Uncle Sam Says

There is something about Niagara Falls which symbolizes a strong, happy future.

If we had been here a year ago, all our thoughts would have been about backing our fighting men. Americans bought as many war bonds as possible to help win the war. Today, your Government is still selling United States Savings Bonds. To you and every June bride and bridegroom I say with all my heart: Now Back Your Future.

Don't Waste Flour

Don't store flour in your home in large quantities. As flour grows old, it develops an off flavor. Unfortunately you cannot get rid of the flavor of old flour by sifting. The stale taste carries over to your biscuits, bread and gravies.

So rather than let the flour reach such a condition, use it without hesitation until it is gone. Don't try to hold it over the summer. Buy new flour sparingly, and plan to keep only a small supply on hand.

A Week to Remember

The week of July 15-22 has been set aside this year to focus attention on home canning and food preservation. In announcing the dates, Secretary Anderson said: "The immediate problem that faces a war-torn world is food. Food spells peace and democracy. It is the obligation of every American to conserve and to preserve this precious food. In this way we assure our own people of a better diet, as well as help the famine-stricken of the world."

Pork Picture

The pork picture for 1946 indicates that the trend in hog production is definitely downward. Predictions are that the combined fall and spring pig crops for this year will be about six per cent below that for 1945, and the smallest since 1940.

Pass the Peas

Green peas, fresh from New York State gardens, are now on the market, and for a nutritious vegetable, they're hard to beat.

Peas should be moved quickly from the vines to the kitchen. Soon after the peas have been picked, the sugar in them turns to starch. As the sugar goes, so goes the garden-fresh flavor. If necessary to hold peas for some time before using them, leave them in the pod and keep them in the refrigerator.

Lettuce Season in Full Swing

Hot weather, a large lettuce crop, and liberal supplies in most New York State markets mean that now is a good time to use home-grown lettuce.

Appearance is the best indication of quality in lettuce. Head lettuce should be firm and heavy for its size, and Romaine lettuce—the elongated head with a coarser leaf and stronger flavor—not so firm. A rusty tinge on the root or heart of the head indicates ages and lack of freshness.

Clean and store lettuce soon after it is purchased. Remove any discolored outer leaves, wash the head carefully, and store it in a covered container, or wrapped in a damp cloth, in the refrigerator. Head lettuce keeps better than do the leaf types, altho neither one can be kept for long.

Fraunces Tavern is one of New York City's treasured landmarks. It was here, in the Long Room, where General Washington bade farwell to his officers on December 4, 1783.
