Fluid Milk Consumption Sets All-Time Record

New York, April 15.—Fluid milk consumption in the New York metropolitan milk marketing area reached an all-time high of 272,138,203 pounds in March to establish a record uniform price of $3.44 per hundredweight for the month's production. The previous peak in fluid consumption was 261,736,002 pounds in June 1945.

Dr. C. J. Blanford, New York Market administrator, announced the record-breaking figures today and said that milk utilized as light cream also reached the highest volume—50,946,530 pounds—for any month when heavy cream sales were banned by either federal or New York City restrictions. Likewise of interest is the fact that 15,885,868 pounds of milk were used last month in the manufacture of butter. That was the highest utilization of New York pooled milk for this commodity since August of 1945.

With the administrator's announcement, dairy farmers in the six-state milkshed are assured of at least $4.14 per hundredweight for the milk they produced in March. This is because minimum subsidy payments of 70 cents will be made by the federal government in addition to the uniform price. The total return per hundredweight in March 1945 was only $4.03.

Total income to be shared among the 47,271 producers whose deliveries formed the March pool will be $20,339,456.83. Dairy farmers delivered 483,694,955 pounds of milk to New York's approved plants last month at the rate of 330 pounds per day per dairy.

The March uniform price of $3.44 per hundredweight is for milk of 3.5 per cent butterfat content received at plants 201-210 miles from New York City. The butterfat differential for the month is 4.8 cents for each tenth of a pound of fat in excess of the 3.5 per cent requirement. The 70-cent subsidy rate is collectible by dairymen in New York, Vermont and Pennsylvania.

Western New York's 1946 Deer Season Extends Nov. 24-30

New York State's 1946 deer season will open October 20 in the Adirondacks, according to a bill signed Tuesday by Governor Dewey.

Only major changes from 1945 are Livingston, Niagara and Erie county seasons and a nine-day increase in the Putnam county season.

Seasons:

Adirondack and Northern New York counties, including Oswego, Washington and Herkimer and Oneida north of the New York Central main line, October 20 to November 20.

Catskill and Southern New York counties, including Herkimer south of the New York Central tracks, Albany south and west of the New York Power and Light Transmission line and Putnam west of the Carmel-Croton falls highway and Route 52, November 15 to November 30.

All other counties in Central and Western New York, including Niagara, except the vicinity of the City of Niagara Falls, Monroe, except the vicinity of Rochester, and Erie, except the vicinity of Buffalo, November 24 to November 30.

Women Need License To Angle In New York State Jan. 1.

Women residents of New York State, beginning January 1, 1947, will have to have a license to fish, as result of a bill passed by the Assembly recently. Last year the Legislature decided the fair sex needed no license. No mention was made of children under 16 years of age who now may angle cost free, sans a license.

Navy Announces New Pilot Course

The Navy Department has announced a new V-5 Aviation Training Program and for which applications are desired immediately.

Advantages of the new V-5 program are: an education worth $27,000 at government expense; the finest of aviation training; an opportunity to become a commissioned officer pilot in the Navy and a college education.

Age limits for V-5 are 17 through 23 years; height-minimum 5'6", maximum 6'4"; vision each eye 20|20 uncorrected. Normal color perception, and minimum of 20 teeth (all cavities filled.)

Pointing out that a limited quota of applicants will be selected for college classes to start in September, interested applicants should visit or write to the Navy Recruiting Station, 522 Post Office Bldg. or any of its sub-stations located in Elmira, Rochester, Jamestown, Olean and Niagara Falls.

Mental standards are of necessity high and applicants must be capable of doing college work. It is desired but not required that applicants have a sholastic standing in the upper half of their graduating class. Said he, "of utmost importance, candidates for this new V-5 program should be strongly motivated to fly."
