News Briefs About Local Boys In U. S. Service

on the different poison gases used in warfare. Today saw a movie of the reason why we are fighting this war right from the beginning of the Japanese aggression in China. Also had a shot in the arm, which makes four. Have four or five more I believe.

I like that rifle, it is the new Garand automatic. It's a swell little gun and would like to take it home with me to hunt deer with.

Have had quite a bit of drilling and am getting it down pretty good. Maybe they'll make a soldier out of me after all. It certainly is a circus to see some of the fellows try to keep in step. When told to skip to catch up they go thru the queerest antics. Sometimes I think I'll die laughing.

Well I guess I've told everything of importance. Love,
(Yard Bird) Baker
