Watt-Mobile Is Coming to Andover

The Watt-Mobile is coming to town! Now starting its second tour of the State after being viewed by many thousands of persons last year, this house-type trailer shows both farmers and homemakers how to make their electrical appliances last longer.

Several meetings have been scheduled in Allegany county. The first on Thursday, July 9 at the village park in Cuba at 2 p. m., followed by a meeting at Fillmore, ball park at 8 p. m. Friday, July 10, meetings will be held at Belmont Grange hall at 10:30 a. m., Andover ball park, at 2 p. m., and Canaseraga Grange hall at 8 p. m.

The above picture shows the Watt-Mobile open and ready for business. Pictured are E. S. Shephard and C. T. Male, Jr., of the department of agricultural engineering at Cornell University. They are the electrical experts in charge of the demonstrations. It will appear in Andover Friday afternoon, July 10th at 2 p. m. at the ball park.

The trailer is equipped with more than a score of modern appliances. Common appliance repair parts are carried and people are invited to bring in electrical equipment that is not working properly. The engineers will diagnose the troubles.

This is an opportunity to learn why the toaster won't toast, or why the iron won't heat, why the milker won't milk, why a fuse blows out, why the lights dim when an appliance is turned on, and scores of other problems.

This year the Watt-Mobile carries more farm equipment than last year, including a hot water heater, cutaway section of a milk cooler, fencer unit, a milking machine, and a quick-freeze unit in place of a refrigerator. Care and repair of farm and home equipment will be emphasized this year because of the war situation, and the need to save and use equipment efficiently.

The demonstrations, being arranged by the local extension service, are in charge of Cornell Agricultural Engineers E. S. Shepard and C. T. Male, Jr. They will try, in non-technical terms, to explain about correct wiring, about service entrances, fuses and their importance, circuit overloading, what is meant by pressure or voltage, and how it works, and other facts about electric heat, light and power that will promote better farm and home living.

Assistant County Agent Durfee says this is an opportunity no one should miss. "It is a duty today to keep our equipment in good working order. Be on hand when the Watt-Mobile comes."

New Arrivals

Mr. and Mrs. Terrence Houghtling are parents of a son born Thursday, June 25th at the Eggleston maternity home. He has been named Richard L., and weighed six pounds and two ounces.

That's That

One morning when the children were eating breakfast, Milford put two heaping teaspoons of sugar in his cocoa.

"I should think one spoonful would be enough," objected his sister.

"I should think so too," replied, "but it ain't."

June Milk Price Forecast At $2.35 Per Hundred

N. J. Cladakis, administrator of the New York metropolitan milk marketing area, forecast that the uniform price dairy farmers of the six states of the metropolitan milkshed will collect for their June milk will be $2.35 a hundredweight (46.51 quarts) and the farm value of the June pool will hit only a little higher than $16,000,000.

The forecast, subject to verification when the actual uniform price is figured by July 14, is one cent a hundredweight above the May uniform base of $2.34 and 40 cents over the price of $1.95 that was computed for June, 1941. The gain over June a year ago will be 20.5 per cent if the estimate is confirmed.

Announcement is also made that the price for fluid milk (Class I) delivered in July will be $3.10 a hundredweight, which is 25 cents higher than the price level for the past three months. The fluid milk price for July 1941 was $2.65.

Roy F. Hendrickson, administrator of the Agricultural Marketing Administration of the U. S. Department of Agriculture, has announced that the New York City Department of Health found that the producer committee of the New York milkshed is making satisfactory progress in its formulation of plans to adjust the city's supply to its requirements for fluid milk and cream and that the Health Department which participated in the second session of the committee's meeting, will advise the Board of Health to delay action on a proposal to curtail the size of the milkshed.

Exchange Club to Sponsor Blood Bank Here

The Andover Exchange Club has been asked to sponsor a project for the contribution of blood by the citizens of the Village of Andover to build up a "blood bank" to be used to give this life-giving fluid to our soldiers and sailors who are wounded in battle, fighting to preserve our lives and our way of life. Those willing to volunteer to donate their blood to this worthy cause may volunteer either at the office of Reginald J. Sootheran or the Baker Hardware store.

In order that a mobile unit will come to the village of Andover with the necessary facilities for withdrawing the blood from the different volunteers it is necessary that we have at least 150 individuals who will volunteer. If the 150 volunteer it has been arranged that the mobile unit will visit Andover on August 20th. Therefore, the Andover Exchange Club strongly urges that all the citizens of Andover and the vicinity to come to the law office of Mr. Sootheran or Baker's Hardware in the very near future and volunteer to give their blood which might save the life of some soldier or sailor, perhaps one who is a resident of Andover.

They were attended by Miss Kathryn Snyder of Andover sister of the groom and George Jennings of Hornell brother of the bride.

The bride's dress was of blue silk taffeta trimmed in lace with white net fingertip veil, she carried an arm bouquet of yellow roses. The bridesmaid's attire was pink taffeta dress, silver slippers and white picture hat and gloves, carrying an arm bouquet of pink roses.

Following the wedding a reception and dinner was served at the home of the bride's parents to 22 guests.

After a short wedding trip they will make their home in Hornell.

Mr. Snyder is the brother of Mrs. G. A. Wereley of this place and a former Andover resident.

LIBRARY NEWS

Summer Reading Course

If you have followed this column over a period of time you know that the librarian of the Andover Free Library plans a Summer Reading Course for the young patrons of the juvenile department during the summer vacation period. This is the sixth year that this program has been carried out and 70 members composed of children from the second thru the fifth grades have registered this year in the club. The theme is "The William Tell Book Club." The reader having returned the second book is given an arrow. Ten books must be read to hit the bull's eye. Then he or she receives a golden arrow. Of course each strives to get a number of golden arrows creating an added interest for summer reading.

Notice—Because of the legal holiday Independence Day, the library will be closed Saturday, July 4th.

Civilian Protection Conferences To Be Held

Albany, N. Y.—Questions on local war problems will be answered for chairmen of city and county War Councils and directors of Civilian Protection and Civilian Mobilization at a series of regional conferences to be held thruout the state this month.

Lieutenant Governor Charles Poletti, Coordinator of State War Plans, who will be present at the meetings, states that the conferences have been called for the purpose of clarifying the functions of state and local offices connected with the war effort. The New York State War Emergency Act will be explained in detail, and the program and plans of the State War Council and its agencies will be outlined.

The conference which Allegany county chairmen will attend is to be held in Buffalo on Tuesday, July 14th.

State Closes Fiscal Year With a Substantial Balance

Governor Lehman today issued the following statement:

"I am very happy indeed to be able to report that the financial position of the State at the close of the fiscal year is unusually strong.

New York State has closed its fiscal year ending June 30, 1942, with an operating surplus of $47,098,163 and with an accumulated surplus of $54,127,419. This large surplus was realized despite the repeal of the one per cent emergency tax and a reduction by 25 per cent in the personal income levy, which saved citizens of the State more than $45,000,000 in the past year, and in many cases cut their income tax payments in half.

The gratifying financial position of the State is due both to increased revenues and to very substantial savings and economies in state operating costs.

Receipts during the year ending June 30, 1942, aggregated $421,265,940, or $30,173,937 above my deliberately conservative budget estimates. Expenditures, because of economies and savings, totalled only $374,167,777, or $8,478,113 below the budget estimates. These factors have created a surplus for the fiscal year ending June 30, 1942 of $47,098,163. To this is to be added the surplus of $7,029,256 carried forward from June 30, 1941, making an accumulated surplus of $54,127,419 on June 30, 1942—the largest since 1931.

While the financial position of the State is obviously excellent, I wish to urge again that the State continue to economize and save in every way possible in the future. There are many problems and uncertainties on the horizon. Gasoline and tire rationing are reducing sharply collections from motor fuel and motor vehicle taxes. Further problems arising out of our war effort may also affect adversely other sources of revenue and may require the expenditure of large additional sums of money. Under the circumstances, altho at the present time we have a surplus of large proportions in hand, we must continue carefully to husband all of our resources so that the present unsurpassed credit of the State may be maintained and at the same time the people may continue to benefit from and enjoy the many services which the State has furnished them for the past ten years.

Children's Health Camp Opens

The Children's Health Camp at Cuba Lake, conducted annually for 22 years by the Allegany Health & Tuberculosis Association, is to open July 5 for a two-week period with about 85 children enrolled. On July 19th this group will be replaced by 85 more children who will remain for three weeks and on August 9th the third group of the same number of children will enter for a three-week period.

These children will be given a good time of organized play, swimming, craft work, careful medical attention, upbuilding, healthful diet, etc.

The first group of children come from nine communities of the county: Andover, Belfast, Belmont, Bolivar, Cuba, Friendship, New Hudson, Scio and Wellsville. This group was selected from a list of 400 names as the most likely to be benefited by a stay under the expert guidance in the healthful location of the camp following physical examination and a careful personal check-up. Children from other towns will be taken care of in the later camps.
