Thirty years ago Wellsville's crack undefeated baseball team, that is supposed to be the fastest in this neck of the woods came to Andover Saturday to show the Andover team how to play ball. The Andover team, under the management of Bill Lauterborn, beat Wellsville 10 to 0 and were they mad?—Just ask John Lever about his new straw hat and Bill Lauterborn of his narrow escape.

Charles B. Lever suffered a slight shock of paralysis about noon Tuesday as he was leaving his hay field on his farm two miles east of Andover. It is thought he will recover.

A new son arrived at Wm. Hammell's Thursday morning.

Mrs. Rose Fox has moved to the M. Dean residence corner of Center and Church street.

The death of Mrs. Cecelia Doran Lynch, aged 80 years, wife of the late Martin Lynch occurred Sunday morning from the effects of burns received by her clothing catching fire. Mrs. Lynch lived with her son M. J. Lynch on their farm three miles northeast of Andover. Funeral services were conducted at the Blessed Sacrament church Wednesday morning. Burial was in St. John's cemetery.

Gasoline Sales Regulations For This Area

Curtailed Hours Continue. No Station Can Sell Gas More Than Twelve Hours Daily.

A service station may be open for the sale of motor fuel not more than 12 hours in any one day nor more than 72 hours in any one week and each service station shall post prominently in a conspicuous place a notice of the hours during which motor fuel will be delivered at such a service station.

The hours selected and posted shall remain in effect at least seven consecutive days and shall not be changed during that period.

However, a service station may remain open to render other services longer than the hours specified but the pumps must not be open for the sale of motor fuel to any and all purchasers.

Outside of the regular schedule of hours posted, the service station operator may open his pumps to make deliveries to those who come within the list of preferential uses.

Included in the preferential users are ambulances, doctors, nurses, veterinarians and those engaged in civilian defense activities while the area is under martial law, enemy attack or immediate threat of enemy attack.

Gas may also be delivered at any time to cars owned by the Federal, State or local government.

Also on the preferential list are taxicabs, commercial, industrial and agricultural machinery and school buses.

Republican Caucus

The enrolled Republican electors of the Town of Andover will meet in Caucus Wednesday evening, August 12, 1942 at 8 o'clock at the Village Hall for the purpose of nominating a Justice of the Peace and Assessor, and the transaction of such other business as may properly come before the meeting.

By order of

32 TOWN COMMITTEE.

Motorists To Use Same Plates Next Year

New York, July 29.—Take care of that license plate, Mr. Motorist. If you still plan to drive, you're going to use it all next year, according to an announcement made today by State Commissioner of Motor Vehicles John Splain.

"The War Production Board has limited the amount of metal which may be used for the next registration period to ten per cent of that used in 1941," Commissioner Splain declared. "In the interests of economy and to save steel for the war effort, the Bureau of Motor Vehicles will not issue any new registration plates for 1943."

Your old plate, however, according to the commissioner, will be slightly refurbished. The Bureau will issue metal strips, ten inches by one and five-eighth inches, reading "NY—43". These must be affixed to the top of the present plate.

Commenting on the almost universal preference for the use of steel for registration plates, Commissioner Splain said:

"Some time ago, when it was made known that steel would be difficult to obtain for registration plate purposes, the Bureau of Motor Vehicles tested several substitutes. Most of these proved unsatisfactory and the cost of those meeting the necessary requirements was prohibitive.

"After the tests were concluded it was decided that use of the remaining 1942 license plate with a tab attached for 1943, was the most feasible solution of the problem. This can be done with a minimum of inconvenience to the public."

The companion plates of those issued in 1942 will be issued in 1944.

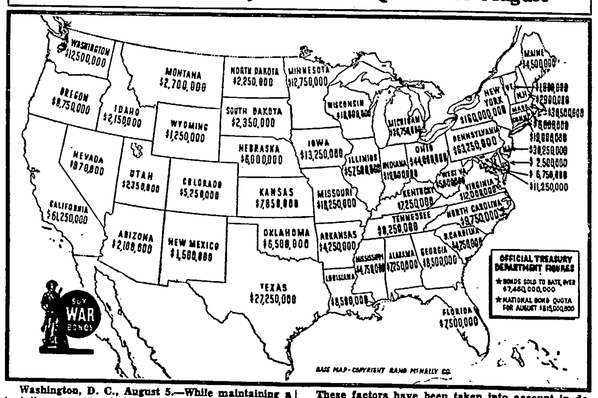
Official U. S. Treasury War Bond Quotas for August



Washington, D. C., August 5.—While maintaining a tentative annual level of twelve billion dollars as its goal, the Treasury Department today fixed the August quota for the sale of War Bonds at $815,000,000 as shown by the accompanying map by states.

In lowering the quota from a billion dollars in July to $815,000,000 in August, the Treasury has given recognition to certain factors which may be expected to result in variations in sales over the 12-month period, such as the seasonal character of farm income.

These factors have been taken into account in determining each state's share for the national quota for August and will be given consideration in fixing quotas for subsequent months.

In addition to the state quotas as set out in the map there is a federal payroll allotment quota of $9,750,000 and territorial quotas as follows: Alaska, $700,000; Canal Zone, $213,000; Hawaii, $4,800,000; Puerto Rico, $440,000 and the Virgin Islands, $17,000.

THE PAINT FUTURE

AS REGARDS

QUALITY and PRICE

IS VERY UNCERTAIN

Perhaps you have been thinking that you will put off that paint job for another year. We would not recommend doing so for

Paints manufactured prior to the war and up to the present time are superior in quality to any Paints that will be manufactured for the duration.

We would suggest a coat of Moore's Primer for the first coat, and then a coat of Moore's Regular House Paint, and that will produce a finish that will last for years, if applied under favorable weather conditions.

Benjamin Moore's Paints spread easily, seal perfectly and give complete protection with a beauty and durability that is unsurpassed.

Let us estimate your next job at once, while our present stock is complete.

Arling R. Baker - Andover, N. Y.

WANDERING WITH WILLIE

SOME time ago while wandering around quite a ways from home we happened to drop into a restaurant (to buy some gum) and we saw what we thought was as neat an idea as any for the "boys" who are in the service.

Well, to simmer things down we kind of nosed about the place and bought another package of gum while we were talking to some of the natives of that town.

On the bar, pardon us, counter, sat a large bottle (practically an urn) with a large opening in the top and a sign on it "For our boys who are away." This large bottle which would hold probably a gallon was more than half full of pennies that were put into it from change handed back to other folks who had purchased (gum). When the proprietor thought he had enough pennies in the "pot" he took 'em out and counted them. Then various things those "boys" like were purchased from the proceeds and a drawing took place, using each of the boys' names until the items purchased were exhausted. These boys were each sent a gift or cigarettes, candy, etc., and their name was then laid to one side to give another lucky soldier a break at the next drawing.

We would like to see a few of these jugs placed around Andover and the same procedure worked out. There could be no cheaper way or no fairer one of showing how much we appreciate what these fellows are doing.

WHILE we're talking about soldiers we are very pleased, yea, mightily pleased, that some of the boys get a kick out of what they find in the nibblings of this column. We have heard some remarks that some of the fellows liked it, but by the old "grapevine" comes the word that Pvt. Howard (Flash) Gath got more kick out of our little squib regarding that certain Victory Garden (there we go again) than he did when he was inducted.

(We promise not to mention anything more about that garden, G.S. and leave it strictly a dead issue.)

But getting back to soldiers, we would like to hear from any of you fellows that can think of anything that will improve Andover, stop the war, sell more Bonds, etc., that will be printable.

TO THOSE who are talking regarding the high cost of living we meekly hand this little summary on how to live on $15 per week. And figures don't lie so we've heard:

Whiskey and beer	$8.80
Wife's beer	1.65
Meat, fish and groceries	(on credit)
Rent	(next week)
Mid-week whiskey	1.50
Coal	(borrow neighbor's)
Life insurance on wife	.50
Cigars	.20
Movies	.50
Pinochle Club	.50
Hot-tip on horses	.50
Dog food	.40
Slot machines and pin games	.70
Poker	1.40
Total	$16.65
This means going into debt—So cut out wife's beer	$1.65
Grand Total	$15.00

IT'S interesting (not funny) to see the difference between a fellow having a blow-out in 1942 and the way he used to act when the tire gave that certain sound.

In the "good old days" he simply got out with a lug wrench and jack, gave the tube a yank out of the casing and put the spare on, grunted and went on his way.

But now, things aren't like they used to be. When he hears that little 'bang" or hissing sound, he turns white and his eyes take on a glassy look. He stops as quick and as careful as possible, tenderly pulls that porous tube from its shell and sets right down on the road even forgetting his Sunday-go-to-meeting pants—and repairs that tire and tube right on the spot. And all the while he is wondering if he could get by the WPB, OPA, ODT, and a few other capital letters and swipe a chunk out of the top of one of his rubber boots to fix the hole where the wind came out.

Speeders to Face Stern Treatment

Allegany County War Transportation Committee call attention to a recent order issued by Gov. Lehman to State Police "to interpret and apply the 40 mile speed limit law literally." He asked the highway patrols for "redoubled vigilence, day and night" and for "thorough enforcement of the law."

The Governor's order is based on recognition of the fact that high speed driving wastes rubber, gasoline, oil and vehicle equipment essential to preservation of our transportation system. Don't be an unwitting saboteur of transportation. Take it easy. Keep under 40.

And there is still another bad situation that the careless driver may have to face. Allegany County Rationing Boards are co-operating closely with transportation officials and will give scant attention to application from non-essential and wasteful drivers when they are in need of recaps or new tires. Consequently, you may become one of the 20 automobiles that are being forced off the roads of New York State, each month because of worn out tires.

Do only necessary driving. Drive carefully. Double up where possible.
