auxiliary is advertising a St. Patrick's party with round and square dances, to be held next Tuesday evening, March 17 at the Central School auditorium.

President George Kame of the World's Horse Traders Convention has decided to hold the convention this year, and dates have been announced for August 17-22 inclusive.

Oil production in the Bradford field showed a decrease last week over the previous week of 3,608 barrels. Production in the Allegany field advanced 234 barrels over the same period.

The O. E. S. Circle will meet at the home of Mrs. Jennie Smith Friday, March 20th for a 1 o'clock tuteen luncheon. The meeting will be in charge of the vice president, Mrs. Clara Whitaker.

Mr. and Mrs. Bernard Neville have moved from the house recently purchased by Mr. and Mrs. Kenneth McClure on Dyke street into the upstairs apartment in the Mrs. Jennie Carr house on North Main street.

A party of friends and relatives met at the home of Mrs. Glenn Ruger Monday night, surprising her on her birthday. Chinese checkers and singing comprised the entertainment followed by a delicious tureen supper. Mrs. Ruger was presented useful gifts and many cards. The guests in leaving wished her many more returns of the occasion.

The S. D. Baptist Ladies Aid Society held their March business and social meeting at the home of the president, Mrs. F. S. Potter, Tuesday afternoon. There was a very good attendance. The ladies were busy with needlework for their annual sale. A 5 o'clock cover-dish dinner and social hour was enjoyed. Hostesses were Mrs. Potter and Mrs. J. L. Williams.

Miss Reva Perry is assisting in the home of Mr. and Mrs. Grant Stevens.

Miss Mary McGuckin is gaining slowly from a three weeks illness at her home on Barney street.

Mr. and Mrs. Robert VanCuren of Wayland have moved into the Ernest Burdick house on Chestnut street.

The Trinity Lutheran church of Wellsville has purchased the S. F. Booth residence on West Genesee street, opposite the church for a parsonage.

Richard T. Schuyler, son of Mr. and Mrs. Edson J. Schuyler of Angelica died Sunday night in a Buffalo hospital from injuries received earlier that day in an auto accident near Buffalo.

The Women's Society of Christian Service of the Methodist church met at the home of Mrs. Ralph Burgett Wednesday morning and packed eight boxes for the young men of the church who are now in service.

Did you get your deer last fall? If you did you were one out of 14 hunters who did, according to a release from the Conservation Department which states that 13,325 legal bucks were taken out of 182,312 licenses issued.

Mrs. Cora Baker, Mrs. Julia Jones and Mrs. Lina Ruger had dinner with their sister, Mrs. Sylvia Hollowell, Sunday, in honor of her birthday. Mr. and Mrs. Norman Hollowell and family of Canisteo also spent the afternoon with his mother.

Allegany Refiners Guard Plant

The Allegany Refiners, Inc., have put three guards on their plant at Bolivar as a precautionary measure.

The personnel of the guard force includes Harry Kemp of Andover, Joseph Meek of Bolivar and Ira A. Easton of Cuba. The guards are working in eight hour shifts at present, but it is expected that another man will be added to the night shift.

"Chief" Witter to Join Armed Forces

Ray C. "Chief" Witter of athletic fame has announced his resignation as supervising principal of Silver Creek High School effective at the end of the school year.

A Naval radio operator, first class during World War No. 1, he commented: "It seems a bit pedantic to be sitting behind a school desk when there's a war on."

Dates Claimed

Mar. 13.—Fish fry, Presbyterian church choir.

Mar. 19.—Rebekah three-cent supper.

March 23.—O. E. S. three-cent supper. 12

Bring your printing troubles to the News office.

Home Bureau Leaders Exhibit Refinished Furniture

Articles of furniture which have been refinished by Home Bureau leaders will be on exhibit in the Horn room of the Town Hall in Belmont from Friday thru Monday of this week, March 13-16. The exhibit will be open each afternoon with the exception of Sunday from 1 to 5 o'clock. An attendant will be present to answer questions.

Among the pieces to be featured is an oak dining room chair which has been cut down to make the proportions more pleasing and modern. This chair has been bleached and finished in a light pickled effect using white lead rubbed into the pores of the wood.

Several small tables of cherry have been transformed from ugly painted and battered pieces to very usable and lovely articles suitable for any living room.

Since the leaders had to transport these pieces a number of times, the articles are of necessity small, but several different methods of finishing are exemplified. Leaders will start teaching classes in their own communities immediately following this exhibit.

Blackout of Unattended Lights

Alwin Schaller, Allegany County Defense Council Chairman, has received an order directing that arrangements be made immediately in connection to all unattended lights in blackout programs.

The order refers specifically to outside advertising signs and window display lights which are left burning during the evening when stores are closed. Such signs and displays should either be extinguished when the stores close or arrangements made to have an attendant always available to extinguish such lights in case of an unexpected alert.

Urges Greater Fruit Canning

Rationing of sugar should not prevent housewives from preserving more fruit this year than ever before. If sugar is not available, fruit can be canned without it by the "hot-pack" method. After the jars are opened, sugar can be added before serving.

These are statements of Mrs. Katherine B. Head of the Farm Security Administration. She continues:

"Sugar rationing will interfere with jelly making, but if fruit juice is canned by the hot-pack method without sugar, jelly can be made from it later, a few jars at a time, using the normal sugar ration."

"Don't stock ahead on jar rubbers. Hoarding is unpatriotic and old rubber rings, moreover, may lose their resiliency and will not seal the canning jars satisfactorily."

Borrowers of the FSA are going to drink more tomato juice than ever before, Mrs. Head also points out, because low-income farm families who receive loans agree to can at least 30 quarts of tomatoes for each member of the family.

The better the speaker the smaller and more understandable the words he uses.

Hundreds Enroll For Victory Garden Program

All Residents of the County Are Eligible. Next Meeting in April For Planning Program.

Several hundred Home Bureau members and boys and girls thruout the county have enrolled in the Victory Garden Program during the past week as a result made by the Victory Garden Council urging the participation of experienced gardeners in the production of more vegetables and home produced food.

The Allegany County Victory Garden Council, headed by Eddy Foster of the State School of Agriculture at Alfred, was organized on Thursday evening, March 5th at the Court House in Belmont, naming the Rev. Guy M. Ovenshire vice-chairman, and Lou L. Burton co-ordinator and secretary of the garden program for this area.

Any and all residents of the county are eligible to enroll in the Victory Garden Program and will be forwarded timely information concerning the selection of varieties for Victory Gardens, plans and planting dates of the various vegetables, control of insects and diseases.

The Victory Garden Council will meet again in late April for the purpose of planning a program to encourage the preservation of fruits and vegetables for home use.

The continuation of flower garden, lawn and home garden improvements is urged and is considered an important part of the state, national and local part of the Victory Program. The Garden Clubs are urged to inform their members that this is an important part of the National program.

Organizations participating in the local county programs are the Allegany County 4-H Club, Farm Bureau, Home Bureau, Dairymen's League, Grange, County Welfare Department, County Nurses Service, Service Clubs, churches and others.

Discussions have been led by County Club Agent Lou L. Burton, on the topics of selection of varieties, fertilization of the family garden, control of insects in more than 30 meetings during the past months. Such meetings will be continued in the future upon the request of local groups.

GAS TANK TOPICS

NOW, more than ever, it is important to take the proper care of your car. Atlantic Lubrication, which is not just an ordinary grease job, will give you many more miles of pleasant driving.
