How Much Is A Car Used?

AN ANALYSIS of the wage earner and rural automobile use made by a national organization shows that two-thirds of car owners who were interviewed were using their cars regularly and driving to work, every working day and that the "business trips" made in the above manner represented 44 per cent of the total annual mileage of all those cars owned by wage earners.

It is interesting to know that the annual mileage of wage earners cars is 7,657 miles a year against the all-average of 8,139 miles. Under normal conditions wage earners use their cars the year around for short trips and few of them roll up heavy mileage.

The farmers place the passenger automobile as one of the necessities of farm economy and it is interesting to learn that farmers use their passenger cars in preference to trucks wherever the business permits and will do the job. A survey showed that farmers who own 4,144,136 passenger cars had only 1,047,084 trucks.

The figures are enlightening because they show how the lives of the people have been adjusted to new ways of travel.

Legs . . . And Stockings

THE Bureau of Home Economics discovered some years ago that women with average and less than average incomes spend from 12 to 20 per cent of their clothes money for stockings.

The importance of making good looking legs even more beautiful is parrently recognized by women, as well as by men.

Our tense, tegthy yellow enemies in the Pacific have, however, cut off our supply of silk, and thus the American woman is facing a bare-legged future.

When present supplies of silk stockings run out, women will be forced to accept a substitute.—Enters cotton!

Fortunately, experts have been working out ways of treating cotton and styles for cotton stockings for three years. There are more than 150 different designs from the sheerest cotton meshes for evening wear to heavy knits for service wear.

To make the best looking cotton stockings, long cotton fibers are needed. This is one reason why the government is encouraging farmers to grow long fiber cotton.

There are many women in Allegany county who think that cotton stockings are inferior to silk ones. They may be tempted to buy an extra supply of silk stockings.

However, hoarding silk stockings won't pay. How would you feel walking down the street in silk stockings if everyone else wore cotton? Silk stockings will become as conspicuous as a sore thumb.

There are any number of people who believe that newspaper editors are saps—and for all we know, they may be right!

We are beginning to wonder how many residents of Allegany county will be killed on the highways in 1942.

Taxes for war represent insurance against complete loss which will be sustained if the Axis powers win the war.

American Women Don Overalls

"ONE PAIR of overalls, size fourteen, please." Retail stores thruout the country report that an **increasing number of such requests are** met daily. Women who have been known for the excellent cakes they bake for local charity functions, or for their skill with the embroidery needle have put all this aside for a pair of overalls and a job at the local factory.

With a growing shortage of man-power due to military needs, manufacturers are hiring women to take the places left vacant by men who are doing their part in the armed forces. In addition, women workers are making up part of the 1,300,000 persons who must be drawn into our labor force by the end of 1942, according to the Department of Labor, in order to avert a serious labor shortage. These new workers are to be persons not normally part of our regular working population.

A bird's-eye view of the whole picture shows that where women have been employed for the first time, their employers have found them to be as proficient as men at hundreds of war jobs requiring dexterity, accuracy, inspection and the handling of machinery. According to a survey by the Women's Bureau of the U. S. Department of Labor and to reports of British industry's experience, women workers are easy to train and very adaptable.

It is estimated that at least 1,000,000 more women will be working in war production jobs within the year and many a hitherto unassailable masculine stronghold will be invaded by the fair sex.

Synthetic Rubber

THE effect of Axis victories in the Far East is the loss of our rubber supply. In 1940 this country imported 650,000 tons, and almost every pound of it came from countries now blocked off by the Japs. For 25 years chemists have been developing a rubber substitute. But production of the product was not pushed so long as there was an abundance of cheaper natural rubber.

Now the cost question has gone out the window. The United States must have rubber to win the war. Hence the present pressure on industry to produce a substantial quantity of a rubber substitute. Prior to December 7 plans were under way for producing 10,000 tons per annum of a synthetic rubber out of petroleum. Subsequently the government raised its sights to 40,000 tons, a goal expected to be realized some time in 1943. Now the program is being further enlarged to 400,000 tons.

It is said that it will take a year and a half to get plants erected and in full operation. In the meantime the government has enough reserve rubber stocks to cover war needs and a little more. Owners of automobiles must take unusual care to make their present supply of tires last to the ultimate mile.

Business men who are too modest to toot their own horns won't stay in business for very long.

Big business and most little business, is still interested in profits, not reform or social improvement.

Words that delight the editor's ears—"Here's my money; mark me paid in advance for two years."

Those who are worrying about the rationing of sugar might find the restriction to be a benefit to their health. According to the opinion of some medical men those who must have their sugar and have loaded up on a year's supply are apt to die first, leaving their less wise brothers to inherit the earth. Dr. Russell M. Wilder, head of the department of medicine, Mayo Foundation, Rochester, Minn., says sugar rationing will help solve a problem which has been worrying nutrition experts for some years, that of cutting down "the excessive amount of sugar consumed by people of this continent, especially young children." It adds up to this—you sugar hoarders—That pile of sugar you have is apt to kill you!

H. C. Norris, Editor

As a result of the heavy snowfall Saturday the north and south roads are said to be drifted full of snow level with the fences. Men and teams were out Sunday breaking a track. Old residents say it is the worst storm in 40 years.

John Macauley left Monday for Seattle, Wash., to visit his sister, Mrs. Wm. Jamison before returning Mr. Macauley will visit cousins at Deadwood.

Dr. L. E. Wiles and family of Fillmore have been visiting at the home of S. P. Robinson this week.

Died, March 8, 1892, Mary, wife of Anthony McAndrew, aged 56 years. Deceased leaves a husband and nine children and a brother, Martin O'Brien.

A meeting of those interested in incporation was held at the L. C. VanFleet office last Thursday evening. L. C. VanFleet was elected chairman and F. S. Clark secretary. The following committee was appointed to have charge of all arrangements on the votes for incorporation: P. Cannon, E. J. Atwood, D. D. Remington, John Prest, O. P. Crandall.

The Mutual Gas Company has been considering the feasibility of extending the gas line to Alfred Center.

Uriah Davis is receiving the brick for a new house which he will build on his farm this summer.

Mr. and Mrs. C. A. Robinson visited friends in West Almond last week and were "snowed in."

Edward Padden, son of Herbert Padden met an untimely death last Thursday while engaged as brakeman on the Erie. Mr. Padden was thrown underneath the cars and injured to such an extent that he died in about an hour after the accident. He leaves his parents and six brothers to mourn his passing.

A WEEK OF THE WAR

(Continued from First Page)

Committee and the Contract Negotiation Board were consolidated into the Construction Contract Board which will recommend and negotiate contracts awarded by the Engineer Corps. Navy Secretary Knox announced Admiral E. J. King, Commander in Chief, U. S. Fleet, will also be Chief of Naval Operations. Admiral H. R. Stark was named Commander, U. S. Naval Forces operating in European waters.

The War Front

United States forces in one raid on Japanese shipping sank two Japanese ships, set four more on fire and beached one. In another action U. S. naval forces sank a heavy destroyer and a large tanker and put three cruisers and one aircraft carrier out of action. U. S. forces also sank three freighters and one passenger cargo ship, shot down five enemy bombers, and destroyed three Japanese-held airdromes in New Guinea. The Navy reported 12 United Nations' warships were lost in the battle for Java, including the U. S. cruiser Houston and the U. S. destroyer Pope. Two U. S. tankers and two freighters were sunk in the Atlantic.

Civilian Defense

OCD Director Landis and Federal Security Administrator McNutt outlined plans for temporary hospitalization of civilians injured as a result of enemy action. The plan provides all voluntary and governmental hospitals will serve as casualty receiving hospitals and certain hospitals in "safe areas" will be designated as emergency base hospitals. The program will be carried out by the OCD Medical Division in cooperation with the U. S. Public Health Service and State and local authorities. The OCD issued a booklet suggesting safety procedures for department stores during an air raid.

Prices

President Roosevelt, in a radio address, said the fight "against inflation is not fought with bullets or with bombs, but is equally vital—It calls for mutual good will and willingness to believe in the other fellow's good faith." The Labor Department reported the average family's food bill jumped 0.5 per cent between mid-January and mid-February. The Bituminous Coal Division of the Interior Department and the OPA said they were prepared to take whatever steps are necessary to prevent wartime inflationary prices for coal.

Priorities and Allocations

Purchases, sales and rentals of various types of new office machinery were halted by the WPB, except to persons possessing high preference ratings. The Board extended the ban on use of "bright work" on all types of motor vehicles and prohibited its use in replacement parts. Manufacture of bicycles was curtailed, and production of tire retreading and recapping equipment was suspended except on preference rated orders. The Board directed canners to set aside for the Government considerable quantities of their 1942 pack of fruits and vegetables. Maintenance and repair of existing plumbing and heating installations in farms, residences and office and apartment buildings was facilitated by a new order.
