Andover Presbyterian Church Resumes Services

After two months the Presbyterian church resumes services at 10:30 a. m., Sunday morning, Sept. 6, with special music by the choir and sermon by the Rev. Victor Detty of Wysox, Pa.

During these two months extensive repairs have been done to the interior of the church and are now completed. The walls in the church auditorium were cleaned of the old plaster, which was loosened by the cyclone in 1920 and since made worse by each hard wind, and replastered. The finishing coat is done in light buff. This work was done by Elmer Ludden.

The refinishing of the woodwork was done by Arthur Jones who also did this work several times before, the first being about 58 years ago, when the present ceiling was put on.

The Presbyterian church was organized July 14, 1824 and after the first building burned in 1866 the present church structure was built and dedicated Jan. 23, 1868.

The public is cordially invited to take part in the services Sunday morning at 10:30 and help rededicate this church to the service of the community.

arm is still pretty sore but I feel good.

I have to report for evening drill in a few minutes, so must close now. All I can say is that wherever you go Navy life will be just about what you make it.

I really like it a lot. Most of this outfit are a pretty tough lot but darned nice fellows. The gunner's school is real interesting; so far I have worked on guns to and including the four-inch deck gun.

We will probably be moving on to an advanced training base in a week so won't get to see you, but will try to keep in contact with you some way or other.

So long and good luck. Yours,

WANDERING WITH WILLIE

WE received the following letter from our old friend "Mike" Gath, who was taken smack-dab from the local softball captaincy recently and given the old 1-2-3-4 punch that Uncle Sammy hands out to the boys in the lines. "Mike" is the first son-of-a-gun who has shown us the least bit of respect for our intelligence and we believe we like him a bit more than our "only friends" Cabe and Flash. But time will tell. Even he may get bit by one of those blue-vitroil mosquitoes that got the other boys.

We believe, "Mike" that when you speak of Mr. Schwarzenbach you mean "Bucky", one of the ex-captains of our softball quartette, don't you? Well, Ralph, like the rest of us, got tired going up to the diamond and walking around in the evenings alone, so now we both stay home (we do at least).

Seriously, tho "Pride and Joy of the Infantry" if we can garner any dope that can make you fellows break out into a grin or smirk then we feel that we have gone a long ways. We like to hear from all of you (nice letters of course) and will endeavor to answer them.

P. S.: We're still all a-twitter over that last outburst of Cabe's. Gosh he loves us right to death).

Here's "Mike's" missive:

Fort George G. Meade, Md.
Sunday A. M.

Dear Willie:

Well, Willie, I and several other boys in the baracks have followed your column very closely and we, too, would like to offer a few opinions of you and also a little of the life we are leading down here in Ft. Meade, Maryland. You know, Willie, I had an idea you were a pretty nice guy and well liked by all, but after reading those letters from "Cabe" and my brother, I see that I didn't know you very well. I still can't believe you as bad as they say and have hopes that you will prove they have you all wrong.

Life down here is no picnic Willie, and altho they class you as a man back in Shovel Hollow you would never stand it down here. I am even having a little difficulty and will write of an experience to tell you why.

This experience concerned a week's camping trip about ten miles from camp. Now I suppose Willie you think they loaded us in trucks and we rode out there. That's just one of your faults, you're always thinking of the easiest way. There's only two ways to do anything down here—the right way and the Army way. I'll let you guess which way we use.

Well, early Monday morning they lined us up and marched us out there by the numbers, one-two-three-four. They figured that was too easy so we had to carry our full field-packs which weigh about 50 pounds. I know you can lift 50 pounds, Willie, but can you carry it ten miles. Don't kid yourself, you can't. Well, we all got there all right, outside of a few blisters and some very tired backs. Then we got all set up and ready to go to sleep. Again Mother Nature thought we were having it too easy so she let go with a downpour like you had a short while ago. From then on all we could do was hang on anything that came our way. From that moment on we were wet ducks the rest of the week. I won't tell you how many times the tent blew down. I'll leave that up to your imagination. Well, we lived thru the week right up to Friday night. Then they waited until it was pitch dark and marched us about five miles away into the woods. Then they stuck a compass in our hands and told us to get back to camp. To be perfectly truthful Willie, I used my nose instead of the compass—I could smell that coffee they were cooking for us. They would probably still be looking for you.

After several hours of hunting we all got back to camp without any casualties. Even tho you are shaking all over by now, for fear you will land down here, wait until I am finished. Well, we still had to get back to our main camp, so early Saturday morning they got us up and we were ready to move at 7 o'clock. Well, the officers in charge decided it was too cool, so they waited until 10 o'clock when the sun was really beating down. And there we were standing with those packs on for three hours.

After we had gone about five miles several of the boys decided to drop out and catch a ride on one of the several trucks going by. Again that was too easy, so every one of us had to make it on foot. And on top of that, Willie, after we got back here we had to get ready for inspection. What do you think of the Infantry now Willie? My advice to you is to enlist in the home guard. It takes a man to stand this life.

I suppose you have heard enough by this time so will save the rest until I see you. If you see Ralph Schwarzenbach, tell him a tank would look pretty nice to me right now.

I hope all these letters aren't getting you down, and you will continue to print your column. It goes over big down here with all the boys—I hear the Y. M. P. C. has been discontinued since it lost one of its biggest suckers.

Well, Willie, it's about time for the chow whistle to blow and you know how well I like to eat so will sign off for now, and remember we will be looking forward to reading your column from week to week, so keep it up.

"Pride and Joy of the Infantry"
Walter "Mike" Gath.

(Another P. S.: The Y. M. P. C. is still struggling "Mike" altho it's a bit short-handed.)

LIKE everything else, a few can raise the dickens with anything. And it is the same with the Observation Post here. During the past week there were at least four violations in this National Defense setup.

Just how loud would you say fellows howl if you were left up the post just because some other gent was "too tired" to bother? You would probably head right for F. R. direct with all your troubles.

You know when a thing starts like that, it gains fast until some branch of authority steps in to put those few in their places—and that just what will happen in this case.

People who think that Observation Posts are a lot of hooey are just kidding themselves. You wouldn't feel half so safe if you knew that all the Posts along the coast and to the north of us were not manned properly, to warn us of approaching enemy planes. And we are just as vital to the cities and industrial plants to the north and west as south of us as these posts are to us. If you think you're man enough to put your name down for post duty for Pete's sake be man enough to fill the job. After all, the other fellow has finished his shift when you are supposed to report in.

AND then there was the little girl who had been playing in the water recently with some other children. Her mother asked if she were playing with little boys or girls. She replied: "I don't know mother, they didn't have any clothes on."

JUNK needed for War

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example.

Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually *refined* steel—with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone *up, up,* UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

First—collect all of your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

One old disc will provide scrap steel needed for 210 semi-automatic light carbines.

One old plow will help make one hundred 75-mm. armor-piercing projectiles.

One useless old tire provides as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

MATERIALS NEEDED

Scrap iron and steel.

Other metals of all kinds.

Old rubber.

Rags, Manila rope, burlap bags.

Waste Cooking Fats—When you get a pound or more, strain into a large tin can and sell to your meat dealer.

NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans—wanted only in certain areas, as announced locally. **NOT NEEDED** (at this time): Razor blades—glass.

"Old Timers" vs. Town Team Series Opens

The first game in a series of three games was played Sunday on the Andover athletic field between the "Old Timers" baseball team and the Andover Octagon League baseball team. The game was an exciting and boisterous affair with many spills and thrills thruout. The "old boys" proved that they could still hit as good as the next one.

For the "Old Timers" Charles Ruger opened on the mound for the first three innings, followed by "Dod" Lehman for the next three with Howard McAndrew finishing the game.

"Swig" Lehman and Rifenberg pitched for the town team.

The second game of the series will be played this Sunday, Sept. 6.

Other numbers on the program included a vocal duet by Jane and Phyllis Burdick and a talk by Dr. E. F. Tiffany of New York on "The War With the Underworld."

Clark Family Reunion

The Clark family reunion was held Sunday, August 30 at the home of Mr. and Mrs. Henry Livermore in Andover. About 40 relatives were present. After a bountiful dinner the following officers were elected:

President, Will Clark of Whitesville; vice president, George Baker, Andover; secretary and treasurer, Doris Baker of Andover; historian, Rebea Dare of Wellsville; chairman of program committee, Allen Corwin, Wellsville; arrangement committee, Lawrence Corwin, Andover and S. F. Pelton, Wellsville.

After the business meeting, a fine program under the direction of Allen Corwin was enjoyed by all. Mr. Corwin furnished his public address system and Raymond Dare, acting as toastmaster, called for impromptu speeches from the group. Several new records of war songs were also enjoyed.

It was voted to hold the reunion next year at the home of Mr. and Mrs. Livermore.

Northern Allegany May Lose Gas Service

The Cabot Gas Corporation has made application to abandon the 75 mile, 14-inch pipe line which that company recently laid from the Pennsylvania gas fields to Rochester, and from which the towns of Fillmore, Hume and Rossburg get their gas supply.

Depleted gas reserves in the Pennsylvania field is given by the company for the proposed action. The pipe line was originally laid to supply large Rochester interests with gas, but since all of the Rochester companies have returned to coal and the Cabot company maintains the position that the 75 miles of pipe could be used to more advantage elsewhere.

The Godfrey L. Cabot Co. has also asked permission to cease supplying natural gas at points in Angelica and Belmont and to the Empire Gas & Fuel Co. in Allegany county.

22nd Cuba Lake Health Camp Season Closes

The last of the 215 children cared for at the Allegany County Children's Health Camp at Cuba Lake during the past eight weeks returned to their homes last Thursday, August 27. Their departure brought to a close the 22nd annual season at the camp owned and operated by the Allegany Health and Tuberculosis Association.

Thruout the months of July and August undernourished and underprivileged children from 24 towns in Allegany county were given an opportunity to improve their health habits, physical condition and social outlook. Campers this summer showed remarkable increases in weight and improvement in physical condition.

A program incorporating regular rest, balanced meals, training in personal and health habits, creative recreation and personality development has been supervised by Miss Catherine M. Codispoti, camp director, and a staff of 15 members. Each child is encouraged to develop innate abilities, assume responsibility and improve his standard of personal living.

"Thru the efforts of the camp committee and interested Allegany county citizens, every one of the children who attended the camp this summer has left better prepared, both mentally and physically to live in America at war," stated Miss Codispoti.

Miss Nancy Jane Snyder of Andover was recreational director at the camp this summer.
