Notice of Examination For United States Military Academy

I wish to announce that competitive examinations will be held at Jamestown, Olean and Dunkirk, New York, on Saturday July 28, 1945, to filll two vacancies at the Military Academy in 1946.

The examinations will be open to all young men who are residents of our Congressional District and who will be not less than 17 nor more than 21 years years of age on the date of entrance to the Academy.

Following the custom in our district, the appointments will be given to the young men who make the highest grades in the examinations.

Those desiring to take the competitive examination should notify me by June 15, 1945, giving name, address and birth date, in order that I may submit this information by June 23, 1945, to the Civil Service Commission, who is conducting the examination for me this year.

Because of the exacting physical requirements for appointment to the United States Military Academy, it is advisable that candidates nominated for these examinations appear before a qualified physician and undergo a thorough physical examination, as such action may eliminate the possibility of candidates being nominated and passing the written examination only to be rejected by the medical officer of the War Department because of physical condition.

Our next vacancies at the Naval Academy will not occur until 1948.

Letters and News About Those In Service

in three miles at present writing.

Well, I wonder what the Germans think of the "Master Race" now? If they want more they can get it and that goes for the Japs too. Half the news we hear is from the Japs and it's all lies, as lots of times we are sitting right off the coast of some place where they are telling about our armies being driven into the sea. But so far when we have taken a place, when the army came back it was on the opposite side of where they went in and they were not being rushed any either.

Well folks, take things easy and say hello to the gang.

As ever, "Jack"
